Mary Kina, a Hawaiian woman, was given a stiff sentence in the Police Court this morning on a charge of assault and battery. She had beaten a Hawaiian man to such an extent that he had to be taken to the hospital for repairs, and the fun will cause her to languish in jail for two months. As soon as the order is received from Japan by Consul General Saito, he will authorize the construction of the new official residence of the Japanese Consul General here. The locality is at the corner of Nuuanu and Kuakini streets, the former Japanese Consulate. The buildings, three in all, will cost in the neighborhood of \$15,000. WATERFRONT NOTES AN ATTEMPT WAS made to juggle discharge papers for a seaman, which came to light today at the Shipping Commissioner's office. J. Hanna, a Japanese cook on the Applicant ship Dirigo, got discharge papers in Chile, and transportation to this port, bound for New York. Here, he reshipped on the Dirigo, and another Japanese, who wanted to be cabin boy on the Kaula, showed up with the papers. He signed in the same handwriting that Hanna had used, making himself out as J. Hanna, but the fraud was detected.

CABLE ADVICES were received yesterday evening by Castle & Cooke, agents of the Matsen Steam Navigation Co., that the Lurline, Capt. Woodson, the company's new steamship, has arrived from Newport News. The vessel is to be on the San Francisco-Honolulu run. She made the trip in 52 days. THE P. M. S. S. MANCHURIA is expected tomorrow morning from Yokohama, with 1500 tons of freight for this port. She will bring mail, and take on mail for the Coast. She will probably sail later in the day for San Francisco.

LIEUTENANT COMMANDER Carter will be transferred to one of the battleships when the fleet arrives here, being relieved at that time of his present command, the U. S. S. Frodo.

TWO SMALL LAMPS for Kaula lights will be shipped out by the U. S. Engineer's office on the Kinau this afternoon. Another lamp is going to Maui, for Hana harbor, on the next boat.

THE INTER-ISLAND steamer Claudine Bennett, arrived here this morning from Hilo and Maui ports, with 1533 bags sugar, 20 cords of wood, 66 hogs, and 209 packages supplies.

THE BARK KAULANI sailed at 2 o'clock this afternoon for Kananapa, Maui, in tow, to load sugar for San Francisco.

THE SCHOONER Andy Mahoney, which sailed from this port April 23d, arrived at Gray's Harbor yesterday.

LIGHTHOUSE BIDS Bids were opened at noon today by United States Engineer Capt. Otwell for materials to be used in the construction of lighthouses at Nakelele, Maui, and at Kailua and Apopo, Hawaii, it being stipulated that all bids are for one or more outfits. On the ironwork alone, with one or two of the wood jobs, the Honolulu Iron Works bid \$138.43 and Catton, Neill & Co. bid \$142.80. Theo. A. Davies & Co. bid on the hardware by single items and E. O. Hall & Son, Ltd., bid in the same way, and it is probable that one will get the contract in some of the items and the other in some of the other items. Allen & Robinson were the only bidders on woodwork.

Chang King, a Chinese, was fined \$5 and costs in the Police Court this morning for carrying swill in a container which did not conform to the regulations of the Board of Health.

JAPANESE PREACHERS WILL LECTURE HERE

Rev. Miyagawa Tsunetsugu, one of the most highly educated Japanese missionaries of Japan, whose residence is in Tokio, is expected to arrive here in June. His coming is due to an invitation extended to him by Rev. T. Okamura of this city to preach to the Japanese in Hawaii. Rev. Miyagawa will stay here for some time preaching and lecturing in all the Japanese churches and schools. He is unquestionably the best missionary speaker in Japan and his presence here is regarded as the most valuable assistance that could be secured for missionary work among the Japanese in these islands. Rev. Miyagawa will be a guest of Rev. Okamura. Another prominent Japanese evangelist, who is expected to pass through here this year, is Rev. Eibina Danjio, who is on a tour around the world. He is on his way to the United States from London, where he has done a great deal of lecturing. The representative of the Hawaii Shippo, in whom this news was conveyed, stated this morning that Rev. Eibina will be here in October.

SUIT INSTITUTED (Continued from Page 1) people were given the right to go upon the land at the expiration of the lease then in force. The lease ran out in January, 1907. On April 2d it is stated that the agreement regarding the settlement of the association for these lands was signed by the defendant, J. W. Pratt, with the consent and approval of the Governor. For these reasons suit will be instituted probably against Pratt, or the giving of the new lease may be held over for considerable time. Fine Job Printing at the Bulletin.

Torpedo Boats Coming WASHINGTON, D. C., May 20.—The Navy Department contemplates sending the Pacific torpedo flotilla out with Rear Admiral Dayton's squadron for summer maneuvers. The Dayton squadron will extend its cruise as far as Samoa, but the torpedo boats will not cruise further than Honolulu, remaining in port there until the return of the cruisers from the south.

