ROOSEVELT WINS IN OHIO

SWORN AFFIDAVIT CHARGES INTIMIDATION TRIED IN SCHOOL ROW

CALIFORNIA WANTS GOOD INSPECTION

Appropriation May Be Withdrawn—Care Needed

California is not discriminating against Hawaii's products in preventing the landing of products found infected with pests. California wishes to cooperate with Hawaii in every way, and returns shipments only after thorough examination and proof that their entrance into the State would be dangerous. Unless Hawaii's cooperation is full and effective, unless fruits and vegetables before leaving here are adequately inspected, and unless shipments of infected products are stopped here instead of at the Coast, there is serious and immediate danger that the appropriation made by California to help in the fruit-fly fight here will be withdrawn.

Such in brief are the results of an impartial and careful investigation of the situation on the Coast, made by S. T. Starratt, superintendent of public marketing. Mr. Starratt returned today on the Honolulu from a trip to the Coast, one of the most important parts of which was his investigation of the shipping of local products, their handling at San Francisco, and the attitude of the Coast commission men and jobbers. As pointed out in the Bulletin some time ago by H. A. Weiland, the California representative now here, there is no good ground for belief that California is trying to discriminate against Hawaii, and no reason to place confidence in half-baked newspaper reports to the contrary. Truth About Potato Shipment. One newspaper report, which seems (Continued on Page 6)

LONGSHOREMEN SUGGEST TICKET OF REPUBLICANS

A leader of the local longshoremen has suggested a City and County and legislative ticket of Republicans, the following self-explanatory communication being received by the Bulletin this morning: Honolulu, T. H., May 21, 1912. Editor Evening Bulletin: Will you kindly publish the following names in your valuable paper? This is the ticket suggested by one of our leaders of the "Longshoremen" and called "Longshoremen's Ticket": Senators—Hon. A. L. Castle, Hon. Jno. C. Lane, Hon. Joe Cohen. Representatives, Fourth District—A. Q. Marcellino, Edward Liliakalani, Ella C. A. Long, Hon. Ed Towse. Representatives, Fifth District—Abraham Fernandez, Frank C. Archer, C. C. James, S. K. Mahoe, R. R. Renton, Charles Lucas. Mayor—Chas. Husted. Supervisors—A. W. Aylett, William Ahia, R. Bettencourt, Eben Low, Chas. Arnold, Jim Quinn. Clerk—D. Kalaokalani, Jr. Auditor—Edward Woodward. Attorney—J. W. Cathcart. Sheriff—Murray. Deputy Sheriff—Krugger. Treasurer—Jack Lucas. Lester Butterfield, a student in the University of Michigan, ill with typhoid fever, attacked his male nurse and escaped from the hospital.

PRIN. COPELAND, HIS THREATS

RAYMOND MAKES AFFIDAVIT Shows Political Game Into Which Commissioner Aiken Is Brought—Endeavor to Force Vote Contrary to Conviction

Principal Copeland's plot to overthrow the educational department of the Territory clears up the more the facts come out. It was reported yesterday that on Sunday Copeland had threatened Supervising Principal Raymond of Lahaina that he would jeopardize his position in the department if he did not go with him (Copeland) in voting on the course of study at Monday's meeting. Mr. Raymond now supports the truth of this rumor in an affidavit in order that there may be no doubt of his exact understanding of the situation. Mr. Raymond has recently come to the islands from the States and says that he has no desire to indulge in politics. He merely wishes to teach school in accordance with the best American ideals, as prompted by his own study and judgment. Consequently as his opinion of the situation was not the same as Copeland's, he refused to follow him, threat or no threat. The affidavit which Mr. Raymond made today follows:

