

## SUNDAY IN THE CHURCHES; PASTOR SCORES POLITICS

Declaring that American citizenship is affected with a disease which he was pleased to term politicalitis, and which he says has gained an alarming headway in Hawaii, the Rev. Amos A. Ebersole, assistant pastor of Central Union church, took occasion to express several radical views on present-day conditions during the course of his sermon last evening.

Rev. Ebersole deplored the increasing number of men who neglect their families and even sell their honor for the privilege and so-called distinction of holding a political office for a little time. He declared that in Hawaii the state of affairs along this line is disconcerting to one who looks on from the outside, and who has the public welfare at heart.

"I have often thought it would be interesting to know the exact number of men here in Honolulu who are either in political jobs or are 'hangers-on,' waiting for positions of that sort," he said.

In discussing the subject, Rev. Ebersole declared that the commission form of government is, in his opinion, the best way out of the present system.

The minister took as his text, "What Seek Ye?" He spoke also in scathing terms of the Astor-Farce nuptials.

### Susannah Wesley Home to Open

The Susannah Wesley Home, the school for Koreans and Japanese conducted under the auspices of the Methodist Episcopal church, will open for the fall term in about a week. The Korean compound, which is also financed and directed by the M. E.

church, will begin its fall activities about the first of October.

The Woman's Board of Central Union church will begin its new year of work on Tuesday at 2:30 p. m. in the chapel. The program will be in charge of Vice-President Mrs. A. C. Alexander and Mrs. Doremus Scudder will preside. The literary topic for the afternoon will be presented by Miss Frances Dillingham, president of the College Club, and is entitled, "The Early History of Women's Missionary Societies and Early Representative Women Missionaries."

It is hoped that Dr. Dunning of Boston, known on three continents as the able editor of The Congregationalist, will be present and speak. Also Rev. W. B. Oleson just back from the mainland, will give some "Echoes From the World in Boston."

### Pastor Returns

The Rev. and Mrs. Amos A. Ebersole have returned from their vacation showing the fine effects of a two months' rest. Except for next week, when the minister will be in harness also, the assistant minister will have charge of the pulpit during the month of September. Next Sunday morning Rev. Dr. Albert E. Dunning, editor of The Congregationalist, of Boston, a preacher of eloquence and one of the great leaders of world Congregationalism, will preach at Central Union. In the evening Rev. Dr. Allen E. Cross, associate pastor of the Old South church, Boston, will probably consent to speak, making this a red-letter day

in church life, both of these guests are members of the round-the-world party expected here this week and next.

### Dr. Ryder Says Farewell

The following letter of farewell from Dr. C. J. Ryder, who spoke at Central Union church last week, will be of general interest:

"Dear Friends: My stay with you has been so delightful that I desire to speak this word of farewell as I sail away. I thank you each and all for your manifold kindnesses. This month of service and privilege has left bright and fragrant memories. My appreciation of the profound problems which you face and are bravely and wisely solving has been greatly increased. You face conditions that every patriot and Christian must deeply appreciate. Your problems are world problems and you are courageously solving them. I thank you for giving me this chance to have a brief touch with you in this great work. Sincerely yours,  
"C. J. RYDER"

### "Ladies' Night"

In accordance with a plan to have the first Wednesday evening of each month "ladies' night" at the Methodist Episcopal church prayer service, an interesting program has been prepared for the women for this week. Miss Drummond will be the leader. The various leaders are free to choose their own subjects, and some innovations will doubtless be introduced during the fall and winter months.

### Guild Meeting

The regular meeting of the Epiphany Guild will be held at the residence of Mrs. T. W. King tomorrow afternoon.

MRS. G. F. RENTON, wife of Manager Renton of Ewa, was a passenger for the coast in the Korea.

## A Tonic Free from Alcohol

Are you pale, weak, easily tired, and do you lack nerve power? Ask your doctor if Ayer's Sarsaparilla would not be good for you. He knows, and will advise you wisely. Not a drop of alcohol in this medicine. It puts red corpuscles into the blood, gives steady, even power to the nerves; and all without stimulation. Make no mistake. Take only those medicines the best doctors endorse. Ask your own doctor.

