Pledged to neither Sect nor Party. But established for the benefit of all.

WEDNESDAY, NOV. 28, 1888.

THIS DAY'S DOINGS.

MORNING. Reception, Iolani Palace, at 10. Meeting Stock Exchange, at 11. EVENING. Oahu Lodge, No. 1 K. of P. 7:30. Bethel Prayer Meeting, at 7:30. Fort St. Church, Prayer Meeting at 7:30. St. Andrew's Cathedral, usual services, 7:30.

TO-DAY

Is the fortieth celebration of Hawaiian Independence. The Kingdom has, undoubtedly, made vast strides in civilization and progress within the last forty years, but the continuance of its prosperity is problematical, as it depends mainly upon a further ratification of the treaty with the United States. In commercial circles there are very grave and serious doubts whether the treaty will be continued as before, on account of many recent ill-conceived measures of His Majesty's chief adviser. This day should be celebrated, by Hawaiians, with as much élat as the Fourth of July is celebrated by Americans. Salutes will be fired at morning noon and night; the Hawaiian army will indulge, in the morning, in target practise; His Majesty will hold a reception, and some of the business houses will close in the afternoon.

SUPPOSED STARVATION.

Dr. Trouseau and Dr. Arming, having been requested by Mr. H. W. Schmidt to examine the German baby, belonging to the woman Richter and said to have been starved, report as follows:

The child, which is seven and a half weeks old, is now under good care. It appeared to be suffering from congenital weakness and a sickly constitution, and was possibly prematurely born. It has symptoms of pneumonia in the right lung. The doctors ordered the child to be fed on condensed milk mixed with boiled water.

Inquiring into the family of the mother, they found that her second child died when seven weeks old of inflammation of the brain. Her next child is five years old and rickety. Another child, two and a half years old, is weak and sickly, suffering in a high degree from rickets, and unable to walk.

The mother states that when her last child was born, it appeared strong and healthy; not being able to get cow's milk she fed it on condensed milk and camomile tea. For one or two days only was there a lack of the proper quantity. There was no look of deprivation or worn faces on the mother or the other women. A dozen other children and a baby, five weeks old, looked strong and healthy.

THE GERMAN LABORERS.

The case of the German laborers from Koloa plantation remains in statu quo. The German residents have, by undertaking to care for the women, practically admitted that they are in want and in need of assistance, and that the action of the Working Men's Union was a timely one. We admire the independent spirit of the Germans in wishing to bear all the burden on their own shoulders. It would have also been a wise move to have taken preliminary steps in requesting the Board of Immigration and the Inspector of Immigration, with whom more particularly, we believe, the duty lies, to enquire into the charges made against the Koloa plantation of allowing these women to starve. Such charges have been made, and, though we do not place much faith in them, they remain uncontradicted.

The laborers themselves cannot remain, sine die, in prison, neither can the women remain dependent upon the charity of their fellow countrymen. If, as was proposed at the meeting, they were bought off their contracts, then every German laborer in the country might refuse to work, come to Honolulu, and, with some show of justice, claim the same privilege. Would it end with the Germans? If the Portuguese and Chinese shipped laborers heard of the release of these Germans, would not they be tempted to strike, en masse, and demand that they should be bought off? What would be the consequence of such a movement? It is impossible to contemplate. That the Germans can do well, under the contract system, is proved by the fact that many of them save money and send it home to their relatives. They know what they are doing when they sign the contracts, and should, as others have done before them, complete the work which they have promised to do. The remark made by Hon. Paul Neumann, as regards many of them, is true, "they know their rights, but not their duties." The case, as it stands at present, is unsatisfactory to all parties concerned, and should be investigated by the Inspector of Immigration.

Y. M. C. A. BOWLING ALLEYS.

An account of the establishment of bowling alleys, in connection with the Y. M. C. A. institutions of America, was recently published in a Honolulu paper. The following extract, from the S. F. News Letter, shows that they are progressing satisfactorily in San Francisco: "We were thinking seriously this week of joining the Young Men's Christian Association, on account of the excellent bowling alley they have there, and while our application was being considered, we took a turn at the ten-pins, and won four dollars and a quarter from Brother Jones, and he went and told all the other fellows and squealed, and last night we were blackballed."

American Thanksgiving.

LEGATION OF THE UNITED STATES, HONOLULU, Nov. 24, 1888.

The President of the United States of America by proclamation having designated Thursday, the 29th instant, as a day of National Thanksgiving, with the recommendation that it be observed by the people of the Republic in returning thanks to the Great Giver for the continuance of His protection and great bounty to them:

Wherefore do I invite all American citizens sojourning on these Islands to make due observance of Thursday, the 29th instant, as a day of Thanksgiving and Praise, in harmony with the people of the United States; and to this end appropriate services will be offered at Fort Street Church, in Honolulu, at 11 o'clock of that day, and the doors will be open to all. Similar services will also be observed at St. Andrew's Cathedral on the same day and at the same hour, and a general invitation is extended to the public to participate therein.

JUST ARRIVED

Ex "Alameda"

HORSE SHOEING--par excellence.

Whitman & Wright

TO THE FRONT AGAIN

NO more contracted hoofs, fever in feet, lameness and sore shoulders, forging or overreaching, corns or quarter cracks. The Patent Spring Horse Shoe does the business.

Recommended by the California Society of Prevention of Cruelty to Animals.

This shoe is the invention of an old horseman of 40 years experience, and is manufactured in New York City from steel prepared expressly for this purpose, and carefully tempered to retain the elasticity of the spring as long as in use. As the name implies the general principle, is to act as an assistant, where elasticity is natural in the foot.

The toes of these shoes being made heavier than those of the common kind, act as a toe weight, giving a horse a greater length of stride and naturally increasing his speed. For working, or driving, horses used on hard or stony roads and troubled with lameness or sore shoulders, these shoes are an infallible cure, while for sound horses that may become liable to the same complaint they are a certain preventative. They are a protection to corns on horses feet as they relieve the part on which the corns are produced.

Give them but one trial and you will use no other. Satisfaction guaranteed.

We have lately secured the services of a thorough, experienced, and reliable horse shoer of San Francisco who has charge of this branch of our business and who we can most fully recommend to our patrons.

We refer, by permission, to Mr. H. F. Hebbard, Express and Drayman, who has given these shoes a thorough trial, having used a sample set for the past month.
