

AFTER 7 YEARS SUFFERING

I Was Cured by Lydia E. Pinkham's Vegetable Compound

Waurika, Okla.—"I had female troubles for seven years, was all run down, and so nervous I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound, and began its use and wrote to Mrs. Pinkham for advice. In a short time I had gained my average weight and am now strong and well."

—Mrs. SALLIE STEVENS, R. F. D., No. 3, Box 31, Waurika, Okla.

Another Grateful Woman.
Huntington, Mass.—"I was in a nervous, run-down condition and for three years could find no help."
"I owe my present good health to Lydia E. Pinkham's Vegetable Compound and Blood Purifier which I believe saved my life."
"My doctor knows what helped me and does not say one word against it."
—Mrs. MARI JANETTE BATES, Box 124, Huntington, Mass.

"Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, and nervous prostration."

PETITIONERS OUT IN FORCE

No signatures to a petition ever carried the same effect as did the filing of some fifty solid and substantial business professional men and residents from upper Nuuanu avenue, Manoa valley, Prospect Heights and Kaimuki in the meeting place of the City and County Supervisors last evening. Good roads was the burden of the prayer arising from the four districts of Honolulu.

Fifty delegates packed the council room. They came in at a time least expected. The living petition, succeeded in arousing the city fathers to immediate action in the matter of hustling the completion of upper Nuuanu Avenue.

The board is to hold another meeting this evening at which time they will take decided action regarding the letting of a contract for supplying proper cut curbing for that roadway.

Lets Get Busy, said Low.
"Let's force the issue in the matter of compelling the bondsmen of the contractor to make good in the furnishing stone for curbing Nuuanu avenue," insisted Supervisor Low. . . .
Road Superintendent Wilder has reported on the quality of stone going into the job as he found it to be below standard. A large quantity of rock has been rejected. The failure to place the curbing is the responsibility of the contractor. . . .
"It is true that I have advocated certain changes in the Chinese exclusion laws, but I never entertained or expressed the view that the laws should be drawn or enforced differently in Hawaii from what they are on the mainland."

LECTURE ON PRINTS VERY ENTERTAINING
Old Japanese prints, the subject of a talk by Philip Dodge yesterday afternoon at the rooms of the Kiloahua Are League, drew out a large crowd of listeners and their interest was held to the end of the lecture. To add to the interest of the talk the walls of the rooms were lined with old prints of Nippon and were given much inspection.

City May Have to Dig.
"I object to granting a raise in this bid without first having gone into the matter of holding the bondsmen responsible," declared Murray. The suggestion had been made that the present contract be so amended that the parties now attempting to perform the work might realize a better figure from the deal.

MARRIAGES.
WILLIAMSON-TILTON—Robert A. Williamson, 27 years, to Nancy N. Tilton, 18 years, both of Honolulu, May 2, 1911.
WARREN-KILLEHUA—In this city, April 28, 1911, by the Rev. C. M. Limburg, Emma Warren to Cecil Killehua.
LUCAS-ENGLISH—Fred J. Lucas, 29 years, to Dorothy N. English, 20 years, both of Honolulu, April 28.
WILSON-MAHEKA—Harry Wilson, 24 years, to Hannah Maheka, 21 years, both of Honolulu, April 29.

Most people who believe in luck are down on their own.

30 HAWAIIANS WON'T GO NORTH

Packers Get 100 Aboard Ship, But Islanders Refuse To Be Cajoled.

All but thirty of the laborers that were recruited in Honolulu and taken away on the steamer Senator, were persuaded to go to the Alaskan canneries by smooth-tongued Filipinos in San Francisco, according to the latest news from the coast. One hundred were stowed away on the Alaska Packers' ship Star of Italy, which sailed for Bristol Bay, Alaska, a few days ago.

The thirty who refused to sign an agreement with the contractors are Hawaiians, who, although availing themselves of the entertainment bestowed upon the entire lot of insurgents by the diplomatic contractors, decamped, bag and baggage, when several huge wagons appeared to carry them and their slender belongings to the dock.

