FOUND—The Canton Marine Insurance Office, Ltd., at Honolulu Investment Co. 2051-1w

LIHUE ICE COMPANY IS VERY SUCCESSFUL

The Lihue Soda Water and Ice Works of Kauai is in a most prosperous condition. At the annual meeting, held recently, new officers were elected and J. H. Conroy was chosen president. It was announced that the business done for thirteen months was \$25,000, a tremendous business for this space of time, considering the population and the distance between ports on the Garden Isle.

A short time ago a new plant was installed and the capacity greatly increased. When this plant was first ordered, the ice and soda water company was not in a position to pay for the entire thing and so decided to borrow money.

By some happy chance, the machinery was delayed a long time before its final arrival in Lihue. In the meantime the works had been managed so well by Mr. Hills that the amount the company contemplated borrowing was made up by the sale of soda water and ice, so that there was no necessity for the borrowing of any money.

The works are now on a basis that has exceeded the fondest hopes of the stockholders and stock cannot be secured even by the announcement of tempting offers.

ATTORNEYS.

A. G. CORREA—Attorney at law; 58 Merchant St., next to postoffice; Tel. 115 Main.

MY LADY'S DRESSES.

Be witching summer hats are already attracting "ohs" and "ahs" of admiration from admiring femininity. They are masses of lace, tulle and flowers. Here is one designed for a piquant brunette: A toque of red tulle, nearly covered with rich red velvet geraniums. A large bow of black velvet trims the back. A toque whose brim is composed of violets has a crown of turquoise blue panne and a crush bow of broad, soft blue ribbon at the back. A toque of pastel pink tulle has for its only trimming a large tulle chon and a drapery of white lace, embroidered in black.

"Art Nouveau from Paris" is the label frequently seen on various collections of jewelry and little fancy articles. Tiny gold chateaux mirrors are among these. They are in old rose finish and many of the designs are both beautiful and interesting. The willowy nymph plays a large part in them and is also seen in miniature on new scarf and stick pins. The work on these small articles is exquisitely fine. Belt buckles in these designs, in French gray or old rose finish, are very large and introduce the art nouveau maiden in startling positions. A gold buckle is composed of two jeweled serpents coiled in many rings.

Linen halteres and grass linens come as high as \$2 per yard, but they are things of beauty and serviceable as well. They are crossed by silk or satin stripes in exquisite patterns and colors. The stripes may be very narrow or broad, or irregular. Those having delicate Oriental colorings are especially beautiful.

HORSE-SHOEING.

CITY SHOING SHOP—J. W. McDonald, Fort St., opp. Club Stables.

HARNESS AND SADDLERY.

MANFG. HARNESS CO.—Corner Fort and King Sts.; Tel. Main 228, P. O. box 322.

J. W. A. REDHOUSE—Watch and chronometer maker; 79 Merchant St.

ed yoke and straps attached in black has a narrow black and white cord and a close row of tiny pearl buttons edging front plait, stock and cuffs.

The fetching silk petticoat emerges periodically from its retirement to flaunt in the shop windows. Just now, pending the arrival of spring gowns, it is very much in evidence. Its principal feature is profuse lace insertion put on in a variety of ingenious ways. A pink silk petticoat has a deep founce composed of diamond-shaped pieces made of rows of insertion and bands of silk, a full lace ruffle finishing the bottom. A turquoise blue petticoat has a founce of vertical strips of founce insertion and silk of the same width.

The founce of a white silk petticoat is composed of alternate rows of white satin ribbon and lace insertion. Straps have the insertions set in in the form of Greek chains, Van Dyke points or groups of simple geometrical figures.

Mme. Sarah Bernhardt, in spite of her age and many occupations, has become a devotee to lawn tennis. She has just laid out a magnificent covered court near her house, where she plays every day from 5 to 6 o'clock, and receives her friends at afternoon tea.

Marsden J. Perry of Providence, R. I., the business partner of Senator Aldrich, is said to have in his library the best collection of Shakespeareana in America. It has cost him more than \$50,000.

A gold tiara, inlaid with \$20,000 worth of diamonds, given by an Italian lady, will be presented to the Pope next year at his silver jubilee.

David Rankin, who owns the largest farm in the world, located at Tarkio, Mo., in 1901 sold 7539 head of cattle for \$172,520.

The Evening Bulletin 75 cents per month

Washington, Jan. 26.—The President today sent to Congress with the message, simply of transmittal, the supplementary report of the Isthmian Canal Commission, in which it is unanimously recommended that the offer of the New Panama Canal Company to sell all of its rights, property and unfinished work to the United States for \$40,000,000, be accepted. The Senate ordered the report printed in the Congressional Record and also as a document.

After quoting the correspondence which passed between the Commission and the officers of the Panama Canal Company, in Paris, the report says: "The totality, without exception of its property and rights on the Isthmus (mentioned in the cablegram of January 9th) includes the following classes of property:

1. Lands Not Built On. There are fifty-six parcels of land to which the title rests in the canal company, amounting to about 30,000 acres, which, with the lands belonging to the railroad company, cover nearly all of the ground required for the actual construction of the canal.

2. Buildings. There are scheduled 2421 buildings, divided among forty-seven sub-classifications, used for offices, quarters, storehouses, hospitals, shops, stables and miscellaneous purposes. Among them are two large permanent buildings in Panama, one used as the headquarters residence and the other as the general office; large general hospitals at Colon and Panama and several important buildings at Colon. These buildings are furnished.

3. Plant. There is an immense amount of machinery, consisting of floating plant (tugs), launches, dredges, etc.

4. Work Done. The excavation already accomplished upon the main canal, which will be of value in the plan recommended by the Commission, was carefully computed and was found to be 36,389,965 cubic yards. A temporary diversion of the Panama Railroad has been made at the Culebra cut, which also must be considered.

Using the same classification for materials and the same unit prices as in the other estimates, with the 20 per cent added for contingencies, the value of the work done is found to be: Value of excavation, \$21,020,486; Charges diversion, \$178,185; Gatun diversion, \$1,516,445; railroad diversion (four miles), \$100,000; total, \$22,825,116; contingencies, 20 per cent, \$4,769,023. Aggregate, \$27,474,953.

5. Panama Railroad. Of the existing 70,000 shares of the stock of the Panama Railroad the company will transfer to the United States all but about 1100 shares. These latter are held by a few individuals residing in various parts of the United States and Europe. At par the value of the 68,903 shares to be transferred to the United States by the canal company is \$6,890,300.

Against this property are mortgage bonds to the amount of \$3,429,000. Of this amount the company owns \$871,000, which it has pledged as collateral for its debts to the Panama Canal Company named bond, and it also holds in its treasury \$1,044,900 subject to sale or cancellation, leaving outstanding in the hands of the public \$1,594,099. The bonds bear a 4 1/2 per cent interest. There are outstanding
