WEDNESDAY AUGUST 3, 1910

You may know the fellow
Who thinks he thinks,
Or the fellow who thinks he knows;
But find the fellow
Who knows he thinks—
And you know the fellow who knows,
—Creswell MacLaughlin.

Cohen—“Friend of the Hawaiians.”
Call out the band.

Do you want the Republican party run by Andrews-Cohenism?

Members of the Republican Territorial Committee, what are you going to do about it?

Andrews and Cohen didn't want the services of John Wise et al.; they simply wanted assistance.

Perhaps the editor of the morning paper thought Senator Achi was opening a political kindergarten.

What's this about closing Pearl Harbor to commercial purposes? Is there another foolish gumshoe game going on in Washington?

Secretary Hallinger is making the same response to the demand for party harmony that will come from the Andrews camp of tin-pot politicians.

In the action of the British House of Lords eliminating the anti-Catholic phrases from the King's oath, you find another expression of the steady decline of intolerance.

Andrews and Cohen in their interviews admit that they have been sucking eggs, but declare most strenuously that they did not hide the eggs where the Bulletin said they did.

Under the sway of Andrews, the Republican party is being placed as sponsor for the rawest personal politics that have ever been known in Hawaii. And this is the work of party harmony?

It is well said of a number of the "purists" in the "reorganization camp" that they have "reputations." They have. It is generally understood that they wouldn't do anything that a burglar couldn't do.

To what better purpose can the Territory devote its funds than the construction of a wharf, available to all and on which all have equal privileges? Isn't wharf construction more to be desired than building Nuuanu dams?

Hilo shall be heard, and it is a pretty safe wager that Hilo people will not consent to granting exclusive wharf privileges that will levy a tribute from every passenger and every pound of freight going in and out of Hilo.

"Oh, yes; oh, yes; get in the business men," says the great harmonizer. Sixty-nine of them tried it in the Manoa precinct and were given a setback with a stuffed roll slate headed by the great harmonizer and his accepted lieutenant.

To use the phraseology from Beverly there is an unconfirmed rumor that party harmony and party success, as well as the interests of the people demand that political bosses resign and the action of the party be representative of the people.

The gang caught trying to run away with the Republican party about that they are being opposed by the liquor interests. That dodge won't work. If the liquor interests were trying to riddle such a job on the public as is being worked off on the Republican party in the name of harmony, they would be kicked as far into the middle of next week as the would-be bosses will go when the people once get at them. This is not a contest of interests, but the demand of the average citizen for honest politics and the square deal.

HILO'S PROPER DEMAND.

Hilo has sent a message to the Governor not only objecting to the proposed wharf license that was all but signed, but also asking the opportunity to be heard.

Evidently there has been some serious misunderstanding on the part of the officials regarding the amount of information the Hilo people had regarding what was about to be done to them.

The solemn assurance was given by the Superintendent of Public Works that the wharf matter was brought up in the public meeting held in Hilo to discuss the harbor lines.

No one else had such an understanding of what went on at that meeting. Few ordinary citizens have the capacity for wise judgment and broad wharf dreams that is possessed by the head of the Public Works Department.

But after all we find that it will be necessary for the Superintendent to come off his high and lofty perch and get down to dealing with the common herd, many of the best of whom sat through that Hilo meeting and were unable to appreciate the fact that when the Superintendent was going them to send representatives to the Legislature who would appropriate for a wharf, he was all the time thinking of the wharf license stowed away in the archives, and of which the general public had not been informed.

We cannot help feeling that the Superintendent slipped a very important cog when he said several things about the wharfage privileges on Hilo and Honolulu.

The people would certainly be slipping a great many important cogs if they allowed the scheme set forth in the proposed license to go through without a full understanding of where it would land the public, while a private corporation was getting practical control of the nice piece of the waterfront.

Hilo's request for a hearing makes clear the point made by the Bulletin, that the people want to know something about their own business.

