AYER'S Hair Vigor

RESTORES COLOR - AND - PROMOTES Abundant Growth OF THE HAIR.

It cures itching humors, and keeps the scalp cool, moist, healthy, and free from dandruff.

A lady writes: "I feel compelled to state, for the benefit of others, that six years ago I lost nearly half of my hair, and what was left turned gray. After using Ayer's Hair Vigor several months, my hair began to grow again, and with the natural color restored."

THE LEGISLATURE.

SUPPLEMENTARY APPROPRIATION BILL PASSES SECOND READING IN SENATE.

Bishop Willits to Receive \$450 for Iolani College-Electric Railway Bill in the House.

TWENTIETH DAY, JULY 8.

THE SENATE.

President Wilder called the Senate to order at the usual hour this morning and routine business was transacted.

Senator Brown reported that on Saturday on behalf of the Committee on Passed Bills he had presented Act No. 9 to the President for his signature.

Senator Rice reported that the Act defining "School" and the Act setting apart an appropriation for supplementary salaries and pay rolls had been printed.

Senator Hocking presented a petition from Sam. F. Chillingworth asking for the allowance of \$80.25 for services rendered as Boundary Commissioner on the island of Molokai and Lanai. Ordered taken up with Bill No. 8.

Act No. 8 then came up on the order of the day, being the appropriation bill for current expenses. The first item was for \$15,000 for support of military. Minister Hatch moved to increase the amount to \$21,500 but said that it was hardly proper to state in open session what the extra amount was for. The amendment passed without debate.

The item of \$14,000 for the support and maintenance of prisoners. Senator Hocking wanted to know whether the large number of pardons had not reduced the expenses. The Attorney-General replied that it had somewhat, but the item passed as in the bill. The item of \$6,000 for incidentals, civil and criminal expenses also passed.

The Attorney-General here asked that a special appropriation of \$5,000 for the support of the Citizens' Guard be inserted and stated that the amount was required principally for arms and ammunition.

Sen. Baldwin wanted to know if any of this amount was for past services rendered by the Citizens' Guard. Mr. Smith said no and presented a bill of \$3896 for the last lot of arms received which had not yet been paid. The item was inserted in the bill as asked for.

The item of \$5,000 for stationery, books and incidentals for office and schools passed. The item of \$3,000 for repairing schools next came up.

Senator Rice stated that the sum of \$13,000 was considered actually necessary by the Superintendent of Public Instruction and Senator Waterhouse said that \$24,000 has been asked for. The item passed as in the bill.

The item of \$10,000 for the expenses of the Land Act of 1895 was next in order. Senator Brown called attention to the fact that the Land bill provided for the legislature to fix the salaries of the Commissioners and land agent.

On motion the item passed, the matter of salaries being left until after the passage of the bill.

Five thousand dollars was appropriated for landings and buoys for the next ten months.

Roads and bridges in Puna district will have \$5,000 expended on them; Kau gets \$2,000 and Hana \$1,500 for the same purpose.

The sum of \$5,000 for the running expenses of the pump-

ing plant in Honolulu was next voted, together with \$250 for Laupahoehoe and \$2,000 for Koloa. The latter item brought up some discussion in which Senators Wright, Rice and Brown and the Attorney-General took part, the amount being finally voted on the score of public health.

Thirty-five hundred dollars was voted for a new court house at Kona and \$3,000 towards telephone connection between North Kona, South Kona and Kau.

Senator Hocking moved that the sum of \$80.28 be appropriated for the payment of S. F. Chillingworth in accordance with his petition. Passed.

Minister Damon moved that the sum of \$10,500 be inserted in the bill to pay the subsidy due under the Railway Act to the Oahu Railroad and Land Company upon the Waianae extension. Passed.

Minister Damon brought up the matter of the \$450 due to Iolani College and moved that the same be allowed and entered in the bill. Carried.

Senator Lyman moved that \$2,500 be inserted for the extension of the Hilo water works, but withdrew his motion on the suggestion of Minister Damon that the item should come up in the Loan Fund Act.

The total amount appropriated is \$102,780.28.

The bill then passed its second reading and was ordered engrossed.

Recess to 1:30 p. m.

