Stepping Stones to Fortune

For two years we have been urging our clients to invest in good California Oil Companies. Many have followed our advice and have made large profits on their investments. Our investments are absolutely safe and extremely profitable.

After our usual careful investigation, we advise the purchase of shares in the VENTURA OIL DEVELOPMENT CO. Like all new companies, the stock of the Ventura Oil Development Co. is now offered at the low price of 15 cents per share. As ITS HOLDINGS comprise A FULL SQUARE MILE OF LAND in the heart of the Ventura Oil district, this company has a great future.

It is a SOUND BUSINESS ENTERPRISE with an economical management; no preferred stock, no bonded indebtedness; no promotion stock, and, last of all, we have the goods to sell.

If you invest your money in this company, you are sure of making large profits. Remember, the price is only 15 CENTS PER SHARE. Buy now. This is YOUR OPPORTUNITY for making large profits.

To parents who wish to enroll children in Mrs. Hendry's school. It having been necessary during the past year to refuse many children for lack of room, early applications will permit arrangements to be made, present accommodations admitting but few more than already registered. It is also necessary to know now what books to order that there may be no delay at the beginning of the term.

STOCK MARKET MORE ACTIVE

The Stock Exchange, at session sales this morning exhibited a trifle more animation than has been manifest since the week opened.

One thousand dollars' worth of Waialeale 58 were knocked down at 101.50. Two blocks of Oahu Sugar Company, comprising fifteen shares, changed hands at 32.75. This is a trifle under what was asked at the beginning of the week. McBryde manages to show up each day on the list, even if the transaction is not extensive. Today's block of 50 McBryde at 5.625 is the best showing since Monday.

The only transaction between boards was a movement of 30 I. I. S. N. in two separate lots at 120. The boost in beets yesterday is expected to have the usual effect on local stocks.
