On Saturday next the Honolulu Cricket Club will hold their third social "smoker" at Tracy's hall, corner Fort and Hotel streets. A very pleasant time, similar to the two first events, is anticipated, and the management assure us that visitors will not be disappointed. The Gaelic.

Advices by way of Victoria show that the O. & O. S. S. Gaelic, bound for San Francisco via Honolulu, was actually crowded on to what is known as Beacon rock in Shimonoseki channel. The channel was crowded with vessels, principally junks, which will not clear the course for even the largest steamers. The Gaelic ran one junk down and when another fouled her and was sinking the steamer was stopped. As she was drifting dangerously inshore, orders were given to get under way but too late. Although not under way she struck hard enough to fracture several of her plates, and an examination showed that there was water in all three compartments. She was floated about three hours after striking and after being beached was pumped dry and the cargo discharged. The Nagasaki drydock being in use, the Gaelic was patched up and was to have been sent to Hongkong for repairs.

the principal news items received by the Empress of China on her arrival from the Oriental ports.

Much alarm was felt at Yokohama on Sept. 2 and over meagre reports of a disastrous earthquake in the northeast provinces of the main island of Japan.

The provinces visited by the earthquake are the same as those devastated by the terrible earthquake and tidal wave of June 15th last, when a large number of towns were wiped out and the estimated loss of life was 30,000.

SCOURGE OF AUSTRALIA.

The tick pest is again causing trouble in Australia. Exports of hides have been almost entirely prohibited in some colonies, and the terrible disaster which has overcome the sheep trade has worked almost incalculable harm. In Queensland and other places all meat-houses will be closed down and the squatters ruined.

GOLD CRAZE IN CANADA.

Thousands of men have flocked to the British Columbia gold mines from all parts of Canada. Laborers of little or no means have been sadly disappointed in not meeting the high wages they expected. Rossland has grown from a few log shanties eighteen months ago to be a town of 5000 inhabitants, with water works, electric lights, etc. A house and lot which a year ago sold for \$1500 now brings in \$1500 a year.

M. A. Peixoto, proprietor of the Union barber shop, next to the Art Gallery, guarantees to give a shave that will make your hair curl with joy.

ST. LOUIS COLLEGE.
Announce by Dilatory Movements of Buildings and Debris.

St. Louis College opened on Monday with 461 pupils and has now about 480. Brother Bertram the principal and his confreres were subjected to great cause of vexation by the subordinates and contractors of the Bureau of Public Works. A request had been preferred in advance that the moving of houses, in connection with the change of bed of Nuuanu stream, should be done before the opening of school, as might easily have been.

Yet the first day the main entrance was blocked up with a house on rollers, and carriages arriving with pupils had great difficulty in reaching the grounds. Even the second day the obstruction was if anything worse. Another thing Bro. Bertram asked was that a lot of broken glass should be removed from a place of deposit where it endangered the feet of the poor boys of the free department who cannot afford to wear shoes. This request was also neglected, with the result that a lad sustained a severe cut in the foot yesterday.

The Brothers are well-known for their amiable dispositions, but in view of the facts here related they can hardly be blamed if angry. Among friends of the school the question is being asked: Would the Government have allowed such a state of affairs exist with regard to any of the public schools, or Kamehameha, or Punahou, or Kawaiahae? If not, then, what becomes of the golden rule in the keeping of the authorities?

CELEBRATION BY SONS OF ST. GEORGE AND BRITISH SUBJECTS AND FRIENDS GENERALLY. In honor of the fact that Queen Victoria has been so privileged, that she has reigned over the British Empire longer than any of Her predecessors.
