**NEW CABLE SCHEMES.**

**An International Telegraph With Great Britain Left Out**

WASHINGTON, March 8.—When Congress failed to provide for building the Hawaiian cable it by no means ended the question. On the contrary, it has brought forward a project of international importance by which Russia, France, Japan and Hawaii will join in an American enterprise for laying a cable from the United States to Hawaii and thence to Japan, with branch cables to the French islands and extensive naval stations in the South Pacific.

The negotiations with these Governments have proceeded quietly, but with such satisfactory results that they are well along toward completion. A number of conferences have been held with the officials of the Japanese Legation here and several phases of the subject are now under negotiation between Tokio and Washington. Minister Kurino is much interested in the project. It is probable that five or six of the most influential and wealthy Japanese merchants will be named among the incorporators.

France has also been interested, and in the course of the negotiations she has made a suggestion to Hawaii to the effect that French interests will be better subserved by having the cable go via the United States instead of Vancouver, which would be controlled by Great Britain. The chief interest of France is in securing cable connections with Tahiti and her other Pacific possessions and with her naval rendezvous, which is now cut off from communication.

Russia's interests in the project are regarded as even more important than those of Japan or France. Russia's cable communication with the Western Hemisphere is now eastward through London or Paris and this filtering of all her news and official messages through London in particular has long been a source of irritation. The Russian imperial family already have a cable from Vladivostok, the easterly point of Siberia, to Japan, so the new line would give Russia through cable communication eastward instead of through London or Paris. The military and strategic importance of this is very great, for, should Russia be arrayed against the triple alliance, she could not communicate westward, but could always maintain communication eastward to the United States and to France. Hawaii is also interested in the enterprise, as she regards it as a practical realization of her efforts to communicate with the outer world.

The United States Congress failed to act, and it also declined to vacate the treaty in order to let Great Britain build the cable. Under these circumstances the new enterprise with Russia, France and Japan joining, has commended itself to Minister Thurston, the Hawaiian Minister, and to other leading men of Hawaii.

The foregoing governs the international scope of the enterprise. The American branch is on a similarly broad line. Negotiations are also in progress which cannot now be made public, by which a financial house, known the world over, will be among the projectors.

The principal work of organization is being consummated here in Washington. The only question at present is whether the incorporation shall be under the State laws of New York, New Jersey, Maryland, Virginia or California. Their advantages are being compared and the corporation will be under the State laws most favorable. An effort was made a few days ago, before Congress expired, to secure a national incorporation, but it was denied, as it threatened at the time to be harmful to the Government's cable project then in conference committee. It was not known at that time that France, Russia, Japan and Hawaii were interested in the project. But the failure to secure a national charter has in no way checked the enterprise. The organization will be under one of the State laws, as heretofore stated, and the arrangements are so far along that the filing of the articles of incorporation will be during the present month.

The consummation of the plans which are now made known for the first time cannot fail to arouse keen interest in Great Britain and throughout Europe. The British project of a cable starting from Vancouver appears to be ended with the failure of the the Senate to so modify our treaty with Hawaii as to let the British cable land at Necker island.

The only recourse for Great Britain would be to induce Hawaii to break this treaty obligation with the United States, but it is known positively this will not be done. Instead, therefore of a British cable across the Pacific, as has long seemed imminent, France, Russia, Japan and Hawaii are now uniting with American enterprise to execute this work of vast commercial and military importance.

**THE HIRAM BINGHAM**

**Return of the Missionary Schooner to San Francisco.**

The little missionary schooner Hiram Bingham arrived yesterday from the Marshall islands, in the South seas. With the exception of Captain Walkup no one on board could speak a word of English, the crew being composed entirely of natives of the islands. The schooner was built in this city nearly two years ago and the expedition just ended was her maiden voyage, she having remained at the islands ever since her departure. When the Hiram Bingham left here she carried a number of Boston missionaries, who had been assigned to the mission at Jaluit, located on one of the Marshall group. Captain Walkup reports that all of them are doing well, and that the good work among the natives is meeting with unusual success. After taking on a quantity of supplies needed at the mission the Hiram Bingham will return.—*San Francisco Chronicle, March 10.*

**Fowler's Patent Portable Track**

20 INCH GAUGE.

Just arrived per Bark "H. F. Glade" in quantities to suit

Apply to

H. HACKFELD & CO.

1287-1w

**Pure Milk.**

The business of the country is settling into its former groove. Our gentlemanly driver has returned from his vacation, the cows in the pasture switch flies instead of bullets with their tails and the cream is richer in consequence. We believe we have satisfied every one of our customers who have taken milk from us and we are in a position to supply a great many more. The people who from choice or necessity visited Waialae during the past two weeks have had an opportunity to see just what sort of diet our stock feeds upon, and no longer wonder at the richness of the milk from our dairy.

