## J. T. WATERHOUSE

For general business there is not a store in Honolulu which occupies the same floor space that our house does, and we need it. And we come as near to having a department store as any in the islands; as nearly to that goal as the trade of the islands will permit.

You know what a department store means—low prices for good articles. Goods are bought in large quantities for cash, they're cheaper that way and that is the way we buy. You get the advantage of any discounts we receive.

One of our departments contains hardware and articles used every day in the preparation of food. A Queen Pudding Bowl is newer than anything you have seen here and a bit better because it is convenient. It's cheap, too. We've all sorts of things in agate ware and in first quality only.

Meat Choppers, Fry Pans, Bread Boards, Dust Pans and W. P. Fuller's Ready Mixed Paints for household use are always in demand about the home. A ready mixed paint that may be depended upon is not always to be had. Fuller's is the acknowledged superior to all others.

Mortgagee's Notice of Intention to Foreclose and of Sale.

In accordance with the provisions of that certain mortgage made by G. B. ELAMA (K.), and KEALALAINA, his wife, to JOHN P. LAA (K.), dated May 28, 1888, recorded in the Registrar Office, Oahu, in Liber 116, pp. 329 and 330, notice is hereby given that said mortgagee intends to foreclose the same for condition broken, to wit, the non payment of both principal and interest when due.

Notice is likewise given that after the expiration of three weeks from this date the property covered by said mortgage will be advertised for sale and will be sold at public auction at the auction rooms of James F. Morgan, Honolulu, on Wednesday, August 12, 1896, at 12 o'clock noon of that day.

For further particulars apply to J. A. Magoon, attorney for John P. Laa, mortgagee, Honolulu Hale, Merchant street.  
Dated Honolulu, July 30, 1896.

## Health and Strength RESTORED

BY THE USE OF  
**Ayer's Sarsaparilla**  
Rev. M. A. Cumming, of Yarraville, Victoria, Australia, says:

"About a year ago, I had a severe attack of influenza, which left me very weak, without energy, appetite, or interest in life. Obtaining little or no relief from doctors, or from the many remedies recommended to me, I finally tried Ayer's Sarsaparilla, and from that time began to gain health and strength. I continued the treatment until fully recovered, and now have very great pleasure in telling my friends of the merits of Ayer's Sarsaparilla, and the happy results of its use. I consider it the best blood-purifier known."

## BISHOP ESTATE REPORT

CONDITION OF KAMEHAMEHA SCHOOLS LAST YEAR.

Various Matters Connected with the Trust—Annual Account and Report of the Museum.

The trustees of the estate of the late Mrs. Bernice P. Bishop have filed their annual report. They have complied with the Court's directions last year, in paying off the overdraft with Bishop & Co., and accounting for surecharged commission. The death of a native woman, Naakihiki, has relieved the Estate of the payment of \$300 annuity under the will. The only changes in the capital account have been the sale of Keoua Hale to the Government for the purposes of a High School for \$30,000, the money being required toward the liquidation of the indebtedness to Bishop & Co., and the relinquishment of the Trustees' claim to the ahupuaa of Pahoa, Lahaina, which had turned out not to belong to the Estate. Particulars are given of different operations in the line of improvements.

The Kamehameha Schools are reported to have been maintained throughout another year with good results. The opening of the school year was somewhat deranged by the outbreak of cholera, and the attendance at the schools interfered with. The attendance at the Boys' School has been larger than for two years past, particularly in the Preparatory Department. There have been received at the Manual Department 115 pupils, with an average attendance of 110. The attendance at the Preparatory has been 60, all that the building will accommodate. At the Girls' School there have been 66 pupils received during the year, and the close of the year shows an enrolment of 63.

The Normal Class work of both schools has been kept up to a high standard, but the attendance at the Manual has been only five at the close of the year. The teachers graduated from the Normal Class have given a good account of themselves, and their services have the approbation of the Inspector General of Schools.

The health of the scholars has been very good, notwithstanding an epidemic of measles. With regard to the latter the hospital was useful in keeping the epidemic within bounds, as only 24 cases required attention out of the 241 pupils attending the schools. Another teacher is to be added to the Girls' School staff. A cottage will be built for teachers of the Manual. Hon. C. B. Bishop has contributed funds for the erection of a stone chapel, for the pupils of both schools, and the foundations of the building are laid.

