PRICE 5 CENTS.

STREET MACADAM WONT STAND TEST

So Says R. Rycroft an Old Time Road Maker.

GOOD FOR FOUNDATION BAD AS TOP DRESSING

Advocates Four Inches of Crushed As Stone as a Surface for the Streets of Honolulu.

R. Rycroft has ideas about the proper thing in road building as well as first class notions on the subject of parks. He has supervised the construction of some of the best roads on the Hawaiian Islands and points to one on Hawaii, built fourteen years ago, that has never been in need of repairs since the day it was made.

The "aa" rock is the secret of the matter. It is a rock containing a large percentage of silica and is consequently very resistant to the pounding of wheels and the wear of traffic. "The use of 'aa' stone as a top dressing for roads is not my idea," said Mr. Rycroft, "it was originated by Charles Spencer, late Minister of the Interior. If he had lived, he would have put his ideas into extensive use and the Honolulu roads would now present an altogether different appearance.

"As a top dressing, it is a demonstrated failure already. The macadam on King street near the Stock Yards Stables, put down in December, is now in need of repair. The surface is soft and muddy and, on rainy days, water stands on it in pools, showing the places that have worn out in this short time. I know from experience that the streets will continue to be unsatisfactory so long as this unit material is used. It acts as soap stone in water and will not last.

"On the other hand, a road way top

dressed with 'aa' stone, will stand the test and I would urge the department, at least to make the experiment of trying it. The crushers and all the present equipment could still be used for turning out the present style of rock for road foundation. The 'aa' rock is brittle. It needs no crusher and can be shoveled from the place where it flowed as lava, without blasting. There is a fine supply of this material on Maui, near Makana. It could be brought to Honolulu in schooners and, while it might exceed the present material in first cost, I am sure in the end, it would be a great saving of money and result in better streets.

"Experience alone will lead to a preference of the 'aa' stone. At sight, the stone now used would be considered superior, but a trial will demonstrate that our roads are now being macadamized with a very inferior article. It is merely a question of dollars and cents with the public. Our roads have already cost us an enormous sum and still we have no roads. We will not have good roads until a material is used that is capable of resisting the burden of traffic and travel.

"The stuff they are putting on the roads now will grind into mud and we will have neither clean streets, solid nor even streets."

MONIED MEN HERE

NOW TOURING ISLANDS WITH B. F. DILLINGHAM

Loan of \$300,000 in First Class Business Mortgages Placed—Will Invest Further in Securities.

The arrival in Honolulu of the directors of the German Savings and Loan Society of San Francisco, has done more to give tone to the financial and realty market than anything that has occurred here on the streets for some time.

The directors arrived here on the steamship Ventura and ever since their arrival in the capital of the Islands, they have devoted their time to the inspection of the various industrial enterprises in operation in the Islands. At the present time, the entire party is inspecting the other islands as guests of B. F. Dillingham and L. A. Thurston, and will return to Honolulu within a short time. Included in the party are several well known capitalists from the Mainland, who know a good thing when they see it. They have already made several investments.

Up to the present time, the German Savings and Loan Society, through the First National Bank of Hawaii, has placed loans on first class business mortgages and bonds, in the neighborhood of \$300,000.

It is understood that the San Francisco banking concern is not handling sugar stocks, but foreign money coming into a local market always has a tendency to relieve the congested nature of the local money market, which exists at stated periods in all communities, particularly where they are so remote from the principal money centers.

The fact that the German Savings & Loan Society is willing to make loans on island realty, is the strongest kind of evidence that capital is seeking investments in all the insular possessions.

The statement has been made that the Savings Society has purchased quite a block of Oahu bonds, but it is more likely that the gentlemen who accompanied the directors to Honolulu have been the purchasers, as some of them are already interested in Honolulu and Ewa plantations.

Methodist Klondike Party.

Mrs. G. L. Pearson entertained a number of friends last evening at the Methodist parsonage. The party was in the nature of a "Klondike Social," the rooms being decorated with cotton, representing snow and imitation nuggets were conspicuous ornaments.