Our facilities for delivery are the best. With the exception of a day or two early in the late unpleasantness our drivers have always been on time at our customers' residences. We take this opportunity to thank those who have been patient with us and to solicit a continuance of their patronage. We will be pleased to fill all orders telephoned to us and guarantee all milk to be pure and free from adulteration.

THE WAIALAE RANCH.

**Timely Topics**

March 11, 1895.

Is Hawaii to be without a cable through the action of the United State Congress, or will the people here awake from their sleepy ideas and tell Uncle Sam to do something or let England have Necker Island and go ahead with the work. Hawaii is as much in need of a cable as any place on the globe and other governments need the cable to Hawaii as much as we do. Why then should the government that feels a fatherly interest in a country stand in the way of its development.

Suppose the manufacturers of the Avery Plantation Implements would refuse to send them to this country would it be considered a square deal? The planters on Hawaii who are using these different implements are well satisfied with them and are willing to recommend them to other managers. They are coming more and more into general use; in another year there will not be a plantation on the Islands that will not use them. The following letters from such prominent managers should be convincing proof of their superiority:

ONOMEA SUGAR COMPANY, PAPAIOU, HAWAII, Feb. 25, 1895.  
MR. JOHN A. SCOTT, Wainaku, Hawaii.

DEAR SIR.—The Onomea Sugar Company has now in use three of the Stubble Diggers.

I think these machines are indispensable for the proper cultivation of ratoon stools.

We have never had an implement that would so thoroughly loosen the earth around the stools, and put the soil in such condition that the air, moisture and fertilizer would so readily find access to the fine roots of the cane and the soil around them.

I am glad to testify to the merits of these tools. The Sugar Land Disc Cultivators arrived too late for much use in the cultivation of the last young plant and ratoon, but I believe they will prove to be very useful and labor-saving implements in districts where cane is raised without irrigation.

Yours truly,

WM. W. GOODALE, Manager Onomea Sugar Company.

HUTCHINSON PLANTATION COMPANY, NAALEHU, HAWAII.

March 1st, 1895

E. R. HENDRY, Esq., Hawaiian Hardware Company.

DEAR SIR.—In answer to your letter inquiring about the Avery Stubble Digger and Fertilizer Distributor, I would say that the fact that we have just received the second Stubble Digger speaks for itself. We have dug over four hundred acres of ratoon stools and consider it will be a great benefit.

The Fertilizer Distributor is a good thing and has effected a material saving of labor in the application of Fertilizer and applies it better than can be done by hand.

These machines are very simple and well constructed and we have had no trouble with the working of them and we consider them one of the most useful labor saving machines that can be used on plantations.

Yours Truly,

G. C. HEWITT, Manager H. S. P. Co.

HAKALAU, HAWAII,

February 16, 1895.

MR. E. R. HENDRY, President and Manager Hawaiian Hardware Company, Honolulu, Oahu:

We use the Avery Stubble Digger, Fertilizer Distributor and Cane Cultivator. They save labor and do the work claimed for them. The Stubble Digger I consider a particularly good implement.

Yours truly,

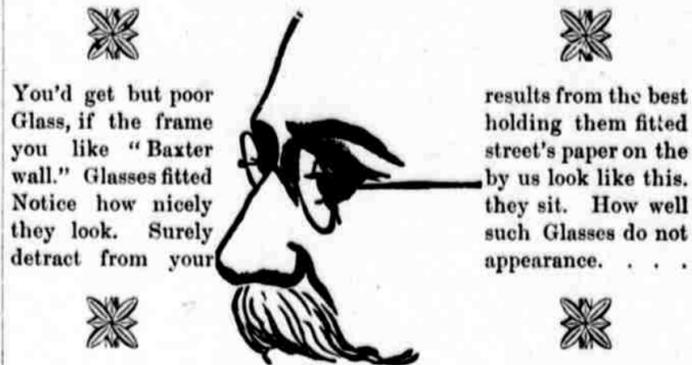

GEO. ROSS, Manager Hakalau Plantation Co.

The Hawaiian Hardware Co. Ltd.

Opposite Spreckels' Block, 107 WEST STREET.

**Hinds' Almond Honey Cream**

Unsurpassed as a Toilet Requisite.

BEST FOR

CHAPPED HANDS, FACE AND LIPS, ROUGH, HARD, IRRITATED SKIN.

Superb Just After Shaving.

BEST FOR

PIMPLES, CHAFING, ITCHING, SCALY ERUPTIONS, ECZEMA, ETC.

Hudson, N. H., Feb. 24, 1890.

MR. A. S. HINDS, Dear Sir: I think it my duty to write you in regard to your wonderful HONEY AND ALMOND CREAM. When I commenced using it, my hands would crack open, and were so bad that I could not close them without making them bleed, and my face was rough and chapping. I have had one bottle, and my hands and face are entirely cured, and I think it my duty to praise this wonderful remedy.

MISS MARY C. DURANT.
