SENATE

(Continued from Page 1)
idating all contracts entered into by virtue of the old charters, was favorably reported by the Judiciary Committee and passed second reading without debate.

Senate Bill 63, providing that a surety company shall be sufficient bond in liquor matters, was favorably reported and passed second reading.

The following bills were referred to committees:
House Bill No. 125, to the Judiciary Committee; Senate Bill No. 91, militia bill, to the Military Committee; Senate Bill No. 95, relief of J. A. Cummins, to the Judiciary Committee.

Senator Knudsen introduced a bill amending the law governing the statute of limitations.

Senator Fairchild did not sign the report of the Ways and Means Committee, believing himself bound by his pledge to oppose any change in the liquor law. The report this morning had to do with sureties on bonds and was introduced at the request of trust companies.

House Bill 17 is the measure drawn up to regulate Japanese labor camps primarily. Though it gives authority to provide against all nuisances, its main object is to prevent the encroachment of the Oriental labor camp, or cheap lodging house, in residence districts.

+++++
structed to carry out all instructions relative to this resolution from the Speaker.

The Finance Committee rendered a report on the Governor's message, in which it stated that by combining several of the departments and turning over to the Counties such obligations as they can and should assume a great reduction in the current appropriation bill can be effected. A separate appropriation bill will be introduced after final action upon the Current Appropriation Bill to bring the total amount within the available balance.

Hilo introduced a resolution for the appropriation of \$1500 for the construction of a breakwater near Lae o Kala, Kahana, Kaunapali, Maui. Sheldon wanted \$5000 for the extension of the water pipe system for the Waimea water works.

House Bill 65, introduced by Moanali, to provide for indeterminate sentences for certain felonies, was passed without opposition on third reading.

TEACHERS COMMITTEE ASKS FOR HEARING

The Legislation Committee of the Territorial Teachers' Association, at its meeting on Saturday morning, sent messages to the Committees on Education of the Senate and of the House, requesting an audience. This committee wishes to present the present public school problems from the standpoint of those actually engaged in this work—the teachers.

schools of this Territory are already overcrowded to a most alarming extent. Great expansion, increase in seating capacity, and in the number of teachers, is needed. These children will be citizens in a few years, and history has shown repeatedly the political danger and economic failure of ignorant citizenship. The social and political safety of the Territory lies in its public school system, and any curtailment of its efficiency is a most short-sighted policy.

A SUGGESTION ON ECZEMA.

It is suggested that eczema sufferers ask the Honolulu Drug Co. of this city what reports it is getting from the patients who have used the oil of wintergreen liquid compound, D. D. D. Prescription.

BUILT FOR SERVICE

Most refrigerator companies, through a short-sighted policy, turn out cheap ice boxes by the hundred at big profits. Our

EDDY REFRIGERATORS

are all carefully built to give the best service of which a Refrigerator is capable, for efficiency, economy, and convenience.

HOUSE

(Continued from Page 1)
this bill repeals, gives an exemption of only \$250 worth of real property and one-half acre of taro land. The committee held that \$25000 is a fair medium valuation for exemption, and that no head of a family should be stripped of his home if it prove worth more than the paltry sum of \$250.

The Public Lands Committee reported favorable on Alfonso's Hilo park bill, H. B. 96, and also on Kawewehi's pound bill, No. 123. The latter measure gives anybody the right to take any cow or horse he may find on the public road to the pound master and get four bits for it. Probably this bill is for the benefit of the much-admired poor persons, too.

The Finance Committee recommended the indefinite postponement of H. B. 95, introduced by Castro, reducing the stamp duty on the charters of charitable, religious, literary or educational corporations from \$25 to \$10. The committee recommended the passage of Coney's bill, No. 117, providing that instruments not stamped within three months after being executed shall be subject to a penalty of 100 per cent. Both reports were adopted.

The Lands Committee recommended the passage of Moanali's bill, No. 79, providing that water works may be maintained by counties. The committee expressed the opinion that certain public utilities owned by the Territorial Government should be under the control and supervision of the counties.

Shingle rather turned the tables on Rice this morning when the resolution introduced last Saturday by the Kaula member was taken up for consideration. This was the resolution empowering the sergeant-at-arms to arrest absent members and bring them to the House.

Rice stated that he had discovered that the subject matter of the resolution was already covered by the rules, and he, therefore, moved that the resolution be tabled.

But this was not satisfactory to Shingle, who had an idea that Rice had him in mind when he introduced

the resolution. He objected and wanted to move to postpone indefinitely. "I think," he said, "that the time has come to give this resolution a decent burial, with the Honorable Charles A. Rice as chief pallbearer."

His motion was out of order, but the House caught his idea, defeated the motion to table, and then passed Shingle's motion to postpone indefinitely. Shingle then moved that all reference to the matter be expunged from the records.

That often-deferred bill of Nakaleka's, to boost the pay of road laborers to \$1.50, of which the House is so much afraid, was again deferred this time to next Saturday.

Cohen introduced a bill "to encourage saving among school children. The bill provides that the principals of the various schools may receive from any pupil any sum of money, issuing therefor a deposit book, and shall remit all money so received to the school savings bank at Honolulu. The bank shall be conducted by the teacher in charge of the Commercial Department of the McKinley High School, and he shall deposit all moneys received in some bank or trust company. The principal of any school receiving deposits from any child shall be personally liable for the safe keeping of the money until the same shall be remitted to the school savings bank.

The following censure resolution, introduced this morning, comes from the fertile mind of Kalelopu:

"No person shall expose or offer for sale, or shall sell, or cause, or allow to be sold any fish or product of the sea stored in cold storage other than ahi, hapupu, koa'e, kahala, mahimahi, ono, opakapaka, uku, ulaula, and ulua in any public or private market within the Territory of Hawaii."

A fine of from \$10 to \$50 for violation of the provisions of the Act is provided.

Kalelopu introduced the following resolution, directed at Superintendent Babbitt and Mary Atgerley:

"Be It Resolved by the House of Representatives of the Territory of Hawaii:

"That all lobbyists be and they are hereby excluded from and are requested to retire from the floor of the House and that the sergeant-at-arms be in-

Comes Home With Force

It strikes with double force those who have traveled over the world and have been obliged to drink all sorts of liquids, good, bad, and indifferent.
