COTTAGE TO LET.

NEWLY PAINTED, COTTAGE contains parlor, two bed rooms, dining room, kitchen, pantry and bathroom. Enquire L. ADLER, 15 Nuuanu street. 107-2w

Wanted.

A MAN WHO CAN TREAD UNEXPECTEDLY upon a piece of coral rock, while bathing at Waikiki, and not ease up or make any profane remarks, must also be able to knock a mosquito off his nose without hitting that organ, he will be required to examine a bicycle track and tell which way the wheel was traveling, call on Brown & Rubey and look on their new stock just received per last "Australia." 198-4f

Irritating and Disfiguring ERUPTIONS On the Face, Cured by Ayer's Sarsaparilla

Remarkable Experience of Miss Dorothy Maher, Fitzroy, Victoria, whose portrait we are privileged to give below:

"I take pleasure in testifying to the great benefit I derived from Ayer's Sarsaparilla. I suffered from eruptions on my face of a very irritating and vexatious nature. For a considerable time I experimented with various so-called blood medicines, but without any alleviation of my trouble. At last, your famous Sarsaparilla being strongly recommended to me, I began to use it, and after taking two bottles it was most gratifying to see and feel the effect in allaying the irritation and reducing the eruptions. When I had used three bottles the eruptions disappeared altogether, without leaving a mark on my face, and I have never been troubled with anything of the kind since."

AYER'S SARSAPARILLA

Sold Medically at the World's Chief Expositions.

Hollister Drug Co., Ltd.
 Sole Agents for the Republic of Hawaii.

COMPANY D WILL CHOOSE ITS OWN OFFICERS.

Without the Assistance of Colonel McLean and Other Regimental Officers--Last Night's Meeting.

There was a large meeting of the members of Company D, N.G. H., last evening at the headquarters of the company in the drill shed, Second Lieutenant Rowell presiding. An election had been ordered for that time to fill the vacancy of First Lieutenant of the company. After waiting some time, one of the members remarked that he had seen a notice in the Star that the election had been postponed by order of Colonel McLean.

Sergeant Crozier was appointed a committee of one to go to regimental headquarters and ask for more definite and formal notice of such postponement. After some time had elapsed Sergeant Crozier accompanied by Adjutant Broome returned and Adjutant Broome formally notified the members that the election had been postponed until after the holidays, and that owing to such change being made late in the afternoon a written notice had evidently not been received by the commanding officer of the company.

A number of the members of Company D, expressed themselves as feeling slighted over the turn affairs had taken. Captain Broome answered a question by Private Nott for the reason of the postponement by saying he could not give it at that time. After thanking Captain Broome for his kindness in giving the company the only official notice that such election was postponed the company proceeded to carry with much enthusiasm and only three dissenting votes the following resolution, which was proposed by Private Severin:

Whereas: The following resolution was unanimously adopted by the 1st Co. Sharpshooters, N. G. H. at their meeting, Tuesday evening, Dec. 17th, 1895: Whereas our First Lieutenant, Mr. W. E. Wall, has been asked by the Commander-in-Chief, and certain officers of the Regiment, to run for election as first Lieutenant of Co. "D," N. G. H., and whereas his election to such office would cause his withdrawal from his present position as officer and member of the 1st Co. Sharpshooters of Hawaii, and whereas such action on his part would greatly impair and injure the present efficiency of the company he at present commands, therefore

Be it resolved that the members of the 1st Co. of Sharpshooters of Hawaii, in special meeting assembled, do hereby protest against the efforts made to cause his withdrawal from said company and earnestly request him to decline the office offered him, and so remain an officer and member of the First Company of Sharpshooters of Hawaii. While so feeling we wish to express our hearty sympathy with all those who are trying to improve the efficiency of the military.

Therefore be it Resolved: That it is with astonishment and indignation that this Company finds itself in the position of a suppliant for leadership. While it may be that on account of the members of this company which is composed of mechanics, artisans and business men, finding it impossible to keep as good an average attendance as some other companies composed of younger men, we still insist that Company "D," is and always will be the Banner Company of the First Regiment N. G.

