PERSIA ASHORE AND MONGOLIA DAMAGED SHOT MISSES TAFT AND HITS WOMAN

Persia Ashore And Mongolia Damaged In Typhoon At Shanghai

HONGKONG, China, July 29.—It is estimated that a thousand persons have been killed in a typhoon here. The Pacific Mail Steamship Company offices have been wrecked. The Pacific Mail steamship Persia (formerly the O. & O. steamship Coptic) has been driven ashore, and the Pacific Mail liner Mongolia damaged in a collision. Thousands of craft were destroyed at Canton.

Attempt Made To Assassinate Taft

CINCINNATI, Ohio, July 29.—A woman, sitting on the steamer deck, directly under Taft, was today hit by small shot fired from a houseboat on the Ohio river.

Hearst Is Chairman

CHICAGO, Ill., July 29.—Hearst has been chosen as chairman of the National Committee of the Independence League.

Moyer Is Reelected

DENVER, Colo., July 29.—Moyer has been reelected as president of the Western Federation of Miners.

Auto Kills Sands

PARIS, France, July 29.—Winthrop Sands, the stepson of W. K. Vanderbilt, was killed in an automobile accident today.

NEW TURKISH PARLIAMENT

CONSTANTINOPLE, Turkey, July 29.—The new Parliament will open November 12.

Banner Boys' Suits

These are real Boys' Suits, made by special Boys' Tailors.

They are handsome and natty, as well as correctly tailored, and the material is strong and pretty.

They are strongly made—never rip at the seams.

In Knickerbocker and other styles.

E. O. HALL & SON STOCK ON SALE

Mary Dame Hall Orders Sale Of \$15,000 Worth

The will of Mary Dame Hall was this morning admitted to probate here and in New Jersey. Samuel M. Damon was appointed administrator with the will annexed, and his bond was fixed at \$10,000, which is practically the amount of the estate.

The will of Mrs. Hall authorizes the selling of stock that she owns in the firm of E. O. Hall & Son to the amount of \$15,000. Of this amount she bequeaths \$10,000 to Mount Holyoke College, South Hadley, Mass., and the other \$5,000 is to go to Chas. E. Dame, a nephew.

Ten shares apiece of E. O. Hall & Son stock is given to E. O. White and E. O. Hall, because of the fact that they are named after her husband, who was also an E. O. Hall. The remainder of the E. O. Hall & Son stock is divided between the children of W. W. Hall. There are numerous other bequests, but they are not of local importance.

LEPER DOCTOR GOTO IS DEAD

Practiced His Cure For Years At Molokai Settlement

Dr. M. Goto, well known to the old-timers here as the first Japanese physician who did much good to the lepers at the settlement on Molokai, died on July 29 at his home in Tokio, Japan.

Dr. Goto came to the islands in 1885, shortly after the late King Kalakaua returned from Japan on his tour around the world. During his residence of three years in the islands he was permitted to reside and practice at the Molokai leper settlement. His remedy, it is said, was the only one that relieved the inmates to any great extent.

Afterwards Goto returned to Japan and in 1894 came again to the islands with his family, remaining here for two years and two months. Finding Hawaii not to his liking, Goto and his family returned to Japan and the doctor opened a hospital, which he successfully conducted until his death. He was 52 years of age.

Winslow Replaces Otwell

On the transport which is due in November, the first battalion of U. S. Army Engineers, now stationed at Vancouver barracks, will be here for the purpose of making a map of the Island of Oahu. They come under command of Major E. Winslow, of the Corps of Engineers, who is to relieve Capt. Otwell in charge of the U. S. Engineer Office here, according to present understandings in the matter.

The men who will do the mapping will be directly in charge of Capt. Otwell, while Major Winslow will assume control of the office here at once, and, presumably, permanently.

Major Winslow is one of the most capable and thoroughly likable men in the service, and, as the two-year term of service which is usually given in the tropics is over for Captain Otwell next fall, it is felt that Honolulu is fortunate in getting such a man as Otwell's successor.

Capt. Otwell has been doing some excellent work here, and has now just about gotten things organized for good, hard work, when he is by the chances of army life, removed, and the task of gathering the fruits of the labor he has done in the last two years will fall to another.

The headquarters of this First Battalion is at Fort Mason, San Francisco. Capt. Otwell is to go with them back to the Vancouver barracks.

CHIEF THURSTON FOUND NOT GUILTY

Tale Of Gory Battle Told In Police Court

Charles H. Thurston, the chief of the fire department, was this morning discharged in the Police Court, where he appeared on a charge of assault and battery on William Friel, a motorman, who was formerly in the employ of the fire department. D. L. Withington prosecuted, while Frank Thompson appeared for the defendant.

Friel was the prosecution's only witness. He said that Thurston had run his rig within six inches of him on Palace Square, so that he had to jump to get out of the way. Friel had warned him against doing this sort of a thing too often, and had then gone to the Palace restaurant for his luncheon.

While he was washing his hands, (Continued on Page 5)

LOCAL DOCTORS HAVE HARE AT LUNCHEON

Prominent Physician Is Guarded By Our Medicos

Dr. Herbert Hare, professor of medicine and therapeutics of the Medical College of Pennsylvania, was given a lunch today by the physicians of Honolulu at the University Club. Practically all the members of the Medical Association were present to honor the distinguished guest. Dr. Hare is the author of many standard medical works. Although he is said to be making a pleasure trip around the world, it is expected that he will make special study of various subjects in Japan and in Germany. He is an authority on many diseases.

