

Pledged to neither Sect nor Party, But Established for the Benefit of All. MONDAY, AUG. 28, 1893.

There is a rather thick silver lining to the cloud of financial depression in the United States.

Our morning contemporary now displays a thirst for gore only second to that of the evening filibuster. Cannot vacancies be made for these ghouls in the dog-killing bureau of the police station?

"Di Vernon," in the San Francisco News Letter, sets forth that about the only people making any money out of the World's Fair are the waiters, and they do it by gross cheating. This is another illustration of the proverb, "Everything comes to him who waits."

Mr. George P. Castle makes no reply to the Advertiser's republication of the charge that he was buying war material in San Francisco for the enemies of the Provisional Government. Is it because he knows that statements appearing in that paper are only believed when the readers happen to have other evidence of their truth?

Saturday's Star had only thirteen (13) items of local news at second hand from Friday's Bulletin. In its treatment of the chief item of Saturday, again, the Star showed how it got its news by repeating a blunder from that morning's Advertiser. What a beautiful result the 250 shareholders in the Star get for their investment—a day-before-yesterday journal!

One foreign correspondent had the assurance to write that Mr. J. O. Carter resigned from the Board of Health "to strengthen the movement" against the segregation of lepers. Everybody here knows, and the correspondent knew when he wrote that statement, that Mr. Carter resigned for a reason that had its origin indirectly in his strong support of strict segregation.

Notwithstanding the finding of the coroner's jury, laying the blame for the native boy's death on himself, it is not clear that the sharpshooters were blameless in leaving the inspection of the butts to the youthful marker himself. Cases of markers being killed at the butts have been common enough in other countries to make marksmen everywhere very strict in taking every possible precaution.

Spread over five columns width of the San Francisco Call of July 30 is a cartoon entitled, "Different Methods of Annexing Territory." A one end is a German soldier bayoneting a Samoan, at the other a French soldier pistoling a Siamese, while in the middle a Hawaiian Islander is offering a cake (should be a "ripe pear") to Uncle Sam. The cartoon would be more accurate if its middle section showed J. L. Stevens taking aim at the Hawaiian voters with one of the Boston's gatling guns.

Great store is set by the local annexation organs on what they deem will be Mr. Blount's opinion of the "royalist" politicians he met here. Suppose, however, Mr. Blount has looked beyond all professional politicians and formed an opinion on the great body of the Hawaiian people who were never consulted as to the destiny rough-hewn for them by the Stevens-Thurston combination? And suppose, further, that upon his report the President and Congress apply American principles to the case of the Hawaiian people? What then?

A Pearl City Garden.

Mr. Walter Hill, while recuperating at Pearl City, has superintended the planting of a large number of alligator pear trees at Mr. Armstrong's place, as well as other considerable horticultural work. When he was in charge of the Reformatory School some years ago, Mr. Hill planted and cultivated pear trees, whose fruit cannot be surpassed in the market to-day. His present operations are greatly facilitated by an ample supply of water from a surface well, which is raised by the steady pulsations of an accumulator pump. It is only a matter of time when the plot will be one of the finest fruit, vegetable and flower gardens in the country—all three classes of products being now cultivated there.

Mr. H. J. Mayers, of Oakland, Md., says: "I have sold thirteen bottles of Chamberlain's Cough Remedy to-day and am literally sold out. This is the largest sale on record of any one preparation in a day over our counters. It gives the best satisfaction of any cough medicine we handle, and as a seller it leads to other preparations on this market." For sale by all dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

COURT CHRONICLE.

Three Chinamen Plead Guilty and Receive Sentences—Contempt of Court.

Awan, who appealed from the District Court, where he was fined \$150 and costs for selling liquor, pleaded guilty before Judge Whiting at Circuit Court term this morning, and was sentenced to pay a fine of \$100.

Ah Sing and Ah Hao, who appealed from conviction of affray in the District Court, where they were fined \$15 and costs, now pleaded guilty, and were fined \$15 without further costs.

Ah Ching was put on trial before a foreign jury for unlawful possession of opium. G. K. Wilder, Deputy-Attorney General, for prosecution; J. M. Davidson for defendant. A verdict of guilty was returned at noon. At the same time Judge Whiting declared the defendant to be in contempt of Court, for having attempted to coach a witness on the stand. The prisoner was remanded for sentence.

