It is asserted on the street today that the same treaty presented to President Harrison's cabinet will be brought forward immediately after President McKinley's inaugural.

Dr. Wayson will most likely be the physician in charge of the Hagey Institute after the departure of Messrs. Kirkpatrick and Cowart to Australia next month.

Although this is the dull season of the year, the Honolulu Iron Works have a full force of hands at work, with plenty of orders in sight and several large contracts on hand.

Late arrivals at the Arlington hotel are G. S. Hammond, San Francisco; Chas. E. Rosecrans, Lahainaluna; Mrs. Omer Abbott, Lahainaluna; Wm. Vannatta, Hilo; H. C. Vida, S. P. Woods and T. N. Davis, city.

Dairymen were on hand in large force at the meeting of the Board of Health, to discuss the question of compensation for cattle destroyed on account of tuberculosis. They were disappointed by the postponement of the matter.

Information for Tourists.

A passenger by the last Colonial steamer was met on the dock by a Milesian American friend, who resides in Honolulu. As the pair waited to have the newcomer's gripsack scrawled over with chalk marks by the Customs Inspector at the gate the stranger remarked to his friend "Do you 'ave much rain 'ere?" "RAINIER me boy, gallons of it, just come up to the Anchor Saloon where they keep it always, clear and cool. We'll just be in time for lunch too and that's the only place in town where they serve it up in proper style with a glass of RAINIER BEER to equilibrialize the solids—They went!

Island Butter.

There is butter and there is butter but there is no butter that arrives in Honolulu so sweet and fresh as the Mikilua and Waiance Butter. Its rapid transit by rail direct from the dairy to the Palama Grocery's large ice box so conveniently situated opposite the railway depot enables us to handle it to the best advantage. No wonder we are doing such a large butter business, when we are selling this fine butter at 35c. per lb. Palama Grocery, opposite Railway Depot, King street. Telephone 755.

THE FAME OF OSTEOPATHY.

Testimony of a Honolulu Merchant to the New Science.

The Osteopath, the official organ of the Pacific School of Osteopathy and Sanitarium, Anaheim, California, in its January number says:

The fame of osteopathy has spread even unto the islands of the sea, as is evidenced by the fact that Mr. G. P. Castle of Honolulu has recently visited this country for the purpose of placing himself under treatment in the new school.

"While at the mother institution, he learned, thanks to judicious advertising, that a school for the dissemination of the new philosophy of cure existed on the Pacific Coast, as well as a sanitarium for the treatment of the patients, and on his way home from the East made it a point to look us up, visited Anaheim, where he spent a day interviewing the teachers, patients and students, looking over the buildings and class rooms, with the idea of learning something of our methods, and acquainting himself with our facilities for taking care of our guests and patients.

"He went away well pleased with all he saw, as well as our climate and location, and expressed himself as having no hesitancy in recommending his friends to us, both for treatment and instruction.

"Mr. Castle impressed us as a wide-awake, up-to-date gentleman, one who does not revel in the golden age of the past, believes in present achievements, and sees possibilities in a bright future more glorious than either.

"The interest which such go-ahead people manifest in this science emphasizes the fact that in every age there is only one way or method of doing anything which the world recognizes as above and beyond competition; and in the important matter of relieving and curing human ills, the science of osteopathy marks out that perfect way.

"Mr. Castle informs us that there is great need of osteopathic operators in the Hawaiian Islands. Young men, young women, here is your opportunity. Equip your self with a thorough knowledge of this new science and the world is your field from which to reap a golden harvest and benefit humanity."

HAT GRIND THEIR SUGAR

Weyler Forced to Rescind a Recent Order.

NEW YORK, February 1.—A special to the World from Washington says: American sugar planters in Cuba at last have taken a decided stand. On their demand Secretary Olney has cabled to the Madrid Government that the grinding of sugar cane on American plantations in Cuba must be permitted to proceed immediately claims or against Spain for heavy damages from January 1 will be filed at the State Department. A reply came back from Madrid that General Weyler had been instructed to countermand his order prohibiting sugar grinding, and that the work might begin forthwith. On the strength of this an agent of the sugar planters left recently for Cuba to see General Weyler and to start the grinding.

Citizens Attention.

These are days of considerable anxiety and perplexity to all who have possessions or other interests in the Republic of Hawaii, and it is time that our citizens came to a mutual understanding on several important issues. The prospects for Annexation appear at present vague and indistinct, and our destiny cannot be foretold with certainty. There are those, also, who still fondly cling to the hope of a return to the old order of things, and who cannot be persuaded otherwise, yet this outlook appears far more hazy than that of Annexation even to the most hopeful disciples of the Monarchy. But, fortunately, in the midst of all this uncertainty there is solace in the fact that Buffalo Beer has come to stay and that patrons of all sorts and opinions may equally share the benefits of its invigorating and sustaining properties. We are moreover assured that this favorite brew will continue to be dispensed as heretofore at the Royal, Pacific and Cosmopolitan Saloons.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

LEWIS & Co. W.W. DIMOND'S

In many parts of "the land of the free and the home of the brave" at this time of the year building operations are suspended, and every man has his eye on the coal dealer while watching the water pipes showing a tendency to freeze up. In Honolulu where spring is four seasons in the year, carpenters may work inside or out.

The "Australia" brought us a lot of goods suitable to all classes of people and we sell them to dealers or consumers. Person buying in quantities get the benefit of wholesale rates. Many of them do this because a penny saved is a penny earned.

We have California Apples, Kidney Potatoes, Whole Wheat Flour, Cream Flake Wheat or Oats and Morning Meal. These cereals are what every person with a regard for health should use. Then we have kits of choice Mackerel or Salmon Bellies, Navel Oranges, Herrings and Chipped Beef, Extra Fancy Creamery Butter in blocks or kits for family use. Extra large Bloater Mackerel (wholesale or retail), Fat Salmon Bellies (to trade or consumer), Sliced Lemon Cling Peaches, in 1 and 2lb. tin, largest variety of Cheese ever imported, Camembert, Kronen Kaiser Fromage de Brie and every known brand.

There are besides the above 43 different items; more than we have space to mention.

These goods are fresh by the "Australia" and there is variety enough for one to pick out a very respectable dinner menu. Our goods are well-known and the quality of them has never been surpassed in Honolulu. A telephone message will bring you what you want.

The unusual operations of the past year has had a depressing effect upon edge tools, for, like everything else, they give way with too constant use. We have, in view of the prospective demand, made a big buy of the finest grade of tools obtainable in eastern markets; they are what carpenters and machinists need all the time and when buying the best they get is that which lasts longest and obviates the necessity of "breaking in."

We have the Millers Falls Company ratchet brace, with drill attachment. The Elkin's saw file. Bailey's adjustable blade, wood and iron base planes. Steel tape measures, guaranteed to be accurate. Two-foot rules in ivory and bound with German silver. Olmstead's improved mitre boxes. The "New Roger's" foot power scroll saw with drill and emery attachments. These goods are all guaranteed first-class.

Lewis & Co., GROCERS., Fort Street, Honolulu.

Mr. W. W. Dimond, Von Holt Block.
