The Monkey: "Say, old man, evolution hasn't done much for you after all!"
—Cleveland Plain Dealer.

Medical authorities in France have discovered that a fairly good substitute for quinine, for use in cases of malarial fever, or other malarial disease, can be concocted from the gentian. Peasants in Auvergne have long used a sort of brandy made from that plant to combat such diseases.

Lima, the historical capital of Peru, is to have a system of electric street railroads operated by power obtained from falls in the Rimac River, thirty miles from the city. The cars used will be American, and so will the electric machinery and the track.

RICHARDS ANSWERS TREASURER CAMPBELL'S LETTERS

Theodore Richards has answered the letters sent him by Treasurer Campbell, which appeared in the Bulletin last Saturday, as follows:

March 24.
Treasurer A. J. Campbell, Honolulu.
Dear Sir:—I have your letter of March 23d in answer to mine of the 19th inst. I note that the names of those who deny acknowledging signatures on the petition of Sing Sing, Kaimali, Kona, the mentioned are Charles T. Simerson and W. F. Roy. My informant tells me that these were the only two he approached. Your suggestion about our getting the sworn affidavits is not a bad one and I would be glad to do so did I not think that it devolves upon your department to do so.

In regard to the license of Shibayama you take exception to my remark that representation was made to you that all the property owners had signed but one. My informant, Dr. A. S. Baker, states as follows:

Mr. Campbell was informed that there was but one owner not down, namely, Miss Anna Paris. There are others—John Smith, George Smith, John Todd, W. J. Yates, John Atkins. I have the fact stated likewise in agreement with your statement that there was a longer petition of October 21st of Japanese names taken out.

I am making no charge against your department for the issuance of that license but am merely restating my claim made in the paper that there was fraud in the obtaining of it which, as far as I know at present, does not involve your office.

As to your final statement in the letter that we are not informed as to the law, I would state that no great claim on our part is made in this particular and we are fortunate in having officials that do know the law. I enclose, however, a copy of our digest which may interest you.

I am in receipt of yours (second letter) of March 23d as the result of our communication through the papers. I should like to believe, Mr. Campbell, that you intended to answer my letter of March 19th, and I will assume that your previous letter of March 23d did not come as the result of our publication or the Governor's conversation with myself.

Now in the matter of your complaint as to my statement of facts:
1st. I did not state in my communication that any protest or petition had come concerning the two licenses named. I refer you to published interviews in the paper and petitions sent to the Governor to corroborate my statement that "there has been considerable interest aroused among the people there by opposing petitions for saloons."

2d. I have already dealt with the Shibayama petition but my statement in the paper of the eight names were those which you finally sifted down to your office. The matter is irrelevant anyhow since I am not impugning yourself or your office for the issuance of that license. This thing I would like to ask, since you had so many illegal names attached to that petition, would you not have been wiser for you as a public official to look with suspicion on the rest of the names?

3d. There is an error probably in the third complaint, namely, "no such application nor any record of such application can be found in this office," although one K. Shibayama has made an application for a license to manufacture wine at Hoiualoa, N. Kona. In the published statement issued in the papers about licenses the fact of the manufacture of wine was not included.

From the Bulletin we simply copied that this Shibayama was an applicant for a second-class license (which refers to manufacturing). This, too, I consider trivial, as I claim still that he has no right to have a license if proved fraudulent in his methods of obtaining the other license.

Now, if you desire to ignore our complaint on the ground of our alleged inaccuracies you will have to settle with your own conscience. (I should have added, "with the Territory." T. R.) Your reference to our activity or non-activity is, of course, immaterial, but I give you my consent to call attention publicly to any inaccuracies which you found in the letter which you may think worth your while to correct.

I do not like to find myself arrayed against a public official and I believe that such is not necessary. As far as I can see no published statement of mine can be construed as an attack on your department. The only serious criticism which I have was plainly stated in this letter in a query in connection with the Shibayama license.

Yours very truly,
THEODORE RICHARDS,
Chairman.

DEATH OF WM. DUNBAR.

(Special to The Bulletin)
Wailuku, Maui, March 23.—William Dunbar, aged about 60, died at Malulani Hospital last Tuesday evening. He was stricken with paralysis while at work at Waiakapu one day last week and he was removed to the Malulani Hospital for treatment. Wife of deceased and Thos. R. Lucas, brother-in-law, both arrived Tuesday night from Honolulu per Kinau. Funeral took place in Wailuku on Wednesday morning under the auspices of the Masonic fraternity. Deceased was buried with Masonic honors at Wailuku cemetery, many of the local members of the brotherhood attending the funeral in a body.

Major Van Vliet is expected from Honolulu this evening. He comes up to inspect the Wailuku company, Co. "I," First Regiment, National Guard of Hawaii, under Captain W. E. Hal, commander.

Evening Bulletin 75¢ per month.

Tumors Conquered Without Operations

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in Cases of Mrs. Fox and Miss Adams.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

So-called "wandering pains" may come from their early stages, or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain extending from the abdomen through the groin and thighs.

If you have mysterious pains, if there are indications of inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound at once and begin its use and write Mrs. Pinkham of Lynn, Mass., for advice.

Read these strong letters from grateful women who have been cured:

Dear Mrs. Pinkham:—(First Letter.)
"In looking over your book I see that your medicine cures Tumors. I have been to a doctor and he tells me I have a tumor. I will be more than grateful if you can help me, as I do so dread an operation."—Fannie D. Fox, Bradford, Pa.