The annual account of the Trustees under the will of Mrs. B. P. Bishop exhibits receipts of \$148,880.88, payments \$139,913.30, balance cash on hand \$8967.58. The annual account of the Bernice Pauahi Museum Trust shows \$13,282.92 of receipts, \$12,985.22 of expenditures and balance of \$297.70. There is a debit balance from last account of \$1959.20.

In their report on the Museum the Trustees refer to the tour of Curator Brigham round the world "with the view of seeing what Hawaiian antiquities there may be in other museums, securing such articles as would be essential in making more complete our exhibit of Polynesian ethnology, and arranging for a series of exchanges with the various museums and ethnological societies of the world."

Arrangements have been made with the British Museum and the British Association by which the Bishop Museum shares in the collection of birds and insects that is being made on these is-

lands by R. C. L. Perkins for those institutions. All the expense of these arrangements has been borne by Mr. Bishop. To him the Museum is also indebted for the addition of over 1500 specimens to an herbarium, including twenty and more new species now first brought to the notice of students of botany.

The number of visitors to the Museum has been very large, especially from two classes—the Chinese with their wives and children and public school teachers with their classes. These latter have found a wide field for advancement in intelligent information in regard to this island world of the Pacific, and for special exercises in language in writing their descriptions of what they have seen and admired.

## THE PINEAPPLE CANNERY.

Description of the Handsome Label Used on its Products.

The pineapple cannery at Emmeluth and Kidwell's plantation is running full blast and expects to turn out a pack of from four to five thousand cases of strictly first class goods this season. The new label designed by the Schmidt Label and Lithographing Company of San Francisco is artistically gotten up, showing a view of Diamond Head with a group of cocoanut palms in the foreground. Across the face of the label is a reproduction of a large pineapple, the whole being in dainty colors. The management has resolved to pack only the highest grade of canned fruit and thus obtain and maintain a reputation for the Hawaiian product. The first shipment of the season, consisting of 1000 cases, will go forward to San Francisco shortly.

## DEPARTURE OF COUNT MUTSU.

With the Countess He will Leave by the China.

Count Mutsu, the distinguished Japanese statesman, and the Countess will leave for home by the steamer China now nearly due. The Count has found considerable benefit from the sea voyage and his few weeks' stay in Honolulu, but is not a well man by any means. His trouble is of a pulmonary nature. It is to be hoped that the homeward voyage will further help him. The Count is a good sailor. Countess Mutsu, it is recorded with extreme regret, is also ailing. She was very ill yesterday. Count Mutsu, it is ascertained, is much pleased with this country and its climate. His visit will be remembered with pleasure, there is little doubt, by the President and members of the Cabinet.

## Funeral of Phil. Braun.

A few of the immediate friends of the late Phil. Braun and his loving wife accompanied the body from the house to St. Andrew's Cathedral yesterday afternoon. The pall-bearers, who were all comrades of the deceased in the late volunteer fire department, rode in a wagonette to the church and afterward to Nuanuu cemetery. Rev. Alex. Mackintosh conducted the services in a sympathetic manner. Wray Taylor, organist, played low solemn music as the body was borne up the aisle. "Nearer my God to Thee" was sung in the church, and Mr. Mackintosh recited "Just as I am" at the grave. Interment was in the volunteer fire department's lot, which is marked by a tall marble shaft in the middle. The casket was a handsome one heavily trimmed in black with silk fringe festoons and mounted with silver. On a silver name plate was the following inscription: "Ernst Otto Philip Braun, born at Kassel, Germany, July 25, 1842. Died at Honolulu, August 2, 1896."

## EXCITING FIRE ALARM.

ACCIDENT TO THE TEAM OF NO. 2 HORSE CART.

One of the Horses Breaks a Leg and Has to be Shot—Little Damage From the Fire.

An incipient blaze, which was nipped in the bud by the firemen, occurred on Maunakea street, near the corner of Queen, at five minutes before noon today, in a two story wooden shanty, occupied as sleeping apartments above and below as a small grain warehouse and fish store. The premises are owned by Lam Toi Kee, and the rooms above occupied by three Chinese, while Tom Choy runs the fish emporium.

