EVENING BULLETIN

3:30 EDITION

Bulletin Publicity is Practical Publicity because it reaches the people

"THE RIVERMAN"
a story by Stewart Edward White, is now running in the Bulletin in serial form.

ESTABLISHED 1882. NO. 45 32.

10 PAGES.—HONOLULU, TERRITORY OF HAWAII, TUESDAY, FEBRUARY 1, 1910.—10 PAGES.

PRICE 5 CENTS.

JAPAN WOULD KNOW OF THETIS CAPTURE BIG BOND DEALS MADE TODAY

Bar Association Ready To Act

Will Meet On Next Friday To Indorse Successor To Judge De Bolt

The Bar Association will act on the indorsement of a successor to Judge De Bolt on the bench of the Circuit Court Friday afternoon at 4 o'clock, at which time notifications will have been in the hands of all members of the association to be present and express themselves in connection with the indorsement of a successor to De Bolt.

That there will be a strong effort made in the interval to prepare a "slate" for one of the candidates is apparent to many attorneys, but as far as the rank and file of the association personnel is concerned there appears to be quite a division of opinion on the question of the new Circuit judge.

It is understood that Assistant United States Attorney William T. Rawlins will have strong support in the naming of the association's

choice for the place on the Circuit bench. Rawlins is a candidate for the place and is favorably regarded by a number of the association membership, who have stated that they will support the candidacy of Rawlins when his name comes up for consideration. In addition to Rawlins, two possibilities of the Bar Association choice is Wade Warren Thayer, who has been urged by his friends to go into the fray and secure the Bar Association's favorable consideration of his name as a candidate for judicial honors.

District Magistrate Andrade is the third man who will figure at the meeting Friday, his aspirations being based on long and efficient service on the bench of the District Court.

In an effort to learn whether

INSURGES CAN'T AGREE

WASHINGTON, D. C., Feb. 1.—As a result of the conferences that have been held within the ranks of the Republican party during the recent attempt to reach an understanding between the regulars and the insurgents, it was announced today that the insurgents have pledged their support to the Administration on all policies except the proposed ship subsidy bill and the law for Federal license of corporations do not an interstate business.

It is not certain that all the insurgents will oppose these two measures. The leaders merely state that they are not agreed and consequently will not act as a unit in these matters.

Johnson Assaults Negro

NEW YORK, Feb. 1.—Pugilist Jack Johnson was indicted by the Grand Jury today for assault on a negro in one of the hotels of the city.

79 Are Dead

PRIMERO, Colo., Feb. 7.—Seventy-nine men were killed in the terrible mine disaster of yesterday. The rescue parties have succeeded in securing forty-two bodies.

RESTORE IMMIGRATION MONEY.

WASHINGTON, D. C., Feb. 1.—The Senate appropriation committee voted today to restore the item of \$125,000 in the Urgency Deficiency Bill for the Immigration Commission. This item was struck out of the bill by the House, on the ground that the trip of the commission to Europe was merely a junket.

There will be a meeting of the Diamond Heads at 7:30 this evening at the Odd Fellows Hall. A proposal that the club secure headquarters on the waterfront will be discussed, and it is possible that some favorable arrangements may be made.

17 THOUSAND MILES PACIFIC FLEET CRUISE

The Big Eight Now At the Port Away Five Months

FAR EASTERN CRUISE WAS MEMORABLE ONE

Long Distance Covered Without Mishap Shows Staunch Ships and Able Personnel—California Flagship.

Seventeen thousand and sixty-six miles will be covered by the American cruisers comprising the "Big Eight," which now are riding at anchor at Honolulu before they return to San Francisco and complete a cruise which will consume the better part of five months.

It was on the fifth day of last September that the Flagship Tennessee of the first division of the Pacific fleet and the California, South Dakota, Washington, and second division in

Rear-Admiral Uriel Sebree, Commander-in-Chief of Pacific Fleet.

cluding the West Virginia, Colorado, Maryland and Pennsylvania, sailed out from San Francisco and the Golden Gate and commenced their memorable cruise to the Far East.

The New Flagship.

The cruiser California has been designated as the coming flagship of the Pacific fleet and it is expected that on Saturday Admiral Uriel Sebree will transfer his flag to that vessel from the Tennessee. The admiral's flag will fly from the California until it is hauled down for the last time on February 19. The California is one of four cruisers included in the first division of the Pacific fleet. She has eighteen guns while the Tennessee has twenty.

Coaling Joyous But Dirty.

Joyous melody and rag-time airs prevailed on the naval slip throughout the day while the big cruisers Maryland and the Tennessee were being

(Continued on Page 6)

KOREANS KILL AND BURN

SEOUL, Korea, Feb. 1.—Korean rioters in South Phongan were practically in control of the situation today, although a lively battle was fought by the officers and police authority.

