Omaha Awards.

Circulars have been received by the Honolulu winners of awards at the Greater American Exposition, from an Omaha company having the exclusive right to furnish diplomas and medals. Owing to the financial deficiency in the Exposition treasury the testimonials are at the expense of the recipients of awards.

KALIHI PUMPING STATION

Lowest Tender Away Beyond Amount Appropriated by Legislature.

New Tenders May Be Called For—Machinery Is Ordered—Precarious Status of All Public Contracts.

Tenders for erecting the Kalihi pumping station were opened in the Interior office at noon today. They were as follows: the first and second in each case being for variations of stone walls and the third for California brick with stone trimmings: James Barry and M. B. McGowan, \$14,989, \$11,444 and \$42,689. Henry Burrows, \$34,099, \$34,949 and \$34,131. L. D. Davis & Co., \$39,865, \$39,000 and \$38,950.

John F. Bowler, \$43,675 for Kaimuki stone and \$39,369 for Palama stone; \$43,986 for Kaimuki stone and \$39,150 for Palama stone; \$40,740 for Kaimuki stone trimmings and \$37,274 for Palama stone trimmings.

Fred. Harrison, \$74,390 for the first description of building only. Lucas Bros., \$49,526, \$47,179 and \$45,283.

Victor Hoffman, "on condition that the money is available," \$43,799 for Kaimuki stone and \$39,689 for Palama stone; \$44,199 for Kaimuki stone and \$39,599 for Palama stone; \$41,199 for Kaimuki stone and \$38,999 for Palama stone.

Mr. Burrows makes the lowest bid, but it is far beyond the money appropriated by the Legislature. The estimate was based on the cost of the Beretania street station, which was \$12,000 by day's labor. It is likely the specifications will be amended and new tenders invited. The pumping machinery has meantime been ordered. Even if the contract could have been awarded on present tenders, the work could scarcely be more than started until it would have to stop, along with other important public works now in hand, through the deadlock in Hawaiian finances which can only be broken by action of the Washington authorities.

MORE FIRE CLAIMS.

Samuel M. Damon, executor of the will of Antonio L. d'Oliveira, has filed his first and final account, charging himself with \$19,806.36 and asking to be allowed \$1,525.31, which makes the balance due the estate \$18,281.05.

Mrs. Rosalie Weir has filed an attested claim of \$35.75 for clothing burned in the laundry at 2 1/2 Beretania street, by order of Board of Health agents. Miss Mae Weir was presented a similar claim of \$31 for clothing lost in the same place, and another claim of \$8.65 for books destroyed by fire in Kaunakapili school. Both ladies are school teachers.

Judge Stanley this morning adjourned Circuit Court term for another week, on account of the state of the public health.

MALICIOUS INJURY.

C. James and R. Davis were arrested early Sunday morning on the charge of malicious injury. A fine of \$5 and costs was imposed on these men in the Police Court this forenoon.

It appears that both James and Davis were at Harvey Chase's Waikiki place Saturday night. Becoming tired of the entertainment at the place, they went out into the yard and "borrowed" back 25. They drove to town but were seen by the owner of the hack later on, the arrest following.

Today Chase was arrested on the charge of selling spirituous liquor without a license and keeping a disorderly house. The police have succeeded in obtaining most incriminating evidence against Chase.

WAILUKU HOSPITAL CROWDED.

Wailuku, Feb. 9.—Malulani hospital, Wailuku, is crowded with Japanese patients from Kihel and Spreckelsville plantations. The careful nursing of the Sisters in charge has won for them the confidence of the Japanese and hence the eagerness to be treated at the hospital.

It is no uncommon sight to see sick Japanese, carried by their countrymen in litters all the way from Kihel, pass through the streets of Wailuku.

NEW CUSTOM HOUSE GAUGER.

Prof. Ingalls has accepted the position of Custom House gauger, but on account of his duties in connection with the fumigating operations of the Board of Health he will not be able to take up his new duties until Wednesday.

MEMORIAL SERVICE.

A memorial service, in memory of the late Mrs. Geo. E. Boardman, will be held in the Christian church at 3 p. m. next Sunday. Rev. J. Hay, pastor, will conduct the service.

NO CASES SINCE SUNDAY

Armstrong Smith Is Not Ill of the Plague.