A delightful program was rendered and refreshments served. Among those present were Mrs. G. L. Pearson, Mr. and Mrs. Lyle, Miss Lyle, Mr. and Mrs. Howard, Mr. and Mrs. Cousins, Mr. and Mrs. Curry, Miss Curry, Mr. and Mrs. Downing, Mrs. Rivenberg, Mr. and Mrs. Bryant, Mr. and Mrs. Stoddard, Mr. and Mrs. Johnston, Miss Taekaberry, Mrs. J. Bachelor, Miss Myrick, Mrs. Nicholson, Mr. and Mrs. Chamberlain, Mr. Loring, Miss Ose, Mrs. Petrie, Mr. and Mrs. Moore, Mr. Max Moon, Harry Moon, Mr. Hubbard, Mr. Leonard, Mrs. Ramsey, Mrs. Moorehouse, Mrs. McAllister, Mrs. Holcom, Miss Fickett, Mr. and Mrs. Ripley, Mr. and Mrs. Anderson, C. J. Rittenhouse, Rev. Silas Perry, Miss Lovett and W. O. Smith.

REDUCTION SALE OF STRAW HATS AT IWAKAMI'S, HOTEL STREET.

SENATOR BROWN BEFORE SENATE

Explains His Position of Yesterday on the Chair's Vote.

MAINTAINS THAT HE WAS CORRECT IN HIS STAND

House Concurrent Resolution on Tax Laws Passed Without Amendment—Many Bills Read By Title.

The Senate met at the regular hour this morning. After the usual preliminaries, Mr. C. Brown arose on a question of privilege stating that he wished to make a statement explaining his position of the previous day, when the President had ordered the sergeant-at-arms to remove him from the Senate chamber. The record of this had been placed on the journal and he wished his statement to appear also. He referred to Subdivision II, Rule 9 of the rules, relating to voting on yeas and noes. The President had no doubt got the rules of the lower house mixed with those of the Senate. If he had been in the wrong no one would be quicker to apologize but he did not believe he had been in the wrong and therefore, he did not care to apologize.

"I admit," said Mr. Brown, "that I lost my temper. If I hadn't, the thing wouldn't have happened."

There being no objection, the Chair ordered the explanation of Mr. Brown spread on the minutes.

Mr. Kalaoukalan, as chairman of the Printing Committee reported as follows:

Your Committee on Printing, after calling on the various printing houses of the city with the view of securing the lowest bids for the printing of Senate bills, begs leave to report as follows on the bids received:

Republican \$1.50 per page
Bulletin 1.50 per page
Hawaiian Gazette .. 1.50 per page
Independent 1.50 per page

Your committee therefore recommends that the printing of the Senate be distributed equally to the printing houses that have submitted bids, this with the consent of the Senate.

This report was adopted unanimously by the committee being ordered to first have all bills translated before putting the same in the hands of the printer.

Senators C. Brown and Achi read by title the bills of which they gave notice Monday. On motion, these went to the printing committee for translation and printing.

Senator Kalaoukalan gave notice of his intention to introduce the following bill:

An Act providing for the exemption of certain personal property from attachment, execution, distress and forced sales of every kind and description and to repeal all laws in conflict with said bill.

Mr. Carter gave notice of his intention to introduce a bill providing an amendment to the Penal Law, Section 764 and 765, relating to Merchandise Licenses.

Under unfinished business, the question of Mr. C. Brown's appeal from the decision of the chair, was declared in order. The decision was sustained by a vote of 7 to 6. Mr. Kana'ua not voting.

Under suspension of rules the list of estimates submitted by the Governor was referred to the Judiciary Committee.

The concurrent resolution from the House, bearing on taxes was brought up for consideration on the order of the day. Mr. C. Brown moved the adoption of the resolution for purposes of discussion.

In supporting his motion, Mr. Brown said that, in the choice of the three members of the joint committee from the Senate, great care would have to be exercised. Only those thoroughly conversant with the matter should be appointed.

The first thing the committee would run up against would be the fact of the taking out of the treasury of the Territory of a million dollars a year from the Custom House, Post Office and other sources.

The committee must also take into consideration the fact that there has been much talk about municipal government and the establishment of counties all over the Islands. If it is decided by the Legislature that Honolulu be incorporated and that a county be made out of the Island of Oahu, the committee will have to consider taxation for the municipality, taxation for the county and taxation for the Territory.

EMMELUTH WANTS MAN OF BACK BONE

Not One of Gov. Dole's Slow Hesitating Caliber.

MANY PETITIONS ARE PRESENTED IN HOUSE

Asking Money for Roads, Landings and School House—Plague Fire Claims Bill Under Discussion.

The first business to come before the House this morning was a petition introduced by Pele from citizens of the Second Precinct, Fifth district. The prayer is:

"That an appropriation of \$25,000 for two years be made for bridges and highway and breakwater along the sea coast of the district aforesaid." Signed by 54 citizens.

