Pure, Rich Blood

is the soil in which roots life, health, strength, happiness. The soil of the blood can be drained or impoverished like any other soil, and can be fertilized and nourished in a similar way. You can get back the old spring and snap. You can enjoy labor by day and sleep by night. You can eat your food with the

Hearty Appetite

of health, if you only supply the blood with its lacking nutriment; vitalize it, or if you like, fertilize it. A large number of so called tonic remedies are disguised stimulants. Ayer's Sarsaparilla is not a stimulant but a nourishment. It feeds the blood and so enriches it, as well as purifies it. That is why physicians recommend

HOBSON'S NEW YACHT.

Handsome and Modern Craft Arrived in the S. C. Allen.

Thos. W. Hobson received his new yacht on the bark S. C. Allen. It is a nice catboat, and will probably make a diversion on Regatta Day. Sorenson & Lyle are fitting out the yacht with mast and upper gear.

The name of the yacht is to be the "Clytie"—the diminutive of "Clytie"—the diminutive of "Sunflower." She is of oak frame and cedar planking, her dimensions being: length over all 23ft., length water line 17ft., beam 8ft. Her draught is 30 inches, and she has a lead keel of 1500lb. outside. She is a centerboard catboat, and will carry 400 square feet of mainsail, besides a jib as auxiliary.

V. D. Bacon of New York, one of the cleverest young designers in New York, drew the plans of the Clytie. One of her special features is the overhang forward. The cabin is as high as that of the Hawaii and quite roomy, having space for four bunks. Everything about the yacht is modern, including patent steering gear and sail hoist.

President Wight.

C. L. Wight, president of the Wilder Steamship Co., returned in the Australia looking the picture of health. In answer to a BULLETIN report he said the company's new steamer—sister vessel to the Helene—would be completed at the Union Iron Works in January. The Claudine would, he believed, be sent over to have new bow plates put in shortly. Mr. Wight was enthusiastic over the visit of Senator Morgan and the four Representatives elsewhere named, and seemed glad that Wilder's was in a position to place a steamer at their service the day of their arrival.

Mate Johnson's Body.

The body of Mate August Johnson, late of the barkentine Irmgard, was found in San Francisco harbor near Emeryville stockyards on the 6th inst. There were no marks on the body which might tend to establish suspicion that the man was murdered by his boatmate, Charles Benjamin. Benjamin would probably be released the following day.

THE AUSTRALIA ARRIVES

WITH A CONGRESSIONAL DELEGATION ON BOARD.

List of Her Passengers and Matters of Interest in Connection With Them.

The steamship Australia reached Oceanic dock a few minutes after noon today, being about four hours later than usual. She brought 54 cabin passengers and 27 in the steerage. As the steamer came up to her dock Senator Morgan was quickly recognized by those in waiting. The distinguished Senator is accompanied by a delegation of four Congressmen who leave on the Claudine this afternoon for a special trip to Maui and Hawaii. The personnel of the party and the object of their trip will be found in another column.

Other prominent people on board were:

William Foster, formerly District Judge of Honolulu, returning after an absence of over a year.

C. Hedemann, manager of the Honolulu Iron Works, who has been to San Francisco on business for his firm. He is accompanied by Mrs. Hedemann.

Dr. T. W. McConkey, one of the physicians under the Board of Health, and his wife, returning from a vacation.

Mrs. George H. Paris and child, who have been visiting relatives at the Coast for some months past.

C. B. Ripley, the wellknown architect, who has been to California on a combined business and pleasure trip.

N. S. Sachs, of the Fort street dry goods establishment, who brings back a big consignment of the latest novelties in millinery, dress goods, etc.

C. Van Voorhis, a prominent resident of Rochester, New York, who is well provided with letters of introduction to leading citizens of Hawaii.

Captain John Good, formerly of the National Guard of Hawaii, who has been away considerably over a year. Captain Good was called to Los Angeles by the serious illness of his mother. The death of an uncle at Rochester made it necessary for him to visit New York state, taking in Chicago and other cities en route. He also paid a visit to the historic battlefield of Gettysburg and spent some time in the lively little city of Cheyenne, Wyoming. Captain Good has returned to Hawaii for good and will embark in business shortly.