Japanese and Korean officials of the place were murdered in cold blood by the rioters, and the government buildings were burned to the ground. Ten of the Korean rioters were killed.

To Redeem Pledges of Party

NEW YORK, Feb. 1.—The Republicans of the New York delegation to Congress have issued a declaration that they will act as a unit in aiding the Administration to redeem the pledges of the party in Federal legislation.

225,000 Are Wards of Paris

PARIS, Feb. 1.—Conditions following the terrible flood are quite as heart-rending as during the days when the disaster was at its height. It is estimated that fully two hundred and fifty thousand people are suffering for the necessities of life. The death toll will run high, although the people and the authorities are using every measure to cope with the situation.

PROTECT COAL LANDS.

WASHINGTON, D. C., Feb. 1.—A bill was introduced in the House today setting aside fifteen thousand acres of Alaska coal lands as a national coal reserve.

PURCELL IS SENATOR.

WASHINGTON, D. C., Feb. 1.—W. E. Purcell was named United States Senator from North Dakota today.

Japan Asks About Thetis Seizure

Local Representatives of Mikado Are Instructed To Make Full Report

The Imperial Japanese Government has directed the institution of a local inquiry and the preparation of a report, apparently by its consular representatives, whereby it will obtain full light on the circumstances surrounding the seizure and arrest of twenty-three Japanese bird poachers on Laysan Island and the confiscation of the bird feathers and wings that were secured as a result of the expedition made to Laysan by the Thetis.

It is stated that direct negotiations will be begun by the Japanese Government with the Department of State at Washington and representations made to secure any further light on the work of the poachers that may not be secured locally by the representatives of the Mikado's government.

The prosecution of the Japanese arrested at Laysan will be entirely in the hands of the United States au-

thorities and no particular significance is attached by the Federal officials to the fact that the Japanese government is anxious to secure some enlightenment on the circumstances that led to the mysterious voyage of the Thetis and which finally developed in the arrest of the poachers at Laysan and the seizure of their materials.

What action the Japanese Government may decide to take as far as requests for information at Washington may be concerned, it is presumed, will rest largely upon the nature of the report that is prepared by the local consular representatives.

Under the Federal Penal law which will be applied in the prosecution of the Japanese to arrive on the Thetis, a maximum penalty of six months imprisonment and a fine not to exceed \$500 can be imposed by the court.

FISTIC STARS ON THE TENNESSEE

Smoker Planned For This Week --- Bouts By Fast Ones

Honolulu sports will be given an opportunity of witnessing some clean boxing-bouts at a smoker to be given on board the United States flagship Tennessee, before that vessel sails for San Francisco with the fleet.

The date has not yet been set but many of the details of the event have already been settled and the program gives promise of being a fast and merry one.

At least three preliminary bouts have been arranged, all of which have been satisfactorily arranged yesterday.

The preliminaries will serve to bring out the fistic qualities of several young fellows who have achieved some reputation within the squared circle. The preliminaries include a go between Regarte versus Gallade in six rounds at 142 pounds. Then comes Brulard versus Gibbs in a four-round contest at 130 pounds. The third preliminary will be between Wortham and Moravec, who will fight four rounds at 122 pounds.

The big event of course is the fifteen round go between McDonald and Glick each weighing in at 136 pounds. The McDonald-Glick go is one that is causing many arguments on the ship, as both are there with the goods, and there are a host of supporters on either side. Glick, the husky blacksmith is a comparatively new man on the ship, but those who have seen him work out are very enthusiastic and Brown McDonald who carries a ticket to Dreamland in either night is too well known to call for further comment. This fight is for the right weight championship of the Tennessee, and it is said he winner will try for the best championship, most likely in southern waters during spring target practice. The articles of agreement are signed and forfeit posted, and read as follows:

Bouts not to exceed 15, of 2 minutes duration with 1 minute rest. Weight not to exceed 136 pounds six or take 2 pounds. Clean break. Fresh contestants to place forfeit of \$20 to bind fight. Purses 75 and 25 per cent.

In addition to the boxing there will be music and specialties and while no definite provision has been made for refreshments, such as lunch and

ORIENTALS BUSY ON FLORAL PLANS

Chinese Consul To Have Decorated Car In Parade

The Orientals of Honolulu are certainly doing their part to make the 1910 Floral Parade the best that has ever been seen in the Territory. Yesterday some 200 Chinese citizens took the matter up in regard to their entry. It was unanimously decided that a float typical of China should be in the parade, and not only that, but that this float should be the finest ever seen here and be ahead even of that representing Germany or England.

These 200 representatives of the Celestial Kingdom have subscribed handsomely to the fund, so that already a large amount is on hand to begin the designing and decorating of this float. All these subscribers have entered heart and soul into the undertaking and are determined to make their float the best amongst the international entries.