Dr. Hare is a man of fine physique. In spite of this he was carefully guarded by a number of the local physicians, who would not let reporters come near to interview him, at least not on the premises of the University Club.

Dr. Hare is accompanied by his family. His daughter, according to one of the physicians, is married to Lieutenant Crook of the United States Navy. Those present at the luncheon were Dr. C. B. Cooper, Dr. Cofer, Dr. McDonald, Dr. Judd, Dr. Waterhouse, Dr. Rogers, Dr. Sinclair, Dr. McCallum of Fort Shafter, Dr. Wayson, Dr. Straub and a few others.

SAN FRANCISCANS MAY VISIT HERE

Merchants' Excursion May Call On Way To Japan

That the visit of a body of representative merchants of San Francisco to these islands, for which the Chamber of Commerce and the Promotion Committee have for a long time past worked so hard, may soon become a fact is indicated by the following letter, which was received this morning: San Francisco, July 22, 1908.

Mr. H. P. Wood, Secretary Chamber of Commerce, Honolulu, Hawaii. My Dear Mr. Wood:—Your letter of June 29th, in which you suggest that a party of representative merchants of San Francisco charter a steamer for an excursion to Honolulu via Hilo, has been received.

A great deal of interest has been shown by local merchants in your suggestion, and we are now considering an invitation recently received from the Chambers of Commerce in Japan for an excursion to that country.

It occurs to me that in case arrangements are made for the excursion to Japan the party could stop over a few days at Honolulu.

The members of the Chamber of Commerce will meet in quarterly session on Tuesday, August 4th, when your communication will be officially placed before them, and you will hear further from me in relation thereto. Yours very truly,

C. W. BURKS, Secretary.

Hawaii Pulled Into First Place Late On Yesterday Afternoon

The Hawaii leads! After a wireless, dated at 2 p. m., yesterday, had last evening, been received, stating that the Kamehameha led, with the Hawaii second, the J. A. Cummins made port this morning with the good news that later in the afternoon the craft had been seen, with the Hawaii to the good.

The latest news from this race demonstrates, it seems, that the Hawaii is quite a different boat with ballast out and running up into the wind.

The first thing authentic, after reports that the boats had been seen going round Koko Head with the Hawaii in the lead, which seems to be rather improbable, in view of the wireless from Wilder, was in the form of a wireless message sent last evening by Charlie Wilder from Lahaina, as agreed. It was as follows:

McInerney, Honolulu: "3 p. m. Starboard tack, Kamehameha, Hawaii, Gwendolyn, Gladys, Lurline, Lady Maud. Far to leeward; smooth sea; light wind. Hawaii's windward work good."

This is the most cheering news which up to that time had ever been received from the Hawaii, in any

event. It demonstrated that she was outsailing the Gwendolyn, in spite of the light wind, in which it is a popular belief this craft cannot sail. When the boats passed Diamond Head the Kamehameha led, with the Gwendolyn second, and the Hawaii a close third. The alteration in the positions, with the Hawaii in second place, was particularly gratifying. It might have been hoped that the yachts would find more wind, but they seem to have made well up the channel as it is.

Then, later in the afternoon, they were seen by the Cummins, this time with the Hawaii showing a clean pair of heels to them all.

In case a big wind is found, it seems probable that the craft will make Hilo tonight or tomorrow. However, the sea in the channel is very smooth today, and for this reason it is judged that outside the wind is not exceedingly active. All this is favorable to a rather long passage to Hilo.

Among the passengers who departed in the Lurline this morning was Miss C. L. Robinson, who is on her way to England.

Many Police Changes Predicted By Laukea

"I expect that there will be a great many changes in the police department during the next month or so," said Sheriff Laukea this morning, after he had confirmed the report that Clerk Nielson, who has been doing excellent work in the receiving station for several years, had been relegated to the waterfront to take the place of Lewis Reeves, whose resignation the Sheriff called for yesterday.

"Every member of the department who runs for an office, or who in any other way takes an active part in the campaign will be asked to resign," continued the Sheriff, when asked for his reason for prophesying the advent of the great shake-up. "I cannot give you the names of those whom this will probably effect. I have heard the names of quite a number of members of the department, but I do not think it fair to give them out now."

"Will this affect men like Charlie Rose and Jack Kalakiela if they should run?" asked the reporter. "Yes," answered the Sheriff. "It will effect every member of the de-

partment, no matter what office he holds."

Some doubt was expressed that the Sheriff would be able to secure competent men to fill the more responsible positions for such a short term, but he stated that there were lots of men willing to take the positions who were fully competent to hold them.

In view of this statement it may be regarded as practically certain that the last days of Laukea's administration will see in office a new chief clerk, as Rose says that he will run if he receives the nomination from the Democrats, no matter what the office is, and it is practically sure that he will be nominated for either auditor or deputy sheriff, probably the former. Jack Kalakiela has also aspirations for the deputy sheriffship, though he says that since he was made chief of detectives he is not so sure about running for the position as he was before his advancement.

The Sheriff stated this morning that the appointment of his son Fred to the receiving station clerkship was merely a temporary case.