This afternoon the trial of Ah Lau, for unlawful possession of opium, is being tried before Judge Whiting and a foreign jury. Wilder for the prosecution; Carter & Carter for defendant.

Before Judge Cooper and a foreign jury is being heard the assumption case of Bishop & Co. vs. C. E. Williams et al. Hatch for plaintiffs; Hartwell for defendant.

John F. Bowler has given a bond of \$3000 to H. E. McIntyre, conditioned on his failure to maintain a writ of error, in a suit of the late J. S. Walker against the said Bowler and others. This was a suit in connection with the defunct Elele newspaper.

W. K. Castle for the plaintiff files a motion to reinstate the case of Woodruff vs. Ah Kai Kou on the calendar.

The Kona Coffee & Fruit Company, by its attorneys, Rosa and Peterson, files a general denial to the complaint of T. K. R. Anala, who sues it for wages as manager.

The P. G. laws are being mailed to courts throughout the islands.

Before Judge Cooper at chambers the will of Thomas Rosewarne was admitted to probate, and the widow appointed executrix without bonds. C. Brown for petitioner.

The accounts of Abraham and Nagaran Fernandez, the administrators of Peter Fernandez, were approved by Judge Cooper. Hatch for petitioners. The accounts showed receipts of \$1440, and expenses of \$392.15.

The same Judge partly heard petition for approval of the final accounts of C. L. Brito, administrator of the estate of A. F. Barro, deceased. The receipts were \$449.25, expenses \$433.05, leaving balance of \$16.20 due the estate. A. Rosa for petitioner.

Cricket.

The match played on Saturday was of a most interesting nature. Sides were picked by Mr. Lishman and Mr. Burnside, and the game resulted in a victory for the latter by 15 runs, due to the exertions of Mr. Burnside, whose score of 16 not out was put together brilliantly, while his efforts in bowling were most disastrous to his opponents. Mr. Lishman as usual played excellent cricket, taking all the available wickets with his bowling, and making the top score of the day.

Table with 2 columns: Name and Score. MR. LISMAN'S SIDE. T. Lishman, b Gardner, 25; A. Hewitt, b Gardner, 11; C. Holgate, b Gardner, 11; F. Law, b Gardner, 0; W. Woolton, c Holgate, b Burnside, 0; R. Abernethy, c Kite, b Burnside, 0; W. Lishman, b Burnside, 1; W. Soper, not out, 4; Eyes, 1; Wides, 1; Total, 44. MR. BURNSIDE'S SIDE. G. Burnside, not out, 16; Rev. V. Kiteat, b Lishman, 9; W. Stanley, c and b Lishman, 8; E. Ross, c and b Lishman, 4; D. Logan, c Hewitt, b Lishman, 0; H. Mest, hit wicket, b Lishman, 3; W. Gardner, c Hewitt, b Lishman, 4; G. Lishman, b T. Lishman, 4; Eyes, 8; Total, 50.

The game to take place next Saturday, September 24, will be the return match between the married and single members of the club. The game to commence at 2:30 p. m.

His Wife Got After Him.

A half-white couple had an escapade on Saturday night, which may result in a suit for divorce. It appears that the husband, a young man employed in a jewelry store, went down with another girl, accompanied by a friend and his girl, to the King's bathhouse. The party stayed till a late hour. In the meantime the wife had heard where the truant husband was. She went down and surprised the party. In his eagerness to get away from his irate spouse, the husband jumped into the sea with his clothes on, minus coat and hat, and swam ashore. The wife secured the articles, but as the girl had also escaped, could not vent her rage on anyone, so she went home. The husband walked in dripping wet about an hour after.

Strongly Endorsed.

The advertising of Hood's Sarsaparilla appeals to the sober, common sense of thinking people, because it is true; and it is always fully substantiated by endorsements which in the financial world would be accepted without a moment's hesitation. They tell the story—Hood's Cures.

Hood's Pills cure liver ills, jaundice, biliousness, sick headache, constipation. Only one case of drunkenness appeared on the District Court calendar this morning, and that one was a native woman. She pleaded guilty and was fined \$2 and \$1 costs. The temperance cause is apparently looking up.

Californian for September.

