MINISTER OF INTERIOR'S REPORT.

The Minister of the Interior's report, with its appendices, presented to the Legislature at the beginning of this week, is a voluminous and valuable document—made voluminous by the variety and fullness of the information it contains, and valuable because of the important nature of its information. Water Supply for Honolulu, Sewerage, Government Surveys, Postal matters, Roads and Bridges, Public Improvements, Suppression of Diseases among Animals, and numerous other matters affecting the public, are fully treated of, showing what has been done and what is proposed to be done. Detailed tables of the expenditures in the various bureaus of the department are appended. This book is not only of value to members of the Legislature, but to every citizen who feels a proper interest in the country of his birth or adoption, both for present enlightenment and future reference.

A WONDERFUL DISCOVERY.

The discussions in the Legislature on disputed elections reveal a peculiar condition of thought and a remarkable course of action, which men not accustomed to regard right and wrong as questions of expediency are amazed at. It would appear that in one case electors were allowed to vote for a candidate for legislative honors in a district of which they were non-residents, and in another case electors were refused the right to vote for a candidate of similar aspirations because they were non-residents; and yet each candidate is declared to be legally and constitutionally elected to a seat in the house, and entitled to sit there until he wears a hole in the chair. Two and two no longer make four! What is right in one place is wrong in another! Wise men of ancient times held that what was one man's meat was another man's poison, and the wise men of our day and generation have discovered that what is legal in Kona is illegal at Kaaunapali? The country will next be called upon to perpetuate the memory of these men of mighty intellect to all time by the erection of marble statues—
A costly act—more grand than good—
To carve in stone what lives in wood!
In the meantime we hope to be pardoned the indulgence of a natural and Constitutional propensity to unmitigated contempt for every semblance of departure from justice, honor, and the conduct of gentlemen.

EXTENSION OF KUKUI STREET.

The petition of residents of Honolulu, presented to the Legislature by Hon. James Keau, for extending Kukui street to Liliha street, involves a reasonable request. Whether the money needed for that purpose can be spared from other more pressing public requirements is another matter. Of the utility and convenience to many residents and taxpayers and to the public generally of the proposed extension there is no question. Another street is also needed, running at right angles with the extension just now referred to, commencing near the Chinese Theatre, and connecting King and School streets. A large and populous tract of land is embraced by Nuuanu, Liliha, King and School streets, the inhabitants of which have no means of egress and ingress but narrow lanes, alleys and disputed rights-of-way. The opening of two new streets through this block at right angles with each other, the one being an extension of Kukui to Liliha street, and the other beginning near the Chinese Theatre on King street and ending near the residence of Mr. Stillman on School street, would not only be an incalculable boon to the present inhabitants of the locality and a benefit to the general public, but would tend to increase the population and en-

hance the taxable value of the property of the district, so that the expenditure involved in opening and making these new streets would probably return to the treasury in a reasonable time in the shape of additional revenue. This view of the case is entitled to consideration by the committee to whom the petition was referred.

THE LEGISLATURE.

THIRTY-NINTH DAY—CONTINUED.

THURSDAY, June 17th.

AFTERNOON SESSION.

Third reading of an act to amend chap. 11, laws of 1882, amending sec. 498, Civil Code, relating to taxation, educational and judicial districts. The bill was considered by paragraphs, amended in several places, and passed.

Third reading of an act to provide for inquests of fires. An amendment was made to add "canefield, land, or forest" to "house or building," as subjects of inquest in case of fire, and the bill passed.

Third reading of an act to add a new section to the Civil Code, to be entitled, "Section 128 A." to restrict the granting of licenses in Honolulu. The bill passed, the new section reading as follows: "Section 128 A.—The Minister of Interior shall refuse to grant licenses for any business whatsoever except in fireproof buildings, in that part of Honolulu east of Alakea street and north of Beretania street, if in his opinion or discretion the nature of such business or the location thereof might endanger the safety of the neighborhood from fire."

Third reading of an act to amend sec. 12, of chap. 51, laws of 1884, relating to the punishment for cruelty to animals. An amendment, to leave out the words making it optional for the justice to sentence to imprisonment "without" hard labor, was rejected, and the bill passed.

Rep. Thurston moved the house adjourn till 10 o'clock to-morrow.

Rep. Kalua moved in amendment to adjourn till Monday morning, saying the Public Lands Committee had a great deal of work to overtake.

The motion carried, the house adjourning at 4:25 till 10 o'clock to-morrow.

FORTIETH DAY.

FRIDAY, June 18th.

The Assembly was opened at 10 A. M., with prayer by the Chaplain. Present: Hon. J. S. Walker, President, in the chair; Ministers Gibson, Neumann and Gulick; Nobles Kuhlalani and Parker; Reps. Keau, Lilikalani, Baker, Kauli, Amara, Kaulia, Pahia, Kaunamano, Nahale, Nahinu, Kekoa, Kalua, Aholo, Kaukau, Dole, Kauli, Palohau, Kaulukou, Richardson and Kaai. The minutes of last meeting were read in both languages and confirmed.

COMMITTEES.

