WEDNESDAY, JAN. 24, 1906

Everybody sent a cablegram except Spalding. Doubtless he is headed for Washington.

Wrecks on the Pacific Coast are creating some new steamer problems in fearful style.

Once before we got along with two Circuit Judges. The President may figure it can be done again.

Under the circumstances the possibility of the appointment falling to him may appeal to Mr. Anderson as not far removed from a crown of thorns.

The Dowager's call for an assembly of those eligible to succeed the Emperor is likely to suggest to the Emperor that his head might be more secure.

We trust that every man short of quarters may be able to honestly testify to its being the direct result of Chinese New Year custom corralling them all

Since Honolulu has enjoyed most of the excitement of securing the Molokans, it is rather unkind to ship them direct to their destination without giving the town a glimpse of our new fellow citizens.

The beauty of promotion work at present is the fact that a majority of the new ideas come with a band of workers ready to back them up. It is not a case of proposing good things to consume the time of other people exclusively.

Members of the Promotion committee give assurance that the tourist business is paying and Castle's success is an earnest of immigration prospects. Those 100,000 tourists and 100,000 European immigrants are not so far off after all.

W. T. Stead says procrastination is the secret of all Russia's troubles with Japan and more recently its own people. Granting the truth of it, the country will never wake up, if the experience of the most recent months does not have the desired effect.

BUCKEYE CLUB PROGRAM

The recommendation of the Buckeye Club that the McKinley Memorial should be revived, merits the attention of the McKinley Memorial Committee if that organization is not moribund. The present condition of this Memorial is a credit to no one. Possibly some will hold that former residents of Ohio have no more right to command what shall be done than the pure-blood citizens of Honolulu. If they did not have a special right to be heard, their direction would be well worth following when it opens a way to "make good."

THE PRESIDENT'S FIGHT

It was promised that "insurgent" Republicans would make their first stand against the President on the Philippine bill. The vote in the House of Representatives hardly fulfilled the prediction. The Philippine fight has been passed on to the Senate. From all present indications the Representatives are gathering their forces to make their

first stand on the Statehood bill. Naturally all this antagonism causes a question as to what it is all about. The answer is found in the railway re-lease legislation which Roosevelt will exact from Congress if possible. The Philippine bill, the Statehood bill, the Panama canal investigation are nothing more than the chosen grounds for the preliminary skirmishes leading up to the great battle of the railroads against the President, or, in other words, the railroads against the people. That is what gives special interest to the early lining up. The citizen who does not follow the play but place closely in almost certain to become switched from the main issue. Which is just what opponents of railroad legislation are scheming for. They would be in transports of joy could they once make the people believe that the fate of the country depends on the principles involved in free trade with a possession, the arbitrary action of the Secretary of War or the admission of new States.

It is not probable the President and his anti-railroad supporters will allow this. Should worst come to worst they would undoubtedly sacrifice both Philippine free trade and Statehood bills. The President was very quick to prick the Panama blockade scheme. Instead of allowing a long wrangle over the justice of certain changes, which might be the subject for lengthy orations on the floor of the House and Senate, the President urged that an investigation start as soon as possible. It is hardly possible the Philippines and Statehood can be so easily disposed of.

MOLOKAN IMMIGRATION

Successful inauguration of the immigration of Molokan agriculturists and settlers is cause for general congratulation. J. B. Castle is entitled to all the commendation possible to give a gentleman with high ideals which he is willing to back with his own money. The Territorial administration has certainly established its good faith and no doubt Mr. Spalding is deserving considerable credit notwithstanding most of the bricks thrown during the affair have been in his direction.

Promoters of this Molokan immigration believe it to be the beginning of a movement that will go far toward making the revolution in the agricultural industry of these islands more peaceful and at the same time mutually profitable. We believe every level-headed citizen in the Territory hopes every anticipation will be realized.

Pessimists will not be lacking. They never are. Nor will there be an absence of the tricky element that would be gratified with a failure of this venture in the hope of their special hobbies having better chance of serious consideration. No doubt incidents will arise which will present these Molokans as peculiar individuals, some may call them cranks and claim the islands would be well rid of them. It will be remarkable indeed if one hundred families or five hundred families of a hitherto unknown people come to any part of these islands and are not very liberally picked to pieces by some person or faction among present residents and citizens.

It is very necessary to the American development of Hawaii, however, that this immigration movement and these people, after once on the land, shall succeed. Toward this end we are satisfied the prevailing sentiment of the Territory will be centered. Our citizens are beginning to learn that they can do things. The clouds of pessimism are giving way before a steadily increasing energy that will not accept any such text as "it can't be done." These Molokans will establish homes in a Territory where home builders are especially wanted. They will work. They are of a nationality readily assimilated with American people and their ideals. They should exercise a far-reaching and most excellent influence on Hawaii's industrial life and community ambitions.

At the present time the only prospective cause for regret in the Molokan movement is the possibility that the first one hundred families might be the precursor of a less number than ten thousand.

HAKALAU LANDS SOON AVAILABLE

Large Tracts May Soon Be Thrown Open To Settlers

SOME OF THE LEASES TO EXPIRE THIS YEAR

LANDS ALREADY INVESTIGATED FOR BENEFIT OF MOLOKANS IF KAPAA SCHEME FAILED.

