WHAT IT COSTS TO RUN THE UNITED STATES

Washington, Dec. 2.—The Secretary of the Treasury today transmitted to Congress the estimates of appropriations required for the Government service for the fiscal year ending June 30, 1902, as compiled by the heads of several executive departments.

The total appropriations asked for are \$610,827,688, which is \$16,000,000 less than the estimates for 1902 and \$4,900,000 more than the appropriations for that year.

Following is a recapitulation of the estimates by departments: Legislative \$30,188,099 Executive 394,160 State Department 2,446,328 Treasury Department 156,484,925 War Department 161,920,101 Navy Department 100,701,122 Interior Department 161,710,535 Postoffice Department 4,464,966 Department of Agriculture 5,609,540 Department of Labor 6,917,330

Total \$610,827,688

Following are the principal items, under the several departments, which show increases or decreases as compared with the appropriations for the year 1902:

Congress, public printing, etc., increase, \$430,000; State Department, foreign intercourse, increase, \$232,000; Treasury Department, mints and assay offices, increase, \$133,000; Internal Revenue, increase, \$340,000; Public Works, increase, \$4,405,000; miscellaneous, increase \$1,000,000; District of Columbia, decrease \$503,000; permanent annual appropriations, decrease, \$2,500,000; War Department, military establishment, decrease \$16,400,000; public works, increase \$36,600,000; permanent annual appropriations, decrease, \$650,000; Navy Department, naval establishment, increase \$6,545,000; public works, increase \$14,800,000; Interior Department, Indian Affairs, decrease \$325,000; pensions, decrease \$5,400,000; public works, decrease \$585,000; miscellaneous, decrease, \$1,375,000; Postoffice Department, salaries and expenses, increase \$185,000; Department of Agriculture, salaries and expenses, increase \$932,000; Department of Labor, salaries and expenses, increase \$12,000; Department of Justice, public works, increase \$52,000; miscellaneous, increase \$50,400; Civil Service Commission, salaries and expenses, increase \$65,000.

A recapitulation by titles, and comparisons with the appropriations for the year 1902, show as follows: Estimates for 1902: Legislative establishment, \$4,859,636; executive establishment, \$25,457,896; judicial establishment, \$736,520; foreign intercourse, \$2,038,578; military establishment, \$99,849,434; naval establishment, \$73,201,721; Indian affairs, \$7,121,271; pensions, \$139,846,480; public works, \$85,604,865; postal service, \$2,710,946; miscellaneous, \$46,024,148; permanent annual appropriations, \$123,921,320. Grand total, \$610,827,688.

Appropriations for 1902: Legislative establishments, \$5,153,904; executive establishments, \$20,361,565; judicial establishments, \$828,747; foreign intercourse, \$2,264,701; military establishment, \$116,728,655; naval establishment, \$71,371,450; Indian affairs, \$10,356,264; pensions, \$145,260,350; public works, \$38,978,879; miscellaneous, \$68,077,632; permanent annual appropriations, \$127,231,220. Grand total, \$606,596,877.

MANILA ARCHBISHOP Washington, Dec. 6.—The Catholic church, like the Government of the United States, is fast Americanizing the territory which formerly belonged to Spain, but which is now under the Stars and Stripes. Definite steps are being taken to end the vexatious growing out of the relations of the Philippine friars with the United States.

Mgr. Sharett, Bishop of Havana and recently auditor of the papal delegation at Washington, is made titular Archbishop and goes as apostolic delegate to the Philippines. Coincidentally with this, Archbishop of Manila, has resigned his charge into the hands of the Pope, and the vacancy will be filled by the appointment of a prelate from one of the Western dioceses of the United States.

MORE THAN \$28,000,000 SUGAR IN FLORIDA

MRS STANFORD GIVES DEED TO UNIVERSITY

Largest Gift Ever Made to Educational Institution -- Still Retains Millions for Herself.

San Francisco, Dec. 9.—Mrs. Jane L. Stanford today executed and delivered to the Board of Trustees of the Leland Stanford Jr. University two deeds of grant and one deed of gift.

One of the deeds of grant covers all of the real estate heretofore given to the university, including the university campus of 9000 acres. The other deed of grant covers the Stanford residence on California street, which is eventually to be used for educational purposes.

The deed of gift covers bonds and stocks heretofore given, and certain securities not included in former grants. The grants are largely confirmatory in character, and are made under the provisions of the Stanford University constitutional amendment, which legalized grants and gifts made to the university. This amendment was adopted in order to set at rest any questions as to the validity of the original endowment, and to prevent legal technicalities from interfering with financial donations to this great educational institution founded by Mr. and Mrs. Stanford as a memorial to their only son.

