HILLO'S FEDERAL BUILDING SITE

All Clear And Up To Government To Go Ahead

(Bulletin Correspondence.)
HILLO, Aug. 8.—Hillo has now done everything she could do to remove the obstacles in the way of spending the \$200,000 appropriation for the Federal building. It is now up to the government to act.

The release of the Severance lease of the mauka part of the site has been secured. The Board of Supervisors has agreed to build the new street which is required. The Hillo business men, as well as those in the vicinity, have opened their purses wide, and there is not the slightest danger but that all the money needed, and more, is forthcoming.

By the Mauna Kea mail last Friday, President Richards of the Board of Trade, to whose energy it is largely due that so much has been accomplished in so short a time, sent to Superintendent Marston Campbell all the necessary documents. Everything is sealed, signed and delivered. His letter to Campbell gives a brief statement of the situation as follows:

"Mr. Marston Campbell, Superintendent of Public Works, Honolulu, Oahu.

"Dear Sir:—In reply to your favor of the 1st inst, regarding the Federal building site here, I here with hand you lease No. 100 between the Commissioners of Crown Lands and Luther Severance, together with an assignment of same by Mr. Severance to yourself as trustee; also a certified copy of a resolution passed by the Board of Supervisors of the County of Hawaii, wherein they agree to proceed with the building of a new street along the mauka side of the Federal lot as soon as the survey and grade are given them.

"This, I think, meets all the requirements exacted by Congress before the appropriation for the Federal building here could become available, and we now pass the matter along to you, having every confidence that you will give it your very best attention, and that it won't be long before the architect will be on the ground.

"Thanking you for the lively interest you have already shown, and the good advice given us, I am, very respectfully yours,

"E. E. RICHARDS,

"President, Board of Trade of Hilo."
The action of the Board of Supervisors was secured through the following request made by Richards:

"To the Honorable Board of Supervisors, County of Hawaii.
"Gentlemen:—During the last session of Congress a bill was passed directing the Secretary of the Treasury to enter into contracts for the construction of a Federal building at Hilo, Hawaii, the total cost of which was not to exceed \$200,000. An additional sum of \$25,000 was made immediately available for the purpose of beginning operations, but the act making these appropriations contains this clause, 'and this authorization and appropriation shall not be effective or available until provision shall be made, to the satisfaction of the Secretary of the Treasury and without cost to the United States, for the construction of said new street and the cancellation of the outstanding lease on said westerly block.'

"The 'new street' above referred to will run through what is locally known as the 'Federal site,' from Waiannu street to Walluku street. The Board of Health office now standing about on the center line of the proposed new street.

"For the purpose of canceling the outstanding lease the citizens of Hilo and vicinity have contributed the sum of \$4000, and we would now respectfully request you to take some action at this session of the board providing for the construction of the proposed street, so that we can notify the Superintendent of Public Works that all conditions imposed by Congress relative to the clearing up of the Federal site have been complied with, and that nothing now stands in the way of immediate action by the Secretary of the Treasury. Very truly yours," (the letter was signed by the committee of the Board of Trade).

The letter was referred to the road committee, which made a favorable report, recommending the passage of the following resolution, which was passed:

"Whereas, by Act of Congress, an appropriation of two hundred thousand (\$200,000) dollars for the construction of Federal building at Hilo, Hawaii, which said appropriation and authorization was to be made effective and available upon the cancellation of the outstanding lease on the said Federal site and also upon the construction without cost to the United States Government of a new street running through said block

from Waiannu street to Walluku street, and

"Whereas the construction of the said Federal building is a matter of importance and benefit to the town of Hilo and county of Hawaii; therefore, be it

"Resolved, by the Board of Supervisors in and for the county of Hawaii, that the construction of the said new street is hereby authorized and will be constructed upon proper notification to the Board of Supervisors of the county of Hawaii that the present lease has been canceled and that all conditions precedent to the expenditure by the Federal government of the sum of two hundred thousand (\$200,000) dollars have been fulfilled.

"FERNANDEZ,

"Supervisor, District of Hamakua."

SPOOKS DID NOT HELP GET MONEY

WASHINGTON, Aug. 1.—Mrs. Laura Cramer, a clerk in the State Department, has filed in the District Supreme Court her answer to the suit brought by Dr. Lee M. Hurd of Greenwich, Conn., as conservator of the estate of Fenton J. Hurd, his grandfather, who had been adjudged by the courts of Connecticut incompetent to manage his own affairs. Dr. Hurd charged that the elder Hurd had given \$40,000 to Mrs. Cramer, and the court granted a temporary injunction to prevent her from disposing of any of it until the suit was heard. Mrs. Cramer admits she got \$27,000 from the elder Hurd because he was grateful for her care of him, which had been that of a daughter. Dr. Hurd's allegations of spook influences and occult demonstrations she denies. According to letters which accompanied the answer, Hurd wished to give \$12,000 to a Miss Hattie Smith, whom he wanted to marry. The Greenwich court was imposed on, Mrs. Cramer declared, when it adjudged Hurd incompetent. The answer of Mrs. Cramer having sworn away the equities of the bill of complaint, Justice Stafford dissolved the restraining order which prevented her from drawing on her bank account. The order of the court does not dispose of the controversy, and Dr. Hurd will file a reply to the statement made by Mrs. Cramer.

CIVIL SERVICE EXAMINATION.

The United States Civil Service Commission announces an examination at Honolulu, Hawaii, on August 29, to secure eligibles from which to make certification to fill a vacancy in the position of stenographer and typewriter, \$900 per annum, office of the U. S. District Attorney, Honolulu, Hawaii, and vacancies requiring similar qualifications as they may occur in any branch of the service, unless it shall be decided in the interests of the service to fill the vacancy by reinstatement, transfer or promotion.

Age limit, 18 years or over on the date of the examination.

The scope and character of this examination are indicated in Form 1424, "Information for Applicants for the Stenographer and Typewriter Examination."

This examination is open to all citizens of the United States who comply with the requirements.

This announcement and Form 1424 contain all information which is communicated to applicants regarding the scope of the examination, the vacancy or vacancies to be filled, and the qualifications required.

Applicants should at once apply to the secretary of the board of examiners, Custom House, Honolulu, Hawaii, for Form 1424 and application Form 294. No application will be accepted unless properly executed and filed with such secretary prior to the hour of closing business on August 18, 1910. In applying for this examination the exact title as given at the head of this announcement should be used in the application.

CROWDS WAIT TO SEE PISA TOWER FALL.

PISA, Italy, Aug. 2.—The government engineers, acting under the direction of the king, have made an examination of the famous tower of Pisa. They report that the tower is in great danger of falling. During the past year the tower has moved some eight inches, and the foundation daily grows more tottering. The police are having great trouble in keeping the crowds away from the tower, as the spectators expect to see the mass of brick and stone go crashing to the ground any moment.