The Filipinos and Porto Ricans, who were in the majority, allowed themselves to be taken aboard the vessel, from which only the day before they had shrunk in dismay. The method used to bring the rebels to terms was simple as well as effective. After leaving the Senator several smooth talking Filipinos, residents of San Francisco, appeared on the scene and offered to be the hosts of the evening. The offer was promptly accepted.

When the tired but happy American citizens arrived they were the guests of a bountiful repast. When this was concluded it needed but little urging to get signatures to contracts, after which it was a simple matter to load them into launches and land them on the ship which is to carry them to their northern toil.

NO MODIFICATION FOR HIM—KEEFE

Commissioner of Immigration Not for Partial Abrogation of Exclusion Act.

Raymond C. Brown, inspector in charge of the local immigration station, has received from Commissioner-General Daniel J. Keefe of the Department of Immigration a letter in which the commissioner declares himself emphatically against a modification of the Chinese exclusion law. Mr. Keefe, as might have been expected from his previous vigorous utterances regarding the Americanizing of Hawaii, is outspoken in his statement that he has not favored a partial abrogation of the act. In part his letter says:

"The tenacity of whoever is responsible for circulating the report that I favor partially abrogating the Chinese exclusion laws, in so far as the Territory of Hawaii is concerned, must be extremely amusing to those who know my views. My position with respect to the importance of Americanizing the islands and bringing the standards of labor and wages more nearly into agreement with those existing on the mainland, I think, has been well defined, and is of too positive a character to permit of the circulation of a report of the nature you describe otherwise than as a deliberate misrepresentation."

"It seems to me that it would be utterly impracticable, even if legal, to hold the Asiaties on the plantations once they were admitted."

"It is true that I have advocated certain changes in the Chinese exclusion laws, but I never entertained or expressed the view that the laws should be drawn or enforced differently in Hawaii from what they are on the mainland."

LECTURE ON PRINTS VERY ENTERTAINING

Old Japanese prints, the subject of a talk by Philip Dodge yesterday afternoon at the rooms of the Kiloahua Are League, drew out a large crowd of listeners and their interest was held to the end of the lecture. To add to the interest of the talk the walls of the rooms were lined with old prints of Nippon and were given much inspection.

Mr. Dodge handled the subject in a most thorough manner, going into every detail that enters into the making of the prints and made the process so clear that those listening had no difficulty in calling up a mental picture and following the workmen in every detail.

The lecturer stated that, like many of the arts of the ancients, the art of mixing the colors has been lost to the present generation, although the same pigments at hand are the same.

EUROPEANS TO BE FIRST AIM

Board of Immigration Will Continue Policy Even More Vigorously.

European immigrant recruiting will be vigorously continued in the future, according to announcements from the Territorial Board of Immigration, Labor and Statistics. The board reorganized yesterday under the new law that passed the last Legislature. As forecast by the Bulletin, Dr. Victor S. Clark takes the new position of Commissioner of Immigration, Labor and Statistics. Richard Ivers remains as head of the board. R. A. Kearns becomes secretary. He has been connected with the board as assistant to the executive, Dr. Clark.

Chairman Ivers declares himself in favor of the plans as outlined several days ago in the Bulletin, in which the board made public its intention to send at least four immigrant ships yearly to the islands, if possible. The board hopes to secure a regular steamer service from Europe, via the Straits of Magellan. To do this, it will be necessary to get the cooperation of local importers, so that the ships can bring freight, which will help to insure a line of steamers running regularly to the islands and thus bringing the immigrants at a comparatively small expense.

"I am fully convinced that the immigrants brought by the Orteric will be all right," said Mr. Ivers yesterday, "and the board has no intention of giving up its plans to bring more Europeans here. On the contrary, we shall do our utmost to carry out the plans for a regular steamship line."

The board held its meeting of reorganization at 3 o'clock yesterday afternoon. At this meeting plans were presented for a permanent receiving station for immigrants somewhere on the Honolulu waterfront. Dr. Clark has long had in mind the necessity of an immigrant shed to receive the immigrants. The experiences with the passengers of the Orteric, who were kept in the channel wharf or in the planters' shed, proved the advisability of the Territory having a structure of its own.

