Not even Thurston has any apologies to offer for the Attorney General.  
 Nothing can stand in the way of an agreement on the Appropriation bill except stiff necked pettifoggery over the pet items of individual members or of a legislative body. An agreement can be reached and the situation demands that it shall be reached. Members of the Legislature must show that they can cooperate when the occasion demands it.

The Executive is determined to use the Chinese immigrant trust fund, but is anxious that the other fellow shall take the responsibility for paying out the money. These makeshift measures are always dangerous and no honest court will allow the plea to be made that it was impossible for the Executive to do anything with the Legislature. At the present rate of expense the \$231,000 will be gone in a short time and the Territory will have only promises to pay with which to satisfy the trust funds.

**Supreme Court Decision.**  
 Decision was rendered yesterday by the Supreme Court in the case of John J. Grace vs. The Territory of Hawaii. The facts were, that in February, 1901, in Hilo, a policeman without authority of law shot and wounded a private citizen. The Sheriff of Hawaii requested the plaintiff, a practicing physician, to perform an operation, promising him a reasonable compensation for the service by the department of the Attorney General. Bill was rendered. The department referred it to the Supreme Court. The Court held the Territory not liable. The opinion was by Frear, C. J.  
 The plaintiff appeared in person. The Territory by Attorney General Dole.

**Life Insurance.**  
 When you take a life insurance policy you want absolute protection, aside and distinct from your investments and speculations.  
 You do not want the life insurance company to put your money in a sugar plantation in which you have already invested. If the sugar plantation fails, your life insurance policy fails of its purpose. If you want to leave all your money in the Islands, invest it yourself: If you want life insurance put it in a good company, incorporated under the laws of a State which does not permit a life insurance company to speculate in stocks or to loan the policy holders' money on wheat and corn fields. The Germania Life Insurance Co. of New York has more assets for each \$1000 of insurance in force than any other company in the world.
