LAND PROGRAM OF DEMOCRATS OUTLINED TENYO MARU REPORTS 1000 MILES

Pirates On Manuka; Police Search Ship

Smith, one of the pirates of the Lady, went aboard the Manuka this morning and struck the second steward for a job. There was nothing doing, and the buccaneer escaped without being recognized. Later, the steward tumbled, and there was excitement aboard. And when the Manuka left the dock there was no assurance, absolutely, that the men, Smith and Dusenberry, were not somewhere in her, bound for parts unknown.

WHERE DID LURLINE KOHALA SUGAR CO. SIGHT TENYO MARU? TO PAY OFF BONDS

How fast is the Tenyo Maru traveling? Does anyone know? Apparently not. The following was received this morning: Messrs. Hackfeld & Co., Honolulu. Gentlemen:—Our Kahuku wireless station reports as follows: Between 8:30 p. m. and 9:20 p. m., June 26th, the Lurline and the Tenyo Maru had a long wireless talk. The gist of this was Lurline saying to Tenyo, "Don't forget to tell them" (meaning Kahuku station) "to phone Matson Navigation Company that we will be in early Tuesday evening." Tenyo Maru failed to give her position. Tenyo Maru finished by saying, "I wish you a happy dream." The following was received from S. S. Lurline: "940 miles out; Tenyo Maru now passing abeam; smooth sea; wind moderate, making 12 knots. Expect to reach San Francisco early Tuesday evening." Very truly yours, WIRELESS TELEGRAPH CO., LTD. A message of similar nature, from Captain Matson, was sent to Castle & Cooke this morning, sent about 9 last evening. Kahuku station is quoted as saying: (Continued on Page 4) BAND AT HAALELEA LAWN. The County band is playing this afternoon at Haaalelea lawn, where the mummus sale and poi lunch is being given under the auspices of the Iolani Guild of Hawaiian ladies. The affair is successfully conducted.

JAPANESE TO GREET FLEET WITH DISPLAY

Question Of Invitations For Fleet Ball Decided

Harmony prevailed at the meeting of the Fleet Sub-Committee on Entertainment this morning. The attendance was unusually large. The Japanese Fleet Entertainment Committee, through Dr. T. Mitamura, sent a letter to the committee, which, on motion of Capt. Rees, extended its thanks for the generous offer. The text of the letter was as follows: "I have the honor to reply to you that the local Japanese residents have decided to express their welcome to the Fleet, which is expected here on the 16 July, by exhibitions of 240 fireworks, both on the arrival and departure of the Fleet, which will be played at Kakaako Point every five minutes and on launch of the harbor every two minutes on average."

In order to receive the Fleet in grand style on the day of its arrival the Entertainment Committee decided to ask the Executive Committee to consult the Executive here with a view of making it a public holiday. The members of the Entertainment Committee will in the meantime ascertain from the business houses if such arrangements would be acceptable to them. Capt. Berger, who was present, at Waldron's request, stated that the good name of Hawaii was prominently known all over the world through its band. The band as it is today was not sufficient to keep up its good name unless its membership is increased. The County Fathers were appealed to and it is hoped that they would see their way to reinforce the band before the arrival of the Fleet. The invitations to the Fleet Ball will be limited to the Territorial Executive and Secretary and the Army and Naval officials. To none others will invitations be issued. The returns of Fleet tickets from other islands have been large. The Pearl Harbor trip by automobiles, etc., is being attended to by Abram Lewis, Jr. Richard Ivers of Wm. G. Irwin & Co. offered the former Wilder & Co. rooms, at the corner of Port and Queen streets for the use of the men of the Fleet.

Mauna Kea Near Wreck

The flagship Mauna Kea came near being smashed this forenoon when an attempt was made to place her on the drydock. The vessel had been hauled up in her cradle until her forefoot was out of the water, when suddenly both of the two two-inch iron chains attached to the cradle parted, one after the other, and cradle, ship and all slid back into the harbor. Had the ship been altogether out of the water she would have been badly damaged, but as it was she floated, and was saved from running into the dredger by quickly dropping her anchor. Captain Haglund and J. A. Kennedy were right between the two chains when they parted and had a very narrow escape from death. The cradle was badly damaged. It is possible that no further attempts will be made hereafter to dock the Mauna Kea here, as she is the largest vessel with which the attempt has ever been made.

Garfield Will Wait For Mail

Secretary Garfield will leave Kauai for this port some time this evening, and will arrive here tomorrow morning. It has been settled as a positive fact, according to Secretary Mott-Smith, that Garfield will not leave Honolulu until he has received his mail, which will arrive here on the Asia from the Coast. The Asia may arrive here Monday, but she is not due until Tuesday.

MEXICANS IN REVOLT
EL PASO, Texas, June 27.—The Mexican revolutionists have captured and looted Viesca, Mexico, and have been routed at Lasvacos.

DEMOCRATS OUTLINE LAND LAW CHANGES

Employment Of Alien Labor Strongly Opposed

The Democrats have followed up the suggestion made by Secretary Garfield at the time of the presentation of the petition asking for a change of the present land law, and have prepared a document in which the desired changes are outlined. This letter, which was presented to the Secretary yesterday, reads in full as follows: Honolulu, T. H., June 26, 1908. Hon. James H. Garfield, Secretary of the Interior, Honolulu, T. H. Sir:—In behalf of the delegation that waited on you June 19 in the matter of the land system of the Territory of Hawaii, and acting on your suggestion, we beg leave to present the following:

We believe we can rest the proof of our contention that the land laws of this Territory are not only vulnerable to the gravest abuses, but are incapable of securing the results declared by President Roosevelt to be the important accomplishment in Hawaii, on Governor Froom's declaration in his Commercial Club address January 22, 1908, when speaking on a change in our land laws, he said "there is no danger of getting anything worse than we have got."