AFFIDAVIT. In view of the fact that a statement has appeared in a recent afternoon paper in regard to me over the signatures of Messrs. Copeland and Wells in reference to my refusing to move that the vote sustaining the decision of the chair on Saturday at the Supervising Principals' meeting be reconsidered, I wish to make the following statement: Mr. Copeland talked with me a number of times in reference to his opposition to the Superintendent and the policies that he was endeavoring to carry out. In one of these conversations he asked me to move that the vote sustaining the chair on Saturday at the Supervising Principals' meeting be reconsidered. I made no definite promise to Mr. Copeland in reference to making such a motion, although I listened to all of his suggestions. I gave him a definite answer just before the opening of the meeting on Monday to the effect that I would not make such a motion. In his conversation he claimed that he had the correct idea of what was wanted and that the Superintendent was wrong. He assured me that he knew that the Commissioners were actively opposed to the Superintendent and that it was their belief that the Superintendent was incompetent and that he had been assured that the Commissioners, five in number, during their last meeting were willing to go to the Governor in reference to this matter, but were prevented on account of being too busy. HE ASSURED ME THAT MR. AIKEN ENTERED ME TO JOIN IN WITH HIM (COPELAND) IN HIS FIGHT AGAINST THE SUPERINTENDENT, AND THAT IF I FAILED IN THE SUPPORT I WOULD NOT LIKELY BE REAPPOINTED. I told him that I came to the islands to do school work and would not attempt to play politics in the Department. G. S. RAYMOND. Subscribed and sworn to before me, this Twenty-second day of May, 1912. HENRY SMITH, Clerk Circuit Court, 1st Jud. Circuit, Terr. Haw.

TEDDY SURE OF 32 OUT OF 42 DELEGATES; MAYBE 38

MRS. HITCHCOCK OF MOLOKAI IS DEAD

Mrs. H. R. Hitchcock, formerly of Honolulu but for some years past a resident of Molokai, died suddenly last night at 10 o'clock at their home at Pukoo. The news came to members of the family here today and a special inter-island steamer was chartered, leaving today for Pukoo. The cause of death is not definitely known. Mrs. Hitchcock is the mother of Rex, Randolph and William Hitchcock, the latter a young boy, student at Punahou Preparatory. Randolph graduates from Oahu College this year. Rex is a student at Harvard and prominent in athletics there, and Ran is prominent athletically at Oahu. Mrs. Hitchcock has a number of relatives in the islands. Randolph Duncan of the Rapid Transit Company is a nephew. Mr. Hitchcock is a U. S. Deputy Marshal.

Forty-Five Counties Already Counted For Colonel--LaFollette Beats Taft In 2 Counties

(Associated Press Cable.) COLUMBUS, O., May 22.—Colonel Roosevelt is assured of majority control of the Ohio delegation to the national Republican convention, according to the returns so far secured from yesterday's presidential primary contest in Taft's own State. Roosevelt is assured of thirty-two out of forty-two of the Congressional district delegates. Returns from fifty-nine out of eighty-eight counties show that Roosevelt has so far carried forty-five. One thousand delegates will meet at the State convention on June 3, at which six delegates at large will be selected. Both the Roosevelt and Taft forces claim they will get the delegates at large. In the Democratic column, Harmon will probably get thirty-five and Governor Wilson seven delegates. Roosevelt's preferential majority is probably 2500. La Follette beat Taft in two counties. The La Follette strength was a surprise.

HARMON'S MAJORITY MAY EXCEED ROOSEVELT'S

(Special Bulletin Cable.) COLUMBUS, O., May 22.—It is believed that Governor Harmon's Democratic majority will exceed even that of Roosevelt in the Republican voting. Harmon carried the same number of counties. The counties that Taft carried are all Democratic strongholds. The rural vote, as early returns indicated, is light. Champ Clark and Bryan were given only scattering votes. Taft carried his home district. Four out of five Republican Congressmen were renominated. Fourteen Democrats out of eighteen districts were successful. Among the Congressmen renominated was Nicholas Longworth, son-in-law of Roosevelt.

DIXON URGES TAFT TO WITHDRAW FROM RACE

WASHINGTON, D. C., May 22.—Senator Dixon, Roosevelt's manager, urges that Taft withdraw. Taft is preparing to stump New Jersey.

ROOSEVELT SAYS THIS SETTLES NOMINATION

OYSTER BAY, Mass., May 22.—Colonel Roosevelt today issued a statement saying that the result in Ohio settles the Republican nomination.

