THE ISLE OF ERIN.

The iron bark Isle of Erin, Jas. Inkster, master, arrived this morning, 144 days from Glasgow. She had fair weather to lat. 50° S. The most southerly point made during the voyage was lat. 57° 30'. She left Glasgow April 16th, and on May 19th crossed the Equator in the Atlantic in long. 23° W. When in lat. 14° N. Pacific, received the northeast trade winds, and carried them to port. The Isle of Erin is docked at the P. M. S. Co.'s wharf. She is consigned to Messrs. G. W. Macfarlane & Co., and has 850 tons of general merchandise for this port, and 475 tons of coal for Portland, Or.

HOW CURIOUS. Is Honolulu a curious place, or are the people of Honolulu curious? was asked this morning. Judging from two incidents that occurred this forenoon it is the people that must be curious. A horse belonging to a Chinaman, and hitched to a dray, laid down on King street, near Hall & Son's, this morning, and before the animal could regain his feet, a crowd of curious people gathered around. Persons employed in neighboring stores dropped their works, and ran out to see what was up. Five minutes afterwards, two Scotch terriers began fighting in front of Irwin & Co.'s, and of course everybody on that block had to stop and see the fight. Even an elderly gentleman who was riding along in his buggy halted to see the finish, while nearly all the clerks in that neighborhood rushed to the street. Things are usually so quite here, and the boys are so eager for a little amusement, that the least occurrence outside the general run, attracts their attention.

BRITISH POLITICS. London, August 27th.—In the House of Commons to-day Sexton challenged Lord Randolph Churchill to deny that land purchase formed part of the Government's scheme. [Cheers]. "Mr. Chamberlain," he continued, "was master of the useful art of suppressing any part of his case which did not serve his purpose, and such practice was not calculated to give the politician a permanent advantage in the eyes of English gentlemen. [Cheers]. The British Government being partly answerable for the wrong-doing of Irish landlords. Mr. Gladstone had made the landlords the most brilliant offer they ever had. When that offer was spurned and used to bring discredit upon the offer, there was no obligation in order to renew it. If there were any more talk about honor Mr. Gladstone could doubtless say as Lady Teasdale said to Charles Surface: 'Had we not better leave honor out of the question?' [Laughter]. Certainly, Mr. Gladstone would never make Mr. Chamberlain judge or custodian of his honor."

Mr. Sexton believed that the Liberals of the future would be a party to the plundering of Ireland. [Cheers]. Mr. Gladstone's Land Purchase scheme was secured by every penny of the public revenue of Ireland. This was a security of £2,000,000 yearly. True, the union would have resulted from an adoption of that policy, and no unnatural combination of intriguing politicians could long delay that union, but would give Ireland the character of a foreign country. Chamberlain, despite the condition of Ireland, was content to wait as long as the Government wished. If Chamberlain had lived in the of Nero he would have played second fiddle while Rome was burning. [Great laughter]. Sexton spoke for nearly two hours. Chamberlain entered the House shortly after Sexton commenced and remained until he had finished.—[Alta Californian.

THE MOSKWA PARTY AT THE HAWAIIAN HOTEL. The round of engagements arranged by J. W. Pfluger, Esq., Russian Vice-Consul, for the entertainment yesterday of Vice-Admiral Shestakoff and Lady Shestakoff, Prince Ferdinand Wittgenstein, Prince Alexander Proskowsky Galitzine, Capt. O. Radloff, and officers of the Russian ship Moskwa, terminated by a band concert at the Hawaiian Hotel last night. After the reception at the Palace by His Majesty, the party drove to Princess Liliuokalani's residence at Palama, and were presented to that lady. From there they were driven to the residence of the Hon. Mr. Cleghorn at Waikiki, where they were presented to Princess Likelike and Princess Kaiulani. In the evening they returned to the Hawaiian Hotel to be regaled with substantial creature comforts and Professor Berger's excellent music. The band was stationed in the usual place in the yard, and played a programme which lasted from 7:30 to 10 o'clock. The Moskwa people seemed to enjoy the music exceedingly. The Hotel was brilliantly illuminated for the occasion. Mr. Pfluger, His Excellency R. J. Creighton, and Mr. J. S. Webb of the Foreign Office, did their best, and with success, to entertain the guests of the occasion. Among the visitors were Government officials, the official representatives of foreign countries, and many prominent citizens.

WHY THE Equitable Life Assurance Society

of the United States is the Best company with which to Assure.

I.—Because of its Safety. Its surplus is larger than that of any other assurance company.

II.—Because of its Promptness. Of 1,043 death claims paid in 1885, nearly one-half were paid the very day profits were received; while of the remainder, the majority were paid within the following three days. No other company can show such a record.

III.—Because of its Liberality and Refrains. All policies are INCONTTESTABLE after three years. All incontestable policies are payable immediately upon receipt of proofs of death. The Society's policy contract is clear and simple, and liberal in its conditions. Its Non-forfeiting Tontine (or Semi-Tontine) policy affords all the ultimate benefits of the full Tontine, and has during its earlier years the surrender value and other material advantages of ordinary life policies.

IV.—Profit. No other company is paying on its policies, as large profits as are shown under the Equitable's matured Tontine policies with fifteen-year periods. Persons desiring assurance may obtain estimates of the probable results of similar policies, and of policies with twenty-year terms, which are expected to show even larger profits.

V.—Prospective Advantages. The unexampled progress of the Equitable in the past is the best guarantee of the increasing future value of assurance with the Equitable.