We come, therefore, now to what we consider would be a remedy for the evils and abuses that exist, and would secure or at least tend to secure the objects pointed out by the President, namely, to develop this into an American community, not a region of large estates filled by cheap labor; but a healthy American community of men who themselves till the farms they own.

Notwithstanding the fact that grave abuses have existed under the Federal homestead laws—and your statement based on your experience in administering those laws we must accept, as conclusive on that point—we urge the extension of those laws to the public lands of this Territory, as the most practical means of abolishing the abuses and meeting the needs that you have had pressed upon your attention everywhere you have been in these islands. In this we do not discredit your judgment, but we would point out that there is likelihood of such amendments to the Federal homestead laws as will prevent the abuses arising under them and will make them serve the purpose intended that they should serve, because the attention of Congress is being directed to those evils by yourself and from all directions. While on the other hand there can be little rational expectation of such attention and study being given by Congress to our laws as will secure their needed amendment.

Whenever the Federal homestead laws are properly amended we will get the benefit of those amendments if the laws are extended in their operation to these islands. This we believe is a very practical reason, growing out of the well known and perhaps inherent exigencies of legislation. It is easier to get the needed relief and legislation when our cause is the common

cause than when we stand in need of special legislation.

Going then further, but still striving to present a concrete remedy, and constructive rather than destructive criticism, we urge the earliest possible suspension of those portions of the Hawaiian land laws which permit the exchange or sale of public lands. It is under these two powers that the grossest and gravest abuses of which we complain and of which abundant evidence can be produced, exist. The power to exchange is anomalous in Anglo-Saxon law. So far as we know it is a power vested in no other American executive, from the President down.

The suspension of these two powers will not keep public lands out of use, for there is still the power to lease them and to give them by way of homestead.

Further, we urge that as the purpose of the homestead law is to put the public land into the possession of the individual American citizen so that by exerting his industry upon it he may provide a home and livelihood and means of education for himself and his family, that the Federal homestead law should be so amended as to be a continuing safeguard to that purpose; that the conditions required to make any piece of public land a

To Wed Amoy Anin

SAN FRANCISCO, Calif., June 27.—R. S. Chapman of this city will marry Amoy Anin on Monday. Miss Anin is Chinese and her home is in Honolulu.

Amoy Anin is well known in Honolulu. She went to San Francisco to live during the last year.

BASEBALL EXTRA

Score by Inn. 1 2 3 4 5 6 7 8 9 Tl.

Kams, 000020000 -- 3
St. Louis 000000000 -- 0

The line-up: Kams—Miller, ss.; McKenzie, lf.; Lemon, cf.; Vannatta, 2b.; Jones, 1b.; Hamauku, c.; Fern, 3b.; Reuter, rf.; Lota, p.
St. Louis—Bushnell, p.; Joy, 2b.; J. Williams, 3b.; A. Williams, 2b.; En Gee, lf.; Gleason, 1b.; Plada, rf.; Bruns, c.; Markham, cf.

FIRST INNING
Kams up—Miller hit safe along first, and is caught out at first. McKenzie is out on a foul. Lemon hit a safe binggo over the second station, and Bill Vannatta is out from third to first.

Bushnell is out from the pitcher to first. John Williams slams out a single between second and first. Barney Joy wanders on four wide ones. Williams goes to third and Joy to second on a pass ball. Alf Williams is hit by a speedy one from the pitcher and takes his base. En Gee was out on an infield fly, two men being on bases. Pat Gleason fans the ozone.

SECOND INNING
Jones is thrown out at first by short stop. Hamauku flies out to J. Williams. Fern is out from second to first. Plada flies out to center watermelon patch. Bruns hits safe into left, steals second, and is caught out trying to percolate the third sack. Markham grounds to first and is out.

THIRD INNING
Reuter is thrown out at first by the shortstop. Lota is out from the pitcher to first. Miller flies out to the pitcher. Bushnell is out, shortstop to first. John Williams got a two-bagger to the left-field fence. It would have been a home run had it not been for a sign on the fence. Joy flies out. A. Williams is out from the pitcher to first.

FOURTH INNING
McKenzie flies out. Lemon fanned the beautiful raly atmosphere. Vannatta is out from second to first. En Gee goes out at first, being thrown out by the pitcher. Gleason goes down on the same play, pitcher (Continued on Page 3)

FIGHTING AT TABRIZ
TABRIZ, Persia, June 27.—Fighting has been resumed in this section between the forces of the Shah and of Parliament.

homestead in the first place should continue as conditions to keep it a homestead. Therefore that land taken up as a homestead should remain a homestead, susceptible of subdivision into more homesteads as improved or intensive cultivation or other considerations shall require, but incapable of consolidation to the extinguishment of the homestead quality. Such a provision would eliminate the "Jummy" and all other fraudulent means by which public lands are secured under the guise of homesteads, but really for the purpose of monopolization.

We urge also that as the public domain belongs to the citizens of the country, and is given to individual citizens in parcels in order thus to best serve the interests of the community as well as of the individual citizen, that the individual should not be permitted to do what all the citizens in their political capacity will not permit themselves to do. As the nation will not grant its public land to aliens but permits only citizens to secure it, why should the individual citizen be permitted to do what the nation will not do? Therefore, we propose that as only citizens can acquire public lands in the first place, only citizens (or those who have declared their in-
