Late advice indicate that Senator White may have a flex put in his ear on the annexation question by his own party in California. It is intimated as a possibility that the State Central Committee of the Democratic party, at its next meeting, will have a resolution submitted to it favoring the annexation treaty. While the chance of its not passing is acknowledged, the resolution is calculated to have great influence at Washington, as against the stand taken by Senator White in opposition to the scheme.

AN EXPLANATION IN ORDER.

Citizen Declares that Sunday Law C-p Fits Only Certain Heads.

About a year ago the Attorney-General notified steamship agencies that no vessels would be allowed to discharge or receive freight at this port on Sunday. A leading agency of Honolulu complained against the order, as it came out after their schedules for the year had been issued. Last Sunday morning, however, the Mogul dropped in, discharged freight all day and sailed again at 5 in the afternoon. Her crew, the entire customs force, wharf stevedores, quarantine guards and extras and a dozen other men were compelled to work.

"It is most inconsistent," said a prominent citizen and government official, speaking of the matter. "Mail steamers are put out and inconvenienced by a rule that was not made to apply to this vessel. What makes the difference? Perhaps it is not so much a sin for a good church man to make Sunday slaves of his employes as it might be in the case of a concern that thinks less of such matters. I say the worst kind of discrimination has been practised."

It is notable that on the very day the big forces of men was at work discharging the steamship Mogul at Oceanic wharf, the police arrested several Chinese fruiters and closed a bicycles tore for "working on Sunday."

WILL RECEIVE MEDALS.

War Department to Reward Veterans of the National Guard.

Members of the National Guard who have served five consecutive years in the regular or volunteer forces will be given a handsome souvenir by the war department. This applies to officers and men alike. Three officers passed the five-year period on January 21, and about 50 commissioned officers, non-coms. and privates will cross the line on or about February 9.

Just what the souvenir will be has not yet been fully determined, but a handsome bronze medal, appropriately engraved, seems to meet with the widest favor. Colonel McLeod, Major Jones and other officers are partial to this idea. The medal will bear some Hawaiian emblem, perhaps the coat of arms, and a statement of the service for which it is struck, with dates, etc. It will be a souvenir that the men will keep and prize.

New Driving Rig.

The Club Stables have received by the S. N. Castle a new three-seated surrey which is the most stylish on the Islands. The importation of this vehicle shows that the management of the Club Stables are alive to the march of progress and are keeping up with the times. The surrey was out this morning attached to four fine horses. Charlie Bellina handled the ribbons and representatives of the press were given a ride and were very much pleased with the smooth and easy running of the rig.

Ferment in France.

Paris mobs in the Dreyfus excitement on the 23d were held in check by troops.

The anti-Semitic excitement culminated in a free fight on the floor of the French Chamber of Deputies. Several combats between members were going on at once. M. Brisson, president of the chamber, left the chair and the tribune was cleared by force.

After a hot debate on the Dreyfus matter, the French Ministry received a vote of confidence by 376 to 133. M. Jaures declared that for 26 years past the Republic had been controlled by financiers, and, he exclaimed, "The Socialists are prepared to defend the true republic."

There is rioting in Algiers against the Jews. People have been killed and strong forces of soldiers are out to restore order.

A mob smashed windows of Hebrew houses at St. Malo, France.

The Cuban Situation.

The U. S. battleship Maine has been ordered to Havana. There are now at the Dry Tortugas, in command of Admiral Sicard, and within easy reach of Cuba, five battleships exclusive of the Maine, four cruisers, one monitor, five torpedo boats, a dynamite cruiser and a dispatch boat. With the exception of the torpedo boat Cushing, there is not a back number in this squadron.

Minister de Lome of Spain called at the State Department in pursuit of information concerning the movements of the Maine. He asked and was freely permitted to see the orders sent to Admiral Sicard, directing the Maine to proceed to Havana. The Maine had just joined the North Atlantic squadron and for this reason all orders to her go through Admiral Sicard. The fact that the Spanish Minister was shown the orders is regarded as an indication that there is nothing of a threatening or bellicose nature in them.

The Maine was sent in response to a cablegram from Consul General Lee.

Cubans are taking heart over the vigorous naval demonstrations of the United States.

General Castellano has destroyed Esperanza, at the extreme west of the Sierra Cupitas, the headquarters of the insurgent govern-

ment, which moved to Navajaz, saving documents and files. When the insurgents retired they left fifty-seven of their number dead on the field, but carried away their wounded. The Government troops lost twenty seven killed and eighty seven wounded.

Just before the Maine was ordered there was news of alarming demonstrations against the American colony in Havana. General Blanco had posted troops about the legation to protect Consul General Lee.

FIRE ON THE PENINSULA.

Clarence Macfarlane's Cottage Mysteriously Burned Last Night.

Clarence Macfarlane's house at the Peninsula was burned sometime last night. This morning the neighbors found the place in ruins. That is all known of the matter.

A man named Charles Lillii was taking care of the place during the absence of Mr. and Mrs. Macfarlane in the East. He claims to have been out last night and to know nothing of the fire.

The fire was surely of incendiary origin. It is believed that the house was robbed and then burned.

Mr. and Mrs. Macfarlane returned by the Australia this morning. They were apprised of the mishap soon after landing.

The house was a very cool and commodious retreat, erected by the late S. Roth for himself.

CONCERNING THE TREATY.

Continued from First Page.

say they will insist upon a vote upon the resolution as it stands.

The pension appropriation bill will be called up Monday, and as soon as it is disposed of the Senate will be asked to take up the legislative, executive and judicial appropriation bill. Each of these will provoke some debate, but it is not expected to be prolonged in either case. When the treaty next comes up Senator Teller will be recognized to speak in its support, and he probably will be followed by Senator White in opposition. The vote on the treaty now appears at least three weeks distant.