Acting Land Commissioner Lyons this morning, on request, showed a statement of the tracts of Government land in Hilo district, which are at present under lease to the Hakalau Plantation Co., but the leases of which will soon expire. These are the lands on which it was intended to settle the Molokans, if the Kapa deal had fallen through, and at least some of them would now probably be thrown open to settlers under conditions similar to those of the Kapa scheme. It is possible that these also will be settled by Molokans.

During the height of the entanglement between J. B. Castle and Col. Spalding the former delegated F. B. McStocker to examine the Hakalau lands, which Castle would have used as a second string to his bow had it been necessary. It is understood that McStocker's report on the lands was a favorable one, and also that the plantation people seem willing to enter on a cane-grinding contract of a similar nature to the one just completed between the Molokans and the Makee Sugar Co.

The Hakalau Government lands, which will be available in the near future, are as follows: Opea Peleau, comprising an area of 1,100 acres, of which 1,050 are under lease to the Hakalau Plantation Co. The lands are leased for a period of 20 years, at \$315 per annum. The lease expires July 22, 1906.

Lepeloa-Kaunlio, comprising an area of 308 acres, all of which is held by the same plantation under a 27-year lease, at \$150 a year, which expires January 1, 1907.

Hakalau-Iki, containing an area of 692.50 acres, all of which is held by the plantation under a 30-year lease, at \$500 a year, which expires October 15, 1908.

Kaiwika-Walea, containing 6590 acres, all of which is leased to the plantation, for 25 years, at \$300 per annum, the lease expiring June 15, 1906.

It has been suggested in England that motor cars should be provided for cowboys, and the suggestion is favorably received outside of automobile circles.

WE ARE NOW SHOWING A BEAUTIFUL LOT OF Imported Dress Patterns

EMBROIDERED SWISS MULL and LINENS

These are the finest products of French and German Manufacturers, exquisite in design and workmanship, laundry beautifully and come but one to the pattern.

When you buy one of these, you may be sure that no one else will have one like it.

EHLERS Good Goods

A UNITED STATES SENATOR

Used Pe-ru-na For Dyspepsia With Great Benefit.

HON. M. C. BUTLER, Ex-United States Senator From South Carolina.

EX-U. S. Senator M. C. Butler from South Carolina, was Senator from that state for two terms. In a recent letter from Washington, D. C., he says: "I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine besides a good tonic."—M. C. Butler.

Peruna is not simply a remedy for dyspepsia. Peruna is a cathartic remedy. Peruna cures dyspepsia because it is generally dependent upon catarrh of the stomach.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O. For special directions every one should read "The Life of Life," a copy of which surrounds each bottle. Peruna is for sale by all chemists and druggists at one dollar per bottle, or six bottles for five dollars.

Those wishing direct correspondence with Dr. Hartman and can wait the necessary delay in receiving a reply, should address Dr. S. B. Hartman, Columbus, Ohio, U. S. A. Benson, Smith & Co. will supply the retail drug trade in Honolulu.

JEWELS IN GARBAGE HEAP

Editor Evening Bulletin:—Consistency, thou art a jewel! Here's how the Advertiser's venom-tank again springs a leak this morning in its usual weak spot—the editorial.

"It is entirely safe to say that if Judge Robinson gets any good news he will celebrate it outside the court house."

Then follow almost immediately, in the same column, these self-accusing gems: "Don't knock! Give a man to understand you have a good opinion of him and he'll nearly break his neck trying to live up to it."

"Don't have too much to say about your ancient lineage, lest others be reminded that ancestry merges into apothecary."

Then follow these further autoaccusations: "Don't regard a man with disfavour merely because he differs from your political, religious or social theories. Probably you both believe only that which you were taught, and perhaps neither believes truly."

"Hear the other side. Even if you chance to be right, it will be good for you to learn also this fact—that there is more than one point of view in this ever-improving world."

"Don't discard the whole because there is a certain part you can't accept."

JOHN JONES.

Saloon. He was bleeding from a wound on the forehead. Later he was removed to his apartments in the Young hotel by friends.

No complaints have been made to the police in the case. Although there were half a dozen or more soldiers on hand and only one civilian, the latter did not get much the worst of the deal if all reports from the camp hospital are true.

Governor Carter, who is at home, ill in bed, was this afternoon reported with a higher fever and in not as good condition as yesterday. Dr. Judd is attending the Governor. He is said to be suffering from a rather severe attack of the grip.

WHAT THE OTHER FELLOW SAYS

PUT IT ON SUGAR. [Minneapolis Journal]

The fact that the United States needs about \$20,000,000 of additional revenue has set a number of philanthropists at work figuring on how to get it for him without hurting anybody. A reduction of the tariff on certain articles would stimulate importations and produce the cash, but the idea of buying more from the foreigners is painful to all standpatners who believe that the foreigner pays the tax. On humanitarian grounds they are against it. It is quite evident to them that there is no foreigner who can afford to pay us an addition \$20,000,000 without going broke.

