## TWO WERE KILLED AND MANY INJURED

Engine and Five Cars of Passenger Train Leave Track.

### THE DISASTER CAME SUDDENLY.

Engine Plows into Mountainside and Huge Cars Are Tossed in a Tangled Heap—Fire, Rapidly Spreading, Completes Total Wreckage—Engineer and Fireman Killed at Their Posts.

Glencoe, Pa. (Special).—Baltimore and Ohio Railroad passenger train No. 6, drawn by engine 888, was wrecked while rounding a curve about one and one-half miles east of here. The engine and train were entirely destroyed by fire, leaving only the trucks and iron parts.

The engineer and fireman of the train were killed and 21 injured. A special train was hurried to the scene of the wreck, with Drs. Bace, Wiley, Spear, Claybrook and Twigg on board, and upon arrival it was found that Dr. G. B. Haggard, of Massillon, Ohio, and Dr. V. T. McGillicuddy, of Los Angeles, Cal., who were on the wrecked train, had ministered as far as possible to the wants of the injured. Seven men whose injuries were most severe were brought to the hospital here and are doing well. A number were taken to Myersdale, Pa.

Just what caused the wreck is not known. The train was coming down a steep grade at a lively rate when the engine suddenly left the track and buried itself in the mountain side, almost completely clearing the tracks and flattening itself against the mountain. The front of the engine, including the cylinders and side rods, were completely driven into the mountain. The mail car struck the engine tank and swung around beside the engine, while other cars of the train, consisting of a baggage car, smoker, day coach and two Pullmans, jumped the track and ran on the ties the full length of the train beyond the engine.

The engine and postal car immediately caught fire, the gas lights in the latter car causing the blaze, and the flames being communicated from there to the rear Pullman, spread through to the baggage car, the entire wreck burning like tinder. All the cars were more or less wrecked by the sudden stop, the chairs in the Pullman being torn from their places and thrown around the cars. The tracks were badly torn up.

Mail Clerk Partello states that there were about 80,000 pieces of mail in the mail car, and that the only thing saved was one registered letter and one registered parcel.

### FLYER IN A WRECK.

Four Persons Killed and Many Others Hurt—Freight Crew Blamed.

Chicago (Special).—Four persons were killed and twenty-nine injured, several of them probably fatally, in a collision on the Chicago Northwestern Railroad at Malta, Ills., sixty miles west of Chicago. The trains in collision were the Omaha Flyer, an eastbound passenger train, and an eastbound freight train. The wreck caught fire and two passenger coaches, one sleeping car and eight freight cars were burned, and another sleeping car was partly consumed.

The freight train had taken a siding at Malta, but the train was longer than the siding and the freight locomotive protruded upon the main track beyond the side track. The incoming train from the West was not stopped until the two locomotives "cornered" at the switch, the passenger engine being thrown into the ditch and several coaches piling upon the wreck. The cars caught fire from the locomotive.

A statement given out by officials of the railroad company explains that the switch at the east end of the siding was opened through mistake, and that the responsibility probably lies with some member of the crew of the freight train. This statement places the company's property loss at about \$30,000.

### GIANT OF THE NAVY.

Big Battleship Missouri Launched Into Her Own Element.

Newport News, Va. (Special).—About 15,000 enthusiastic spectators saw the battleship Missouri successfully launched here.

In the crowd were many distinguished persons, including Mrs. Theodore Roosevelt and her party, who witnessed the launching from the deck of the dispatch boat Dolphin. Secretary Long, Secretary Hitchcock, Rear-Admirals Bowles, O'Neill and Melville, Capt. S. C. Lemly, Governor Tyler, Senators, Congressmen, Army and Navy officers of rank and prominence, and scores of widely known business men, including the heads of great ship-building and other industrial plants.

The vessel was the heaviest that ever went down the ways at this yard. This great hulk moved slowly into the water, the trip down the ways occupying about one minute. It was an imposing spectacle, the extreme slowness of the trip making the sight all the more impressive.

### ALL VENEZUELA IN REVOLT.

Revolution Grows, While Germany Also Threatens—Castro in Ugly Position.