Following is a full list of the cabin passengers:

Mrs. E. Bell, H. B. Bell, wife and child, Hon. A. S. Berry, Miss Berry, W. Blaisdell, Chas. R. Blake, Miss C. E. Bray, Hon. J. G. Cannon, Mrs. C. Castle, Miss L. M. Cunningham, H. Deacon, P. F. CONGRESSIONAL DELEGATION.

Arrival of Senator Morgan and Four Representatives.

Hon. John T. Morgan, United States Senator for Alabama, arrived with his two daughters in the Australia. Senator Morgan was met on the upper deck of the steamer at the Oceanic wharf by Ministers Damon, Smith and Hatch, as well as an informal delegation of citizens including Dr. J. S. McGrew, J. B. Atherton, Senator McCandless, Professor Alexander, Rev. Dr. Bishop, Jas. B. Castle and others. Mr. Hatch made the presentations, and the Senator with quiet cordiality returned the salutations. In answer to a question by a BULLETIN representative, the Senator intimated that he intended to remain in the islands quite a while.

Besides Senator Morgan there arrived Hon. H. C. Loudenslayer, Representative for New Jersey, and wife; Hon. J. G. Cannon, Representative for Illinois; Hon. A. S. Berry, Representative for Kentucky, and Hon. J. A. Towney, Representative for Minnesota. Congressman Loud of California was booked to come, but for some reason was detained.

President C. L. Wight of Wilder's Steamship Co. being on board, arrangements were made for an excursion to Hawaii. The visiting statesmen will embark, with some company from Honolulu, in the steamer Claudine, which will leave for Hilo this afternoon.

Passengers by the Australia speak in warm terms of Senator Morgan's good companionship, as well as that of the other public men, on the passage.

While in San Francisco the Senator from Alabama accepted an invitation from Irving M. Scott to visit the Union Iron Works, and received most hospitable attentions from other prominent citizens. At a reception tendered him by the Native Sons of the Golden West, a San Francisco paper says:

"Senator Morgan was introduced and was greeted with great cheering. He expressed his surprise at the magnificent reception that had been given him and his thanks for the expressions of esteem that had been showered upon him.

"The Senator explained his visit to the Hawaiian Islands as being to study the conditions there, geographically and otherwise. He thought that when a citizen performed his duty honestly he was entitled to the encomium of 'Well done, thou good and faithful servant.' He felt that in doing his best to serve the people of the United States he served them only inefficiently. They were the most powerful, the most majestic, the freest and the most noble people under the face of the sun."

Mr. Morgan is not going in the Claudine party. The excursion is arranged for the benefit of the four Congressmen, as they intend returning home by the Australia next week.

The party will be conducted to the volcano House, inspecting the coffee lands on route.

Attorney General W. O. Smith, Mr. Wight and, probably, Professor Alexander will accompany the party. The Claudine will return with the visitors on Sunday morning, giving them more than three days to see this island, with its sugar and rice plantations, and the capital city.

Senator Morgan will stay at least a month.

P. C. Jones and others are getting up an excursion to Pearl Harbor for Senator Morgan tomorrow morning.

BRITISH PACIFIC CABLE

IMPORTANT CONFERENCE JUST HELD AT VANCOUVER.

John W. Mackay Interested—Scheme Assured—Delegates to Hawaii.

Vancouver, B. C., September 6.—The following named telegraph magnates held a closed meeting today in Vancouver in connection with the proposed cable line from Vancouver to Australia: George G. Ward, vice-president and general manager of the Commercial Cable Company; S. S. Dickenson, superintendent of the company at Canso, Nova Scotia, where the Canadian Pacific line connects with the Atlantic cable; R. V. Dey, secretary to President John W. Mackay; J. Wilson, Pacific Coast superintendent of Canadian Pacific telegraphs; L. W. Storrer, superintendent Pacific Postal Telegraph Company.

After the meeting no news of a direct nature could be obtained regarding the business transacted, but statements were freely made that inside information obtained warranted the announcement that a Canadian Pacific cable from Vancouver to Australia would be an assured fact at a comparatively early date, and that the present meeting had to do with some very important preliminary arrangements in which Millionaire John W. Mackay is to take a very prominent part.

Mr. Storrer stated that his company would, of course, handle the Pacific cable work at this end, and that he, with others, would inspect the proposed landing stages in British Columbia at once. The entire party will leave for Victoria tomorrow. It is said that some of the members will be passengers on the outgoing Australian boat for Hawaii. Many other indications that the long-proposed British scheme is about to materialize are promised to occur in quick succession.
