BUTLER AMES TO LEAD FIGHT AGAINST LODGE.

BOSTON, July 29.—Representative Butler Ames of Massachusetts prominent to lead a spectacular fight for the seat of Senator Henry Cabot Lodge. In announcing himself as a candidate for Lodge's seat Ames declares that his fight is against "boss rule." The fact that Ames is wealthy will make the contest one of the most interesting in the country.

SUGAR BILLED TO GO HIGHER

THE JAVA CROP IS
GOING TO BRITAIN

Cuba Centrals Nearly Done Grinding
—Strikes Interfere With Mel-
ting Operations.

Willet & Gray's Sugar Trade Jour-
nal for July 21 reports as follows on
the raw sugar market:

Statistics By Special Cables.—Cuba.
The six principal ports: Receipts,
4000; Exports, 16,000; stock, 207,000,
against 154,000 tons last year. Cen-
trals grinding 4, against 5 last week
and 5 in 1909 and 2 in 1908.

Stocks in the United States and
Cuba together of 568,814 tons, against
582,430 tons last week and 496,127
tons last year, an increase of 72,687
tons from last year.

Europe.—Stock in Europe, 1,320,000
tons, against 1,445,000 tons last year.

Visible Supply.—Total stock of
Europe and America, 1,888,814 tons
against 1,941,127 tons last year at the
same uneven dates. The decrease of
stock is 52,313 tons, against a decrease
of 75,395 last week. Total stocks and
aforesaid together show a visible supply
of 2,040,814 tons, against 2,116,127
tons last year, or a decrease of 75,313
tons.

Raw.—Under our remarks last
week, we said that the sales of cen-
trifugals at the 4.30c. basis were ex-
ceptional, and that the current market
quotation would rise to the 3c. c. and
f. basis again. This forecast proved
correct, as only 38,000 bags were sold
at 4.30c., and the next sales on Mon-
day and Tuesday were at the basis
of 3c. c. and f. (4.35c.). At this basis
some 200,000 bags were taken by three
refiners, including 150,000 Cubas and
50,000 Porto Ricans, July and August
shipments.

At the close there are still some
100,000 bags centrifugals for prompt
shipment offering on the market at
3c. c. and f. basis, but for August
shipment 1-32c. per lb. higher is
asked, with the tone and tendency in
favor of sellers. New Orleans is re-
ported to have paid 3.03c. c. and f.

A significance of the European mar-
ket, which has been quiet and steady
throughout the week, is that quota-
tions for new crop beets advanced
3d. for October-December delivery,
showing a speculative disposition in
new crop. If new crop beets con-
tinue to advance, it will be to the ad-
vantage of Cuban planters, and this
sentimental price of 3c. c. and f., held
for so long a time, will likely be over-
come and a somewhat important ad-
vance yet follow.

The European situation, by the
Board of Trade figures, shows 195,831
tons more cane imported into the
United Kingdom to July 1st than dur-
ing the same period last year. This
includes over 100,000 tons from Cuba,
and no doubt tends to keep old crop
prices down, inasmuch as to these
large cane receipts there will, eventu-
ally, be added much larger imports
from Java into the United Kingdom
than customary.

There is interesting news from Rus-
sia, where the Government is taking
active steps to reduce the high prices
resulting from speculation in that
country. They have lowered the im-
port duty to an extent that will per-
mit the importing of a considerable
amount of Austrian sugar. At the
same time, the refund of taxes on ex-
ported sugar has been suspended,
leaving the markets of Finland and
Persia, heretofore largely supplied
from Russia, open to other producers.
It may be seen later that this action
of Russia will further reduce avail-
able supplies to continental countries
of Europe to an extent that will in-
crease European prices higher.

Our weekly Cuba cable gives 4000
tons receipts, against 2000 tons last
year, with 4 centrals grinding, against
5 last year. The 5 last year continued
grinding until August 23rd. Visible
production to date is 1,714,000 tons,
which, added to 193,582 tons, the after
receipts of last year, would give a
crop of 1,907,582 tons. These figures
indicate that the final crop may nearly
reach 1,800,000 tons. One of the
largest centrals in Cuba, the Chaparra,
closed this week, having made
530,500 bags, against 482,428 bags last
year. This central closed earlier than
last year, but started working some
weeks earlier than last season.

Total stocks in United States and
Cuba together 568,814 tons, against
582,430 tons last week and 496,127
tons last year.

The imports into India during May
show an increase over the preceding
May, notwithstanding the larger do-
mestic crop. March, April and May
all showed an increase in imports.

As regards the European growing
crop, it gives promise of a consider-
able increase over last year, but less
than the phenomenal crop of two

years ago. The continental weather
has recently been cold and wet, much
like that of last summer, but the beet
roots had a much better start this
spring.

The significance of our Java cable,
is that, although the crop has been
reported delayed, the shipments are
actually ahead of last year at this
time. Also, the crop is diverted from
the United States and goes largely to
United Kingdom, filling a gap that
might have required further pur-
chases in Cuba to fill later on. The
remainder of the Cuba crop seems
destined for the United States supply.

Meltings of raw sugar are still under
the normal, the strikers at the H.
& E. house not having returned to
work.

PHYSICIAN LOST IN HIS SUIT

Judge Robinson has rendered judg-
ment in the case of C. B. Wood ver-
sus J. G. Faria in favor of the de-
fendant, the suit being brought for
\$63 alleged to be due for professional
services.

Dr. Wood brought suit for this
amount as the surviving partner of
Dr. Day.

In the testimony in the case it ap-
peared that when a bill for \$38 was
presented in October 1906 it was dis-
puted by Faria who said that he owed
only \$13 and paid that amount.

