

LABOR UNION PROJECTED.

Dissatisfaction at Low Wages the Cause of Organization.

In from ten to twenty days from now there will be a meeting of laboring men to organize a Laborers' Protective Union. The main object will be to regulate day's wages. Laborers are now getting as low as sixty cents a day, sometimes in I. O. U.s on which they lose a discount, and there is great dissatisfaction in consequence. It is contended, on the part of the laboring men, that times are as good as five or six years ago. Laborers ought therefore to get \$1.50 a day at the least. Chinese and Japanese, besides doctors and lawyers, will be excluded from the proposed Union.

A New Era to Flumes.

Chief Swenie of the Chicago Fire Department, says the Times Herald, has found a new form of protection for his firemen, the property of citizens endangered by conflagrations and the lives of human beings imperiled by smoke and flames.

The apparatus adopted by the Chicago department and which is to supplant all others looks like the headgear of a diver when he is preparing to descend into the water with his bell. It consists of a helmet placed over the head and face and fitting closely to the shoulders. The outer construction of the helmet is an asbestos-tanned leather or asbestos cloth, which proof against fire, heat, steam, boiling water and all poisonous gases or fluids. This helmet is held to the body by two straps which pass under the arm.

The contrivance is practically air tight, but has an apparatus of its own, a metal reservoir at its back, with a capacity of 100 pounds pressure of compressed air, which supplies the wearer with all the breathing material which he may need for from twenty minutes to one hour. This air supply before reaching the wearer of the helmet is filtered and comes to him, it is claimed, as pure as the air he would take out of doors. A gauge is attached to the air reservoir by which the amount of air pressure can readily be determined at all times. The air pump which does the charging is operated by the wearer himself. He can charge the helmet in from fifteen to forty seconds. So ingeniously is the helmet constructed that a lever operated on the top of the reservoir forces the air through the supply tubes inside to a point directly in front of the nostrils and the mouth. In regard to this Chief Swenie has already experimented, having one of his firemen put the helmet on and remain inside for a sufficiently long period of time to demonstrate whether he suffered any inconvenience as to breathing. The fireman came out as fresh as when he entered.

System Broken Down

Distress—Pains in the Back

New Life and Strength Given by Hood's Sarsaparilla.

"C. I. Hood & Co., Lowell, Mass.: "Dear Sirs: I do not think there is any other medicine on the market so good as Hood's Sarsaparilla. I have taken only three bottles and am now in better health than for three years.

My System Was Broken Down so that my friends remarked upon my falling away. I could not keep anything on my stomach and I suffered terrible distress, especially in the left side. I had a severe pain in my back all the time so that I could not work.

Hood's Sarsaparilla Cures

Before I had taken one bottle of Hood's Sarsaparilla the pain in my back was gone, the first time for two years. I can eat anything and keep it on my stomach without distress afterwards. The trouble with my back is over and

I Can Work All Day as years ago. When people remark upon the change in my looks I tell them Hood's Sarsaparilla did it." SEWARD TAPPIN, N. Volney, N. Y.

Save Money!

You throw away dollars every year in broken lamp chimneys. Better stop it now while you can get a preparation that will prevent a chimney from breaking when put on wet. Prof. Humbolt's anti-explosive compound will do this and will prevent the explosion of kerosene oil and gasoline. We are sole agents for this preparation as well as for the New Ideal Sewing Machine, the equal to any high priced article, and we sell it for \$30 and \$35 with attachments. 15000 feet of mouldings for picture frames just received by the "Albert," also oval and circular frames, something new and elegant.

"A BUILDING BURNED RECENTLY in Milwaukee, without insurance, because a clerk FORGOT to renew certain policies promptly as instructed. "He was discharged.

"A few days later, the owner died without insurance on his life, leaving a widow and three young children in poverty, because he had NEGLECTED to insure. As procrastination is more culpable than forgetfulness perhaps the owner is having his punishment NOW.

"MORAL: Consultation and office treatment free. Special attention given to procrastinators."
