CHANGE OF BASEBALL RULES.

Restrictions to be Placed on Noisy Coaching

New York, February 25.—The rule committee of the National Baseball League met in this city to-day. The committee made numerous changes, which will be voted upon by the league at its meeting on Wednesday.

They recommended, among other things, that the pitcher's space be enlarged, placing restrictions upon noisy coaching, gave to the umpires greater power of disciplining "kickers," and changed the wording of many rules, some of which were heretofore vague and ambiguous.

Among the changes recommended are: Rule 19, section 2, is changed to read: "No players except the catcher and first baseman shall be permitted to wear padded or lined gloves or mitts."

Rule 63 is changed to read: "The coaches should be restricted to coaching the base runner."

The committee recommends that the constitution be amended to penalize rule 56 as follows: Any player other than the captain leaving his position in the field or leaving the bench to question the decision of the umpire shall be fined \$10 for the first offense, and for the second offense shall be removed from the game and required to leave the game forthwith.

Another most important change is one which constitutes a foul ball. Hereafter any ball that goes to the foul ground between the lines of bases is to be considered a foul whether it is batted directly to the ground or in the air. This does away with the old ten-foot rule.

The foul tip was set upon as follows: "A ball tipped by the batsman and caught by the catcher within the ten-foot line is a strike."

QUEEN VICTORIA'S LABOR.

In a Year She Reads Thousands of Dispatches and Signs Many Papers

The queen does much work which never appears to public view. In one year she has read not less than 28,000 dispatches. Every day the sealed boxes are brought to her wherever she is, boxes filled with government documents and the daily report of the prime minister. These duties constrain her majesty to follow strictly her own routine, from which she is loath to deviate. She is in constant communication with her cabinet ministers and, as Melbourne, Palmerston, Disraeli and Gladstone have often proved, she displays rare ability and discriminating tact in the handling of the most delicate and important matters of public business.

Her very handsome hand has signed more state papers, with larger results, than any other swaying the rod of empire to-day. It has been reverently kissed by men and women whose names will live for many generations—by Wellington and Macaulay, by Peel and Tennyson, by Peabody and Lowell, and thousands of the gifted, the generous, the brave and the fair who have moved through the pure halls of her court.

Naval Court of Inquiry.

WASHINGTON, March 9.—A court of inquiry, consisting of Captain Louis Kempf, Chief Engineer A. Wilson and Lieutenant-Commander F. P. Gilmore, with First Lieutenant H. L. Draper, United States Marine Corps, as Judge Advocate, has been ordered to meet at the Mare Island Navy Yard on the 19th inst. to ascertain where lies the fault for the damage done to the boilers of the gunboat Bennington during her recent run from Mare Island to Acapulco.
