# Central Park Skating Rink AND Roller Coaster.

Corner Beretania & Punchbowl Sts.

A FIRST-CLASS place of amusement in a first-class locality. Nothing of an objectionable nature allowed on the premises. Open every afternoon in the week and every night, Wednesday excepted.

Tuesday and Friday afternoons and nights, Ladies and their escorts and children that accompany them are admitted. The hoodlum element strictly excluded. As these afternoons and nights are specially designed for Ladies, the proprietor will use every exertion to have them instructed and accompanied on the floor where they desire it.

The Rink Skates for both Ladies and Gentlemen are without rubber springs. Beginners can learn on this skate in half the time it requires on an absolute rubber spring.

The oil well on this Skate being under the skate, does not soil the dress, and one oiling is sufficient for an afternoon or evening's skating. Beginners only have to guard forward and backwards on their skates, while the rubber bends sideways, straining the ankles, necessitating guarding backwards, forwards, and sideways.

Prices reasonable for a first-class Rink. Admission, 25 cents for adults and children over five years of age; use of Rink Skates, 15 cents; private skates, no charge. Afternoons only, admission charged, skates free. Skaters can save money by purchasing commutation ticket good for ten admissions, with Rink Skates, \$3.50, or 35 cents for admission and skates.

Skaters can leave their skates in Skate Room (at their own risk) where they will be kept to their order, cleaned, repaired, etc., free of charge. This Rink will be under the supervision of the proprietor at all times. Any instigation of employees should be reported to the Proprietor. 982

DEAR SIR,  
It is with great pleasure that I add my testimony to the Fire-Proof qualities of your Safes.

I had a small single door Macneale & Urban Safe in last night's terrible fire, and, on opening the same this morning, found its contents—consisting of books, papers, and money to the amount of \$1040—IN PERFECT CONDITION.

I am so well satisfied with the result that I want another No. 3 Safe at once.
