Popular Topics of the Day.

"The Monarch will win" is an expression heard in bicycle races oftener than anything else. It has not yet been heard here because Monarch Bicycles have not yet been introduced, but when they are they will not take second place in speed, weight or quality of material. The Monarch is just what its name implies, the King of bicycles and we are authorized agents for the Hawaiian Islands.

This wheel is made by a company whose standing in the manufacturing world is at the head; they are putting money in their wheels and selling them at a low price because they are not anxious to make themselves rich in a year. For that reason they have put the price within the reach of everyone.

The coming models in the Monarch are No.'s 8, 9, 10, 11 and 12. These include racing and ladies' wheels. They are fitted with either "Demon" or "Kingfisher" lamps, and with this on the front end you can see so far ahead of you that night riding is more of a pleasure than you have been used to. With a Monarch Bicycle you don't have to keep a lamp on the back to keep drivers from running over you; the mechanism is such that a high rate of speed is attained without much muscular power.

Our prices of the genuine Monarch wheel will be twenty-five per cent less than you have ever heard of a first class bicycle being sold for. We can do it because we are the manufacturers' agents and have no middle man's profits to pay. Call at our store and examine our Agency papers and secure a handsomely illustrated catalogue.

A second hand Columbia safety can be had of us very cheap, the owner wishing to dispose of it and buy a Monarch.

If you are sceptical call on us and learn that the place to buy the best bicycle is at