Bronchial Trouble That Is Not Serious—Sunday's Record Not An Improvement—The Rat Campaign.

2 p. m.—No new cases today. Armstrong Smith is suffering from an attack of bronchitis at the pest house. Some anti-plague serum was injected into his body by Dr. Hoffman yesterday on account of Mr. Smith having been exposed to the plague. Asked about the case this afternoon, Minister Cooper, acting president of the Board of Health said: "You may state officially that Armstrong Smith is not a victim of the plague."

SUSPICIOUS CASES.

Ah Choy, male Chinese, aged 2 years, Maconville, corner South and Queen streets, afternoon of February 10. Suspicious. Patient was sick through the day. Large swelling in the right axilla, with tenderness. Place quarantined and patient being carefully watched for developments.

Kamii, male Japanese, at Wilson's Camp, Kakaako, where the laborers on the sewers are living. Inguinal gland somewhat enlarged but not tender. Serivical posterior glands slightly enlarged. Suspicious.

Aluli, male Hawaiian, aged 25, died at his home in Kalihi valley Sunday. There was a post mortem by Dr. Hoffman and the body was cremated. There has been no report from Dr. Hoffman as yet, but slides have been made. There were some suspicious signs.

KALIHI CAMP NOTES.

The guards and other men doing work at the Kalihi camp were fumigated today, the work of fumigating the people of the various houses having been completed.

Minister Cooper of the Board of Health, acting as president of that body during the absence on Maui of Dr. Wood, called at the camp yesterday and was shown over the premises by Superintendent McVeigh.

In a day or two the military guards will be removed from Kalihi. Dr. Wood of the Board of Health having recommended this on account of the expense. Many people at the camp are of the opinion that the presence of the military there is the only thing that is keeping down a very unruly set of Japanese now in detention. Should the military be removed these fellows might take it into their heads to become bothersome.

During the past week soldiers and others at Kalihi have killed in the neighborhood of two hundred rats. The rodents in that district have a habit of making their nests in the algaroba trees.

Joe Pakanla, the drug clerk of the government dispensary, went out to the camp Sunday to assist Dr. Howard. He will remain there until Dr. Garvin returns from Maui.

"GIVE US SOME MUSIC."

The people at the Kalihi camp are wondering why they are not given a concert by the band once in a while. Captain Berger and his boys serenaded the occupants of the drill shed camps from time to time and go out to Camp Jones very frequently. A little music would do a great deal toward livening up things.

Prof. Berger stated today that he had had positive orders from President Wood not to play at the camp on account of its unsettled condition, but noted that the people have been segregated he hopes to take the band out for a concert at the camp in the very near future. This week will be given up to moonlight concerts in the city.

DEATH LIST.

Matsuge Hirano, female Japanese, aged one month, No. 2 Relief Camp, Punchbowl street, meningitis, Feb. 10. Infant of Yuano, male Japanese, Kalihi detention camp hospital, premature birth, Feb. 10.

Aluli, male Hawaiian, aged 25, Kalihi valley, Feb. 11. Post mortem by Dr. Hoffman and body cremated.

Infant of Kaanana, male Hawaiian, Robello Lane, Kapalama, stillborn, Feb. 11.

Lydia Fernandez, female Portuguese, aged 18 months, tuberculosis enteritis, Feb. 11.

AN AGREABLE SURPRISE.

Superintendent Atkinson of the Kakaako detention camp was very agreeably surprised Saturday evening when, upon being called to the office by some one on what was alleged to be a matter of very great importance, he found the men who have been working under him standing in a group. J. L. McComb, assistant superintendent, stepped forward and, in very appropriate language, presented him with a beautiful watch box on behalf of the guards and Mr. Atkinson's fellow workers.

The locket contains a diamond on one side and the following inscription on the other: "Plague Epidemic. A. L. C. Atkinson, from his fellow workers Kerosene Warehouse Detention Camp, Honolulu, 1900."

Mr. Atkinson responded feelingly and was applauded most heartily. Mr. McComb received a testimonial signed by all the guards in which their appreciation of his efforts on their behalf is emphasized.

FEED THE RATS.

