Well Made and Makes Well

Hood's Sarsaparilla is prepared by experienced pharmacists of today, who have brought to the production of this great medicine the best results of medical research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly intended by Nature herself for the alleviation of human ills. It purifies and enriches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofula eruptions, boils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system. It entirely overcomes that tired feeling, giving strength and energy in place of weakness and languor. It wards off malaria, typhoid fever, and by purifying the blood it keeps the whole system healthy.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. \$1; six for \$5.

Hood's Pills cure all Liver Ills and Sick Headache. 25c.

The Keauhou was passed at Lahaina and will bring a full cargo from that plantation tonight. The Mauna Loa returns to Kona next Tuesday as usual.

The opposition to the Federation bill of the convention in Australia is making a strong fight. It is the proposed constitution rather than the principle of union which is opposed. The history of the Canadian confederation movement is being repeated.

THE HOUSE THIS MORNING

Oahu Railway Is Granted Extension of Time in Its Charter.

Resolution is Passed on Harbor Matters—Mr. Damon Wants a Board of Public Works.

The Committee on Public Lands submitted a report on Senate Bill 9, being an Act entitled "An Act to further provide for the construction of railways on the island of Oahu," said bill more particularly relating to further time being granted for construction with extension of franchise.

The Committee recommended the passage of the bill, stating that they considered that said extension of time may well be granted to assist an enterprise which has successfully coped against so many set backs, and has brought the outlying districts into close communication with the capital, and has been the inducing factor in inaugurating the establishment of several sugar plantations, and has materially aided in the general prosperity and taxable value of lands.

House Bill 55, to authorize and provide for the construction, maintenance and operation of a street railway or railways, in streets and roads, on the Island of Oahu, and known as the Rapid Transit Bill, came up for third reading and passed by a unanimous vote of 14 ayes.

Report of the Special Committee in relation to tide lands, Honolulu Harbor, came up and a motion to lay the report on the table was lost. The resolution introduced by Representative A. G. M. Robertson, as amended by the report of the Public Lands Committee, came up for consideration. Rep. Robertson urged the passage of the resolution, notwithstanding the fact that the executive had declared a harbor policy.

Minister Damon stated that the need of the Government today was a Board of Public Works, consisting of five or seven expert and competent men who could consider all questions of harbor improvement, and whose advice would prove invaluable to the executive. Such resolutions could pass without number by the legislature and still they would not strike at the vital point.

He stated that he would not begrudge any amount if spent on the Richards street slip wisely, but that the wasting of \$25,000 by pottering around and for the purpose of giving employment to men for political purposes, he did strongly object to. This statement was loudly applauded by members of the House.

Representative Achi urged that the Resolution be postponed until next Wednesday until the Committee on Public Lands could report upon the new plan of the Executive.

Rep. Gear asked to suspend the rules for the purpose of introducing a resolution, to the effect that a bill be passed by the Legislature providing for the establishment of a Board of Public Works. Mr. Gear was ruled out of order.

The concurrent resolution of Rep. Robertson, as amended by Public Lands Committee and Rep. McCandless, finally carried, after much squabbling and attempts to adjourn by the following vote:

Ayes—Loebenstein, Richards, Paris, Pogue, Robertson, Atkinson, Kaulakou, McCandless and Wilder—9.

Noes—Achi, Kahalelio, Gear, Isenberg and Kaco—5.

J. H. Weavers, a well-to-do citizen of Vineland, N. J., has gone to jail rather than pay his poll tax of \$1.30. He realizes it may mean life imprisonment but declares he will not allow the authorities to extort from him what wealthy men keep in their pockets.

DEWEY'S REPORT AWAITED.

Continued from First Page.

New York, May 4.—A Washington special to the Herald says: "To the bad condition of the Temerario's boilers, the large number of desertions from her crew are due, and the failure of the Spanish vessel to attempt the destruction of the battleship, Oregon. Reliable information has reached the authorities at Washington from Buenos Ayres that extensive repairs will have to be made to the Temerario's boilers before she will be able to leave La Plata River. More than a quarter of the complement of her men have deserted.

President Dole's Offer.
Honolulu, April 27, via San Francisco, May 4.—President Dole has sent a long communication to President McKinley, offering to transfer the Hawaiian Islands to the United States for the purpose of its war with Spain, and to furnish Americans in Pacific waters with large quantities of coal, supplies and ammunition. This action was taken by the Executive just after a secret conference of the Hawaiian Cabinet, called to discuss the position toward the two belligerents.

Senator Frye, speaking of the report from Honolulu, said that he hoped that the President would accept the offer of aid tendered by President Dole. The members of the Committee on Foreign Relations generally interpret the report to indicate a willingness to form an alliance with this country in the war with Spain. They say that for the Islands to have held aloof and insisted on remaining neutral would have been equivalent to refusing coal or granting any courtesies to the United States during the war, and that the action now taken will put the Islands in the way of doing this country any favor possible.

To Annex Hawaii.
Representative Nevada, of Nevada, has introduced a joint resolution for the annexation of Hawaii. It provides for the confirmation of the cession by the Hawaiian Republic of all rights of sovereignty over the Islands, and is really a duplicate of the treaty in all its provisions.

Fake Stories.
Dispatches from both Washington and London are emphatic in denying reports of cablegrams from Manila, telling of Dewey's position and great loss of life on the Baltimore in the battle. Nothing at all has been received since the cable was cut.

The Associated Press learns that Emperor William and Czar Nicholas are very much disturbed as to the ultimate destiny of the Philippines, and that some sort of immediate intervention is extremely probable.

Disturbances at Madrid.

London, May 4.—The Madrid correspondent of the Daily Mail says: There is no longer any doubt that the internal situation is causing the Government almost as much uneasiness as the external. Last night's demonstration was one of the most serious in some time, since those openly participating showed their revolutionary tendencies. Cries were raised of "Down with the Bourbons," "Long live Don Carlos," "Long live Weyler."

Porto Rico to Fall.

Washington, May 5.—Persons who were with the President today assert that there is a strong likelihood that Porto Rico will be in the hands of the United States in 48 hours.

New York, May 5.—Four Spanish warships are reported off Barbadoes, watching for the Oregon. A naval battle is expected.

Letter Mail and Verbal Reports.

Outside the press reports, it is reported that Admiral Dewey is afraid to come out of Manila harbor on account of mines and torpedoes. He has divers engaged in locating and destroying the obstacles.