Another dollar a barrel on beer would do it, but the brewers would object. An increased tax on tobacco would do it, but there are the retail and wholesale tobacco men to kick on that. Three cents a pound on coffee would turn the trick, but for the fact that the grocers would see the government in Jamaica before they would give their consent.

How is Uncle Sam to get that \$20,000,000 without doing anything to anybody that anybody would object to his doing? The American grocer has solved the problem. Put another half-cent import duty on sugar. We import about four billion pounds of sugar. Four billions multiplied by \$0.005, whoopee! It comes to \$20,000,000. Just what we want. Isn't it a fortuitous coincidence? Put it on sugar. Sugar is cheap and nobody would miss the half cent's worth in the pound. There is another advantage which perhaps you have not thought of. It would enable the domestic producer to put his sugar up half a notch. It was the happiest idea in the world to put it on sugar.

THE LEMMON-EARLE CITY DIRECTORY

THE LEMMON-EARLE DIRECTORY of the City of Honolulu and the Territory of Hawaii will be published this spring under the direction of expert compilers of long experience.

IT IS OF THE GREATEST IMPORTANCE that The Lemmon-Earle Directory, a thoroughly up-to-date directory compiled from the most careful house-to-house canvass, should not be confused with what is known as Husted's Directory or any other so-called directory.

THE LEMMON-EARLE establishment guarantees to produce a city and island directory that will meet the exact needs of the business community in every essential detail of excellence and unless the work is entirely satisfactory in every particular all payments will be cheerfully refunded.

THE LEMMON-EARLE management is not getting out Husted's Directory, nor has it any wish so to do; it purposes giving to the public a directory that is IN EVERY SENSE A DIRECTORY, a book that can be depended on to be CORRECT IN ALL ITS INFORMATION.

FOR THE FIRST TIME the city and islands will be systematically and thoroughly canvassed and this canvass will be made for the Lemmon-Earle Directory and for no other.

THE PUBLIC IS WARNED to make no mistake. An up-to-date directory of the city and Territory will be published by

RIGHTS OF PEOPLE BY AUTHORITY

TROUBING LIHUE

Lihue, Jan. 22.—At intervals, the question of wharf charges at the different landings comes up and causes a lot of discussion in the districts affected; occasionally the dispute is brought into court and settled one way or other.

At Koloa the question is just now at issue owing to the decision of the sugar company to collect wharfage from outsiders having goods delivered at the landing. The right of a person to collect a fee for the use of a landing presupposes the ownership of the same by the party attempting it, and in this case there is no question but that the wharf is situated on the land belonging to Mrs. A. S. Knudsen, now under lease to the Koloa Sugar Co. On the other hand, there is a provision giving the public at large the right to future free use of the property. It has been allowed the use of it unhindered for a term of years. The people in Koloa claim that they have had the use of the landing for something like sixty years; in fact, before ever the Koloa Sugar Company was heard of and they think that that is time enough to give them right by adverse possession. Also that the fact that a Government road and a \$2,000 Government bridge constitute the only access to the wharf. Some ten years ago the question of these landing charges came up in a suit before Water Commissioner Hapuku. About \$110 were collected among the residents of the district to pay for the expense of having the matter settled through the courts, but as Mr. Magoon, who had offered to undertake the suit, wanted considerably more the matter was dropped and the people never got a proper decision one way or the other. Now the old complaint is troubling the district again and it is rumored that the thing will be brought before the courts this time, and a proper settlement of the vexed question be arrived at.

NOTICE

TO STOCKHOLDERS OF THE HONOLULU RAPID TRANSIT & LAND COMPANY.

NOTICE IS HEREBY GIVEN that the annual meeting of stockholders of the Honolulu Rapid Transit & Land Company will be held at the Chamber of Commerce Assembly rooms, Stangenwald Building, in the City of Honolulu, County of Oahu, Territory of Hawaii, on Wednesday, the 31st day of January, A. D. 1906, at 3:30 p. m., for the hearing of the annual reports of the Officers and such other business as may come before the meeting.

By Order of the Board of Directors. GEORGE P. THIELEN, Secretary.

3289—Jan. 24, 25, 26, 27, 28, 29, 30.

KINAU GLEANS OUT CAUSING PROTESTS

Superintendent W. A. H. Connor of the harbor dredging has made complaint to the government inspector stationed on the Pacific, representing Lieut. Snattery of the engineer's office, that the Inter-Island steamer Kinau yesterday by means of her propeller washed a lot of dirt from the harbor where it had already been deepened. The dredging people allege that while the Kinau lay at her wharf all of yesterday morning with her nose against the banks her propeller was kept in motion, thus causing the waters to clean out the slip.

The government contract does not include the deepening of the different slips. The Pacific is now working near finished her work up to the Kinau wharf. It is claimed the action of the Kinau propeller would naturally throw a lot of mud out into the harbor proper. Superintendent Connor says he will not go over the place again. The government inspector says he will see that no other Inter-Island boat repeats the performance. There is no fund provided for going over places again filled up from slips and if the dredging people clean up the dirt from the Kinau dock some one will have to pay for it, so Superintendent Connor says.

It Is Cool THESE DAYS AT HALEIWA.