H. That we look back on our glorious past with pride that in our three years organization we have never as yet called on any but our own tried and true members to act as our leaders or officers. We shall always adhere to the principle that our own men get the preference in all promotions. With the heartiest "aloha" for the Sharpshooters we thank them for the spirit which they have shown in retaining their good officer and be it further

RESOLVED, that the recent suggestion for the Lieutenantcy of Company D was without warrant for this company. No action was ever taken by Company D in this matter whatever.

A motion to appoint a committee to ascertain the feasibility of the amalgamation of the Sharpshooters and Company D was lost. The members thinking that any such proposition should come in the first place from the Sharpshooter's company. The meeting then adjourned. A warm feeling of sympathy was expressed for the position of Captain Wall throughout the meeting, and also to all the members of the Sharpshooters, and it is probable that some mutual understanding may be arrived at which may unite these two powerful military organizations.

GUARDIANS OF HEALTH.

PLACE THE ATTORNEY GENERAL IN THE CHAIR AGAIN.

Fishmarket to Be Taken to Dogs--School Children Still to Have Boiled Water.

At the meeting of the Board of Health yesterday, John T. Waterhouse resigned the presidency in view of the return of the Attorney General, W. O. Smith, from New Zealand. Mr. Smith was elected to his old position at the head of the board.

The usual weekly reports of officials were read. Mr. Keliipio reported 67,000 fish sold at the market. R. W. Meyer, superintendent of the Leper Settlement, made suggestions that were accepted. It was decided to advertise for tenders for supplies for next year.

Upon the suggestion of Marshal Brown, the policeman looking after unlicensed dogs was made an agent of the Board. Executive officer Reynolds remarked on the dogs frequenting the fishmarket. It was agreed that Inspector Keliipio be instructed to keep dogs out of the market, and to have many ones killed whether having a tag or not.

President Alexander of the Board of Education informed the Board of Health that the money for boiled water for the schools had all been spent, and if the practice was to be continued the Board of Health would have to do it. It was agreed all around that the school children should have boiled water.

Claims of \$1336 65 on account of cholera, over the \$60,000 appropriated by the Council of State, were reported.

An old native named Pinau attended the meeting to beg that he be allowed to live in one of his houses that was vacated the time of the cholera. The house he had lived in was burned to destroy infection. It was thought not advisable to grant the request until all the houses in the particular locality have been inspected.

The Young Hawaiians Institute will have both a business and social meeting at their hall this evening. Business first and pleasure afterwards.

BIG COLONIZING SCHEME.

TO MAKE FARMS OF BIG RANCHES IN CALIFORNIA.

More than 150,000 Acres to be Opened for General Farming--C. P. Huntington Interested.

The following is condensed from an article in the San Francisco Chronicle of Dec. 1, 1895:

A syndicate has been formed to purchase and place on the market over a dozen of the largest and most valuable ranches in Northern California. From present indications the syndicate will close with 153,000 acres, though it is probable that an additional 10,000 of the Cone ranch may be admitted into the deal. All this property, which is now owned and cultivated by a few wealthy men, will be cut up into small ranches of twenty and forty acres and be improved with dwellings and out-houses. When the vast acreage of the syndicate land is taken into consideration, and the fact that the land has a frontage of seventy-four miles on the west bank of the Sacramento, besides a large frontage on the east bank, the colossal extent of the big land deal will be readily apparent.

Arrangements are not yet completed as to the Cone property, as it is not definitely known whether the original offer of the Cone estate of 3000 acres will be supplemented with an additional 10,000 acres. Arrangements have been completed for the transfer of 153,000 acres. The most important holdings in the list are as follows: On the west side of the Sacramento river--Boggs, 12,400 acres; Glen, 41,500; Chambers, 20,000 acres; Fennell, 20,000 acres; Tyler, 2000 acres; Hemstreet, 1500 acres; Hart, 1500 acres; Rawson, 4741 acres; on the east side of the river--Revis grant, 8000 acres; Bidwell, 7000 acres; Cone, 3000 acres; Wilson, 3500 acres. These are the principal holdings, and they are interspersed with smaller holdings of 1000 acres and less.

