Entered at the Postoffice at Honolulu as second class matter.

THURSDAY MAY 21, 1908

Even laukea has to say that he does not want to shoulder the follies of the self-appointed Police Organ.

When you have made your money in Hawaii there is no better place on the globe for investing the surplus earnings.

Most every State controlled by High Finance has tried to head off Bryan and help Johnson. It may be significant.

The Bulletin has received another letter from Brother Thwing which will receive space as opportunity offers.

Assignment of naval fleets to maneuvers in these waters is another evidence that at last the Pacific has been discovered by the American people.

It would be folly to expect anything but insult and misrepresentation from the morning paper when dealing with the County Attorney's office.

Everybody approves the proposal to take the Fleet visitors to Pearl Harbor. The harbor is one of Hawaii's exclusive features and takes first place.

Now is the time for the Associated Order of Piece Clubs to issue their manifestoes so that the people may know just what will happen if the worst is yet to come.

Was this indicted Devauchelle the same one who acted as special sleuth for the Police Organ? If so, no wonder the County Attorney is damned if he does and if he doesn't.

The particular difference between the gambling games on "this side of Nuuanu" and the "other side of Nuuanu" is that the police raid one and with the other it is different.

Scientists want to know if they will be welcome in Honolulu. It is perhaps a proper question, but there is no doubt of Honolulu's response. No place on earth will receive them more cordially or make greater endeavor to have their stay enjoyable.

For an outfit that misrepresents and fumbles the news every day the Advertiser goes through enough foolish contortions over afternoon cablegrams to suggest the necessity of pointing to the "other feller," that its own shortcomings may be forgotten.

Attorney General Hemenway says he dropped the Waihua Chinese case weeks ago. That's just why the men whose chickens were taken and rice paddy burned are now objecting. They apparently want to know if this is the punishment for a friendly game of cards.

Consul Saito shows excellent judgment in giving the Japanese people explicit instructions on the methods of decorating. The majority do not need directions, but the work of one thoughtless or ignorant person supplemented by a bombastic critic might start a whole lot of useless trouble.

Congressman Lilley having been upheld in his charge against the electric submarine lobby, it will be interesting to see what becomes of the special agent who wanted to get an endorsement out of the Honolulu business men because his crowd owned the Naval Committee. Regardless of what may happen in Washington, let the incident be recorded as one of the gold bricks Honolulu did not grab for.

### LOWER SUGAR PRICES.

The reduction in the price of sugar noted in the last few days is no doubt brought about by the reports made on fruit-crop conditions and the beet-sugar plantings in Europe.

Information from the Coast by recent steamers has not been favorable to the fruit men. The drought in some sections of California has wiped out the fruit crop beyond the possi-

bility of recovery. This may become so widespread as to have a very decided effect on the sugar demands of the canneries.

The best plantings of Europe are usually concluded about the middle of May, and the market would undoubtedly respond to increased plantings, resulting from this year's shortage and high prices, and favorable weather for the new crop.

The top-notch of the cane-sugar production has been passed and it may be that invisible supplies have begun to make their appearance to prevent the prices soaring to figures more unsatisfactory to refiners.

There is nothing in mail advices to suggest a reduction in price that will rise to the dignity of a "slump."

### GET THE VOTERS OUT.

May the Civic Federation's effort to arouse the voters previous to the party primaries and secure their attendance at the preliminaries of the party organization be rewarded by the most extraordinary success. A general turn-out of citizens at the precinct meetings and primary poll would give the Federation ample excuse for existence.

And since the Federation is going into this important work it would be quite proper to enlist the enthusiastic support of the Oahu Walking Club and every other organization with a name and nominal membership.

Any organization and every organization, religious or political, in the Family or out of the Family, that will devote its energies to stirring the people to attend to their duties in matters of government, is deserving the kindest words and the highest rewards.

Modern life in this country does not present a more unfortunate being, one more entitled to the condemnation of his fellows, than the man who complains of what the "politicians" have done, but who has not been present at any party precinct meeting or voted at any party primary.

Such a person is of the stripe that helps make monarchies of republics, promotes corruption, and aids in the ruin of decent government. The influence of such a person is figured among the assets of the criminal campaigners who hate popular government and bank on the easy-chair laziness to defeat the cause of government by the whole people.

Get the voters out. If the Civic Federation can help, more power to its elbow.

## LATEST SCHEME FOR POOR FISH MARKET

Editor Evening Bulletin: It is now proposed that the lodges and societies contribute toward fitting up the old fishmarket, converting it into some kind of a theater or public hall.

Just how any assistance from the lodges can be expected I am at a loss to understand, as according to the laws of most of the Orders no money could be appropriated from the funds for any such purpose, besides, the lodges have assembly halls of their own suitable for all their entertainments, while one Order, the Knights of Pythias, have fitted up and maintain at considerable expense the largest and best dance hall in the city capable of accommodating any ordinary ball or entertainment; and may be had at a reasonable rental; it is located in the center of traffic.

