BULLETIN PUBLISHING CO., LTD. by C. G. BOCKUS, Business Manager.

Subscribed and sworn to before me this 12th day of January, Anno Domini 1907.

P. H. BURNETTE, Notary Public, First Judicial Circuit

WEDNESDAY, JAN. 16, 1907.

One of the striking features of earthquakes and such is the ease with which scientists account for them—after the event.

Opinions on the plans of Japanese druggists differ with individual druggists. Business men sometimes meet to enjoy pluk teas, but organization usually means business.

Our river and harbor appropriate appears to be in splendid condition. It is only danger is the ancient but constant threat of its being canonized along with the Refunding bill.

Allowing for the difference in the Honolulu stroke of lightning was within some hours of being coincident with Kingston's upheaval from below. Doubtless experts on stratosphere can connect the events and correct the statements of encyclopedias.

The Manila American decorates one of its San Francisco cablegrams with the following comment: "However as a sort of totem to the careless way in which the westerners assert their rights, Honolulu's governor has sent a dispatch to Washington that he is highly in favor of the naturalization of Japanese as citizens of the Territory of Hawaii."

Coincident with the stories of high priced lumber, a Vancouver paper publishes an announcement that the Vancouver shingle mills will shut down their plants for about six weeks, as the season selected is one of slack business. In spite of this some people wonder that those forced to buy should raise an outcry against arbitrary interference with the supply, when the demand is steadily increasing.

STREET MONEY SAVED BY PROMPT REPAIR.

The complaint of Hon. Cecil Brown regarding the condition of the roads in Kapiolani Park and the damage done many of the macadamized streets of the city by the late heavy rains brings attention to a theory on the care of our County roadways which is advanced by its sponsors as practical and therefore highly beneficial.

Would it not be a sound investment and a certain saving of public money to have the road cantonment system extended to all the streets of the city? The Bulletin asks the question. It is answered very positively by not a few citizens who believe they know something about proper care of streets. The assumption is that the plan is not carried out because of the increased expense. But the advocates claim the money saved would foot the additional pay roll and leave a dividend.

Observant taxpayers are very frequently worried by what appears to be lack of regard for slight damage or wear to street macadam. Prompt attention would make the streets as good as new. The small break is neglected and of course the street breaks up the more speedily.

Critical comment on this score has not been confined by any means to the present road administration. There is less now than in former years. There is always room for improvement, and

It is not to be denied that it is easier and cheaper to pave a street with the "stitch in time" than to let it pass from bad to worse with finally the expense of complete new construction saddled on the taxpayers. The Bulletin is informed that the cantonment method of caring for the streets was at one time started through the instrumentality of Dr. Marques, while a member of the Legislature. It went out of use not because of its proved failure as an efficient way to keep streets in first-class condition. The practical condition of street construction has been the demand for a great deal of money to carry on the slow work necessary to keep pace with the expansion of the city. A damaged street does not appear very powerfully to those in charge of road-work, or the taxpayers for that matter, when it is a question of repairing for a fairly good roadway or reopening the residents on some new street from a veritable quagmire. If the Road Supervisor quits work on a new to renew an old top-dressing that has been washed out by flooding rains, he is certain to be criticised notwithstanding the attention given the top-dressing would add ten years to the life of the street.

Not infrequently increased expenditure saves money. This has been demonstrated on many of the streets treated with oil. Where the oil was thoroughly applied, recent rains made very little impression on macadam and gutters almost completely wrecked in former year downpours. The cement, gutter has also proved to be a money-saver, quite as beneficial as the storm sewer.

By inaugurating a policy that will place repair on a par with new work Supervisors now in charge of the streets and roads of this County will find the taxpayers in sympathy with the move, and results will lend enthusiasm to the cause.

***** BAND CONCERT ***** The Hawaiian band will give a public concert tonight at Aala Park, commencing at 7:30 o'clock. Following is the program: PART I. March—"United Flags"..... Gabriel Overturo—"Golden Wand", Laurendeau Intermezzo—"Peacemaker"..... Alfred Selection—"Musical Review"..... Riviere

PART II. Vocal—American Songs, ar. by Berger Selection—"Popular Melodies"..... Mills "Ahi Wehi and Eieie"..... ar. by Berger Finales—"Swastika"..... Busby "The Star Spangled Banner".....

***** HONOLULU WEATHER ***** WM. B. STOCKMAN, Section Director, U. S. Weather Bureau, January 16. Temperatures—6 a. m., 69; 8 a. m., 72; 10 a. m., 74; noon, 76; morning minimum, 66. Barometer, 8 a. m., 29.84; absolute humidity, 8 a. m., 7.57; grains per cubic foot; relative humidity, 8 a. m., 89 per cent; dew point, 8 a. m., 69. Wind—6 a. m., velocity 2, direction N.; 8 a. m., velocity 5, direction N. E.; 10 a. m., velocity 7, direction N. W.; noon, velocity 7, direction S. W. Rainfall during 24 hours ended 8 a. m., 1.69 inch. Total wind movement during 24 hours ended at noon, 109 miles.