Beckley presented a petition from citizens of Wai'alea district, Molokai, asking for an item in the appropriation bill for a new school building for fifty scholars. It is signed by 26 taxpayers.

Haaboo introduced a bill for the construction of a public road in the district of Puna, Hawaii, from a place called Keola and running through the village of Kaimu and Kalapana to Kahahaulea a distance of eight miles, and asking for an appropriation of \$12,000. Referred to Committee on Public Improvements.

Prendergast, chairman of printing committee, reported House bills, Nos. 2, 4, 7, 11, 12 and 13. Prendergast stated that the rules of the House would shortly be ready, but the printers were waiting for a decision of the printing committee as to the form it should be bound and delivered.

Dickey moved that rule 12 be amended by striking out "the vote of the House." He also called attention to the fact that every morning there is a loss of time in approving the minutes and moved that hereafter the Speaker, provided there are no exceptions, approve of them as read and thus save time.

Kellikon offered a resolution that the clerk be instructed to forward to the Superintendent of Public Works the following question; and that the said Superintendent of Public Works is hereby requested to forward answer to said question within two days:

Question—In the session of 1898 an item amounting to \$500 was set apart in the appropriation bill for the purpose of extending the wharf at Keauhou, North Kona, Hawaii; why was the work delayed and what has become of the money?

Kumalae asked that he be allowed to introduce a bill notice of which was given yesterday relative to the adoption of a Territorial flag, and asked that it be read by title for the first time. Passed first reading.

Kekaula introduced the following resolution:

"Be it resolved, That the sum of \$250 be inserted in the appropriation bill for the immediate construction of a warehouse at the Hoopu'ua landing in South Kona, Hawaii."

Emmeluth gave notice of a bill entitled an Act to amend section 2 of Act 23 of the Laws of the Republic of Hawaii, Session 1896. The object of the bill is to provide for compensation for property condemned for street widening and which is not appropriated to such use before the 26th day of May, 1901.

Dickey moved that House bill No. 3 relative to money to repair damages created by the late storm, be read for the second time. Carried and referred to committee on Public Lands and Internal Improvements.

On motion of Robertson, House bill No. 3 relating to jurisdiction of Circuit Judges to guardianship cases passed to second reading. Reading of this bill for third time was set for Friday.

Emmeluth moved that House Bill No. 4, relating to suppression of bubonic plague be referred to special committee with instructions to report to this House, their finding and recommendations thereon; that said committee be and is hereby directed to bring in a companion bill providing for the payment of all claims immediately after the same shall be determined under the provisions of House Bill No. 4.

Emmeluth stated that a year ago the fire in Chinatown took place, and the losers today are waiting for recompense for their losses, and expressed surprise to see the attitude of Makekai on this measure. Emmeluth then made certain statements about the attitude of Makekai on the bill in general but afterwards took back certain portions of his statements, but he was satisfied that Governor Dole, who showed so lit-

tle back bone at the time the Fire Claims Commission should not have a right to appoint anyone on that commission.

Makekai then angrily jumped to his feet and asked the Speaker that Emmeluth be ruled out of order.

Beckley arose and said that House Bill No. 4 does not satisfy the House and objected to any companion bill being tacked on.

Robertson said that Emmeluth was right relative to the payment of fire claims, but the companion bill providing for ways and means to pay these claims is a matter of finance. He moved that House bill No. 4 be referred to the Committee on Judiciary. This was carried.

Dickey moved that the rules be suspended to permit Robertson to introduce the following:

Resolved, That the Committee on Finance be requested to forthwith take up the consideration of the matter of the ways and means of paying claims referred to in House bill No. 4, and that they submit a bill or bills to provide such ways and means.

Adjourned to 2 p. m.

Furnished rooms, single or en suite, very reasonable terms. Orpheum hotel, Fort street.

John H. Wilson, who on complaint of Attorney General Dole was cited to appear in the Circuit Court this morning for contempt in ignoring an injunction against himself and Her Majesty Liliuokalani, will have a hearing tomorrow morning at 10 o'clock. The complaint of the attorney General sets forth that, contrary to the restraining order, Wilson was found by High Sheriff Brown hauling sand from the Waikiki beach. In the contempt proceedings tomorrow morning the merits of the whole case will be argued. A. A. Wilder will represent Wilson and the ex-Queen, and Attorney General Dole the Territory.