The deeds delivered today practically cover the grants made in the original endowment, which, however, is more than doubled in value, chiefly owing to the remarkable business ability displayed by Mrs. Stanford in the management of the vast interests left in her charge by the death of her husband. By these grants she has conveyed to the Leland Stanford Jr. University, for the benefit of the people of California, about \$18,000,000 in stocks and bonds, and ten to twelve millions in real estate, including the university buildings and equipment.

All of the bonds are first mortgages, and the stocks, with scarcely an exception, are what are known as gilt-edge securities.

F. Leib of San Jose, president of the Board of Trustees, received the deeds on behalf of the board and also took formal possession of the bonds and other personal property. Messrs Charles G. Lathrop, Joseph D. Grant and Timothy Hopkins, resident trustees, were also present. The legal features of the transfer were conducted by Mrs. Stanford's attorneys, Crothers & Crothers.

Notwithstanding that she has given the equivalent of over \$28,000,000 to the Leland Stanford Jr. University, making it one of the richest institutions of the kind in the world, Mrs. Stanford has not impoverished herself, but is understood to still retain several millions for her personal use and to provide for the various members of her family.

It is believed that the amount of her endowment to the university which she aided in founding exceeds in amount any similar gift in history.

NEW MILLS BUILDING AND REFINERY PLANNED

Sugar Cane Hitherto Grown Only Molasses Product--Beginning Small Development.

Two companies are preparing to establish sugar refineries in Florida. The Eldridge Sugar Mill Company will build a mill with a daily capacity of 150 tons at Orange Park, a suburb of Jacksonville. The plant is to cost about \$100,000. The company owns a large sugar growing area and expects also to work up the sugar cane raised by other farmers who heretofore have converted their product into molasses.

By their crude methods they have been able to extract only about 40 per cent of the saccharine matter, while the new mill will extract from 90 to 95 per cent. The farmers, therefore, will find the value of their product about doubled by using the mill. The company is urging them greatly to increase their acreage next year.

The other company is the Florida East Coast Commercial Company, which is about to erect a refinery at Oakhill, Volusia county, near the Atlantic, a considerable distance south of Jacksonville. The company intends to manufacture standard granulated sugar, its plant costing about \$500,000. The managers of the enterprise hope to make sugar refining one of the large industries of Florida.

Thus Florida will be one of the few States that refine sugar. The refineries there will bear the same relation to the sugar industry of the country that most of the cotton mills of the South do to the cotton industry. The cotton mills derive their supply of fibre from the cotton fields immediately around them, just as the Florida sugar refineries will depend for their raw material upon sugar cane grown not many miles from where the mills are situated. It is very different with the great refineries of the country which bring raw sugar many thousands of miles to be prepared for market in their establishments.

As the raw material for sugar refining in Florida will be limited, the total output of refined sugar will, of course, be only a small figure in the aggregate output of the country. It has long been an axiom of the sugar business that refining can be profitably only by very large plants turning out an enormous product. The reason for this is that as the difference between the cost of raw and refined sugar is only about a cent a pound the business cannot be profitable where raw sugar is brought from long distances unless an enormous quantity of sugar is refined. So the business thus far has been restricted in the United States mainly to a few mammoth refineries in the seaports of Brooklyn, Jersey City, Philadelphia, Boston, Baltimore, New Orleans and San Francisco, which draw upon all parts of the world for raw product from the sugar beet farms of Europe.

SHOW THE DAMAGES FOR DIRECT LINE TO PHILIPPINES

An amended petition in the suit of Macfarlane & Co. et al. vs. W. H. Wright, Treasurer of the Territory of Hawaii, to test the constitutionality of the local liquor law was filed in the United States District Court yesterday.

The new petition is made necessary by the decision of Judge Estee on a demurrer holding plaintiff "had not shown any damage from acts of defendant, or that a demand had been made upon the Treasurer to cease the issuance of licenses."

In the new petition the following has been added: "And your orators further show that prior to the commencement of this action they demanded of the said defendant the issuance of licenses to them to sell and deal in beer and other malt liquors manufactured within the district and city of Honolulu, Island of Oahu, Territory of Hawaii, but said defendant failed, neglected and refused to comply with or accede to said demands, and refused to issue to your orators any such license, and in this behalf your orators further show that said defendant refused said demand upon the authority of and by virtue of said chapter 46 of the aforesaid Session Laws of 1888."

Referring to the question of damage, the new petition says "that by reason of the acts and conduct of said defendant, herein referred to, the sale of beer and other malt liquors by your orators has greatly decreased and the profits of the business of your orators have thereby been diminished, and that said decrease of sales and diminution of profits is of such constant and steady recurrence that no fair or reasonable redress can be obtained therefor in any court of law and that said decrease of sales and diminution of profits exceeds, so far as each of your orators is concerned, the amount of the sum of \$2000; that the injury and damage done to their and each of their businesses by the refusal of said defendant to afford to them and each of them facilities for the maintenance of their business and largely exceeds the sum of \$2000, and your orators are entitled to have said defendant restrained and enjoined from any further action under said chapter 46 of said Session Laws of 1888, and are further entitled to have said chapter 46 of said Session Laws of 1888 declared unconstitutional, null and void by the judgment and decree of this court."

