

FROM QUARANTINE WHARF.

THE INTERESTING DIARY OF GEORGE WASHINGTON SMITH.

Natives Serenade the Frisco Liner—Their Hands Full with the Flowers.

Monday, Sept. 30, worked hard all day on the freight of the Andrew Welch. The pleasing voices of Capt. Drew and mate were heard encouraging the men. A good day's work was done by the natives, everything stowed nicely on the dock under the supervision of Harry Webb and I tell you the deck looks like a large warehouse with all classes of goods placed as they should be for quick delivery.

At suppertime the Australia was telephoned and at about 7 p. m. she came by the Mail dock, where all of our jolly native boys were clustered together to give her a welcome song, which was given by the following named boys, singing Aloha Oe: Bill Olepau, Tom Pedro, Kalili (Fat Boy), Nawai, Philip, Hon. Kaea, Pokai and Sam Kalawalu, with the rest of the boys joining the chorus, and it was rendered so nicely that the officers, crew and passengers clapped their hands and some shouted: "Good boys, we know we are welcome. Thank you," etc., etc.

Jimmie Robertson holds his end up admirably in checking his requisitions for the inter-island steamers. Jimmie does it in a systematic manner, not to be outdone by any clerk, and doing it there is no flurry or worry about it. The boys all have a great aloha for "Jimmie."

October 1. The Miowera came along side the dock early this morning. Work commenced, and they are keeping it up with a will. The boys will have to work all night. The steamer has 900 tons of freight for this port. The freight consists principally of flour, grain, hay, and 500 bbls. lime. The officers are a very pleasant set of gentlemen, and are ready at any time to give us any information that we may require, and they do it in such a pleasing way that it makes our work pleasant and easy, blocked up as we are on the dock. We are doing well under the circumstances in getting the freight out of the way as fast as they can put it over the side of the steamer. Mr. Crabbe is working at a terrible disadvantage, but he is equal to the emergency. He handles himself like an old stager. Harry Webb, Jimmy Robertson and "Aids" keep the ball a-rolling, and Kelly, Smith and Hewett are runners, and they do it well.

A Cause of Sickness.

Descourts claims that deforestation of a given region increases the death rate. His argument is founded on the investigations of Dr. Jeannel, who reports that the mortality in the woodless departments of France is 1.64 per 100, while in those with forests the mortality is only .18 per 100. The proportional loss then is nine times greater in the thirty treeless departments than in the fifty-seven wooded departments. If deforestation is really the cause of the disproportionate death rate and of the diminished population in sunny parts of France, it must be regarded with as much solicitude as the contamination of water supplies, unhealthy dwellings or the contagion of zymotic diseases.

"Are all the animals in?" asked Noah, taking another look at the barometer. "All but the leopards," replied Ham, "and I think we have a pair of them spotted." Noah shook his head gloomily, and muttered something about "that boy coming to a bad end."

Correspondents of the BULLETIN should hand in their communications early in the day to insure publication. All display advertisements should be sent to the business office before noon of each day. Reading and "By Authority" notices may be sent in any time up to 2 p. m.

Decorative Art Work.

The exhibition by the Members of the Kilohana Art League has given decorative art an impetus such as has not been felt for years. The China painting fad has reached us and some handsome specimens were shown in the art rooms. The material for doing the work came from us and we now have in stock an elegant assortment of Lacroix Tube Colors and Brushes, Burnishers Stipplers used in this class of work. Our stock is complete with the finest assortment of colors, brushes, canvas and frames for art work.

Elegant show rooms and goods new. Prices about as cheap as you ever heard of.

The Pacific Hardware Co. Cummin's Block.

A Naturally Boiled Water, pronounced by people who know to be the best on the Market. This Water received the very highest award at the . . .

California International EXPOSITION.

