NEW CITY OFFICERS OF SAN FRANCISCO

The Lulline Dispatch gives the following details of the San Francisco election, received by wireless:

The result of the municipal election in this city has shown a sweeping victory for the Union Labor ticket.

The following is a list of those elected: Mayor, P. H. McCarthy; District Attorney, Chas. M. Fickert; Auditor, Chas. F. Boyle; Treasurer, John E. McDougall; Tax Collector, David Bush; Recorder, Edmund Godechaux; City Attorney, Percy V. Long; Public Administrator, M. J. Hynes; County Clerk, H. I. Mulvey; Sheriff, Thomas P. Finn; Coroner, William J. Walsh; Police Judges, Chas. T. Conlan, Edward J. Shortall; Supervisors, Paul Hancock, Edward L. Cutten, Matt Harris, Fred L. Hillner, Chas. A. Murdoch, James P. Booth, J. Emmet Hayden, Oscar Hoeks, Cornelius Dmsy, Timothy R. Healy, John L. Hergot, John A. Kelly, John R. Knowles, Robert J. Loughery, John P. McLaughlin, Timothy P. Meahan, Chas. A. Nelson, John O. Walsh.

O'DAY'S UNTRUTHS PLAINLY SHOWN.

(Continued from Page 1)
two years' absence in the islands. In the course of his interview O'Day declares that "two years ago I went from the East to the Hawaiian Islands and took up scientific work among the legends on Molokai."

the island of Molokai until the members of the Legislature of 1909 made the usual trip to the Settlement. That was the first time Dr. O'Day had an opportunity to take up "scientific work," a short time before having made an occasional visit to the Kaili receiving station.

As a result of the visit to the settlement, while he now refers to as a "miserable hole," O'Day was full of praises for the efficiency of the administration and the efforts the Government was making to obliterate the disease.

The general expression of opinion by local physicians who had occasion to encounter O'Day in the practice of their profession is that his future actions and reputation will set at naught any of his attempts to vilify the people of Hawaii.

FORCE OF HABIT.

Mistress—And Dennis doesn't send you as many kisses in his love letters as he used to, Nora?

Nora—No, mum, he sends short weight.

Mistress—That's strange.

Nora—But this Ol can't blame him so much, mum. Yez see, he's bin on the back av an oice cyart all summer.

Attorneys in Civil Service.—Albany, N. Y.—Deputy attorney-generals who \$200 a year or less receive permanent employment by the action of Governor Hughes in approving resolutions adopted by the state civil service commission classifying in the competitive class all whose salaries are less than \$3000.

SENATORS DINED BY PRESIDENT

Last night at the Pacific Club W. O. Smith, president of the Senate, entertained all of the Senators who are at present in the Territory at dinner. Covers were laid for fourteen, and after the cocktails were served ample justice was done to the banquet.

Political speeches were barred, still every one of the guests had something complimentary to say about President Smith, and the best of good feeling was shown by all.

A quintet of musicians played during the dinner, and if any Senator showed signs of being too long-winded, the band was instructed to drown the offender's voice. Mr. Smith's health was toasted with great enthusiasm by all the company and the party broke up a little later in the evening.

PROMPT ACTION SAVES A HOLDUP

What threatened to be a serious hold-up of two King street cars this morning just Walkiki side of Punchbowl, turned out very favorably for nearly fifty passengers. A long string of street cars were being conveyed Indian file along the street, all hitched to each other, with horses at the head. A breakdown left the string across the tracks just as the cars came from both directions. The conductors, after brief consultation, took things in their own hands, quickly transferred the people and there was practically no delay.

NOTHING OFFICIAL

Nothing official has yet been received at the local agency of the Oceanic Steamship company regarding the plan to put the Sierra on the local run in place of the Alameda. There is a general belief however that the Oceanic Company will respond to the demand for increased passenger accommodations and meet the needs of the local situation.

CITY BASTILE LOOKED GOOD.

Manuel Robert has taken a decided fancy to the board and lodging dispensed at the city and county bastille. He was gathered in by the police the other night for overindulgence in nut brown. He was released at 7 o'clock this morning and Manuel thereupon made tracks for the nearest wet goods emporium and proceeded to cool his overheated copers by long libations of cheering beverage. He was brought before Judge Andrade much the worse for the encounter and this time was given sixty days in which to cling to the pole of sobriety.