Judge Humphreys made a decision this morning in the case of the Waiuku Sugar Company vs. the Hawaiian Commercial and Sugar Company, dissolving the temporary injunction against the defendant and allowing the defendant ten days in which to complete its answer or demurrer to plaintiff's complaint.

In Keoni Ahi Puuke vs. Lot K. C. Lane, answer was filed today by defendant, through his attorney, T. McCants Stewart, denying the truth of the facts alleged in plaintiff's petition.

An order was signed by Judge Humphreys in equity yesterday afternoon, in the suit of Gear, Lansing & Co. vs. the Maunaloa Sugar Company, appointing T. McCants Stewart receiver of all of defendant's personal and real property. His bond is fixed at \$20,000. The plaintiffs claim an equitable lien on the growing sugar cane and plantation equipment of the Maunaloa Sugar Company on account of advances made of about \$10,000. It is alleged also that numerous actions and suits are about to be brought against the company by other creditors, and that a receiver is required to prevent the property from being inequitably divided and sold for less than actual value. Attorney for plaintiff is Gen. A. Davis.

The case of the Territory vs. F. G. Haskell, charged with larceny in the second degree, was called up this morning. The jurors drawn in the case were D. L. Conkling, Charles Ramsay, Jas. W. Lloyd, Jas. E. Yeager, Albert Bond, A. A. Montana, P. R. Helm, James Bruhn, P. Lishman, James Volkner, J. Spencer and C. R. Frawlings.

The prosecuting witness is Ah Leong, a Chinese merchant on King St., who claimed that on October 25 Haskell took two bits worth of cigars from his store without paying for them. Haskell was defended by W. W. Thayer.

THE WATERMAN IDEAL FOUNTAIN PEN. All sizes, all shapes. H. F. WICHMAN.

C. E. Williams, undertaker is in the employ of Mrs. Ed. Williams of Honolulu Undertaking Co. Phone 179.

QUEEN ELIZABETH SLIPPERS

AND Other Handsome Designs.

Do not overlook your footwear to match your costume. "They are Beauties," and a good large assortment to make your selection from. Do not let the effects of your costume be spoiled by a pair of slippers that do not match, but purchase a pair that will do honor to your costume.

Those wishing reliable horses, experienced drivers, new rigs, fair prices and courteous treatment should call at the Territory Stables. Their telephone number is Main 35. They deliver and call for rigs free of charge.

Where is the Mint Saloon? On Nuuanu, opposite Chaplain Lane.

MANUFACTURERS SHOE COMPANY

GOOD ROADS COMING

MACADAM GOING DOWN FAST ON KING STREET

Good Weather Has Given Campbell a Chance to Organize His Cohorts for Improvement of Highways.

Road Supervisor Campbell is a contented frame of mind, since the extended period of good weather has given his force a chance to make a showing in street improvements.

The filling in on Ala Moana, from Richards street to the pumping station, has been completed. It took something over 180,000 yards of coral and dirt to bring this road to the prescribed level. The sea wall at slip No. 2, at the naval dock, is progressing, with a big gang of men at work.

South street extension from Ala Moana to Queen street, will soon be filled.

The big work at present, is the macadamizing of King street. The stretch of over two miles from Nuuanu bridge, Ewa, will be the first to be made into a boulevard. Mr. Campbell says he is putting on a macadam of at least ten inches of crushed rock, at the rate of 150 cubic yards per day. The entire output of the asphalt rock crusher is now going into King street.

The Makiki crusher will be ready for work by the first of April. The trestle work and railroad which will connect it with the road, are in course of construction.

Repairs are going forward on Punch-bowl and Kinua streets.

Bids will soon be opened for the job of grading Liliha street.

The pay roll of the road department yesterday amounted to \$6,376.46 for the month of February.

TELEGRAPH WORKS PERFECTLY

All the way from ten to fifteen business messages a day are now being transmitted between Honolulu and Lahaina by wireless telegraph. The rates established by the company for the present are twenty cents per word with a minimum charge of \$2. Press messages will be given the usual reduction.

Operators for the Makena and Makuhona stations will leave here by the next Kinua and it is hoped that the line will be open through to Hawaii early next week. For the present the company will transmit messages to Hilo and way points by telephone, unless the importance or secrecy of the message warrants the sender in paying for special messenger. It is the intention, however, in the very near future to run an overland wire from Mahukona to Hilo.

MATERNITY HOME LUAU.