As a Table Beverage,

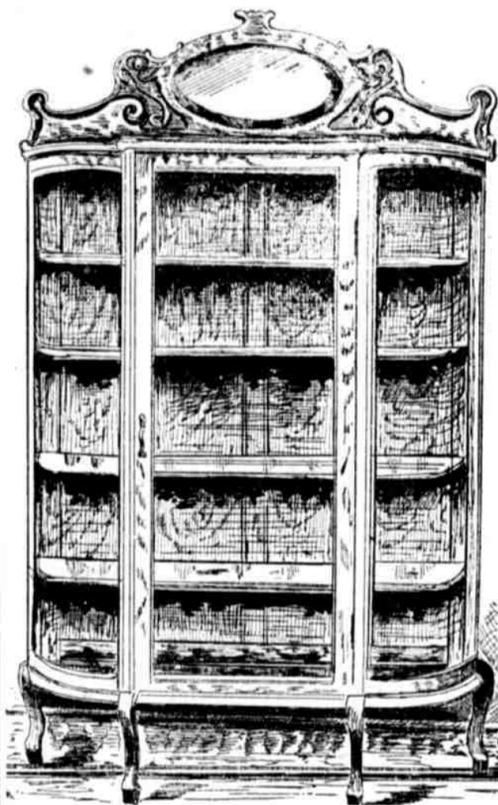

GEYSER WATER

is a favorite and easily leads all other Mineral Waters . . .

Benson Smith & Co.

Wholesale and retail agents for the Hawaiian Islands.

Ordway & Porter

OUR aim since the organization of the firm has been to supply the people of Honolulu with first class furniture at a medium price. The growth of the business is the best evidence we can offer as a verification that we have never diverged from our motto.

In this advertisement we call your attention in a general way to the various articles of furniture we carry by submitting a few designs of pieces that should be in every home.

CHINA CLOSETS are as much in demand as bedsteads, they are no longer in the list of luxuries; the craze for collecting odd bits of China or bric a brac, and the desire to keep them in a convenient place for showing to one's friends, has made the China closet indispensable. We have them in various styles, single or double, for wall or corner. Those in antique oak are fashionable because they are serviceable, the durability of the finish on oak has the effect of making them always appear new.

THE utter impossibility of an attempt to have a dining room well furnished without a sideboard has been demonstrated in half the homes in Honolulu. There is no necessity for anyone going without one when they have a stock like ours to draw from. The one shown is of quartered Oak satin polish finish and has French bevel plate glass. In the higher priced sideboards ample space is allowed for silverware. Our stock of plain oak sideboards has never been equalled in Honolulu.

ROBINSON BLOCK

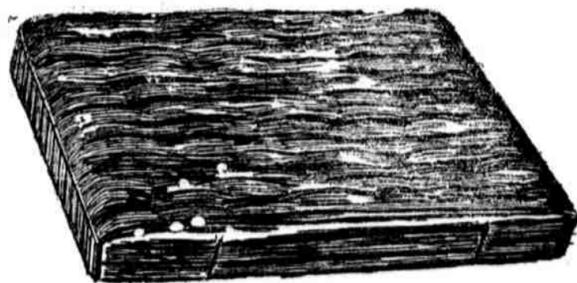

ONE bureau is scarcely adequate to hold all the shirts, underwear, etc., of a gentleman and wife; two bureaus in a room make it top-sided particularly when they are not the same pattern. A CHIFFONIER, no matter what the design or color, adds finish to the room just as a piano does to a parlor.

It may sound egotistical, but we believe we have the largest stock of these articles to select from outside San Francisco.

Oak is the style oftenest selected for the same reason as given regarding China closets, but with our stock there is no limit as to style of wood. Oak, Birch or Ash, it is all the same, we can supply them in twenty odd styles. We have them with or without toilets; plain top and with either German or French bevel mirrors, and polished or varnished surface.

The half dozen drawers in a Chiffonier make it possible to separate the clothes and keep them always in place. If you have ever had one you know the value; if you have not get one while the price is below bed-rock.

OUR hair mattresses are made up in the best quality of tickings, bound with the best bed lace, have borders 4 inches deep, stitched twice around.

Mattresses made of moss have the same care on our part as those of hair. The difference in price is accounted for by the difference between moss and hair. This work has the attention of experienced upholsterers, and no better mattresses can be bought anywhere than we make. The prices are governed by the size of the beds and number of pounds of hair used.

Hotel Street.