Will E. Fisher, inspector of the Kewalo district, has made a suggestion to the Sanitary Committee, which it approves, relative to rats. He states that professional rat catchers always place food for several days on the spots where they intend to place poison. On the third or fourth night, having gained the confidence of the rats, poison is placed where the food has previously been and gets in its deadly work without frightening the others away; whereas, if poison is placed at the beginning and a rat dies from its effects, all the other rats will give the poison a wide berth. Mr. Fisher has gone into the rat-feeding business, and other inspectors and citizens generally are urged to do the same.

TWO SOLDIERS CAUGHT.

Two soldiers on duty at the lower end of the Kalihi detention camp were caught Sunday forenoon breaking one of the quarantine rules. The matter was referred to Col. Jones who gave the camp officials power to do what they pleased with the men. The two were then taken to the fumigating plant where they were stripped and given a scrubbing with a crush that could easily be felt. They were then given suits of ordinary pelamas and marched to Camp Jones past a line of guards who "guyed" the men until they were glad to turn their heads the other way and increase their pace.

CASES INVESTIGATED.

Pelota, female South Sea Islander, aged 50, South Sea Island settlement, Queen street, Feb. 10. Temperature 104, not suspicious.

Matsuda Mollili, male Japanese, aged 29, Kamollili, Feb. 11, bronchitis.

THE MILITARY WITHDRAWS

Only a Few N. G. H. Men Without Arms to Remain.

Very Satisfactory Conditions at Kalihi Detention Camp—Superintendent McVeigh's Able Role—Good Health of Military.

This afternoon the National Guard of Hawaii will break camp at Kalihi. Colonel Jones will leave a few men without arms, however, to assist Superintendent J. D. McVeigh. These will probably be made special constables for the service.

Colonel Jones said today that the situation was much improved at Kalihi detention camp. There is only one group which gives any trouble, it being composed of the toughest Japanese of both sexes within the camp. The colonel states his inability to adequately praise the administration of Mr. McVeigh. He is known and wholesomely feared, as well as properly respected, by most of the Japanese from their experience of his firm but humane rule of the quarantine station.

At the camp the Japanese are taking hold, not only to do necessary work but to have the regulations strictly observed. They comply readily with all of Mr. McVeigh's orders. One of his effective measures to subdue refractory Japanese was getting them to appoint a grievance committee from among themselves. This gave them systematic representation. Another potent means of keeping the people in check was the giving of due warning that any trespassing of sectional bounds would result in additional detention for perhaps twenty-one days.

Early in the game one of the toughest Japanese refused to submit to the medical examination. When Mr. McVeigh undertook to coerce him, the bully took a fall out of the superintendent. Then, as Mr. McVeigh proceeded to wipe the dust with the rebel, none of the latter's fellow countrymen would heed his appeals for assistance. The result was that the bully became one of the most docile men in detention.

Colonel Jones is very much gratified at the good health of his command in camp. There was no low fever such as arises from insanitary conditions. In this respect Camp Jones compares most favorably with the best camps of United States regulars and volunteers ever established in Honolulu.

BUBONIC PLAGUE ON MAUI

News Brought From Kahului by Kaui Saturday.

Four Deaths and One Suspicious Case—Kahului and Wailuku in Quarantine—Drs. Wood and Garvin Leave.

The steamer Kauai arrived Saturday with letters from the government physician at Kahului, Dr. Weddick, telling of suspicious cases from the Chinese and Japanese quarter near the Custom House. Accompanying these was a package containing one of the inguinal glands of the last Chinaman that had died under the same suspicious circumstances. Slides were made in the afternoon by Dr. Hoffman and plague bacilli in great numbers were found.

Dr. Wood immediately made arrangements for the Kauai to proceed to Kahului with himself and Dr. Garvin. The latter was summoned at the Kalihi camp at 8 o'clock in the evening and the Kauai sailed at about midnight.

Sunday morning the Lehua arrived with George Hons of Wailuku aboard. His mission was to make arrangements for a physician who has had some experience with the plague to proceed to Kahului. The Lehua passed the Kauai in the channel at night. Mr. Hons sent the following communication to the Board of Health:

Kahului, Maui, Feb. 10th, 1900. Dr. C. B. Wood, President of the Board of Health, Honolulu, Oahu.

Dear Sir:—I herewith enclose you a set of resolutions passed at a meeting of the Health Committee and citizens of Maui, held at Kahului this afternoon.

"I would respectfully ask your attention to the same and an immediate reply.

