Car Horses for England. Two hundred and seventy-five thousand horses thrown out of use in the United States has an indirect influence on the price of horseflesh all over the world. The cheapness of the transportation across the Atlantic permits their shipment to England at a very low cost, and American horses are already finding their way to English sale stables. In this way the indirect influences of electrical invention are being felt by the English agriculturists, already groaning over the many burdens thrown on their shoulders.

MOONLIGHT CONCERT.

The Hawaiian Band Will Play Again at Thomas Square.

Notwithstanding the band gave a delightful concert at Thomas Square last night, another one is to be given at the same place this evening with an entire change of program. If a vote was taken on the most popular location for band concerts it would very likely be found that Thomas square would be as far ahead of other places as H. E. Following is the program for this evening's concert.

IN THE POLICE COURT.

Henry Von Berg Gets Two Months For Vagrancy.

The principal case tried in the District Court this morning was that of Henry von Berg, who is one of those mysterious individuals who manage to live without working, and who first come under the notice of the police for his propensity in accosting ladies of the Central Union Church. Mr. Berg was charged with having no visible lawful means of support in Honolulu, for two months prior to October 25th last, or in other words with being a vagrant. He had means enough, however, to employ lawyers Magoon and Humphreys for his defense. Detective Hammer testified that he had watched the defendant for some months past and particularly for the last two two months during which he had seen him as much as half a dozen times a day. He appeared to be always walking about doing nothing. Witness had offered him work and told him to call at the station house and get a job. The defendant in return said: "I never asked you or anybody else for work. You can go to a certain warm place." The detective did not follow this advice but arrested him. Hammer said the defendant had worked two or three days when the excavations for the Von Holt block were being made but quit because he didn't like hard work. The detective was corroborated by detectives VanGiesen, Cordes, Kapua and Captain Scott. For the defense B. F. Dillingham and J. F. Heckfeld testified that they had seen the defendant and thought he had applied for work. The defendant was found guilty and sentenced to two months imprisonment and to pay \$220 costs. Notice of appeal was filed. The charge of profanity against Mrs. K. Spencer was nolle prosequ'd. Chin Chin and Chong Lum were fined \$25 each and costs for unlawfully entering the Hawaiian Islands. The trial of five natives for mutilating a cow by running a spear through its neck resulted in the conviction of Hikanu, who was fined \$20 and costs.