INDICATORS FOR HONOLULU BIG GUNS

The San Francisco Call says: It is interesting to note that a San Francisco firm have just completed two large indicators for the government, to be installed in Pearl Harbor, Hawaiian Islands. They will be used in connection with the range finders, indicating the range, the number of shots fired, the yardage and other information, automatically arranged. This company was fortunate enough to secure this contract out of a big field of competitors. The machinery on this particular work was most delicate and required clock-like regulation on the dial, with a polished machine surface.

FORESTER IS COMING FROM THE COAST

The San Francisco Call of Oct. 24 says:

The local forestry bureau has decided to send Louis Margolin, examiner of forests, to the Hawaiian Islands Dec. 1 to study the Territory for the planting of trees of different types most to the advantage of the islands.

The fact that none of the native trees in Hawaii furnish construction timber is an important reason that there be introduced into the Territory trees of economic value.

Practically all of the construction timber used in the islands is imported from Puget Sound and northern California, mainly redwood and Douglas pine.

SURGEON HARRIS TO INSPECT LOCAL POSTS

SAN FRANCISCO, Oct. 28.—Col. Henry S. J. Harris, chief surgeon of this department, will sail for Honolulu on the transport Sheridan Nov. 5. He will make a thorough inspection of the hygienic and sanitary conditions existing in the military posts in the Hawaiian Islands. During his absence Major James M. Kennedy, in charge of the general hospital at the Paeo, will probably act, in addition to his present duties, as surgeon of the department.

Ten per cent penalty is to be added to all taxes not paid before the 15th instant.

Ridgway's Stock Sold.—New York, Oct. 19.—The stock of the Ridgway company, publishers of Everybody's Magazine, will be taken over by the Butterick publishing company and the capital of the latter concern will be increased from \$12,000,000 to \$15,000,000.

HOLDS HAWAII AS HORRIBLE EXAMPLE

KENT SPEAKS FOR ASIATIC EXCLUSION

Address Before City Club of Chicago Represents Coast as Against Japanese — Says No One Knows Hawaii's Future.

CHICAGO, Oct. 20.—"When the people of the Pacific coast ask for an exclusion act against the Japanese, as they will do shortly, I hope the rest of the country will see the point."

Members of the City club opened wide their eyes when they heard this statement by William Kent of San Francisco at a luncheon today.

Kent, who is a former alderman and civic leader of Chicago, has been prominent in organization against graft in the west coast metropolis since removing there and is known as a close student of affairs in the west. His topic was "Some Western Problems."

His discussion of the oriental question was as follows: The people of the Pacific coast do not want any irreconcilable race superimposed or laid under their western democracy. They showed this plainly enough in the Chinese exclusion act. But the average man out there would rather have the Chinese than the Japanese. The latter are too aggressive and overbearing. Employers find them unreliable. And it has been observed that wherever numbers of Japanese gather white people move away.

We have had our lesson in the Hawaiian Islands. They let the Japanese in there. At present nobody knows just what is going to become of the islands.

The problem is pressing more and more. You can feel it everywhere along the coast. There can be only one possible outcome. We have no confidence in the report that the Japanese government will seek to restrain its citizens from the American shore and the rich pickings of the west.

Speaking of conservation, Kent said:

The grazing question was solved by Roosevelt and Pinchot when they stretched the law—if you can call it stretching the law—and set aside wide tracts of land as forest reserves, tracts where the timber was thin. This enabled the sheep raiser to hold his own against the incursions of the big and the wealthy.

And that brings up this matter of stretching the law. For my part, I would rather see it stretched in this way than to see it stretched in favor of some big corporation or some moneyed interests, as has always been done in the past.

Either the people have got to put in a supreme court that will rule against grants in perpetuity, which are not only wrong, but monstrous or there will be a revolution of some sort. The people of the west are not going to stand for the much longer. They are against all common sense. Surely if a man has a perpetual right to anything it is to creations of his brain, yet the patent laws do not give any one such a right. The law on public utilities—and I speak especially of our western taverns—should be equally sane.

Whitney & Marsh, Ltd.

First Display of

Holiday Goods

Consisting of a complete line of

Hand Bags

Fitted Suit Cases and Bags

For Ladies and Gentlemen

Jewel Boxes

Writing Cases

Manicure Sets

Scissor Cases

Music Cases, Belts, etc.

Amongst the above are many high-class European and New York Novelties

As there are NO DUPLICATES of the choicest articles, it is advisable to make your selection early.
