LOCAL & GENERAL NEWS.

Mr. Hopper is making over 3,000 feet of flume for W. G. Irwin & Co.

The annual meeting of the Planters' Labor & Supply Co. will open on Saturday, Oct. 10th.

A new picture of the burning lake Halemauani can be seen in the office of Wilder's S. S. Co.

The firemen's monument will not be finished for about four months. The material has not yet arrived.

Mr. A. F. Cooke and others residing on King street, in the neighborhood of Kawaiaho Church, complain of milk thieves.

A meeting of the trustees of the Bethel Union Church will be held tomorrow afternoon at the office of the Hon. H. M. Whitney.

The Honolulu Stone Co. have completed their third burning of lime. The lime when slaked takes a clear, smooth and pure white form.

The examinations for sergeants and corporals and the regular weekly drill of the Honolulu Rifles take place this evening at their Armory.

The Hawaii baseball club has been challenged by the Married Men's club to play a match game after the present series of games have been played.

The crane constructed to put in the Likelike boiler was lowered this morning by Messrs. Sorenson & Lyle. It was an awkward thing to handle.

There is considerable stir in sugar circles over the difficulty of seeing eye to eye, existing between Mr. Spreckels and the planters, regarding the coming crop of sugar.

A. W. Pierce & Co.'s dray horse kicked his last kick this morning. He died of a bowel complaint and old age. He was about 25 years old. Mr. Pierce had him for 13 years.

To-morrow at two o'clock will be held the adjourned meeting of the Trustees of the Planters' Labor & Supply Co., to consider the Board of Immigration's circular on contract labor.

Mr. Arthur Brown will lecture at the Y. M. C. A. Hall on Friday evening, on "The Great-Yellowstone Region." Tickets 50 cents (Y. M. C. A. boys 25 cents) may be had of the Committee or at the Hall.

CHIN HOP, a Chinaman, and Sam Puaalon, were committed for trial yesterday, by Judge McCully, to the Second Judicial Court, for obstructing John Wagner, Port Surveyor at Kahului, in the discharge of his duty.

Mr. W. E. Herrick has very neatly repaired several kou calabashes for purchasers at the sale of the late Mrs. Bishop's effects. The cracks and fractures have been rendered almost invisible by means of inlaid pieces.

Mr. J. B. Gaylord, agent for Fryer's Circus, has gone to Waialua to make arrangements for performances there. It is worth mentioning that Mr. Gaylord was the agent who procured Barnum's famous white elephant in India.

It is no joke that a shark is hovering about the popular bathing ground at Kakaako. One of the most enthusiastic members of the swimming club has declared his sport off, at that place, on account of credible information of the shark's presence.

A MAN employed at the Woodlawn Dairy was sent to town in a buggy a few days ago on business. He got on a spree and did not return to the ranch. Another dairyman has been looking for the horse and buggy day and night, in every imaginable place, so far, but the right one.

In the Supreme Court this morning before His Honor Judge McCully a distribution of the estate of Petero Wahakane was made. One-half of the entire estate goes to Moke, husband of the deceased's sister, the remaining half to other relatives. To-morrow hearing will be had in the estate of M. P. Chamberlain and hearing of the administrators of the estate of Mrs. C. R. Bishop.

Dr. Geo. Martin intends opening a Chemical Laboratory in Honolulu, for the purpose of analyzing soils, sugars, fuels, mineral and vegetable substances of any kind. Householders should club together and see, for the fun of it, what that brown liquid is that comes through the water reservoir service pipes. It might be petroleum, and if so there's millions in it for Honolulu. There's probably millions in it, anyway.

A PARTY of young men took a ride over the Pali Sunday on a visit to Waimanalo plantation. They relate a good deed done by two Portuguese who carried a sick countryman on their shoulders up the rugged and steep path of the Pali from Waimanalo side and brought him to Honolulu for medical treatment. They also report abundance of rain at Waimanalo and every indication of a large yield of sugar the coming season. The Portuguese mentioned above came from the Ahuimanu Ranch (Mr. H. Macfarlane's). He died at the Hospital yesterday from fever. The doctor says he was too sick to have been moved.

BUSINESS ITEMS.