AFTERNOON SESSION.

On the regular order of the day the Hilo Electric Light bill came up for the third reading. After section 6 had been stricken out the bill passed its final reading by the unanimous vote of thirteen Senators, Senator Lyman being absent.

The Senate then took up the Act to prevent the wanton destruction of game on the third reading and passed it on the same vote.

House bill No. 8 for the restriction of Chinese immigration came up on its second reading. The bill passed with little discussion.

Act 6 making supplementary appropriations amounting to \$58,600 for the use of the Hawaiian Government was put on the order of the day and read for the third time.

Senator McCandless moved to insert after the Kaulani appropriation the sum of \$5833.33 for the support of the widow and family of the late Chas. L. Carter from January 17, 1895, to March 17, 1896, at the rate of \$5,000 per annum. Senator Northrop seconded the motion.

Senator Baldwin was rather in favor of the motion, but wished further time to think about it.

Senator Brown would not support the motion, as he considered it entirely unnecessary, the family of Mr. Carter being well off, and also because the family had not asked for it or been consulted in the matter.

Senator McCandless claimed there was no charity in the matter, but it was a matter of principle and should not be haggled about. If it got abroad that the government would not make provision for the widows and orphans of those who died in its defence it might just as well quit and disband its forces.

Senator Baldwin thought more time should be given to its consideration and moved that the item be referred to the Finance Committee. Senator Waterhouse moved that further action on the bill be deferred until next Thursday. Carried.

Senator McCandless also gave notice that he would ask for a

pension for O. Evans, who was permanently disabled in the rebellion.

Adjourned.

THE REPRESENTATIVES.

Speaker Naone called the House to order at 10 o'clock. Prayer was offered by Chaplain Waiama, and minutes were read by Secretary Keola.

Mr. Bond, from the public health committee, reported amendments to the alcohol bill. Tabled to be considered with the bill.

The House went into Committee of the Whole to consider the Electric Railway bill, Mr. Halualani in the chair. Report of committee on Section 43, granting freedom from paying customs duties, was read.

Mr. Kuananohu moved that the report be adopted.

Mr. Rycroft objected that it was giving too great advantages altogether to a Company which was only benefiting one section of the country. He said he had been continually bounced by various members for his expressed opposition to benefits for Oahu alone. He would say that the same state of things had existed for the last 20 years. Improvements on Hawaii were beneficial to Oahu, but they of Hawaii rarely received favors. What would Oahu do if no landing could be made on Hawaii? God had created the coast there and given opportunity to land but the Government has not supplied the necessary interior roads. The only road is the Volcano road, and that was not built to benefit Hawaii but Honolulu. He continued at some length showing the disadvantages his constituents labored under.

Mr. Naone said that he considered that if the Republic of Hawaii had been started twenty years ago then Hawaii would have had an opportunity to have received a fairer deal than that obtained under the monarchy. Improvements on Hawaii would have to be made gradually and would ultimately result in a great benefit to Hawaii.

Mr. Robertson agreed with what Mr. Rycroft had said in regard to lack of roads, etc., on Hawaii, but then that had nothing to do with the matter under discussion. The subject was the admission of articles intended for equipment of road duty free. The United States would undoubtedly be the market for the obtaining of electrical supplies and cars. If rails could be bought cheaper elsewhere, then the Company would be only enjoying the same privilege previously granted the Oahu Railroad Co. Our trade relations with the United States will not be affected thereby. The speaker then showed that by the Laws of 1892, Chap. 32, the industry (coffee) in which the Representative from Hilo was engaged received many benefits, also soap, and the manufacture of fertilizers.

Mr. Rycroft maintained that coffee had benefited but slightly from public favors. The planters of Kona, who supplied all the coffee as yet brought to Honolulu, had only got fifteen cents a pound.

Mr. Hanuna opposed the striking out of the section granting exemption from taxation on Saturday. Now it was proposed to still further cripple the company by striking out the exemption from customs duties. He objected to thus throwing difficulties in the way of a great public improvement.

Mr. Rycroft, interrupting, said he was as much in favor of this projected street railway as any member of the House.

The report was adopted.

(Concluded on 4th page.)