The committees on arrangements for the Maternity Home luau, to be given March 16, held a meeting today. It was well attended and the preparations were further advanced. The luau will be given at noon and will last till 10 o'clock. Dancing will be in order from 8 to 10 o'clock. The physicians' wives have arranged to open a booth for the sale of children's articles. Other booths will be on the grounds. Tickets are selling satisfactorily. Another meeting will be held next Wednesday.

Governor Dole has tendered the use of the Hawaiian band to play during the luau and fair.

CONTEMPT CASE OF WILSON TOMORROW

Took Sand From Beach Disobeying Injunction.

T. McCANTS STEWART RECEIVER FOR MAUNALEI

Injunction Against Hawaiian Commercial & Sugar Company Dissolved—Haskell Tried for Larceny in Second Degree.

John H. Wilson, who on complaint of Attorney General Dole was cited to appear in the Circuit Court this morning for contempt in ignoring an injunction against himself and Her Majesty Liliuokalani, will have a hearing tomorrow morning at 10 o'clock. The complaint of the attorney General sets forth that, contrary to the restraining order, Wilson was found by High Sheriff Brown hauling sand from the Waikiki beach. In the contempt proceedings tomorrow morning the merits of the whole case will be argued. A. A. Wilder will represent Wilson and the ex-Queen, and Attorney General Dole the Territory.

Judge Humphreys made a decision this morning in the case of the Waiuku Sugar Company vs. the Hawaiian Commercial and Sugar Company, dissolving the temporary injunction against the defendant and allowing the defendant ten days in which to complete its answer or demurrer to plaintiff's complaint.

In Keoni Ahi Puuke vs. Lot K. C. Lane, answer was filed today by defendant, through his attorney, T. McCants Stewart, denying the truth of the facts alleged in plaintiff's petition.

An order was signed by Judge Humphreys in equity yesterday afternoon, in the suit of Gear, Lansing & Co. vs. the Maunaloa Sugar Company, appointing T. NOTED ART DEALER

HERE WITH COLLECTION OF EXCELLENT PAINTINGS

Works of Art Will be on View at the Pacific Hardware Company Saturday Next.

William Morris, the noted art dealer from the Mainland of thirty years' standing, arrived here in the steamer Mariposa and is stopping at the Hawaiian hotel.

Mr. Morris has brought with him a large and exceedingly valuable collection of paintings by eminent artists both in oil and water colors.

There are about one hundred paintings in the entire collection, which are now being arranged in the spacious gallery of the Pacific Hardware Company, Ltd., on the corner of Fort and Merchant streets.

The arrangement of the paintings is being rapidly perfected and, on Saturday, the lovers of art will be given an opportunity of feasting their eyes upon as fine a collection of paintings as has ever been brought to Honolulu.

Prudent in the collection is an "Evening on Mount Shasta" by Harry Best, a talented artist, who has succeeded in bringing out the sentiment of night, admirably expressed, while the glow on the mountains is one of the best ever seen on canvas.

In the collection also are some marine paintings by W. F. Richards, who is considered to be one of the best living marine artists of today. For his marine winter scenes he goes to the coast of Cornwall on the Channel, while his summers are spent at Newport, Rhode Island, where he has a studio erected directly over the sea. His famous painting "Scenes on Jersey Coast" is hung in the Cochrane Art Gallery at Washington, while eleven of his paintings occupy a special niche in the Metropolitan Museum of Art, in New York.

In the Morris collection is some crayon work executed by Reya, a most eminent landscape artist, who died about five years ago.

Mary Hinkson, who is well known among art connoisseurs, has on exhibition a triptych composed of an Irish setter, teal ducks and California quail and set in a handsome hand carved oak frame.

"A Calm Day," a wonderfully realistic marine painting by Neil Mitchell is also a part of the collection. The marine work of Mr. Mitchell can be found among many private collections, and is always considered good.

These are comparatively a few of the noted paintings which will be on exhibition, and it can be readily understood that in order to fully appreciate the scope and value of the collection, it will be necessary to take time to go and see it.

In preparing this exhibit, great care has been exercised by Mr. Morris, and he himself considers this collection superior in many respects to exhibits made elsewhere. Mr. Morris had the arranging of all the paintings in the palatial residences of Messrs. Hopkins, Crocker and Stanford Art Galleries in Nob Hill in San Francisco.

Those wishing reliable horses, experienced drivers, new rigs, fair prices and courteous treatment should call at the Territory Stables. Their telephone number is Main 35. They deliver and call for rigs free of charge.

Where is the Mint Saloon? On Nuuanu, opposite Chaplain Lane.
