## Sugar Factors And Sugar Managers In Conclave

S. M. DAMON  
Vice-Pres. Planters' Association

JOHN SCOTT  
Manager Hilo Sugar Company

GEO. F. RENTON  
Manager Ewa Plantation

W. O. SMITH  
Secretary Planters' Association

C. C. KENNEDY  
Manager Waiakoa Plantation

W. W. GOODALE  
Manager Waiakoa Plantation

C. M. COOKE  
President Brewer & Company

The following officers of the Planters' Association for the coming year were elected this forenoon at the meeting of the Board of Trustees, which followed immediately after a session of the entire body:

F. A. Schaefer—Presid  
S. M. Damon—Vice-President.  
W. O. Smith—Secretary and Treasurer.  
G. H. Robertson—Auditor.  
R. D. Mead—Assistant Secretary.

prosperous one, and that the indications for the future were satisfactory. The meeting was called to order by E. Faxon Bishop, the chairman, who, after the reading of the minutes of previous meetings, delivered his address as the retiring President of the Association, as follows:

On behalf of the trustees, I extend a cordial welcome to the members of the Association assembled here today for the annual meeting. It has been customary for a good number of years past that we get together once a year to interchange ideas, listen to reports and discuss questions of general interest to that portion of our community identified with the sugar industry.

The Planters' Labor & Supply Co., the parent organization of the H. S. P. A., was organized in March, 1882; thus this year the organization has been in existence for a quarter of a century. It may not be amiss to here mention those who were identified with the first organization. The officers elected in March 1882 were as follows:

S. N. Castle, president; E. P. Adams, S. L. Austin, S. T. Alexander, G. N. Wilcox, vice presidents; P. C. Jones, corresponding secretary; F. A.

Schaefer, recording secretary; J. H. Paty, treasurer.

Three of the above-mentioned are still alive and are with us today at this meeting.

The crop of the year 1882, from the best information available, was 57,000 tons and the possible output of the islands was estimated at 84,000 tons. This year of 1907 the total crop is 440,017 tons. The growth of the industry is evident without any further remarks or comparisons, and I think it may be safely said that the importance of this Association, the scope of its work and the necessity of its continuance can be regarded in

the same ratio. So much by way of retrospection.

The work of the year just closed is worthy of special mention in many respects, and this will be largely covered in the reports which will be read to you in the course of the meeting. My reference to the several items is only cursory. In many respects, the work of the year has been one of observation—watching the progress or results from work and experiments established in former years. The reports to be submitted will not cover so many subjects as is customary, for the reason that many of them have been pretty thoroughly exploited in

former years, leaving those who are asked to write up fresh reports on these old subjects in rather a bad way, and with threadbare topics to deal with. The work of the Experiment Station, however, has been full and interesting, and in my opinion it will give us enough food for thought to carry us over the present annual assembly. Its work, also, while interesting, has been as much in the way of observation as in any other respect, the experiments previously established having reached a point where they are decidedly in evidence. Mr. Beckart's Hawaiian seedlings alone cover a great work, and it puts him in

### Program Given Out For Planters' Session

The Planters' Association continued its session this afternoon, F. A. Schaefer, the newly elected President, taking the chair.

He announced that a committee had been selected at the meeting of the trustees, consisting of H. P. Baldwin, E. D. Tenney and E. P. Bishop to look into the matter of selecting committees to submit reports on various subjects at the next annual meeting. This committee reported as follows:

Your committee appointed to arrange the schedule of committees for the next annual meeting submit the following:

Your committee believes that it is of great importance that the system of reports to annual meetings by managers should not be abandoned, but, on the other hand, that such reports should be made and careful attention given thereto. There are many practical matters in connection with plantation affairs that the Experiment Station staff cannot report upon.