FAT PULLETS BEST FRIEND

District Magistrate Lymer assumed the role of best friend to the fattened pullet, and the egg producing "Biddy," this morning when he pronounced sentence upon a Korean named Kong Wun, who will be obliged to become a boarder at Asch hotel for the next seven months.

The Korean is no stranger to the apartments provided at this well known hotel.

Kong Wun, admitted to Chief of Detectives McDuffie that he possessed a method of abstracting chickens from the residential roost which precluded the lifting up of the voice of protest from the disturbed fowl.

The Korean was charged with having made away with thirteen chickens, the inmates of the A. R. Silva poultry yard.

He pleaded guilty, though insisted that the number taken was considerably less than that stated in the complaint.

"In the interests of a protected chicken industry, I am in favor of removing you from further temptation," declared the court in passing upon the case.

"Seven months."

THE INDEPENDENT THEATER

The Independent theater will produce an attractive photo play show tonight, when four new moving pictures will be thrown on the screen, vaudeville and illustrated songs being exhibited between.

The management of the Independent and Asahi theaters has engaged certain clever Australian talent which is to draw the crowds in a few days. The Asahi theater, on Maunakea street, is to open on Monday night under improved and enlarged conditions. It will seat 1100 people and is a theater that is airy, comfortable and attractive.

Tickets purchased for either the Independent or Asahi theaters count as votes in the \$50 Ford auto contest.

The appraisement of the estate of George S. Myers, the St. Louis tobacco magnate, was filed with the San Bernardino, Cal., Superior Court. The estate is valued at \$44,365,583.

SANITATION IS GREAT PROBLEM

Difficulty of Placing Sewers in Districts Most Needed.

A task of great magnitude confronts the Board of Health and the members of the Sanitary Commission in formulating a definite plan for the most profitable expenditure of the \$250,000 that was provided by appropriation of the last session of the Legislature.

A tour of the insanitary districts of the city by a representative of the Bulletin showed conditions of an absolute lack of sanitation within a stone's throw of King street; of irrigation ditches used as sewers despite the efforts and mandates of the Board of Health; of family washing being done in these carriers of infection, the water of which is finally used to irrigate the taro patches on which Dr. Currie has placed the blame for the recent cholera outbreaks.

There is absolutely no provision for proper sewage disposal in the greater part of the Kalihi and Palama districts and owing to the topography of the country it is impossible to have direct connection with sewers even should they be placed on the street grades, the only alternative being the establishing of a pump and pumping plants in several places now being considered by the Board of Health.

Although the photograph makes the Kalihi stream look like a Venetian canal it is nothing less than an open sewer. It is a drain for one of the largest pig sties in the city, the owner of which has resolutely defied the orders of the Board of Health but will now have to bring his place to a proper condition of sanitation under the operation of the new laws passed by the Legislature.

One of the districts that have given the Board of Health trouble is in the vicinity of the Rice Mill road. A large drain runs alongside of the road and is used for all purposes by a congested community. Despite the fact that it is practically an open sewer two large washing stones are placed in an advantageous position about which the cleanly housewives of the neighborhood gather to do the usual week's "laundry." The water still has some duties to perform, however, for it runs down to the taro patches for which it provides in sterilized irrigation. Ralls have made upon the ladies' washing by inspectors of the Board of Health but a constitutional claim has been set up that there are certain vested rights connected with the washing stones which were placed in the sewer only by considerable labor.

The difficulty of placing sewers in the sections of the city where most needed is one of the self evident problems that are encountered on every hand in a tour of inspection to the so-called danger spots of the city. It is a common practice to use the irrigation ditches as sewers, most of the houses being absolutely without any other means of disposing of their refuse.

H. Z. Baker of Newville, Cumberland county, Pa., has four bottles of seventeen-year locusts of dates as follows: 1871, 1868, 1885 and 1902. He was twelve years old the first time he saw them and is now seventy-two years past. Each bottle is labeled and contains one locust for each of the dates named.