Willemstad Curacao, (By Cable).—Advices received here from Caracas, Venezuela, say that the revolution against President Castro is gaining ground daily. Nearly the whole of the republic is in revolt, and bands of men are scouring the country. Coro, in the State of Falcon, and Barquisimeto, in the State of Lara, particularly, are in the possession of the revolutionists.

Cable communication between Cumana, Carupano and Barcelona is interrupted and the government is without news from the State of Bermudez, in which these ports are located, which leads to the belief that it also has been induced to revolt by Gen. Domingo Monagas.

Gen. Luciano Mendoza, the president-elect of the State of Carabobo, who rebelled against President Castro, marched on La Victoria and was reported to have been defeated, has escaped from the pursuit of the Government troops and is now in the neighborhood of San Juan de los Moros. Antonio Fernandez and 30 chiefs of the State of Carabobo were not willing to engage the government forces before the revolution was quite ripe.

Venezuela is said to be on the verge of even more serious complications. The telegraph lines in the interior of the country have all been cut. Reports received here from Caracas say the relations between Germany and Venezuela become more strained every day. The Venezuelan government suspended traffic on the German railroad because, in view of the threats of the insurgents, the company refused to transport troops unless the government guaranteed it against losses which might be sustained by the destruction of its road and equipment.

The German Legation at Caracas has entered an energetic protest against the government's action in this connection.

### SUICIDE USED PISTOL AND AX.

A Wealthy Bachelor Determined to End His Life.

Norfolk, Va. (Special).—Sitting in a pool of blood, wounded by a pistol shot, cut on the head in 14 places by an ax, with throat also cut, but still living, William R. Cox, a wealthy bachelor, 62 years of age, was found in the smokehouse on the farm of his sister, Mrs. McAlpine, with whom he made his home, near Nimmo, in Princess Anne county. Mr. Cox left the house at 2 o'clock in the morning, and as he did not return, search was made for him about six hours later. He was found in the smokehouse by relatives, who located him by hearing his groans. He was conscious, and said that in trying to kill himself he had made a bad botch of the job. He said he did not want it to get into the newspapers because people would say he committed the act while on a "spree," while the truth was that he deliberately planned to commit suicide. It is said he was addicted to drink and that a schoolmistress in Southampton county recently withdrew her promise to marry him. He told no one, however, why he wanted to die, but said he wanted no medical aid.

### LACE CURTAINS.

Lace Curtains laundered to look like new by Mrs. R. H. Smoot, 517 Eighth street S. E.

### RHEUMATISM.

Physicians of large experience in rheumatism find it most difficult to cure, and if so, then what can you expect of cheap nostrums sent out by those ignorant alike of disease and medicine, parties who could not diagnose a case of rheumatism from lock-jaw; beware of such. If you want immediate relief and a quick cure, you will not be disappointed in "LeNard's Uric Acid Solvent," prepared only by Dr. L. S. Nicholson, specialist in Rheumatism, Mental and nervous diseases.

This prescription costs but \$1.00 a large bottle, and has cured over 200 in Washington, including, Captain A. M. Austin, Police Headquarters; Emory D. Lothrop, Boston House; Dr. H. Bullen, etc. The doctor's office is 604 12th st. N. W., where consultation and examination is free from 9 to 12 A. M. and 3 to 8 P. M. Cut this out for future reference.

### THE MUSCLE BEATERS

Will answer as a suitable present to chronic invalids, who can then relieve their own sufferings. Obesity, Flatulency, Dropsy, Constipation, Lumbago, Rheumatism, Gout, Varicose Veins and Insomnia have been cured by using the Muscle Beaters. Get them with instructions from the inventor, Dr. John E. Ruebsam, 20 Third St. N. E.

### AERATED DISTILLED WATER.

Recommended by the Medical Profession, is absolutely pure and free from all contamination, as well as all mineral matter; is deliciously soft, clear, odorless and tasteless, is invaluable in the sick room, and as a table water it cannot be excelled. Good for Gout, Rheumatism, Dyspepsia, Malaria, Kidney, Bladder and all intestinal organs. Sold for 10 cents per gallon and delivered in city by M. L.