Dear Mrs. Pinkham:—(Second Letter.)
"I take the liberty to congratulate you on the success I have had with your wonderful medicine."

"Eighteen months ago my periods stopped. Shortly after I felt so badly I submitted to a thorough examination by a physician, and was told that I had a tumor and would have to undergo an operation."

"I soon after read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed, the tumor is entirely gone. I have again been examined by Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Women's Ills.

Another Case of Tumor Cured by Lydia E. Pinkham's Vegetable Compound.

Dear Mrs. Pinkham:—
"About three years ago I had intense pain in my stomach, with cramps and raging headaches. The doctor prescribed for me, but finding that I did not get any better he examined me and, to my surprise, declared I had a tumor."

"I felt sure that it meant my death warrant, and was very disheartened. I spent hundreds of dollars in doctoring, but the tumor kept growing, till the doctor said that nothing but an operation would save me. Fortunately I corresponded with my aunt in one of the New England States, who advised me to try Lydia E. Pinkham's Vegetable Compound before submitting to an operation, and I at once started taking a regular treatment, finding to my great relief that my general health began to improve, and after three months I noticed that the tumor had reduced in size. I kept on taking the Compound, and in ten months it had entirely disappeared without an operation, and using no medicine but Lydia E. Pinkham's Vegetable Compound, and words fail to express how grateful I am for the good it has done me."—Miss Luella Adams, Colman Hotel, Seattle, Wash.

Such unquestionable testimony proves the value of Lydia E. Pinkham's Vegetable Compound, and should give confidence and hope to every sick woman.

Mrs. Pinkham invites all ailing women to write to her at Lynn, Mass., for advice.

WYOMING FEARS JAPS

THINKS DAY WILL COME
WHEN WHITE LABOR FIGHTS

JAPANESE GOING FROM HAWAII
TO THE MAINLAND CAUSING
SOME ALARM—TALK OF
COMPETITION.

Back in Wyoming they are beginning to worry about the possibility of Japanese flooding the country and since large numbers of Japanese are going to the Coast on every steamer from Hawaii and the Japanese emigration business here is gradually assuming larger proportions, the following from The Leader of Cheyenne, Wyoming, is of particular interest:

From time to time in the past six months or so, The Leader has called the attention of the people of Wyoming to the fact that the state was being threatened by a Japanese invasion and that the time was not very far distant when "the little brown men" would constitute a large portion of the population of this commonwealth. Events of the past two months bear out The Leader's prediction. A week or so ago it was announced that a colony of some five hundred Japanese had secured land under the Pathfinder canal and intended to locate in Wyoming.

Now comes the news that the Colorado and Southern Railway intends to have none but Japanese laborers on the sections between here and Orin Junction. In addition to this, the Colorado Fuel and Iron Company is going to put Japanese to work in the iron mines at Sunrise.

Isn't it about time that a halt was called or is there going to come a day when there will be no such a thing as white labor in Wyoming? The Japanese have already gained a foothold in this state, and the invasion is only just started. Already there are a number of Japanese employment agents who are making a good thing out of the business of finding work for their countrymen. If these "padrones" are permitted to do so, they will flood the state with coolies, and labor conditions, already seriously demoralized, will soon become intolerable to the white man.

It is all very well to say the Japanese are quiet, inoffensive individuals—that they do their work well and neither trouble their neighbors nor their employers, but the fact remains that they are willing to work for less money than a white man can. They can live cheaper. The American-born does not care to come down to the Japanese plane of living, and, consequently, the Japanese are displacing the white man.

The great objection to the Jap is that it is impossible for this country to assimilate him. In the first place, he does not wish to become an American and, even if he did, his racial characteristics would prove a barrier to such proceedings. He is over here to simply make what money he can and then cart it back home—he cares nothing for this country or its people and is utterly indifferent to the moral rights of others so long as he can get a job.

FORTUNATE COLLISION.

(Special to The Bulletin)
Wailuku, Maui, March 23.—A passenger car and freight train both belonging to the Kahului railroad, collided near Wadsworth's lee works this afternoon. The cars were demolished but nobody was hurt. This is one of the most fortunate collisions of the year so far, for the others have been disastrous so far to human life and limb.

Deputy Attorney General Fleming goes to Honolulu by tonight's Kinau. He may or may not return Wednesday morning.

Several lady visitors from Honolulu dashed up Main street, Wailuku, this afternoon, for a visit up beautiful lau valley. They were all mounted on fancy prancing steeds and presented quite a beautiful spectacle to behold.

ALFONSO LIKI'S SPLENDOR

Madrid, March 6.—King Alfonso is credited with aiming to have more pomp and more splendor at his marriage than has marked any similar royal event. One feature will be an unparalleled procession of state coaches. His Majesty has thirty-four gorgeous vehicles ready and hopes to have at least forty in the procession. Sixteen of these historic creations have not been used in many years. They have been repaired under the superintendence of the King. It is a fact with every Spanish sovereign to try to eclipse his predecessors in the matter of gala coaches, and Alfonso has been no exception.

Some of the state coaches are described as priceless. One is covered with polished tortoise shell and is estimated to be worth \$100,000.

Some years ago when the tariff war was on, the adherents of the doctrine of protection justly made much capital out of the statement that the American workmen and the American laborer did not want to have to subsist on the starvation wages of Europe. How will the American feel when he has to compete with the Jap? That is just about what it will amount to if the present invasion is allowed to go unchecked.

REAL ESTATE BARGAINS.

FOR SALE.
