The best spring medicine is a dose or two of St. Patrick's Pills. They not only physic but cleanse the whole system and purify the blood.

LOCAL AND GENERAL NEWS.

DIAMOND HEAD, 3 p. m.—Weather hazy; wind, fresh east.

The Legislature will convene at the Government building to-morrow noon.

The Fooning Sney will discharge port cargo here and proceed to Hongkong and the market.

The S. S. Mariposa should leave San Francisco to-day for this port and therefore arrive on June 3rd.

The steamer Claudine will be in port early to-morrow morning with the remainder of the legislators from Maui.

Mrs. Fox, Miss Layton and Miss H. S. Kinney were passengers on the steamer Kinan to-day for the volcano.

The colored lights are now in position in some of the new Central Union church windows. They are of an attractive pattern.

Rev. Dr. Wolfender will preach the annual sermon before Geo. W. de Lenz Post, G. A. R., in Central Union Church on Sunday evening.

Moss, Ovide Musin and company will give a far-well concert to-morrow evening, for which the box plan is open at J. J. Levey's office.

The tramcars now run to the middle of the Waikiki bridge, carrying passengers almost to the Mokee Island entrance to Kapiolani Park.

Two young men on bicycles rode in from the Cornwall stables at Kapiolani Park to Richards street this morning in 9 minutes, 52 seconds.

The auction sale of lands in Kapululu, Kapiolani Park, by Jas. F. Morgan, has been postponed from June 13th to Saturday, June 18th.

A LARGE crowd went out to Waikiki to-day to enjoy a dip in the brine at J. Sherwood's seaside resort. The universal verdict was that the water was perfectly lovely.

Mrs. Chas. Steele left on the steamer Kinan to nurse her injured husband at Hilo, Hawaii. At last accounts Mr. Steele, who was hurt while acting as engineer on the Kinan, was slowly recovering.

The testimonial concert to Prof. H. Berger, master of the Royal Hawaiian Band, on the occasion of the 20th anniversary of his landing in Honolulu, will be given at the Hawaiian Opera House next Thursday evening.

A DIVING match is being arranged between Pelehu, the famous Hawaiian diver, and Captain Beach, the manfish, to take place on Saturday, June 4, at Pearl City, in the captain's water tank. Pelehu is over 70 years of age.

TWENTY-FOUR Japanese have taken passage on the bark Sonoma for San Francisco. The emigration of Japanese has been great of late. It is hoped that Captain Jack Lee will enjoy the company of his pleasant passengers.

An elderly native reported at the Police Station this morning that his two daughters, aged 13 and 14 years respectively, had run away and were in hiding at Manoa Valley. A warrant was issued for the arrest of the frisky damsels.

THREE cases were nol. pro'd in the Police Court this morning, one a charge of heedless and furious driving, and two Chinamen, in Hoy and Ah Wa, charged with burglary, whose cases had been remanded from time to time since April 13.

THERE was another large house last night to hear Mons. Musin the violinist and his associates, Mme. Musin and Mons. Scharf, vocalist and pianist respectively. The several numbers evoked much enthusiasm as those on previous occasions, everyone getting an encore.

The Liberal Party held their usual meeting at the Queen street Army last night. Hons. J. E. Bush, J. N. Wahli, L. W. P. Kaneali and Wm. White were the speakers, but said nothing of a striking nature. Mr. White announced that a mass meeting would be held this evening at the same place.

BARK FOONING SNEY.

C. Brewer & Co.'s steel bark Fooning Sney arrived in port from New York to-day. Her master is Capt. D. Mahany, late master of the bark Edward May. He makes the following report:

"Sailed from New York February 7th, and on the 13th and 14th, encountered a terrific gale, wind hauling from S. W. to S. E. March 2nd, crossed the Equator in the Atlantic 31° deg. W. Twenty-five days out on the 10th March spoke the American ship John McDonald from New York for San Francisco, forty-eight days out, all well. March 31st, passed through Straits of La Maire and by Cape Horn, fifty-five days out. Went as far south as 59° 40'. Encountered heavy N. W. and W. N. W. gales off the Cape. Was 17 days from 50° south in the Atlantic to 50° south in the Pacific. On May 11th crossed the Equator in the Pacific, ninety-five days out. On the meridian 120° deg. W. carried the southerly winds up to 9° north; from thence to port had pleasant trades and fine weather. Entire passage 111 days. All well on board."

OVERSLEPT HIMSELF.

A fellow named Hank Dapson was arrested the other day on a charge of larceny of a gold watch, chain and locket, valued at \$125. Someone was kind enough to bail him out, but had a close shave of being that much short in his financial accounts. Dapson was to have been tried this morning, but when his name was called he failed to put in an appearance. A police officer was sent to his house and Dapson was re-arrested. His excuse was that he overslept himself. Dapson will have to get some other friend to go security for him.

