CRICKET MATCH Tomorrow afternoon at the Mahiki cricket ground an eleven from the British warship Bedford will play the local cricket team. The Bedford has a very strong eleven, and it is reported to be about the best in the British navy. The local club will do their best to put a strong team in the field, but it will be difficult to have the very best players, as the first few days in the month are always very busy ones for the business men of the city. However, a good team will try conclusions with the sailors, and the visitors will have to put up a big score to win. The game will start at 2 o'clock, and by that time all the players are requested to be on the ground.

Ship Subsidy Only System To Keep Our Ships Going SEATTLE, Sept. 30.—In a speech delivered here today, President Taft expressed himself as being in favor of the commission form of government for the District of Alaska. He furthermore urged a bureau at Washington to have supervision of the affairs of the northern district. The President urged a ship subsidy as the only solution of the problem which the American merchant marine is now facing. With foreign governments subsidizing their shipping to the extent of \$35,000,000 a year, the American ships are being driven out of business, said the President. He said that there is no problem now facing the people of the United States of more vital importance than the protection and expansion of American shipping, and he expressed the belief that the \$6,000,000 or \$8,000,000 now being made from foreign mail service would be sufficient to subsidize several American lines to South America and the Orient. The President pointed out that today there are not enough colliers flying the American flag to supply American war vessels with coal in time of war, and urged a subsidy which will guarantee sufficient American vessels to coal the war fleets of the nation. President Taft made the statement that European subsidies, which have driven American ships out of the South American trade, have had a serious effect upon the commerce of this country with the republics of the other side of the equator. In particular did the President urge a liberal subsidy for the ships plying on the Pacific ocean. He characterized the Pacific ocean shipping facilities as woefully inadequate, and said the present state of affairs is having a drastic effect upon American trade with Japan and the Orient in general.

In 1893 he was elected Justice of the New York State Supreme Court, being nominated by the Republicans and Democrats.

MAGNIFICENT SPECTACLE. NEW YORK, Sept. 30.—Twenty-five thousand troops today took part in the great military parade, arranged as one of the features of the Hudson-Fulton celebration. Regulars, National Guard and Naval Reserve sailors and naval men-of-war were in line. The spectacle was a magnificent one, and the parade was hours in passing a reviewing stand. ENGLAND AND SPAIN MAKE SECRET AGREEMENT. PARIS, Sept. 30.—That England and Spain have entered into a secret agreement whereby the latter kingdom places at the disposal of Great Britain, in case of war, all forts commanding Gibraltar, is the report published in a newspaper in this city today. With such a treaty in force, Great Britain would have a stronghold absolutely impregnable.

GOVERNOR PLANS WASHINGTON TRIP Will Meet Personnel Of The New Regime Governor Frear stated this morning that unless something unforeseen occurs he will probably leave for Washington early next month. The main object of his visit to the national capital is the necessity of becoming acquainted with the personnel of the new administration, which is extremely desirable from the viewpoint of the best interests of the Territory. Incidentally the Governor will probably meet Andrew Carnegie in New York and will again take up the problem of a local library with the Ironmaster, the Territory having conformed to the suggestion made by Carnegie to the Governor on a former visit of the chief executive to the mainland. All the details for the consolidation of the Honolulu Reading Room Association into a library of Hawaii have been settled, and there is apparently no impediment in the way of securing some assistance from Carnegie. The problems affecting the refunding of the \$2,000,000 of the Territory bonds will also be taken up by Governor Frear on his visit to Washington.