HEPBURN CANAL BILL

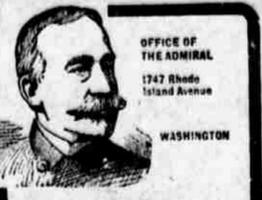

Washington, Dec. 6.—Representative Hepburn of Iowa today introduced his isthmian canal bill, which, by reason of his being the author of the bill passed last year, and his probable continuance at the head of the House Commerce Committee, is considered as the measure which will serve as a basis for action by the House. It differs from the Hepburn bill passed last year, in making the total appropriation \$180,000,000 instead of \$140,000,000. Of the total amount \$10,000,000 is made immediately available to begin work. In other respects the bill follows that of last year, authorizing the President to acquire a right of way from Costa Rica and Nicaragua, and then to begin the construction, from Greytown, on the Caribbean sea, to Brito, on the Pacific ocean, with suitable defenses, etc.

METCALF IS HONORED

Washington, Dec. 6.—The unexpected appointment of Representative Victor H. Metcalf of California to the Ways and Means Committee today was a matter of congratulations among the Pacific Coast representatives. It was generally thought that Speaker Henderson would appoint William Alden Smith of Michigan. Tremendous pressure was brought to bear on the Speaker in behalf of Eastern men, while the Pacific Coast exerted no influence at all, for the reason that it was thought useless. But the Speaker decided that the Pacific Coast was entitled to representation, and, after considering the qualifications of the various representatives, chose Metcalf. It is understood that one reason for Metcalf's appointment was the practical certainty that he will stay in Congress.

PACIFIC UNION OIL CO.

Located in the Famous Coalinga Oil Fields of California. Proven oil lands, completely surrounded by rich oil-producing wells as there are in the State, yielding from 50 to 250 barrels per day. Contract prices for oil at the Coalinga wells, 70 cents per barrel. With twenty-five producing wells of 100 barrels each per day, you can make your own calculation as to profits. The oil industry of California is in its infancy, yet many fortunes have been made by judicious and lucky investments in oil stock. Many more will be made in the near future. The average advance on original sales of oil stock in twenty leading companies in California has been from \$1 to \$108 per share. Oil lands have advanced from \$1.25 to \$1,000 and \$2,000 per acre. When the Pacific Union Oil Company has a number of producing wells on its property, its stock will have the same show for even a greater advance, as some oil stock has advanced from \$1 to \$1,500 per share. The Pacific Union Oil Company has no salaried officers, and is controlled by well-known gentlemen of integrity, who will see that the money derived from the sale of stock will be legitimately applied to the development of its property. For further information, apply to J. H. FISHER & CO., Stock and Bond Brokers, and Hawaiian agents for the sale of a limited amount of Pacific Union Oil Company stock, Stangenwald building, Merchant street, 1932-6mo

Feb. 18, 1901. A. R. Bremer Co., Chicago.

Gentlemen: I have used Coke Dandruff Cure for the past year and found it an excellent preparation.

HOBRON DRUG CO., Fort and King Sts.

LAWSON IS PLAYING BIG COPPER GAME

New York, Dec. 7.—Although Thomas W. Lawson has lost not less than \$11,000,000 by the slump in copper he is still game, and declares that he will win in the end. The Boston copper magnate today admitted that his losses had been something enormous. Then he ridiculed a statement made by an evening paper that he was on the verge of bankruptcy and had suddenly died. "I don't look like a dead man, do I?" asked Lawson. "It may come to that some day, but that day is a long way off. I have lost millions by the decline in copper from 130, a few weeks ago, to 64 today, but I've got enough money stored away to carry my stocks for weeks ahead. This is the fight of my life and I'm going to win it. I'm in it to fight to the bitter end and still have unbounded faith in copper. I have not failed nor assigned, nor do I intend to. I still hold 142,000 shares of stock and am advising my friends to buy."

It is generally understood in Wall street that the Rothschilds, who control the Rio Tinto mines, and the Standard Oil men, who control Amalgamated Copper, have united to depress prices and force the great Calumet and Hecla mines into the combine. Lawson holds 142,000 shares of Amalgamated Copper, much of which he bought above par. He admitted three weeks ago that his losses were then \$3,000,000, when copper was around \$2. His losses now aggregate \$11,000,000.

"I don't deny that I am losing money and losing it in chunks," said Lawson tonight, "but I have it to lose, and when I get through will have enough left to buy at their (his opponents') price and resell at mine and still have something left."

Wild scenes were enacted in the local market today. Brokers were frenzied in their eagerness to unload copper. Over 118,000 shares were sold but the price touched 64 1/2, the lowest in history.