A VENERABLE MISSIONARY.

At the Methodist conference in Omaha, Bishop Fowler of San Francisco presided on May 9.

The venerable Bishop Taylor presented his report. He said there were over 80,000 native Methodists in Africa, thirty-eight Sunday Schools, over 300 teachers and 3750 Sunday school scholars. He declared the work in Africa was stupendous.

The people there must be educated in hand and brain as well as in religion, otherwise they will be unable to support themselves in that barren land, and would inevitably drift back into barbarism. The best field is among the children. Girls and boys must be educated together. In order to do this, as the girls were always sold by their parents, it was necessary to have money to buy them and then educate.

The report was indorsed by a rising vote. At the request of one of the delegates Bishop Taylor then brought forward and placed on the stand a little African child, which he brought with him, explaining that though only three years old, and only three months out of heathendom, she had learned to speak English. The object lesson attracted much interest.

David Dingle and James Lucas, employed in the Sheridan mine, at Telluride, Col., were blown to atoms recently while trying to pick out a shell of giant powder.

Charles H. Pinkham, Jr., the former president of the Bank of Harlem, has been arrested at New York on an indictment charging him with misappropriating \$70,000 of the funds of the bank.

A cablegram received by Archbishop Corrigan states that Archbishop Ireland's scheme to secularize parochial schools has been condemned by the Pope. This has been widely discussed in Catholic circles.

Edwin S. Peart of Peoria, Ill., traveling with the Paul Boyton combination, jumped from the big bridge across the Mississippi at Memphis to the water below, a distance of eighty-six feet. He was uninjured.

An attempt was made to rob the Traders' Deposit Bank at Mount Sterling, Ky. A circus was passing, and while the clerks were watching it, a sneak thief seized a package of \$4600, and was just getting out of the door when discovered.

Assistant Secretary Cronise has decided not to allow A. Vignier damages in a small amount of money because the contents of a cask of Antwerp wine had leaked through a worm-hole boring. A worm hole does not constitute a casualty within the meaning of the law.

A successful device has been patented for doing away with the smoke from tug-boats.

The electric current on the 30th of March turned its first furrow in American soil at the Kansas sorghum experimental station.

Finely divided aluminum has now become so cheap that it is proposed substituting it for magnesium as an actinic light for photographing purposes.

A new method of impregnating logs with zinc chloride in order to preserve them, is now in use in Austria, being known as the Pfister process. The timber is impregnated in the forest as soon as possible after it is felled.

The proposed plan for the postal tube between France and England is to suspend two tubes, each about three feet in diameter, by means of steel cables thrown across the channel, 120 feet above the level of the water.

French artillery practice with projectiles charged with the high explosive melinite at 1800 meters range, has demonstrated, not only the terrible effect of this explosive, but the possibility to project it from ordinary field mortars.

Doctors maintain that no more favorable medium for the culture of micro-organisms can be found than warm sewage. Cases are cited in which hot water and steam introduced into old cesspools have resulted in an epidemic of diphtheria.

Trunks are now made of paper pulp that has been subjected to great pressure, in the same manner as the material used for the manufacture of paper car-wheels. Owing to the tenacity of the paper it is practically impossible to injure a trunk made of this material.

Many valuable high-mountain mines which could not be worked profitably owing to the expense of transporting fuel to the engines, are now being operated by electric motors, whose power is furnished by another motor in the valleys which uses water-power.

Professor Elihu Thompson, in a recent article, states his belief that 130,000-horse-power at 500,000 volts can be transmitted 240 miles through three wires about as large as a good-sized knitting-needle, and moreover, that this can be sent underground through a small pipe, using only cotton and cheap oil as an insulator.

A traveling man who chanced to be in the store of E. V. Wood, at McKees Rocks, Pa., says while he was waiting to see Mr. Wood, a little girl came in with an empty bottle labeled Chamberlain's Pain Balm and said: "Mamma wants another bottle of that medicine; she says it is the best medicine for rheumatism she ever used." 50 cent bottles for sale by all dealers. Benson, Smith & Co., Agents.

When you want a Portrait Enlarged call on King Bros., get their price list and see samples. They can't be beat.

JUST THINK

When in need of SOAP that you will be better suited every way by going to a store that keeps a large assortment of the article required.

We believe it may interest you to know that this store is that place.

This week we call your attention to a new soap in this market. As the manufacturers have not been in business for centuries they are willing to part with their products for less money than old soap makers receive the benefit.

Jas. S. Kirk & Co. are striving to make as good an article as the other soap makers and give you their Shandon Bell soap. Soap is equal to the best.

These cuts do not represent the size of the cakes, but the difference is in the price. The store that sells the best soda will sell the most soap. You are a judge of good soda.