Let us hope that some day the officers in the Capitol will learn this all-important lesson.

REPUBLICANS MUST ACT.

"In my opinion it is to be regretted that the (Republican) central committee should entrust the organization of its forces to one employing such tactics as these; and it seems incredible that after these facts are known that he should be allowed to continue the active management of the party's affairs."

This paragraph is from an open letter written to the morning paper by Alfred D. Cooper, a Republican voter of the Manoa precinct. It was published July 17. The manager referred to is Lorrin Andrews, who has been placed in charge of the "organization" of the Republican party.

In the rush of other, and at the time more important events, the Bulletin did not dwell upon the matter at length.

But the day has come when the rank and file of the Republican party should know why a man who attempts to work personal politics and boss rule in his own precinct is allowed to continue in the active management of the party.

What Andrews did in his own precinct is undoubtedly being worked out in every other precinct. His combination with Cohen and the morning paper outfit is now very well understood. It is plain that he has connected up deals to secure the nomination of certain men and defeat certain other men.

Is that what Andrews was placed in the assistant secretaryship of the Republican party to do?

Is that the work for which he is being paid a monthly stipend?

Is that what people of prominence in this city are putting up for?

Learn To Swim

You will never learn to swim by sitting on the shore, and you will never own a home if you continue the habit of paying rent. Try to swim. Here are opportunities:

The office is open from 8 until 10 on Sunday mornings.

If so the sooner it is known the better.

The Bulletin does not believe that is the work Andrews was named to do. It believes that he is operating with the funds of others to build up a little machine of his own. The evidence of it was in the Manoa precinct. It is cropping up on every hand.

Continuation of this sort of thing means that the Republican party will go to certain defeat. And all on account of this "harmonizer."

Intelligent citizens of Manoa will not stand for it, though Andrews proves himself so penitent that he is willing to throw his associates overboard if he be allowed to save himself.

No right thinking Republican will support this sort of manipulation, and usurpation of authority.

If the reformation is not instituted by the Republican managers and the financiers who are responsible for Andrews and who should know of what is being done, it will certainly

ALL WORK, NO PLAY, NEVER A VACATION

CHICAGO, July 26.—George M. Reynolds, head of the \$200,000,000 Continental and Commercial Bank at the age of forty-five, is a living example of what attending strictly to business will do for a man.

President of the second financial institution in America while young enough to be the son of many of his directors, Mr. Reynolds is a man who never stepped out of the beaten track or ever stopped working and never suffered a reverse. He has never lost a day from sickness; he has never taken a vacation that did not have business inside; he does not drink; he does not smoke; he does not play bridge; he does not play golf; he has no favorite author; he has no hobby but banking; he has no country residence; he does not even take exercise; he works nine hours a day. "Make your business your pleasure and marry early. These are my rules," said Mr. Reynolds. "I married at nineteen a girl in the little Iowa country town where I was cashier of the bank. My wife is now dead. I don't play any door game—I have no interest in them—and yet I never was in love in my life. I have an idea that I ride three times a week. I never went to any college. I began as a messenger in a bank at fourteen."

ROAD BOARD TELLS OF PLANS

Much Work Ahead If Money Holds Out

It's all a matter of funds that is bothering the city and county road board in going ahead and carrying out the plans for either the maintenance of the present roads as the construction of new highways in Honolulu and the outlying districts.

There were a lot of routine matters turned over to the road committee at last night's meeting of the supervisors.

Chairman Quinn reported that Engineer Gere has negotiated with the Oahu Railway and Land Company for the right of way for a road on the Waiaina side of Waialua Gulch, the railway company agreeing to remove the loose rock and stone along the cut, which will effect a saving to the county.

This is a piece of work that the committee has had in mind, but it has not been able to do anything on this particular piece of road. It is at the present time a very steep hill and very difficult to get over in wet weather. It is also very dangerous.