To expedite the work of dividing the big holdings into small improved ranches, and thus attract settlers to California, a corporation will be formed, to which all the lands enumerated will be deeded eventually. The sale of the stock of the corporation will be used to pay the owners for their property, though many of the owners have signified their willingness to take the purchase price of their land, in part at least, in stock.

Then the plan will be subdivided the lands into classes. Lands are to be offered at prices that will represent their relative value, and whatever surplus is derived above the cost to the corporation will be distributed to the purchasers of the land when the first subdivision of 10,000 acres is closed out. The object is to sell the land at a very low figure, it being the ultimate and paramount object of all interested to secure a subdivision and occupation of the country by actual settlers.

All the land will be divided into two principal classes, viz., land that is wholly unimproved and land on which the corporation will build houses and outbuildings. Each twenty, forty or eighty acre tract will be improved and made ready for the occupant, and by contracting for ten or twenty such dwellings at a time, the corporation will reduce the cost to a minimum. The plan is to subdivide a tract of 10,000 acres at a time, and pending its subdivision the land will be kept in a high state of cultivation, so

that its value will not become impaired. Through each of these tracts of 10,000 acres will be built a main avenue. At the center of each tract will be established a trading center or village. In connection with the general plan of subdividing the land is a proposition to set aside out of each tract of 10,000 acres a sufficient area for the dwellings and farmhouses of all the settlers in the tract. By placing the houses conveniently near each other on a tract of land set aside for the purpose, instead of scattering them all over the country, social advantages will be afforded to settlers which, it is thought, will prove a great attraction to prospective purchasers.

C. P. Huntington has become interested in the colonization scheme and has promised to subscribe liberally to the stock of the corporation. Two features which are elements of the plan, viz., the erection of houses and the distribution of any surplus derived from the sale of the lands, are features introduced by C. P. Huntington. There was a meeting of all the leading bankers of San Francisco and representatives of the owners of the property in the office of C. P. Huntington a few days before the latter's departure for the East, and two hours was spent in discussing plans for the subdivision of the big ranches. Mr. Huntington said that no one realized more than he the necessity for a division of the big ranches of California as aid to the settlement of the State, and suggested the two features above named. They will be tried in the subdivision of the first tract of 10,000 acres.

Less than 300 people are now living on the 153,000 acres comprising the several big ranches, and the syndicate hopes by dividing the land into small ranches to secure 300,000 new settlers in the Sacramento valley. It is calculated, at least, that the land in question can support that many people.

The entire matter is now in the hands of W. H. Mills for adjustment. Mr. Mills said yesterday that the land represents the largest area of fertile land with the least waste of any land in the State. It is also the most fertile land in the State and includes the largest Spanish grants in the State.

"It is a popular fad with writers and speakers," he said, "to say that we are now on the dawn of a new era, but that statement was never more truthful than it is now, with the subdivision of those immense ranches assured. Intensive culture has superseded the old cattle husbandry of the old Spanish period, and it is all in response to an evolutionary force."

Central Union Church.

The following officers for the ensuing year were elected by the members of the Central Union church at their meeting last night: Dr Whitney and R W Andrews, deacons; Rev S E Bishop and William Boyd, members of the standing committee; Miss HS Judd and Mrs Andrew Brown, deaconesses; W W Hall, clerk; T R Robinson, treasurer, H Waterhouse, J Shaw and Alexander Young, trustees; A B Wood, Sunday school superintendent, and Professor French and E A Jones, assistants.

Let Him Club.

At the meeting of this club at the hotel last night it was decided to give a dance at Independence park on New Year's eve and a committee of arrangements, consisting of E A Williams, L de L Ward, Dr Geo H Huddy, T P Cummins and J L Holt was appointed. Vocal and instrumental music is to be furnished between the dances.