## Ayer's Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

## REPORTED JUMP IN HON. OIL

With practically every broker celebrating labor day away from his office, and no banks or business houses open, the stock exchange closed and the sugar market dead, the market generally could hardly have been duller today. However, there was some activity in Honolulu Consolidated Oil, one unconfirmed report being that a block was sold this morning at 1.50. This is a big jump from the 1.50 of last Saturday, but there is much demand for it, and already the brokers are looking for a return to the prices that prevailed a few months ago.

### DIABETES MELLITUS

Patient—Joseph Allen, Manufacturer, Collingswood, New Jersey.

Case—Diabetes Mellitus.

Diagnosis—by four physicians. Said the patient could not recover.

Condition—extreme, weight reduced from 210 to 150 lbs. Could hardly think, sleep or talk. Could not attend to business. The physician was giving opium to keep patient comfortable until the end came.

The recovery of a wealthy lady in Philadelphia who was also in the last stages of the disease caused the treatment to be changed.

A fine recovery resulted. This was all five years ago. As showing the permanence of the results obtained Allen is still well and attending to his manufacturing business at this writing (1911).

The agent employed in both cases was Fulton's Diabetic Compound.

Diabetes is now a curable disease in people of middle age and over who have recuperative power.

The Compound can be had in your city at the Honolulu Drug Co.

We will mail literature from this office and desire to advise with every case not yielding. Start letters with the age. John J. Fulton Co., 645 Battery St., San Francisco.

### GATES LEAVES BIG ESTATE.

NEW YORK.—The will of John W. Gates will be probated in Port Arthur, Tex., where the financier made his residence. It is understood that the bulk of the property will go to Charles Gates, his son. The fortune is estimated at between \$40,000,000 and \$50,000,000.

The body of Edwin A. Abbey, the celebrated American painter, was cremated and the ashes buried at Kingsbury Old church, near Willesden, England.

## During the Hot Weather You Need a Healthful Beverage

Keep Primo Beer on ice at home. It is the Finest Tonic and Beverage you can drink.

## TIMBER CASE MAY BE DROPPED

From present prospects there is a good chance of the case of malicious injury, brought against Manager P. C. Cockett and four Japanese of the Cornwell Ranch, being dropped. Attorney-General Lindsay is now at work upon an interpretation of the law as to whether an algaroba tree is or is not timber within the meaning of the Hawaiian laws, but even should he decide that it is, and the Cornwell Ranch Company therefore be proved to have been cutting timber on lands soon to be homesteaded, legal experts think the case can not stand as one of malicious injury.

Under the Hawaiian statutes malicious injury must clearly include an act done with malice, and in this case the arrested men have the strong defense that they were proceeding under authority of a lease which does not terminate until November 1 and which expressly gives them the right to cut timber without waste.

The case has been continued and will not be taken up again until some time in the future, practically at the convenience of the attorneys for the defense. E. M. Watson, of counsel for the defense, has returned from Maui. The case was set for tomorrow, but that the charge of malicious injury will be again continued.

## DISCUSS PLANS TO FIGHT WORM

A meeting of the Hawaiian Cotton Growers' Association was held Saturday afternoon in the Commercial Club rooms to discuss steps to campaign against the threatening boll-worm. Vice-president E. C. Smith presided at the meeting, and reports from members of the special committee in charge of the raising of a fund of \$2,000 were that prospects are bright for securing that amount. With the fund, an entomologist will be sent to India to look for a parasite.

During the meeting there was a discussion of cotton prospects in the islands in general. Probably a thousand acres are planted to cotton now in the islands and the future of the industry is bright particularly if the boll-worm is destroyed. Several cotton-growers, however, say that with careful cultivation and cutting, the boll-worm's ravages can be held to ten per cent of the crop.

Attorney-General Lindsay is to send a letter to Maui on tomorrow's boat with his legal views on some phases of the matter, and a wireless from him caused a postponement of the hearing. In any case, it seems probable that the charge of malicious injury will not be allowed to stand.

## WAIALUA TO BE CLEANED UP

President of the Board of Health Dr. J. S. B. Pratt left this morning with General Health Officer Dr. J. W. J. Shepherd for Waialua, where they make an investigation of some of the premises down there.

They will also take up the matter with the local physician, Dr. Woc and will map out a plan of campaign with him for the district. Some of the places are in a rather bad condition and President Pratt intends have them cleaned up.

SECRETARY WILLIAM E. BLAC of the Board of Protectors and Appraisers connected with the Philippine Insular Customs service, is a through passenger in the Sherman bound for the States where he will spend the better part of six months at his home.