PARTIES desirous of sending Bananas or other Island fruits to friends or relatives on the Coast, can have the same delivered at destination by paying cost and charges to Hy. Davis, manager C. P. & P. Co.

THE MEMORIAL OF GRANT.

The secretary of the Grant Memorial Committee has been requested to make public acknowledgment of the committee's thanks to all those who contributed in any way to make successful the memorial services held last Thursday in honor of the memory of the late U. S. Grant, and especially to the various speakers, to Mr. Yarnley as director, Mr. Jones as organist and the singers who assisted them, to Acting-Governor Cleghorn and Mr. Berger for the service of the band and to the ladies and gentlemen who so tastefully decorated the church. Copies of the several Honolulu papers containing accounts of the memorial services will be sent to the family of the distinguished dead.

QUEEN STREET EXTENSION.

After the return of Mr. Julius H. Smith, superintendent of public works, from Kauai, where he is attending to repairs of damages by the late gale, it is stated on good authority that he and Mr. Hart, road supervisor, will go over the proposed Queen street extension, to ascertain what is required to complete that work. At the last session of the Legislature \$3,000 was appropriated for that important street extension. Until that work is accomplished, it will be very difficult to make the thorough repairs required on King street. It is such a thronged thoroughfare that the operation of the steam roller upon it at present would interfere with too much traffic to be tolerable. Once Queen street was opened up, King street could be temporarily closed on the Waikiki end for repairs. At the same time the value of property along the shore would be greatly enhanced. The Mutual Telephone Co. has its wires strung along the line of the proposed extension.

HAWAIIAN RAMIE COMPANY.

The Planters' Monthly says the Hawaiian Ramie Company has applied to the Government for the bonus of \$10,000 voted by the Legislature to be paid to owners of a machine which will turn out a marketable ramie fibre. The Minister of the Interior has appointed Mr. Jona. Austin to inspect the machine and the product, and to report upon the propriety of granting the application. Mr. Austin has been present at several trials with the machine and has expressed himself as much pleased with its working and with the product.

The same periodical announces that a nursery has been started at Moanalua, where there is now about

an acre of ramie growing. From this and a lot procured at Kona, Hawaii, the Company are prepared to supply roots to the public, delivered in bags on the wharf at Honolulu, at the following rates: For 12,000 roots and upwards, \$4.25 a thousand; small lots, from \$7.50 to \$10 a thousand, according to quantity. 12,000 roots are sufficient to plant one acre.

Samples of the fibre produced have been sent to Eastern manufacturers of ramie goods, and the company has received an offer of five cents a pound for all the fibre they can make of the quality of the sample, with the proposition to enter into a five years' contract.

AN INCORRIGIBLE.

The man Emory, who completed a term of six months' imprisonment here in January last, for forgery, was immediately shipped to Hongkong on the barkentine William Phillips, Jan. 28th, by the American Consul. Word has been received here that he committed a similar crime there, to that for which he was punished here, and was fined for it. Capt. Potter, of the William Phillips, paid the fine and had the incorrigible shipped to Victoria, British Columbia. Emory's forgeries here were upon different persons. His father sent money here to pay his fine and make restitution to the defrauded parties. In Hongkong his game was a petty one, played upon a restaurant keeper.

EQUESCURRICULA.

Fryer's Circus played to a small half house last night, but gave the whole programme with as much spirit as if the seats were full. The band seemed to sound unusually well in the opening overture. It was conducted throughout the evening by Mr. Berger in person. Having given the leading points of merit of this show in former issues, it is not necessary to go over last night's performance in detail. Something not mentioned before, but worthy of notice, is the completeness of the accommodation for auditors. The reserved chairs are placed upon a solid terraced platform, and are scarcely second in comfort to the seats in the Music Hall. In the first part the superior acrobatic performances of Durand and Samwells evoked great admiration, and the display of "musical genius" by Len Shillito kept the audience in continual merriment. The second part belonged to the animals, the high degree of training they evinced provoking universal amazement. There was an abundance of fun in this part, too, the exhibition of the clown's pet horse Saplo compelling uproarious mirth. Two boys and a young man from the audience essayed, in "Circus Riding Exposed," to tempt the dangerous circuit of the ring. They cut a supremely ridiculous figure dangling half the time, in all sorts of attitudes, from the derrick, and clawing the air for a fresh hold on the horse. To-night prices will be reduced, and there will likely be a full tent.

