Roque Will Be Played At Oahu Country Club

Roque will soon be one of the attractions at the Country Club. Vice President Walter Dillingham visited several well-known country clubs while on the mainland with the view to getting some ideas in regard to outdoor pastimes, and he found roque high in favor everywhere.

Roque resembles croquet in that it is played with balls, mallets and bats; there the similarity stops. It is said to be one of the most scientific games that was ever invented and has taken a great hold on mainland sportsmen.

It is not unlikely that the matter will be brought up by Dillingham at the next meeting of the directors, and that steps may be taken arranging for a roque court and possibly for the inauguration of a series of tournaments.

The special committee appointed to start negotiations regarding the purchase of the Country Club property is busily at work and is making

excellent progress. The attorneys for the Rooke Estate, the owners of the land, have been communicated with and a favorable report is expected at an early date.

The new tennis court will soon be ready for play. The last coat of oil has been applied and, as soon as it has dried sufficiently the surface will be rolled and given its final treatment. The completion of the court will be celebrated with an invitation tennis tournament.

In spite of the counter-attraction of the Tansan tournament on the Moanalua links last Sunday, there was a large attendance on the Country Club links and play went on from sunrise to sunset. The table d'hote luncheon in the middle of the day proved particularly popular with members.

The auto bus is now running regularly again from Nuuanu car line to the club house.

The next tournament will be four some on January 21.

ECHOES

The new blood infused into athletics at Camp Very by the arrival of the large marine reinforcement has already been felt. The marines will probably have a stronger baseball team than ever, now and will also take a prominent place in other athletic events. Some clever boxers are included in the new contingent of troops.

The Alameda football men are mighty anxious to get in some play at this end of the line. They were forced to content themselves with a practice game last Saturday, as no local team turned out to meet them. They will take another try on their next trip here.

The annual meeting of the Honolulu Golf Club will be held within the next week or ten days. The exact date has not yet been decided upon, but that it will be in the immediate future is certain. The Honolulu club plays on the Moanalua links on S. M. Damon's beautiful estate.

While neither Reilly nor Smith are doing any boasting on the street corners, it is evident that each is confident of his ability to administer an unmerciful beating to the other.

The idea of bi-weekly fistic carnivals is taking on with the fans and Genial Joe is likely to find his venture a financial success.

There will be a baseball game today at Fort Shafter between the teams of Companies G and H of the Twentieth Infantry.

The circular track in Kapiolani Park will probably be fixed up for the coming field meets of the Inter-Scholastic League.

Marlowe, the Fifth Cavalry heavyweight, is said to be a very clever man with his fists. He is out after a match.

The Orpheum will probably be used as training quarters by one of the little bruisers in the Reilly-Smith mill.

The Ala Moana have protested the game which the Kewatos won last Sunday.

The victors in the walking races, held last Sunday, have received their prizes.

NICK YOUNG, VETERAN BASEBALL MAN, INJURED

Washington, D. C., Jan. 6.—"Uncle Nick" Young, who was president of the National Baseball League for many years, fell headlong down the stairs at his home in this city a few days ago and was painfully hurt. Fortunately the veteran baseball man landed on his hands and his injuries consisted principally of a sprain to his right wrist and arm. His condition is reported to be improving. While he has been out of baseball for several years, he rarely misses a game during the local playing season.

BOXING

FIGHTERS ARE BUSY TRAINING FOR MILLS

SULLIVAN, REILLY, SMITH, AND LOCALITIES

Men Have Selected Their Quarters and Are Losing No Time in Getting Down to Work—Orpheum and Camp Very Chosen

The fistic artists who are to take part in Joe Cohen's little show at the Orpheum on Saturday week, are busily getting themselves into condition for the contest. Both Smith and Reilly are hard at work and they will keep at it until shortly before the night of the mill.

Smith is working out at the marine camp. There are ample facilities down by the sea, and there are plenty of willing sparring partners among the soldier men. In fact, Frankie has been rather embarrassed by the generosity of the marines in offering their services. He can handle only about so many a day, and he hates to turn a good man away.

Reilly is busy at the Orpheum. Though he has not the water in close proximity, as at the marine camp, he has other advantages which go to make up for the absence of the briny. For one thing, he has more visitors than when they way down to Camp Very.

Dick Sullivan is also at work at the marine camp, in preparation for his coming mill with Peterson, which will be held two weeks after the Smith-Reilly contest. Dick is not taking any chances and, though he is now in the pink of condition, he will keep up work until the time arrives to enter the ring.

Sailor Boquet, the naval wireless man, is also working at Camp Very. He is acting as sparring partner to Sullivan, while getting himself into shape for a little fighting on his own hook.

Peterson, who will meet Sullivan at the Orpheum within the month, is working out at Cohen's emporium. Scotty is also there, and all three of the fighters are getting in some telling work.

IMPORTANT

ANNUAL MEETING OF HAWAII YACHT CLUB

MATTERS OF VITAL INTEREST WILL BE DISCUSSED

The annual meeting of the Hawaii Yacht Club will be held a week from tomorrow evening at 7:30 o'clock in the rooms of the Commercial Club. Matters of the most vital importance, including the increasing of the capital stock of the Club from \$4000 to \$10,000, will come up for consideration.

The following letter has been sent out to all of the members:

The annual meeting of the stockholders of the Hawaii Yacht Club, Limited, will be held at the Commercial Club rooms on Wednesday evening, January 27, 1909, at 7:30 p. m., the following subjects of importance to be considered:

The annual election of officers for the coming year.

A resolution reducing the par value of the shares of the Hawaii Yacht Club, Limited, from \$20.00 to \$5.00.

A resolution increasing the capital stock of the Hawaii Yacht Club, Limited, from \$4000 to \$10,000.

A resolution amending certain sections of the by-laws of the Hawaii Yacht Club, Limited.

A statement of the club's finances.

A disposition of the W. G. Irwin trophy.

A final decision regarding the ownership and control of the yacht Hawaii, and any other matters that may come before the meeting.

As no change whatever can be made to the by-laws without a majority vote of the stockholders, it is very important that you attend.

CHAS. T. WILDER,
Secretary H. Y. C., Ltd.

Hawaii Will Be Brought To This Port

On Sunday the yacht Hawaii will be brought up from Pearl Harbor and will be placed upon the ways. Her keel has not been scraped for six months, and is so foul that those in charge do not feel inclined to leave it longer without attention.

The Hawaii will probably be called into service for the club's luau on Sunday next, and it is the desire to get her into the best of trim. A party of yachtsmen will probably go out to Pearl Harbor on Saturday afternoon to bring her down here.

While she is here other minor repairs will probably be made and she will be gotten into top-notch condition.

Shell Mound Rifle and Pistol Club will inaugurate annual program and compete for many handsome trophies.

Schools Form Athletic League

Oahu College, the Kamehameha Schools, and the High School were all represented last night at a meeting in the Y. M. C. A. building which resulted in the organization of the Inter-Scholastic Athletic Association.

The organization of the association will doubtless mean increased activity in athletics at the institutions represented and will probably result in the holding of some interesting games and tournaments, arranged on a triangular basis.

It is the determination of those in back of the movement to give scholastic athletics as great a boost as possible, and their effort will probably prove successful.

Johnson and Langford said to have agreed to fight in London.