"Mr. George Hons was unanimously chosen to go to Honolulu and present the resolutions to you. The S. S. Lehua is at your disposal and will be ready to bring whoever you may send here.

"Yours very truly, "D. C. LINDSAY, Secretary."

The resolutions mentioned in the communication are as follows: Whereas, there have been five fatal cases of fever in the Kahului district that our physicians are in doubt as to whether it is pernicious malaria or bubonic plague, and there is still a more suspicious case on hand now.

Resolved, That the S. S. Lehua be dispatched to Honolulu with request to the Board of Health there that one or more physicians who are conversant with bubonic plague and properly equipped to determine the nature of the case be dispatched immediately for Kahului.

At this morning's session of the Executive Council, it was voted to request the Council of State for an additional amount of \$10,000, under suppression of the plague emergency, for the completion of detention camp No. 2, at Vineyard street over Nuuanu stream, including the laying of a sewer to the stream.

Owing to the inability of the secretary, C. Bolte, to attend this afternoon, the Council of State will not be convened until tomorrow at 3 p. m.

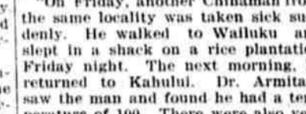

POLICE COURT NOTES.

In the Police Court this forenoon the following cases were disposed of: Kilonia Poepeo, assault and battery on Mary Poepeo, reprimanded and discharged; Wing Toy, violating Sunday laws, \$1 and costs; C. Ying Lang, same charge, nolle prosequi; Minchan, violating Board of Health regulations, \$5 and costs; George Houghtaling, selling liquor without a license, set for February 13; Joe Miguel, riding without a light, \$ and costs.

will return, but this will very probably be tonight. When Dr. Wood left it was his intention to be back last night but, from the fact that he has not yet returned, people are beginning to think that the situation at Kahului is very much more serious than at first supposed. Dr. Garvin will no doubt remain at Kahului.

The opinion of the people of Maui is that the plague reached the island by means of Chinese freight landed at Kahului over two months ago. This was opened at about Chinese New Year time and the cases developed shortly afterwards.

CONSIDERED MALARIA FEVER

The Bulletin's Wailuku correspondent writes, under date of Feb. 9: The towns of Wailuku and Kahului were excited during this week on account of the sudden deaths of three people at Kahului last Wednesday.

During the forenoon San Yeng, a Chinaman, died of malarial fever and during the same afternoon a Japanese woman and her eight months' old baby died of the same malady at the same place.

Drs. Armitage and Weddick and Sheriff Baldwin went to Kahului that afternoon and after examination the doctors declared the cause of death to be pernicious malarial fever. No autopsy was thought necessary by the examining physicians as the malarial symptoms were too plain.

Last Sunday, February 10th, Tong Yon, a Chinaman, residing in the rice plantation near the Wailuku depot, died after several days of illness and Drs. Armitage and Weddick made an autopsy of the dead body and they declared it to be a case of malarial fever. Dr. Weddick examined the glands and saw no plague symptoms.

The locality in which the deaths at Kahului took place, is said to be in a most unsanitary condition. Mr. J. H. Thomas, sanitary inspector, inspected the houses and found them in a horribly filthy condition. The ground floors were low and three houses were adjoined to each other and used but one large bath house with no cesspool at all. The refuse water was allowed to flow under these three houses which rendered them unfit to live in. In fact, all the Japanese quarters at Kahului are said to be in a frightful condition, especially in these wet days. Chinatown in Honolulu is a paradise as compared with the quarters of the Japanese at Kahului. Ah Ming, bookkeeper of the Sam Sing restaurant at Kahului died today of malarial fever also.

These deaths are not causing any alarm to residents of Kahului and Wailuku. All that is wanted is that the agent of the Board of Health be empowered to condemn the quarters at Kahului as unfit for human habitation.

ANOTHER \$10,000 WANTED

At this morning's session of the Executive Council, it was voted to request the Council of State for an additional amount of \$10,000, under suppression of the plague emergency, for the completion of detention camp No. 2, at Vineyard street over Nuuanu stream, including the laying of a sewer to the stream.

Owing to the inability of the secretary, C. Bolte, to attend this afternoon, the Council of State will not be convened until tomorrow at 3 p. m.