From that time until early this
year when the claim for \$63 was pre-
sented he had received no medical at-
tention from Dr. Wood.

Judgment was given the defendant
with costs assessed at \$15.20.

UNION PACIFIC TRANSFER MOVED

Union Pacific Transfer Company
has moved to larger and finer quar-
ters on King street next to Alexander
Young Hotel. The company is now
located in its new office and quarters
and has better facilities than ever for
handling its rapidly growing business.
One good feature about the new loca-
tion is the ample and safe storage
room. Those who have furniture and
other goods to store will find the com-
modious store rooms of the Union
Pacific Transfer Co. ideal. The tele-
phone number is the same as former-
ly.—58.

CHARLES CLAPP IS MARRIED

The Falmouth, Mass. Enterprise
publishes the following marriage no-
tice. Mr. Clapp is well known lo-
cally having for many years been as-
sociated with the Inter-Island Com-
pany:

CLAPP-SWIFT.
MARRIED—Charles Henry Clapp to
Frances Gould Swift on Thursday,

BIG GATHERING OF CITY FATHERS

A big gathering of city fathers is
proposed at St. Paul, Minn., during
the latter part of this month and the
honorable board of Supervisors to-
gether with the Mayor and heads of
departments have been invited to at-
tend.

The fourteenth annual convention
of the League of American Municipal
Cities will convene at the Minnesota
capital from August 23rd until the
26th inclusive.

Owing to financial circumstances
over which they have no control the
city administration has politely but
firmly declined to participate.

STONE NOT GARBAGE.

The collectors of city garbage ob-
ject to the contribution of building
stone, loose rock and other material
that is more or less frequently de-
posited in the receptacles left at resi-
dences and places of business.

The matter came up before the
Supervisors last evening in connec-
tion with a letter of protest received
from Superintendent Rath of Palama
Mission, who claimed that the col-
lectors failed to make their stated
calls.

The committee on sanitation and
health found out that it was a prac-
tice of certain people to place rocks
and dirt in the boxes and it was there-
fore, impossible for the garbage men
to load the same on their wagons.
The garbage department being intend-
ed for the removal and disposition of
refuse.

MIERLSTEIN REPORTS ON CITY PLUMBING.

During the month of July the office
of the Building and Plumbing In-
spector passed upon 64 plumbing
plans and issued the same number
of permits. Plans accepted numbered
86 and 163 inspections were made.
Fixtures installed numbered 250,
while fees collected amounted to \$125.

RECREATIONS

THE NEW ORPHEUM.
ONLY FOUR MORE NIGHTS.

The Casino Musical Comedy Co.
ends its engagement on Saturday
night and the musical program is ex-
ceptionally good this week. Elsie
Schuyler does a clever Custer song
and a catchy German song, both re-
ceiving deserved encores. Maud
Rockwell made the hit of the evening
with "Stars and Stripes Forever." She
was in excellent voice and wore an-
other of those wonderful gowns, this
time of a dark pearl with a seamy mer-
maid effect. She could have taken a
half dozen encores. Laurel Atkins
sang "Patrick O'Hare," and gave one
of the best character studies of the
piece. Vilma Steck, the coming sou-
rette, sang one of her best songs and
with the aid of the chorus made a hit.
Carleton Chase and Olga Steck gave a
pretty duet in "In Mooney, Spoony
Time." McGuire, Garrity and Stuart
each have specialties and altogether
the program is one of the most enter-
taining of the engagement. The Com-
pany deserves crowded houses for the
rest of the week, for the same piece
will run the week out.

THE PARK.

The two Crotons at the Park can
lift heavy weights and then some, ac-
cording to the published records and
certificates which they have. Emil,
the larger of the two, holds the record
for heavy weight lifting, having
raised 272½ pounds weight in the
English style, a straight lift, and 314
pounds according to the continental
style. This is from the ground to
waist and chest and then overhead.

Otto held the record for men under
ten stone and at 137½ pounds raised
228 pounds. Privately he once lifted
245 pounds but this is not a record.
He also held the European champion-
ship for Graeco-Roman wrestling. The
Parisian school of athletes made with

ty-three negatives of the men, which
were used by the demonstrator of
anatomy in his lectures to the stu-
dents.

The Crotons did a comedy stunt at
the Park last night that made an in-
stantaneous hit. The rest of the vaude-
ville stunts were also excellent.
Miss May is a great favorite and the
Desmond Sisters are more than ever
in demand. Deyno has caught on with
his new act.

THE EMPIRE.

Two little Portuguese tots, alien
daughters of Hawaii, are dividing hon-
ors with Carl Wallner at the Empire
this week and making a hit. They
were pupils of Mrs. Gunn in dancing,
and of Marie Kenny, in dramatic ex-
pression. They sing like larks and
dance with consummate skill. The
little girls have made a hit and re-
ceive tremendous applause every
night. Carl Wallner is the same fa-
vorite at this theater as he was when
he appeared further up the street.
The motion pictures are fine and pre-
sented in a way that reflects credit on
the management.

CLIMATE AND PEOPLE GOOD.

Mr. William Hooper, who has been
running a shoe polishing establish-
ment for some time in this city, and,
from the superior work he turned
out was known as the "shining light
of Hotel street," is about to depart
for the coast. He called at the Bul-
letin office yesterday for the ex-
press purpose of saying that he had
never before lived in a place that
could come anywhere near Hawaii for
delightful climate and the hospitality
of the people was better than the cli-
mate. It is stated that Mr. Hooper
placed a few dollars on the right man
at Reno.

Chicago, July 24.—Oliver E. Pagan,
the government's indictment expert,
arrived in Chicago from Washington
today. Pagan will aid in the Federal
Grand Jury investigation of the Na-
tional packing company, which will be
resumed here Tuesday morning.