***** Uncle Sam Has Good Balance Sheet ***** Washington, Jan. 1.—"There is no occasion for alarm. Our anxiety need be least we fall in facilities properly to garner, store, transport and meet our multiplied blessings. Let every man be of good cheer and try to be conservative in everything except thankfulness. Secretary of the Treasury Shaw thus concludes a resume of the year's financial record. In round numbers he places the receipts of the government for the calendar year 1906 at \$22,000,000 and the expenditures at \$25,000,000, or an excess of receipts over expenditures of \$3,000,000. As there has been no change in the tariff laws or the laws relating to internal revenue, Secretary Shaw says the large increase in receipts is due solely to extraordinary trade activity. The total expenditure, however, for 1906, as compared with 1905, he says, shows a decrease of only \$5,000,000.

***** Big Cash Balance ***** The available cash balance has increased during the year \$101,000,000. With the general fund standing at \$237,000,000, Secretary Shaw remarks that the bonds maturing July 1, 1907, can be paid, if it shall be deemed wise, and still leave a working balance of more than \$120,000,000, or they can be paid now if holders will accept. During the last twelve months, the

***** SEVERE CANADIAN WINTERS DEPRIVED OF THEIR DANGER. ***** Colds and Their After-Effects Conquered By the Use of Pe-ru-na. Mayor of Scotstown Recommends Pe-ru-na for Colds and Catarrh. READ HIS LETTER. THE first effect of a cold is a thickening of the mucous membranes of the nose and throat. This gives rise to a discharge, or at least a stiffness of the nasal passages. Sometimes fever accompanies the first attack, also a feeling of languor, dullness and aching of the bones. If no attention is paid to it, the mucous congestion is liable to spread down into the larynx, producing hoarseness and into the bronchial tubes, producing a cough. Even when this occurs, many people pay no attention to it. Under such circumstances, the congestion is liable to become chronic, producing a condition of the mucous membranes known as catarrh. Catarrh lasts an indefinite time. Catarrh is essentially a chronic condition and does not leave except something is done to relieve it. What should be done when a person catches cold is to take a few doses of Peruna. Taken at the onset, Peruna would break up the cold and prevent all the train of symptoms which usually follow. But, even in cases where the cold has been neglected and hoarseness or a cough has developed, Peruna can be relied upon to give prompt and permanent relief. The frequency of coughs and colds in Canada makes Peruna a popular remedy in this country. A number of the best people in Canada have given testimonials as to the value of Peruna in such cases. Followed Dr. Hartman's Advice—Restored to Health. Mrs. Samuelle Vignone, Avre au Herd, Isle de La Magdalline, Canada, writes: "I write to tell you that I am perfectly well. I took only three bottles of your Peruna according to your advice and the directions in your book and it restored my health."

C. H. PARKER.

C. H. Parker, Ex-Warden of Compton Co., Quebec, has been mayor of Scotstown for a number of years. He is an influential resident in Scotstown and widely known. He writes concerning Peruna, as follows:

"I had several attacks of colds from time to time and finally a severe attack developed into catarrh. I was advised to use your celebrated catarrh remedy, and after taking three bottles I find myself completely cured, and I no longer suffer from catarrh or colds. I can cheerfully recommend Peruna for colds and catarrh."

Should you desire special instructions relative to the use of Peruna, address Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio. All correspondence held strictly confidential.

Peruna will supply the retail trade in Honolulu, Hawaii: Benson, Smith & Co., Hobron Drug Co., Honolulu, Hawaii.

St. Petersburg, Dec. 29.—The Russian newspapers are taking advantage of the recruiting season to attack the stupid manner in which recruits are trained. This training is modeled on the saying of the late General Dragomiroff that the duty of a soldier is to kill, not to think.

The first question now put to all young soldiers by their company commander is: "What would you do if you met a Japanese?" The answer which all recruits know they are expected to give is, "Kill him." The following colloquy is given as a genuine example of what often takes place. The commander begins:

"What would you do if you met a Japanese?" "Kill him, your Honor." "And if you met two?" "Kill them, your Honor." "But if there were a hundred?" "Kill them, your Honor." "One man couldn't kill a hundred. You should answer, 'I would retire honorably.'"

"I should retire honorably." "And if you met a cow?" "I should kill her." "Think, fool; why should you kill a cow?" "I should retire honorably, your Honor."

"No. You would take the cow by the horn and lead her to the stall." "Yes, your Honor. I would lead her to her stall." "And if you met me?" "I should kill you, your Honor." "You would kill me?" The recruit turned red, looked stupid and, scratching his head, answered: "Yes, your Honor. Kill you first, then retire honorably, and lead you to your stall."

DID EVE GIVE ADAM AN APPLE OR LEMON New Haven (Conn.), Dec. 27.—Was it an apple that Eve handed to Adam? Was it a lemon? The American Modern Languages Association met at Yale for its annual session decided that it was not an apple. The association has set aside Saturday morning to determine whether it was a lemon that was missed from the hand of the first woman, causing the expulsion from the Garden of Eden of the first man. Professor Oliver M. Johnson of Leland Stanford University, California, who has made a special study of tropical fruits, has been appointed to lead the discussion. He insists that it was not an apple and inclines to the opinion that it was a more significant fruit. He said tonight:
