WAR PLATFORMS.

PLATFORM ON WHICH THE DOLE PARTY SOUGHT TO TURN HAWAII OVER TO THE ENEMIES OF THE UNITED STATES, AND NOW PROPOSES HESHAL BISHOP APPOINTED GOVERNOR OF AMERICAN TERRITORY.

FROM THE SPEECH OF CONGRESSMAN HITT AND PLATFORM ON WHICH CONGRESS PASSED THE ANNEXATION RESOLUTION.

The official organ, so accustomed to being led, continues to follow weekly in the wake of the BULLETIN.

"Hail Columbia," but there's no "happy land" in the refrain as sung on board the poor old City of Columbia.

It is to be hoped that by next Christmas the children of the free-kindergartens can celebrate their holiday at Aala park.

While Honolulu has had a feast of outside entertaining talent, it still finds itself ready to hear and be pleased with our local talent.

Judging from the mercantile reports the holiday season finds Hawaii prosperous; merchants with large stocks on hand and the people with money to buy.

It is a remarkable coincidence that the official organs of Spain and the official organ of Hawaii stand on the same footing regarding the advance in the respective territories of liberal Americanism.

Now that Hawaii's destiny is settled, it behooves the Chamber of Commerce to establish close connections with the Philadelphia Museum, and any and all commercial organizations in the States.

The establishment of another savings institution indicates that while the large financiers are to be supplied with their national banking privileges, the small investor and day laborer is not to be forgotten.

One of the first important matters to be taken up by Congress will be special appropriations necessitated by the war. It remains to be seen whether the Democrats and Populists will now give the united support to these appropriations that they gave the noted fifty million appropriation for defense.

John Hyslop, a mariner of considerable note, who was one of the survivors of the steamer Mohegan wreck, indicates that the exclusive use of electric lights on ocean steamers is a serious mistake. Mr. Hyslop says: "It was wrong and unfortunate that the vessel was supplied only with electric lights. When her engines stopped every light was extinguished, and we were left in darkness. Had there been even a single lamp at the masthead, it would have served as a beacon to guide the life savers to us, and many more lives might have been saved."

Summing up its comment on Chief Justice Judd's baseless decision in the Chinese immi-

gration case, the Advertiser says, "It is fortunate that the opinion is clear and well considered." This is the prattiest example of damning the Chief Justice with faint praise that the official organ has offered. No other inference can be drawn from this than that the official organ feared an ambiguous and ill considered opinion. It has not the courage of its conviction to say the Chief Justice is right, and to stand honestly by its official friend. Thus the official organ has its friendly knife out to slash the judicial throat of the compact it represents. Mr. Judd's decision is a strong one and appeals to the sentiment of common justice among laymen. The Chinese in question left Hawaii before annexation, and fulfilled all the requirements of the law. The annexation resolution had not been even completed. Had the same men left Hawaii after the annexation resolution had been signed by the President, the problem of decision would have been vastly different.

RECORD OF MISREPRESENTATION.

The winning strength of the local Americans and annexationists in their support of Mr. Sewall for the first governor of Hawaii is now fully demonstrated by the official organ deserting Mr. Dole and confining its attention to personal attack upon Mr. Sewall.

The BULLETIN has proved conclusively that President Dole has not the support of any newspaper or any organization in this territory. After President Dole explicitly announced, in a dictated statement, that he could not nominate himself, after President Dole in that statement draw attention to the wisdom of local people expressing their preferences for governor, the official organ owned and edited by his former official friends refuses to endorse his candidacy. The policy of the official organ is now "Give us anyone for governor except President Dole or an honest, loyal American."

The Advertiser has by its own statement proved itself a studious perverter of facts and a champion of misrepresentation. It proved this when it stated that Mr. Sewall was circulating a petition among the natives. That statement was a bare faced lie. It showed itself an organ of false statements when it said it had had no conferences with any one in the Dole party regarding the governorship "within a year." It misrepresents public sentiment when it charges the rank and file of the annexation party with advocating the appointment of a carpet-bagger. It knows that Mr. Sewall has resided here longer and has larger local interests than many men who have been favored with offices by the Dole government. The Advertiser raises a bugbear about Japanese laborers, when it knows that whoever is appointed governor, and is honest in the administration of his office, must and should place an honest American interpretation upon American laws. As we have previously stated, the official organ champions—as it did in its cowardly war neutrality campaign—disloyalty to the American flag and disloyalty to American principle. With such a record behind it, possibly no surprise should be felt that the Advertiser is now disloyal even to Mr. Dole.

THE RUG SALE.

A Big Crowd of Artistic People Attended and Purchased.

A big crowd of artistic people attended today the sale of imported Turkish and Persian rugs, conducted by James F. Morgan in the Bruce Waring & Co. building on Fort street.

Mr. Morgan did the selling while Mr. Mihran deanted on the beauties of the articles sold. Some great bargains were secured. The sale will be resumed tomorrow. Its an elegant collection.

FROM OFFICIAL TEXTS.

LORRIN A. THURSTON'S ARGUMENT PREVIOUS TO ANNEXATION.—Shut off the source of (The Chinese and Japanese) supply, and in ten years there will not be Asiatics enough left in Hawaii to have any appreciable effect. * * * The cane sugar planter of Hawaii pays now somewhat less wages per month than does the beet sugar planter, although not as much less as is generally supposed, the average laborer in Hawaii costing the planter from fifteen to eighteen dollars per month. Under annexation, the Asiatic supply of labor will be cut off, (the italics are Mr. Thurston's) and this slight advantage will be eliminated.

LORRIN A. THURSTON'S PAPER, THE ADVERTISER, ON DEC. 16, 1898.—The Dole Government, in order to prevent bankruptcy and ruin, permitted the importation of Japanese laborers. Those interested in the business industries of the country (Hawaii) will see at once the danger of carpet-bag (American) government.

The BULLETIN has simply presented the arguments of Mr. Thurston and the official Dole circle before annexation. DOES THE OFFICIAL ORGAN NOW REPUDIATE THE ANTE-ANNEXATION ARGUMENTS PRESENTED BY MR. THURSTON?

Turn Out Footballists.

The captains of the various Rugby football teams wish to inform all men of their respective teams that there will be practice on the Makiki baseball grounds at 4 o'clock tomorrow afternoon. The time and place well understood and the street cars handy, there is no reason why the players should not turn out. If the public knows there has been no practice, they will not turn out to the games. Tomorrow, sides will be picked and a scratch game played.