IMPORTANT OPIUM SEIZURE.

This morning a seizure of opium was made at the office of Wells, Fargo & Co., in Geo. W. Macfarlane & Co.'s establishment, corner of Fort and Queen streets. For some time Mr. Hanks, the agent, has entertained suspicions regarding consignments of goods passing through his hands for Chinese merchants. He has instructions from the Collector-General of Customs to allow no such goods to go out of the office until they have been opened. Several packages with Chinese addresses came by the last trip of the Alameda. A Chinaman called immediately after the arrival of the steamer and asked for one of the packages. He objected, however, to having the box opened, because it belonged to a Chinaman on another island. Of course he could not get the package. The agent waited for further developments, but nothing occurred until this morning, when, nobody having in the meantime claimed the goods, he determined to make an inspection of them. Opening one of the boxes he found it full of opium tins. Mr. Hanks at once called in Col. Curtis P. Laukae, Collector-General, in whose presence the other packages were opened. The result was the discovery that the three boxes were filled with opium. They contained, respectively, five, twelve and sixteen tins of the drug, a total of 33 tins. The contraband goods were taken charge of by the Collector-General, and are now at the Custom House. Mr. Hanks had previously entered the goods by the invoice, as his practice is. One package was invoiced as printing cards, another as clocks and the third as cologne. It is not deemed prudent, at present, to give away the name of the man who had asked for the goods, as it is not known that he had an interest in them.

POLICE COURT.

TUESDAY, Aug. 18th.

Naihe, Kale, Peha, Nakai, Pua-naili and Keaiwi each forfeited \$6 bail for drunkenness. Kalaui and

Kaanaana pleaded guilty to the same charge and were each mulcted in a like amount.

Ah Man, Ah Soy, Ah Cheong and Ah Leong were brought up on remand from the 13th inst., charged with committing a common nuisance at Kailhi on the 12th inst., by burying a dead horse in or near a running stream. Several natives swore to the horse being buried right in the stream, which was used for drinking purposes, and also that the Chinamen had refused to remove the carcass, saying it was on their own land. Defendants on the other hand swore that they had cut the horse in four pieces, as it was too heavy to carry whole, and had moved the pieces away 100 feet from the stream and buried them four or five feet deep. They left nothing but some blood and perhaps hair at the stream, and those slight remains they covered with mud. They were further remanded until to-morrow.

Chas. Simmons was charged with aiding and abetting Hatch and Johnson, seamen, to desert from the bark Amy Turner. He was found guilty and fined \$20 with \$3.20 costs.

Chock Hoon, charged with gaming in Honolulu within four days previous to the 7th inst., and remanded several times, was again remanded until the 19th inst.

HUMORING CHILDREN.

It is good to humor them in all natural manifestations and cravings of their affections. A child, hungry-hearted for love, is one of the saddest sights in the world. Hardly less pitiful is the condition of a little one who is perpetually distressed and discouraged in the sweet impulses that prompt it to give expression to its love. That way danger lies. The boy or girl will not easily go wrong whose arm is entwined morning and night around mother's neck, or whose head is welcomed to its cuddling place on father's shoulder. It is on the side of their affection that children are most easily held and guided; the firmest rein is the invisible, golden cord of love. It is good to humor children in following their natural bent in all right, helpful directions. Remember that education is only the leading out of powers and faculties that are within. Encourage, therefore, such inclinations towards books, studies, mechanics, music, out-of-doors pursuits and sports as shall help most truly to develop your child. As education comes more to include the development of a natural aptitude, it will be more and more successful. It is good to humor your children in preserving their individuality, and in fostering a true respect. Teach them early the value of a dime and a dollar. If you can but give them five cents a week, tell them what it costs somebody in labor, and hold them strictly to their allowance. The philosophy of early training is to make the child father to the man—mother to the woman. The homely proverb, "As the twig is bent, the tree inclines," is not outgrown. It is as true now as in ancient times that if some twigs are permitted to grow as they incline there will be a crooked one.