DISCREPANCY IN FIGURES SUGAR TRUST TRIAL

(Special Bulletin Cable.) NEW YORK, N. Y., May 22.—In the sugar trust case today, Havemeyer's Colorado representative, Chester S. Morey, described the ousting of Baultelle from the presidency of the Windward company and the stripping of authority from him. An attempt is being made to show that the trust crushed competition. Collector of Internal Revenue Cottrill pointed out this morning that some discrepancy exists between the morning cable report on the third district, and the logical conclusion to be drawn from previous election figures. In the returns given in this morning's paper, the third district was said to have given approximately 109,600, and Collector Cottrill says that in the last election the Republicans, Democrats, Independents, Socialists and Labor parties all together polled only 68,000 votes.

I. W. W. HAS DEFENDERS

(Special Bulletin Cable.) SACRAMENTO, Cal., May 22.—Deputy Attorney General Bejamen will probably be sent to San Diego also to investigate the I. W. W. troubles there.

JUDGE LINDSEY VICTOR

(Special Bulletin Cable.) DENVER, Colo., May 22.—Judge B. B. Lindsey, famous juvenile court originator and reformer, was today re-elected. The reform ticket beat the Democrats by 20,000 votes.

THEILEN INVENTS "HAT IN THE RING"

"Hat in the Ring" is the name of George Thielen's new invention. He has invented a novelty for the political campaign. The idea is as ingenious and fetching as "Tops in Clover," and when worked out is certain to make a hit. Thielen, as an ardent Rooseveltian, got to thinking it over the other day and after evolving a top to express his own sentiments thought it good enough to patent. The papers have been made out and sent to Washington. The authority to manufacture has been given to George R. Carter, and he will take the matter up immediately. He expects to have a lot of "Hat in the Ring" novelties to distribute in the convention and keep Hawaii in the eye of publicity. By favor.

PRESIDENT KENNEDY WILL ARRANGE FOR NEW FREIGHT AND COAL CARRIER

Visiting both coasts of the United States, to go more fully into the completed plans and specifications for the new floating drydock, and then proceeding to Great Britain and other European countries for the purpose of letting a contract for a 10,000-ton freight steamer, President and General Manager J. A. Kennedy sailed this morning as a passenger in the Matson Navigation steamship Wilhelmina. The inter-island proposes to enter the transportation field so far as the carrying of coal cargoes between Australia and the islands is concerned. The purpose of a vessel of the size now planned is to operate it more or less constantly. When not engaged in transporting fuel from Newcastle to Honolulu the vessel can be sent to the Northwest coast to load lumber, and thereby be insured of a fair return cargo to the Antipodes. The new freighter can also enter the

Philippine field should charters in that direction be obtained. As outlined in the columns of the Bulletin some time ago, the inter-island will soon have a big cargo-carrying steamer in operation. The vessel will be constructed along the latest lines for careful and economical handling of a diversified line of freight. That the new vessel will be built in a foreign shipyard is a certainty, as was intimated in a statement made recently by Mr. Kennedy, in which he expressed his belief that a vessel of the size contemplated in inter-island plans could not be operated under American registry save at a distinct loss. Foreign bottoms can in all cases underbid an American vessel operated in the Pacific as a strict cargo carrier. Mr. Kennedy stated before sailing this morning that he might be absent from the Territory for three months.

RAISE IN STRENGTH FOR COAST ARTILLERY HERE

Of the 170 companies of coast artillery in the United States Army the two now stationed at Fort Ruger have been singled out for special legislation. An increase in personnel has been ordered for Hawaii, and Hawaii alone, the Canal Zone and the Philippines, which are usually bracketed with this department for increased unit strength, having been ignored in the present instance. The authorized strength of a Coast Artillery company is 194 noncommissioned officers and enlisted men, but very recently the 165th and 169th Companies, manning the Diamond Head mortar batteries, have been raised to an enlisted strength of 115 men. For this purpose 22 men were recently drawn from the three companies at San Francisco and brought here on the last transport. The reason for this action is that the two companies at Ruger have to provide the details that would ordinarily fall on an eight-company post. The coast artillerymen from Ruger have to man Forts Kaunahana, Armstrong and De Russy, and although these are not really in commission there is a certain amount of coast defense ordinance that has to be kept up. The coast artillery is certainly short-handed here, and the Army heads have given a little relief by adding a few more men. With the arrival of the First Infantry last week the Army of Oahu is substantially increased in strength, and begins to assume the proportions that it is the intention of the War Department to round out as soon as possible. There are now on Oahu one full regiment of cavalry, two full regiments (Continued on Page 4)