The proposed new cut will eliminate the railroad crossings entirely. It is recommended that the City and County Engineer be instructed to go ahead and negotiate with the railway company and make all necessary arrangements, and that the road supervisor of Waialua be instructed to build the road as soon as he is finished with the work he is on at the present time at Waialua.

The road committee also recommended that the residents of Kuna-wai lane be entitled to receive consideration, and upon investigating the merits of a petition received from this district, the road board recommended that the lane receive attention and repairs.

Road Supervisor Meyer of Waianae district has been asked to investigate and take steps to prevent the improper trimming of trees along the government road near the Luahueli homestead by workers from the Waianae road gang. It is also claimed that the workmen started fires along the road in order to burn rubbish and the flames set fire to the trees and that they are destroyed.

Hotel street, between Alapai and Nuuanu streets, is expected to soon receive attention at the hands of the road board. Quinn and the committee have recommended that the street be scarified and light material added when necessary. It is claimed that the work will entail very small expense. The recommenda-

tion is made that no oil be used on this portion of the street. The board has adopted the report coming from the road committee regarding the proposed widening of Nuuanu street from the mausoleum to the junction with the Country Club lane. The report reads as follows:

"In regard to a petition from several property-owners and residents from Nuuanu Valley, relative to the widening of Nuuanu street from the mausoleum up, which was referred to your committee on roads, bridges, parks and public improvements, after investigating same, beg leave to report that the Rapid Transit and Land Company proposes to extend its line as far up Nuuanu as the old Queen Emma's place. The rapid transit people inform the committee that they can not commence said work until about the first of November, as the materials, rails, ties, etc., have been ordered and will not arrive in Honolulu until about that time. The property-owners along said road, with but one exception, are willing to give their lands to the city and county free of charge, providing the city and county curbs said avenue and moves the fences back. There are a great many places already curbed, and the majority of the places do not require any fences, as they are already on the proper line. The curbing and moving of fences therefore will not cost the city and county a great deal of money. It will be a benefit to the general public as well as the residents of that district to have a good driveway.

"We recommend that the city and county engineer complete the survey of said street, which we understand is about finished, with the understanding that the street is to be fifty feet wide and four-foot sidewalk; and that the city and county engineer furnish to the property-owners, when requested, their proper street grades and width in the City and County of Honolulu as soon as the Rapid Transit and Land Company starts to lay its track."

SMALL STOCKS DO BUSINESS

The migration of the local stock market was not of the stoniest in the market dealings today, although quite a little business was transacted but mostly in the lesser stocks.

The feature of the session sales was 125 shares of McBryde, divided in small blocks, changing hands at 6.25. This shows no advance in the quotation but it would seem, from the numerous small sales of this stock that considerable is being "sunk."

One hundred and ten of Oahu Sug. moved at 31. A trifle weakness is manifest in this stock, but no slump is expected.

\$16,000 of Waialua 5s at 101.75 and \$1,000 Kauai 6s at 100 moved between boards. A small block of Haw. C. & S. at 41 is a lift of a point over the last previous sale.

Degrees Given By Harvard To Morgan And Hughes Starts The Merry-Go-Round Of Political Rumors.

Beverly, Mass., July 26.—When Harvard gave degrees to J. Pierpont Morgan and Governor Hughes, with Colonel Roosevelt looking on, little did the college officials think they were going to keep politicians up nights figuring out various combinations of what will and will not happen. The fact that Morgan failed to hurry up to meet Roosevelt means that Wall Street is "laying" for the Colonel, according to the gossip of some. The fact that Governor Hughes snubbed after his talk with the Colonel means "there's a dark day coming for others." They the conference on Bargees point between Taft and Roosevelt means so many different things that the public is left to take its choice. He jostled Taft; he did not pat him, and so it goes. In the meantime Mr. Morgan is going ahead making money notwithstanding his degree, and Governor Hughes is still fighting marching politicians.