There are five torpedo boats attached to the Pacific flotilla at present, the Preble, Perry, Davis, Farragut and Fox. In addition to these, it is stated that the six torpedo boats which followed the Atlantic Fleet around the Horn are also to be added to the Pacific flotilla. These are the Whipple, Hopkins, Hull, Lawrence, Truxtun and Stewart, so it is probable that both the fourth and second flotillas will spend a part of the summer at this port. The second flotilla, which comes from the Atlantic, is under command of Lieutenant Commander Huteh I. Cone, of the Whipple, and the fourth flotilla, the regular Pacific flotilla stationed at Mare Island, is commanded by Lieutenant Frederick N. Freeman, of the Preble.

Frear and Japanese MOHONK, N. Y., May 20.—Governor Frear of Hawaii was one of the speakers at the session of the Mohonk Conference today. In his address he stated that the Japanese problem, so far as Hawaii was concerned, was settled.

Arbitration Ratified WASHINGTON, D. C., May 20.—The Senate has ratified the treaties agreed upon between the United States and Japan.

FINANCIAL LEGISLATION UNANIMOUSLY POSTPONED WASHINGTON, D. C., May 20.—The Conference Committee on the Vreeland Financial bill has decided to confine the financial legislation of the present session of Congress to the creation of a Currency Commission, and both the Vreeland and Aldrich measures will be dropped.

STRIKERS CONFERENCE CLEVELAND, Ohio, May 20.—The leaders of the striking street-car employees and the officials of the company are conferring to bring about a settlement of the wage dispute. There were some small riots in progress today.

WON'T OPPOSE WOMEN LONDON, Eng., May 20.—Premier Asquith, speaking to a delegation of Radicals today, said the Government would not oppose the granting of woman suffrage.

PENNSYLVANIA UNINSTRUCTED HARRISBURG, Pa., May 20.—The Democratic delegation from this State will go uninstructed to Denver.

SAITO TO INSTRUCT (Continued from Page 1) adorned with flags and mountain greens and the day of the arrival of the Fleet will be generally and appropriately observed by the Japanese resident in Honolulu. In this connection, Saito said: "I intend to call a meeting of the Japanese a month before the arrival of the American Fleet. I will speak at that meeting advising the Japanese to keep their stores clean and to avoid indecent exposure of person. The most important thing I will dwell upon will be the form of decoration in honor of the arrival of the Fleet. It was customary in the past amongst the Japanese, on similar occasions to decorate their places with American and Japanese flags. I want to tell them to be very careful in the handling of American flags. I don't want them to hang or hoist the American flags upside down, or in any way degrade the dignity of the American emblem. I want to tell them that in event of their hanging them together on doors or walls, to be careful not to belittle the American flag. They should use strong strings for the American flags, so that they would not be blown off, or in any way partly torn off by the wind. This flag question is very important and it should not be the means of trouble between two Powers. Some of the Japanese are ignorant and the least mistake they make in the use of American flags will cause me to be called upon to give satisfactory explanation to the American Government. I know that the Japanese have great respect for the American flag as well as that of Japan, but any mistake on their part, though unintentional, in connection with the use of American flags, will certainly cause me to account for it. It is a delicate matter and the Japanese should be warned of it before the Fleet arrives. The acceptance by the United States Government of the invitation to have the Fleet visit Japan is the cause of much satisfaction in Japan. It is a sign of peace between these two Powers. I know that the Japanese Government will extend a cordial reception to the Atlantic Fleet when it gets there. In Japan the police are instructed to warn those who dishonor the flags of other nations. This is done to prevent international complications."

CIVIC FEDS. TO ISSUE (Continued from Page 1) and also because it should have a longer test. We will also come out in favor of local option. It is quite possible that we may go into the land question, as the land law will undoubtedly be a feature of the campaign, and as the Federation has always been strongly in favor of the distribution of the public lands in small holdings and of the importation of white laborers and settlers. "We will not take up any personal issues in our manifesto. In the coming campaign we will endorse such candidates as have good records and good characters, and decline to endorse such as have not. This will be irrespective of what party they belong to, and we will endorse a good independent candidate as quickly as we would one who belonged to one of the regular parties. I consider it most improbable that we will run any candidates of our own. We did that once, and we probably went too far then, as we can not be considered to be a political party."

The Weekly Edition of the Evening Bulletin gives a complete summary of the news of the day.

GET NEXT to yourself and let us build that canoe, rowing-boat, or yacht which you have in mind. We'll have it ready in no time, and the price will be so low that you will wonder how we can do it. We've done it, however; so we KNOW.