His Excellency Liang Kwo Ying, the new Chinese Consul, has been invited to put in a decorated car. Mr. Sun, his secretary, paid a visit to the Floral Parade rooms yesterday and stated that the Chinese Consul was delighted with the proposition and had determined to decorate an automobile in such a manner that it will be one of the conspicuous features of this division of the parade.

The Commercial Club of this city has started work upon its entry and has planned an entirely new floral design for its car. This will be one of the surprises of the parade, as the utmost secrecy is being maintained in regard to this car.

The Japanese Merchants' Association has taken an interest in the forthcoming Floral Parade and has promised to support it in the best way possible, both financially and otherwise. At present there is a good deal of friendly rivalry between the Chinese and Japanese citizens of Honolulu in regard to their respective floats. Each wishes to outdo the other in the beauty and

(Continued on Page 2.)

thinkableness, there will be smoking material in abundance. It has been a long time since the Tennessee has done the honors, but when she does, she does it right.

CRUISERS OF THE PACIFIC FLEET NOW IN PORT.

NO NEWS OF THE COLUMBIA BOYS

Makura Left Suva Two Days Late Owing To Big Freight

Captain Gibb of the Makura has wired to Theo. H. Davies & Co that he cannot possibly arrive in Honolulu before Wednesday evening. On Sunday night the vessel was then 1000 miles off port. The Makura was late in leaving Suva as she remained in that port for two days loading sugar.

W. D. Adams wired to Maj. Peizoto, who is in charge of the Columbia Park Boys, now returning to San Francisco from a visit to Australia, asking when his boys would arrive, as elaborate plans had been made to welcome the party. No reply has been received to this wireless message, nor has any reply been received to a similar message sent by Theo. Richards.

The present plans, which include baseball games, hand concerts, exhibition drills by the Kamohameha cadets, vaudeville stunts at the Opera House by the Columbia Boys, have all been indefinitely postponed until some definite arrangements can be made to entertain the visitors.

At present Mr. Adams does not know whether the Columbia Boys are on board the Makura as he has received no reply to his message. The captain has mentioned nothing about Maj. Peizoto's party being on board in his wireless message to Theo. H. Davies & Co., so that local people are still in the dark as regards the whereabouts of this party of San Francisco boys.

The boys under the guidance of Maj. Peizoto were to have left by the Amelia, sailing tomorrow, but they will now have to stop over in Honolulu until the next steamer, which will be the Lurline or Mongolia, sailing on February 16 and 17 respectively. The Asia sails on Friday but a yet no bookings have been made by Maj. Peizoto for this vessel.

This will mean that the Columbia Park boys will have to be taken care of by Honolulu families for at least two weeks unless they can take passage by some freighter or sailing vessel leaving for the coast. As the members of this party have been the guests of the Premier of the Commonwealth of Australia and prominent members of Parliament in Melbourne, they will be hospitably received and entertained by Honoluluans, who are noted the world over for their hospitality.

OLAA BOND DEAL COMPLETED TODAY

Old Exchanged For New Also For Ditch Bonds; Stocks Moving

This is a day of great bond deals and all of them bespeak the confidence the men of means have in the industrial enterprises of the Territory.

At Bishop's Bank, where the bonds of the first Olla six per cent. issue are being taken up, the scene of bond dealing has been a very busy one, and also very gratifying. Although there was much talk that the holders of the first Olla issue would not exchange their securities, but demand their money, the result has been the usual one attending the predictions of the croaker in Honolulu. Possibly some of the holders of the bonds did think of taking the money, but the greater number thought differently when they began to look about for a better security in which to place their money.

It is a foregone conclusion that the new bond issue will be a success. Manager Watt of the plantation has been in town the last few days giving first-hand information of the physical condition of the property, and it is surprising how many people have formed their opinions from irresponsible street gossip.

Olla figured in another big bond deal that was reported on the Exchange this forenoon. Two hundred thousand dollars of Olla 6s were exchanged for two hundred thousand of Kohala Ditch Company 6s, the 6 per cent. bonds being transferred at par and the Olla's at 95, which is the figure at which the new bonds are placed on the market.

Stocks were fairly active, with Waiwala coming to the fore again. There is evidently quite a sharp demand for this stock at the advanced figure of 126.

Onomea has also come into the list of transactions again, under the pressure of buyers on the Coast. The stock sold at 55 yesterday afternoon and the market seems fairly well cleaned up. Ewa holds strong at 14, and Hawaiian Commercial at 18.75. Pioneer went up a little yesterday afternoon, selling at 212.50, in advance of fifty cents a share.

Regular monthly dividends were paid today by Haku, Paha and Pioneer, putting \$83,125 into the hands of the shareholders.
