

EVENING BULLETIN.

Published Every Day, except Sunday, at 210 King street, Honolulu, H. I., by the BULLETIN PUBLISHING COMPANY.

THURSDAY, JUNE 1, 1899

Wanted—By the citizens of the Hawaiian Islands, a few of the benefits of the American constitution.

The wheel of the proposed bicycle trust has been punctured because the promoter used too much wind and not sufficient coin.

The Czar's Peace Congress still continues to be a good thing—on paper. Practical advantages to be secured from the discussion are not yet in sight.

Hawaii is glad to greet the men returning after their muster out of the volunteer service. Men who are ready to follow the flag and uphold its honor in days of strife are the kind of new citizens wanted.

Where does Hawaii get off with these volunteer troops returning from the Philippines? It is to be hoped some of the transport ships will take the Honolulu route, so the people here may know the boys haven't forgotten them.

Tom Platt publishes an interview endorsing President McKinley for a second term. Platt has ever shown that he is in close touch with the sentiment of the people. Keen politicians seldom butt their heads against a stone wall.

Now Cuban ship owners turn up without a country. They can't remain Spanish and they can't obtain full American register consequently a special Cuban flag is granted. It's lucky for the world at large that hold pirates are not couraging the raging main.

If it is absolutely necessary that the September elections be held it is not only necessary but an absolute duty that every qualified citizen shall register and cast his ballot. But what possible benefit is to be derived by the people in going through the form of an election; paying the price for electing men who can't accomplish any work?

Opinions on the financial situation expressed by W. G. Irwin are the opinions of one of the ablest financiers and business men of the territory and always attract more than passing attention. Mr. Irwin however puts it rather strong when he says that most of the people buying shares in the new plantation schemes buy for speculation. This indicates that the "heavy" financiers are speculating as well as the little fellows who foolishly put their houses and land in "soak" to get ready cash. The heavy weights would at least be disposed to plead "not guilty."

PROP. FREIN AT STANFORD.

Stanford University, May 23.—It was announced today from the president's office that Pierre J. Frein, now a graduate student in Johns Hopkins University, has been appointed instructor in French in the university, to commence work next September. Mr. Frein took his A. B. degree at Williams College in 1892. He taught French and German for the year in the Holbrook Military Academy at Sing Sing, N. Y., and then took a position in Oahu College at Honolulu, where he taught Greek and French for two years, resigning his position to enter upon advanced studies at Johns Hopkins University, where he graduates with the degree of Ph. D. in June. The subject of his dissertation for this degree is "The Phonology of the Patois of Fleish" (Ct. Berne, Switzerland). Mr. Frein is of French descent, and, though born in America, French in his native tongue.

The oath of office was yesterday administered to Fred Hacks Lauka as deputy clerk of the Judiciary Department by Judge Whitling.

ament and naturally ask questions that will lead to support his position and each member is ignorant of the orders of the other.

"The Malietoa people ashore were very much hurt by the triumphal entrance of the Mataafa people into the harbor. They naturally thought some concession had been made them but they were very soon reassured and told of how the thing came about. The Germans having the launch had arranged matters to suit themselves.

"Just now, things are very quiet in Samoa. The Malietoa people are waiting at Mulinoa and the Mataafa people in their hiding places about Apia for the decision of the Commission. It might be mentioned here that when we sailed from Samoa it was anticipated that the Badger would remain there for about a month or six weeks longer. Before that time the protected cruiser Newark and the gunboat Marblehead will be there to protect American interests. The Brutus had not left but had sailing orders for Manita, via Guam. The Scindia is to take her place in Samoa. The ships remaining in Samoa when we left were as follows: Tauranga, Porpoise and Torch of the British Navy, Badger and Brutus of the American Navy and Falke of the German Navy.

"It might be mentioned here that had the Badger remained away about a week longer, we would have had the Samoa question settled. We had the Samoans under Mataafa on the run. Their ammunition was about out and the followers of the rebel leader were about ready to give up. When the Badger came, all action ceased and the rebels had time to strengthen themselves.

"On May 27 the Philadelphia met the Moana a thousand miles or more away from Honolulu. Both vessels stopped and fourteen bags of mail were transferred aboard the Philadelphia. We left Samoa with the intention of taking the Moana's course. That we did this only too well is proven by the fact that that steamer emerged from a rain squall on the day mentioned just two miles ahead of us. We were beating down on each other bow on.

"The bodies of Lieutenant Lansdale and Ensign Monaghan were disinterred a day before we sailed from Samoa and are now aboard the Philadelphia. They will be taken to the States for burial.

Want Doctor Appointed.

The American Sugar Co. of Molokai has sent in a request to the Board of Health through its agents here that a Government physician for that part of the Island of Molokai outside of the leper settlement. The plantation offers to build a house for the physician and to pay \$75 a month toward his salary.

Rabbi M. S. Levy and daughter arrived in the Gaelic. An interesting talk the Rabbi gave the BULLETIN is deferred owing to a crush of foreign and local news.

In the Police Court this forenoon, Ah Oi, the Chinaman arrested in connection with a robbery at Dr. Murray's home, was committed to the Circuit Court for trial.

R. G. Van Ness was arrested last evening on complaint from the Hawaiian hotel. He is under investigation but the charge of vagrancy will probably be entered against him.

The premises of Mrs. Ward on King street have been cleared of all weeds and brush and now it will be difficult for any one to get in for the purpose of stealing coconuts without being seen from the house.

Deputy Marshal Chillingworth had a chase to Waikiki last night on being informed that there was a mill in progress. He found that there was only a friendly sparring match between Denny Martin and a friend from the transport Sherman going on.

Many of our old residents fail to appreciate the wealth of beauty nature has lavished on Hawaii Nei. It is left to the stranger, who knowing a good thing when he sees it, wends his way to KING BROS., 110 Hotel street, for photos to perpetuate the memory.

WITH THE DOCTORS.

There was a full attendance at the meeting of the physicians last night. The association decided to hold a meeting on the night of the first Saturday of each month. The first meeting will be held in July. Dr. Hoffman told of a piece of surgery done by himself and Dr. W. E. Taylor in this city, and Dr. Taylor exhibited a jar full of crockery and glass that a woman in California had swallowed. It was afterwards removed from the body by an operation.

A general discussion on fevers took place. Typhoid, malarial and the other fevers peculiar to this climate were dwelt upon. It was generally conceded that typhoid fever had only made its appearance here during the last two or three years.

The annual banquet will take place at the Pacific Club this evening. The President and physicians of the Board of Health, physicians of the Army and Navy and visiting physicians will sit down with the members of the association.