The location of the old fishmarket could not be worse, for any society function, dusty and noisy, in the lowest part of the city, shut out from the cool trade winds, and the acoustics poor.

This place is well adapted for the purpose for which it was erected, and the Government formerly derived considerable income, which now goes into the pockets of private parties.

Let the fishmarket stand as it is, that it may be used on special occasions, like entertaining the Fleet, as according to present plans it could only be used for certain purposes.

The largest gatherings we have are political meetings which are best held out of doors, in this climate; for other entertainments we already have ample halls and theaters.

So I consider it folly to spend money on a building that does not and cannot be made to answer any other purpose than the one for which it was constructed.

H. T. MOORE.

### HONOLULU WEATHER

## POLICE CASE WAS DROPPED

Waihua Officers And Chinese Liars, Says Hemenway

Attorney General Hemenway stated this morning that the case against the Waihua policemen, Kinkama and George Namau, had been dropped by his department nearly a month ago, notwithstanding the fact that they were indicted by the Grand Jury and brought before that body. This was done, stated the Attorney General, because of the fact that when a full investigation of the affair was had, it was found that the Chinese were as much to blame as were the policemen.

"The matter was brought before the Grand Jury," said Hemenway, "but was dropped when the facts became known. Both the policemen and the Chinese had broken the law, probably, but there was such a tangle of evidence that nothing definite could be gotten out of it. One seemed as guilty as the other, but both lied to such an extraordinary degree that it would have been hard to ascertain the true facts. I could not see that any great benefit would have come about if the Chinese were indicted at the time, for it would have made an exceedingly complex proposition."

Deputy Attorney General Sutton was sent to Waihua to investigate the affair, but he was able to consult the Chinese only, and from their statements, it looked to him as if he had a very good case against the policemen. The matter was brought before the Grand Jury, an investigation followed, resulting in the indictment of the policemen. Later it was shown that the Chinese were also at variance with the law. Hemenway stated that both were such liars in the case that there was nothing to be done.

When asked if the policemen indicted were still in the service Hemenway said:

"Yes, so far as I know; and they are probably good officers too."

## WAIHEA BOUNDARIES UNDER DISCUSSION

H. M. von Holt has been in consultation with Acting Governor Mott-Smith the most of this morning regarding certain lands owned by a hui in Waiheia. The question discussed has been concerning the boundary lines and fences between Waiheia and the Pupukea homestead lands.

Two questions were to be decided, whether the boundary lines between the two places had been correctly ascertained when the homestead lands were made up; and whether the physical condition of the land was such that fences should be put on the line. The nature of the country is very rough and mountainous, and the line runs in some places over impassable ground. It was decided that the Territory would not, as indeed, it could not, force the people to put fences on the line.

## EXPLAINS TO M'BRIDE

In order that C. H. McBride would not feel that he had been summarily dumped from the secretaryship of the Fleet Committee, as he might from the first cable sent, the Acting Governor sent another cable immediately afterward, stating the facts in the case. Mr. Mott-Smith says that he still feels that McBride did a great deal of good work on the Coast, and in his last cable, he informed McBride that his work was appreciated.

## IF YOUR WATCH Stops

it certainly needs repairing. A gentle shake will not put it in order. Let us examine it. Our Watchmakers Are Thorough Mechanics, who understand watches.

## THAW CASE AT THE ORPHUM THEATER

The Majestic Amusement Company will put on some extra attractions at the Orphum theater next week.  
Moving pictures will be shown depicting the sensational Thaw case and trial. These films have been obtained at great expense and are expected to make an instant hit with the pleasure-loving public.  
The Thaw case will be shown on Monday, Tuesday and Wednesday evenings, and on these nights as an additional attraction, the world-famous play, "Two Orphans," will be reproduced. Everybody has heard about this play but the question of cost prevents its being brought to Hawaii. The next best thing to seeing the "Two Orphans" acted, however, is to enjoy it by moving picture process and this may be done at the Orphum next week at popular prices.

## BAKING AND FREEZING SAVES MAN'S LIFE.

New York, May 6.—After experienced physicians had declared that even amputation of a leg might not save the life of Policeman Coles Carpenter, and a priest had been summoned to administer the last rites of the church, Dr. Raymond Sullivan, a young interne in St. Mary's Hospital, succeeded by the alternate baking and freezing process in saving Carpenter's life and leg.  
While stepping from a car last July Carpenter fell on a rusty nail, wounding his right leg. Mortification set in, and last December it was decided amputation was necessary. Dr. Sullivan said he believed he could save the limb. As amputation in Carpenter's condition was most precarious, the interne was allowed to take the case.  
Dr. Sullivan "baked" Carpenter's leg in a heat from 150 to 200 degrees to induce a rush of blood to the limb. He then plunged it into an ammonia ice tank to drive the blood out quickly and carry away the impurities which had caused mortification. The treatment proved effective, and early in April Carpenter could use his leg with the aid of crutches. Last night he took a long walk without the crutches. His leg will soon be normal.