The fire originated in a pile of matting and clothing in the upper story, and is supposed to have been started from some one smoking. A hole was burned through the floor and a small amount of clothing scorched, the damage being very slight.

While on the way to the fire No. 2 horse wagon met with a disaster. At the corner of Nuanuu and Hotel streets, in attempting to make the turn nakai, the wagon had gained so much headway that the off horse, a large, handsome bay, ran into the telephone pole at the Cosmopolitan saloon corner, breaking his leg. Dr. Shaw was called and, after examining the animal, decided that it should be shot, which was immediately done.

## Police Court Items.

In the District Court this morning the case of Henry Dole, accused of obstructing an officer in the performance of his duties, was set for trial on the 7th, at the request of the defendant.

Ah Kai was fined \$50 for having opium in possession.

Ah Tong pleaded guilty of having a chefa ticket in his possession and was fined \$20 and costs.

The preliminary examination of Yong Yee and Tong Tak on a charge of burglary was completed yesterday. The defendants were discharged, the evidence not being sufficient to connect them with the offense.

Juan Boaries, arrested for the larceny of fruit from George Carter's place, has been discharged from custody, his case having been nolle pro's'd.

## THE STEAMSHIP CHINA

BROKE TWO RECORDS ON HER LAST TRIP TO THE COAST.

Averaged Sixteen Knots Between Honolulu and San Francisco—Chief Steward Goodchild a Passenger.

The Pacific Mail Steamship Company's China, which is off port this afternoon, broke two records on her last trip, viz.: the fastest record on the voyage from Honolulu to San Francisco and the record from San Francisco to San Francisco. In October, 1895, she made the run from Honolulu to San Francisco in 5 days, 13 hours and 19 minutes, which established a new record. On her last trip she completed the same journey in 5 days, 11 hours and 11 minutes, thus beating her own record by 2 hours and 8 minutes. The steamer's performance was a splendid one, as she averaged 15 knots an hour between Yokohama and Honolulu, and 16 knots an hour between Honolulu and San Francisco.

The China left Honolulu on the 13th ult. at 6:22 p. m. During the succeeding eighteen hours she covered 288 knots. The next day she made 376 knots, the next 368, the next 376, the next 370, and at 8:04 a. m. on the 19th she finished her course of 2694 nautical miles. The steamer's time from Yokohama was 15 days 15 hours and 29 minutes, which establishes another record from that port, and from Hongkong 24 days 7 hours and 6 minutes.

In conversation with one of her engineers on a previous trip a BULLETIN reporter was informed that the big liner has never yet been opened out to her full steaming capacity, and all of her boilers have never yet been in use at one time. The statement was made that the China could average seventeen knots an hour, day in and day out, whenever competition made it necessary. Of course the increased coal consumption is an item of expense that the company desires to save as long as possible.

Chief Steward Goodchild will be a passenger and a gentleman of leisure this trip, as he is going to quit steamboating. He is one of the most popular men in his line, and in consequence has received many flattering offers. On his last trip he was tendered the management of the Hongkong Hotel, and at once accepted it. He will take up his new duties on the arrival of the China at Hongkong.

## Fleeing Sensation.

M. S. Levy, the Fort-street dry goods merchant, worn out by long bearing of arms against outrageous business fortune, retired on Monday to Kalihii for rest. He did not tell his family or store assistants where he was going, and there was some anxiety yesterday over his absence. In the evening his whereabouts were ascertained and the police brought him to town and home. He seemed to be somewhat dazed over his business troubles. The store was attached by the principal creditors in his absence, and a policeman placed on guard at the door. One of the evening papers was kind enough to suggest that Mr. Levy had committed suicide, while another one had little doubt that he had skipped out on the strange bark Petitediac, that called off port for medical attendance on the captain. Mr. Levy had made a brave attempt to keep his head above water in business, and deserves as he doubtless will receive the sympathy of the community in his failure.

The Criterion Saloon is a pleasant place to go to and its greatest attraction is the pure, cold Seattle beer on draught there. It makes one's mustache curly and puts new life into the failing consumptive.