Rep. Aholo presented a report from the Finance Committee on a petition from one Kaillakuma, to be refunded \$20.25 for taxes paid twice on the same property. Committee finds that the petitioner had been taxed double for land in Hamakua, and recommend that the above amount be refunded. Report adopted.

Also, on a petition from one W. L. Haau, for pay for his services as election clerk, finding that the law allows \$5 a day and that the matter can be arranged in the Interior Department, therefore recommending that the petition be referred to the Minister of Interior. Adopted.

Also, a majority report on a petition from J. Haalo, for balance of appropriation for mail carrier on Oahu, 1886-88, amounting to \$160. The committee find that the Postmaster-General of that time had made a contract with petitioner for having the work done at \$4 a week, which had been paid him in full for the whole time he was employed. Therefore the majority recommend that the prayer of the petition be denied.

Rep. Keau presented a minority report, signed by himself, recommending that the petition be granted, both for the reasons given therein and because the Postmaster-General, when he heard that Haalo had petitioned the Assembly, immediately discharged him, and this was the ninth session he had petitioned the house in vain.

Rep. Nahale moved the adoption of the minority report, because of the petitioner's impotency.

Rep. Kalua moved the adoption of the majority report. Because the man is continually begging is no reason why he should be paid. Had the appropriation been made for him personally, his claim would be all right.

Rep. Castle said if this petition was granted on the ground of the petitioner's impotency, he should himself at once draw up a petition for money. He moved the previous question, which carried.

Rep. Keau spoke at length in uninterpreted Hawaiian in favor of his report, being called to order by Rep. Aholo for misquoting the majority report.

The majority report was adopted, 14 to 5.

Rep. Kalua presented a report from the Committee on Public Lands and Internal Improvements,

on a petition from Walluku, praying that water pipes be laid from Walluku to Kahului, and that a public building be erected at the latter place. The committee find that the people of both towns are anxious for a supply of pure water, and willing to pay for it; that Walluku is the second town in the Kingdom in the amount paid in taxes on personal and real estate; that the business of Kahului and the revenue it returns from foreign trade, have been increasing during the last six years, as shown by the Collector-General's report; and, for these and sanitary reasons, they recommend that the petition be laid on the table for favorable consideration with the Appropriation Bill.

Rep. Paehaole moved the adoption of the report.

Minister Gibson moved it be laid on the table for consideration with the Loan Act, which contemplated similar public improvements. (He afterward withdrew this amendment, as the adoption of the report would lay the petition on the table.)

The report was adopted.

Rep. Kalua presented a report from the same committee on petitions to increase the pay of the mail carrier from Lihue to Hanalei to \$7 a week; to establish a post office at Waipooa, and that the mail be opened at Kaunakakai; recommending that they be referred to the select committee previously appointed on the pay of mail carriers and postmasters. Adopted.

The same committee reported on all the other petitions and resolutions referred to them, asking for appropriations for public buildings and improvements throughout the islands, recommending that they be laid on the table for consideration with the Appropriation Bill.

Rep. Thurston moved, in amendment to a motion to adopt, that the report be returned to the committee, because it neither gave the house any information on the matters in question nor made any specific recommendations based on information.

Rep. Kekoa supported the position taken by the member for Molokai.

Rep. Kauli thought an investigation by the committee would not make much difference, as the matters would be deferred anyway until the Appropriation Bill came up.

Rep. Kalua thought the committee was right in leaving these matters for discussion by the whole house, when they could be ventilated more thoroughly than was possible before the committee, and the introducers of petitions would probably be better satisfied by the action of the house than by anything the committee could do in the particular cases.

Rep. Castle said the question having arisen, it might as well be discussed now as at any other time. Committees in a deliberative body such as this were intended to be the working members—the hands, feet and eyes. It was due to this practice of delegating details to committees that the legislative bodies of Great Britain and the United States held their sessions at late hours of the day. Every petition represented a grievance or a requirement that should be investigated, and committees were calculated to more conveniently and expeditiously perform this service than the whole body. He gave examples of the immense amount of work done by committees of the American Congress, contending that the houses themselves could never accomplish all that was done by that means. If the select committee to investigate the charges recently made against the Attorney-General of the United States, with relation to the Pan-Electric Telephone, had brought in a similar report to that submitted by the Committee of Public Lands this morning, the Senate would have speedily put it out of its month. This committee could probably be safely challenged for not having examined a single witness in any of these important matters submitted to them. The house must depend upon that committee for specific information when asked for money for public improvements. He held in his hand Cushing's manual of parliamentary practice, and supposed one-fourth or thereabouts of that work was taken up with instructions to committees. According to rule 82 of this Assembly, this book was their book. It was none of the committee's business whether there was money in the treasury sufficient for the improvements asked or not, but it was for them to ascertain if the public works in question were required. Therefore he supported the proposal to return the report to the committee.

Rep. Kaulukou was in favor of adopting the report. While the remarks of hon. members were all right, yet the committee could not make the investigations demanded of them, in most cases, without personally visiting the localities, or having civil engineers sent to report upon the matters for the committee's information.

The report was adopted.

Rep. Kaulukou moved the house take a recess till 1:30.

Rep. Brown moved that the house adjourn till 10 o'clock Monday morning.

The motion carried, the house taking a recess from 12:12 till 1:30
