Harper's Weekly scores Admiral Meade for losing his temper and criticizing the administration. The admiral's is not the first tongue that has wagged to the discomfiture of its owner.

Ex-private Honeck considers his reputation damaged to the extent of fifty thousand by being deported from Hawaii. At the salary he received when he was a private here he would have earned the amount of his claim in a little less than a century and a half. But we doubt if he could have worked so long.

It stands between Whitney and Dickinson for secretary of state. The sentiments frequently expressed by Mr. Dickinson lead one to believe that he has a bit of jingo in his composition not altogether compatible with the make-up of Cleveland. It's doubtful if their methods of harmonizing factions would agree.

It is astonishing how many Japanese merchants are cropping up here when the rumor is current that trade is so dull as to warrant a half dozen of the largest firms removing to Formosa. Scarcely a week passes that a new firm does not start up and enter the field of competition against the white traders.

If the Hon. Audley Coote can bring sufficient influence to bear upon the people at Washington, so that a cable will be subsidized, he will have accomplished that which will entitle him to the greatest consideration by his fellow man. Great Britain will no doubt contribute its portion toward the cable scheme, and then Hawaii will chip in her mite so that the line would be an assured fact and operations would begin in short order.

Rev. Douglas P. Birnie, pastor of the Central Union congregation, though a stranger here, has, by his forcible sermons eloquently delivered, won the admiration and respect of every one in the church. With a certain liberality of thought which characterizes his sermons, he has won to his heart the younger element of his congregation without alienating the affections of those of the church who believe that the only road to salvation is an exceedingly narrow one.

In the contest in New York between the "cloth and the club," the former came out victorious to an alarming degree. The old idea that the better element in New York refused to mix in politics because of the overwhelming influence of the hoodlum element seems to have been exploded by Dr. Parkhurst, when he finished his tour among the dives and learned, for the first time in his life, and from actual experience, how the other half of New York lives.

The value of Dr. Parkhurst's services in this connection can never be reckoned in dollars; they are the sort that will be felt in the homes of the people.

The action of the deported men who refused to answer questions at the preliminary trial of their cases against the steamship company would, it seems, weaken their side. If their claims for damages against the Canadian and Australian steam-

ship line for forcibly carrying them away from Honolulu are just, there is no reason why relevant questions should not have been promptly answered. The verdict in these cases will be waited with interest by the Hawaiian Government, for upon it will depend largely the suits brought against the government for deportation from the islands.

If it should happen that cases of this nature continue to be brought against the Republic, and even half of them are decided in favor of the claimants, the treasury would be in such a feeble condition that it would be a hard matter for it to recover. High taxes caused through unwise acts of a government would scarcely be tolerated here while a tax for improvements would meet with little opposition.

A Remarkable Cure for Rheumatism.

WESTMINSTER, Cal., March 21, 1894.—Some time ago, on awakening one morning, I found that I had rheumatism in my knee so badly that as I remarked to my wife, it would be impossible for me to attend to business that day. Remembering that I had some of Chamberlain's Pain Balm in my store I sent for a bottle, and rubbed the afflicted parts thoroughly with it, according to directions, and within an hour I was completely relieved. One application had done the business. It is the best liniment on the market, and I sell it under a positive guarantee. R. T. HARRIS. For sale by all dealers. Business Talks

May 29, 1895.

If the business in any one line was controlled by one individual, what would be the result? If there was a demand for his wares he would be richer than Croesus at the end of a year and you would have to pay through the nose for what you bought of him. In the United States competition has brought the price of necessities down to a stage where people may have them and not be looked upon as extravagant. If you will look around among our stock you will find that it is made up largely of articles for which you have every day use. We have luxuries as well, but, to-day we tell you of things needful about the house. Agate ware for instance!

There's been a scarcity in Coffee Biggins in town, but we have a stock of them That will interest everyone.

We get our goods in agate ware from La Lance and Grosjean, the makers, and they have the reputation of making the best goods in their particular lines in the United States. We can get "seconds" from them, but the first quality is the best because the enamel will not chip off.

Water coolers, handsomely painted outside and enamel lined inside, Small ones for a family or large Ones for a foundry.

Japanned ware includes cake tins, trays, crumb pans, cuspidors and lots of other things. The prettiest and probably the most useful article in the lot is a toilet stand, very neat as to decorations and complete as to detail in the matter of articles that go with them.

The one that will strike your fancy Are a new thing with us: Bright and pretty, like a silver dollar.

The price of these articles is not in proportion to the value of the goods. You get more for your money than you are used to, but then—competition has fixed that in the United States—we buy cheap and follow the same rule in selling, you understand the Golden Rule.

Retained Glue Pots and Slop Bowls Are a new thing with us: Bright and pretty, like a silver dollar.

And you can get them at a price that will amaze you. You should have one of these because they are useful and serviceable.

This is a fish-eating community because the fish are fresh and of an exquisite flavor. All people do not know how to cook them so as to get the substance.

With one of our Agate Steamers you Can steam or boil your fish And not lose the flavor.

These fish kettles vary in size from the mullet to the ulua, and the price goes according to the size.

Farmers' Boilers are not used in every household, but there is scarcely a plantation on the islands but what requires one; they are not to be found in every store in the city, but we have a few of them to accommodate the people who want them.

Among other useful articles let us call your attention to agate and tin basting spoons, tea and coffee caddies, egg poachers, chopping bowls, dish pans, dairy pans and wooden potato slicers.

What is better with your chop In the morning than a few Saratoga Clips? You can get them By using one of these slicers.

Our stock is complete in detail—nothing old or shop-worn.

WHOA!

Just a minute. We want you to know about the famous
BOYCE TABLET LINIMENT.

The many favorable testimonials received from Horsemen both in the United States, and in Europe concerning Boyce Tablets, encourage us, in preparing for the coming season, to make every effort to bring Boyce Tablets to the notice of everyone who is interested in horses. A few of these testimonials will suffice to show the reputation Boyce Tablets have obtained for themselves throughout the country.

To Horsemen who have not yet used Boyce Tablets, we would say that these tablets represent the solid ingredients of a most valuable Liquid Liniment prepared by combining the medicinal agents, recognized by the Veterinary Medical Profession to be the most effective in reducing fever, strengthening stimulating and imparting elasticity to the muscles and tendons; in purifying healing, and softening the skin; and in keeping the hair bright and silky.

It will readily be seen that this liniment in dry form has the following advantages over any other liniments.

1. Its great economy.
2. It requires much less space to carry it.
3. It is much lighter in weight.
4. It is free from danger of leaking, breaking, freezing or wasting.
5. Its ready solubility in either warm or cold water enables the Horseman to prepare his liniment in any quantity and of strength in a few moments time.

In addition to the ingredients most popularly considered by Horsemen as valuable constituents of Veterinary Liniment, we may say that, a Boyce Tablet contains more Genuine Witch Hazel than is in a quart of the liquid extract;

Eucalyptus, or Extract of the fever tree of South America, and Sal-Lister, whose valuable properties as an Antiseptic, Anzzymotic and Prophylactic, are accepted and acknowledged by all medical practitioners, also form a part of Boyce Tablets.

TERRE HAUTE, IND., April 27, 1890.

Boyce Tablet Co.: GENTLEMEN: After a fair and impartial trial of your Tablets, as a body and leg wash, would say I think them the best in the market. They are very convenient to carry, and when dissolved, produce the desired effect.

Yours truly,
W. P. MALONEY.