The Californian for September comes to the front promptly with the beautiful colored cover of poppies which the publishers have adopted during the World's Fair. The issue is rich in fiction and illustrated descriptive articles. Indian life on the plains is graphically presented in a paper by Vermer Z. Reed on "The Southern Utes," in which many interesting features in the life of these people are brought out. The illustrations are from photographs and fine sketches by Harmer and Craig. A paper of more than ordinary interest is a description of the children of the street in San Francisco. Some of the illustrations of the paper are among the finest ever seen in any magazine. The rise of the Pacific Coast Woman's Press Association is described by its founder, the late Mrs. E. T. Y. Parkhurst. While Ensign Burke in a paper on the naval reserve shows what the Golden State has done in this direction. The article is richly illustrated. The silver question is presented in two timely papers by Congressman Bowers of San Diego and Hon. M. M. Esteo of San Francisco. John Craig gives a most interesting exposition of the arts of "The Smuggler," while some illustrated papers of interest are: "Irving" by Peter Robertson, the "Nevada Footprints" and "Husen."

"German Syrup"

For children a medicine should be absolutely reliable. A mother must be able to pin her faith to it as to her Bible. It must contain nothing violent, uncertain, or dangerous. It must be standard in material and manufacture. It must be plain and simple to administer; easy and pleasant to take. The child must like it. It must be prompt in action, giving immediate relief, as children's troubles come quick, grow fast, and end fatally or otherwise in a very short time. It must not only relieve quick but bring them around quick, as children chafe and fret and spoil their constitutions under long confinement. It must do its work in moderate doses. A large quantity of medicine in a child is not desirable. It must not interfere with the child's spirits, appetite or general health. These things suit old as well as young folks, and make Bosche's German Syrup the favorite family medicine.

Hawaiian Hardware Co., Ld

Saturday, Aug. 26, 1893.

It is said that the delay of the "Monowai's" arrival was caused by her running so fast a part of the journey that her copper sheathing got hot and they had to stop in midocean to give her a chance to cool off. Whether this is so or not we cannot say but we do know that the "Multum-in-Parvo" Charcoal Iron is the most convenient article to be found for the laundry. Just fancy doing your own fluting without the expense of a regular machine for the purpose. These are servicable, and pretty enough to use as bric-a-brac in your parlor if you do not like fluting.

We call the attention of the public to a Basting Pan in which the meat is basted automatically, so to speak, that is to say that your meat during the process of cooking is thoroughly basted without your having to do it yourself. Verily it is the cook's friend. We have them in ordinary sheet iron and white enamel ware. They're a good thing and not expensive.

If you sometime want to do some fine baking and can't because the mesh in the sieve is too large it is painfully evident that you need a hair sieve. We have them suited to your wishes.

We understand now that our statement that horned toads were to be imported to kill the blight was premature. The toads will be imported provided some assurance may be given by scientists abroad that the blight won't kill the toad. Frequent spraying with insecticide wash has thus far proven the most beneficial to the trees and plants. The Lewis Spray Pump is the best for properly distributing the liquid and we sell the most approved styles.

In selecting a Sewing Machine care should be taken that the stitch is strong and the machine simple enough to make the running of it a pleasure rather than hard work. For years the Singer Manufacturing Co. has enjoyed the reputation of turning out the most substantial and most servicable machines in the United States. The tension of their machines is so arranged that the operator can go from lace to sole leather without having to finger a half dozen screws.

The "New York Favorite" is a machine built by the original Singer Manufacturing Co., at their extensive works in New Jersey and upon identical lines as the improved Singer. We import them from the factory in car load lots and are thus enabled to sell them at prices which knock all other sewing machines in Honolulu "galley west." Thirty or forty dollars saved on any article is considerable; imagine, if you can, what it is in the price of a sewing machine.

By the "Monowai" we received a very large invoice of Ready Mixed Paints put up expressly for use in this climate. We have been careful to select an assortment of colors that will please the various tastes to be found in cosmopolitan Hawaii nei. The manufacturers assure us that in mixing the colors "a little bit of this and a little more of that" have been added so that the paints are of a much better quality than is usually sold here. It is our intention to keep these paints together with our usual assortment of unmixed colors always in stock. So that persons desiring to paint all or any part of their house may be accommodated. Paint Brushes galore may be found with us. Color cards mailed to any part of the group upon application.

From the numerous orders we have received it is quite plain that plantation managers have not forgotten that we keep in stock the largest supply of "Helvetia" Belting in the city.