We therefore recommend that committees be appointed to report upon the following subjects:

- 1—Experiment Station.
- 2—Labor.
- 3—Cultivation and fertilization on irrigated plantations.
- 4—Cultivation and fertilization on unirrigated plantations.
- 5—Cutting, loading and general plantation transportation.
- 6—Manufacture of sugar and utilization of by-products.
- 7—Machinery: (a) manufacture, (b) cultivation.
- 8—Forestry.
- 9—Warehouses for, and storage of, raw sugars.

We further suggest that the President inform the chairman of committees at this meeting as early as possible, with the suggestion to said chairman that before the meeting adjourns they hand to the Secretary a list of members whom they desire to serve with them on said committees.

W. O. Smith felt that the committee reports were of great importance and should not be abandoned. He

### NATIONAL GUARD FLURRY SUBSIDING

Adjutant-General's Order Not Fairly Clear

The trouble in the National Guard of Hawaii, that has been simmering for weeks and that finally broke out into what was almost an open row last Saturday, as related exclusively in the Bulletin, bids fair to be satisfactorily settled in the near future, according to the statements of both Col. Sam Johnson and Adjutant General Jones. In fact, Johnson says it is practically settled already.

The principal trouble was caused by an order issued by the Adjutant General on October 26, known as General Order No. 50, which said: "The Governor has authority to appoint and commission all officers, and to refuse a commission to any officer, if he may require any and all officers to give bonds."

This was taken to mean that in the future all officers would be appointed by the Adjutant General, with the sanction of the Governor, which the company and regimental officers took to be an usurpation on the part of Col. Jones of powers that did not belong to him.

In pursuance of this policy, Governor Frear, on recommendation of Col. Jones, appointed Mr. Ziegler in-

### Merchants Of Maui Petition For Harbor

(Special to The Bulletin)

Wailuku, Maui, Nov. 9.—Merchants of Central Maui are getting up a petition to be sent to Secretary of War Taft, after the latter returns from his visit to Vladivostok, asking him to establish harbor lines for Kahului harbor with the ultimate idea of the United States Government taking over the new Kahului breakwater. Town merchants and even country merchants doing business to the extent of 1,000 tons a year and the big plantations with their 50,000 or 60,000 tons of sugar and merchandise per annum have readily subscribed their names to the petition. If the Secretary of War is a Presidential aspirant he might consider the petition to his interest and grant the humble request of his petitioners in far-off Kahului ere the cycle of 1908 makes its exit.

### EIGHTEEN ALEWA LOTS SOLD TODAY

Spirited Bidding For More Desirable Locations

Land Commissioner Pratt this morning sold at public auction 18 more Alewa lots. There was a fair crowd present and the bidding for some of the more desirable lots was spirited, several of them bringing almost twice the upset price.

The following are the sales of the 18 lots out of the 31 offered:

Lot.	Upset.	Sold for.	To.
7	\$190	\$236	A. C. Axtell
8	200	230	J. C. Axtell
9	220	221	E. C. Rhodes
14	150	151	Florence Desky
18	175	205	H. B. Marine
20	100	120	M. J. Serpa
21	100	209	J. H. Townsend
25	150	151	P. Lempho
33	150	155	P. J. Jarrett
40	125	126	Otto Oss
41	100	154	Joe P. Fontas
42	100	150	Hugh Minchin
43	125	133	N. R. Brown
44	175	298	H. E. Hendricks
46	150	161	Amelle Emmeluth
52	150	200	L. Keaweopole
62	175	215	Mrs. C. Gertz
64	150	152	Mrs. H.S. Swing

Judge Dole this morning extended W. T. Brock and E. A. C. Long to defend Chitose Hirano, a Japanese woman, indicted for perjury at the Immigration Station.

Acting British Consul Forster returned the call of Acting Governor Mott-Smith this morning.

### Hawaii Team Won

SAN FRANCISCO, Cal., Nov. 11.—The All-Star team that is to go to Hawaii played a picked nine today with Joy in the box. The first game resulted in a tie under the time limit. The second game was won by the All-Star team by a score of 6 to 2.

### Bankers Are Optimistic