HAWAII NOW SPENDING MORE FOR HEALTH THAN STATES

Hawaii, as a Territory, probably devotes more attention to the maintenance of the public good health than any other section or State in the United States as attested by figures adduced by Acting Governor Mott-Smith this morning. In round numbers, the amount to be spent by the island government during the present biennium, which ends June 30, 1913, reaches the grand total of \$2,164,339. This, the Acting Governor asserts, is equal to two-thirds of the current income of the Territory for this same period. Of the entire amount to be spent for health purposes, \$1,084,339 comes from the current income of the islands and is fully

one-third of that income. These figures do not include the sums of money being spent or that will be spent by the cities and counties individually but in merely that to be expended by the Territorial Government. This money is not spent entirely for direct health work, such as the maintenance of the health department, the conduct of the mosquito campaign, etc., but includes appropriations for water, sewerage and kindred purposes. The Acting Governor says that only one State in the Union spends more money for health work than Hawaii. That State is Pennsylvania and the total taken there includes the expenditures of the cities and counties.

LORD-YOUNG CO. PLAN DREDGE FOR BIG FILL

An electric, turbine-driven dredge will be built here at once by the Lord-Young Engineering Company, lowest bidder on the big Kewalo fill project, which is part of the Territory's reclamation scheme. The announcement of this yesterday by the successful contractor explains partly how they are figuring to make money on a bid of 42 cents per cubic yard, when the two other bidders, the Hawaiian Dredging Company and the Honolulu Construction & Draying Co., bid \$1 and 99 cents per cubic yard respectively. The fill is estimated as 362,500 cubic yards. The big dredge will cost approximately \$80,000, and will be ready, it is expected, in about four months. The Lord-Young Company expects to dredge up its sand from between the reef and the Ala Moana road, being required, of course, not to get sand close enough to the roadway to damage the beach there.

LORD-YOUNG TO BUILD WHARF

The Lord-Young Engineering Company was granted the entire job of repairing the Queen street bulkhead wharf by the Board of Harbor Commissioners this afternoon. The award was made over the protest of the Biltmore Paving & Concrete Co., which tendered bids on only two of the six proposals in the contract for the entire work. The Lord-Young company's bid was as follows: Proposal No. 1, \$17,989; No. 2, No. 3, concrete piles, 70c; ohia piles \$1.30, concrete piles \$2.50, and Muntz metal \$1.30; No. 3, repairing paving, \$17,814.48; No. 4, blank; No. 5, lumber and repairing per 1000 feet, \$50; No. 6, per cubic yard of concrete, \$16. The Biltmore bid was \$16,500 for No. 4 and \$17 for No. 6.

SUGAR

SAN FRANCISCO, Cal., May 22.—Sugar: 96 degrees test, 2.92c. Previous quotation, 3.86c. Beets: 88 analysis, 11s. 10-12d.; parity, 4.51c. Previous quotation, 11s. 11d.

REAL ESTATE MEN RACING TO GET SPRECKELS PROPERTY?

That the sudden departure of three prominent real estate men for San Francisco this morning is due to a desire to get in on the ground floor in handling the Spreckels property here is the tip out today, and believed to be a good one by other real estate men and brokers. F. E. Steere, of the Waterhouse Trust Company; I. H. Beadle, of the Trent Trust Company, and Elmer M. Schwarzbarg, of the James F. Morgan company, are all on the ocean wave, bound for San Francisco. Steere and Beadle are aboard the Wilhelmina, but Schwarzbarg booked out on the Sierra, thinking that he will land in San Francisco a couple of hours before the others and thus get a running start on whatever big business deal there is on hand. Steere's prospective trip has really been no secret. He is going on to Brown university, his alma mater, for commencement and a class reunion. However, the story is that while in San Francisco he will attempt to secure the handling of the Spreckels property here.

DARROW JURY IS COMPLETE

LOS ANGELES, Cal., May 22.—The jury that will try Attorney Clarence Darrow for bribery in the McNamara case was completed today.
